Dear Mr. Burstedt:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Challis Messenger, all submitted in proof of completion of works and beneficial use on Permit No. G-22738.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Permit No. G-22738

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Jack C. Burstedt; residence, 2 miles south of Ellis, Ida.; occupation, farmer;
postoffice address, May, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Individual.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit #G-22738; date of permit 4/28/52; date of priority, 4/24/52.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. A well in NWSE¹, Sec. 18, T14N-R22E., B.M., Idaho.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The works consist of a private ditch approx. a mile long and will carry 250" of water. The well is drilled to a depth of 152', 20" diameter hold; water stands at 59'. It is cased 152' with 20" casing (heavy casing 5/16"). This is equipped with 60 hp turbine type pump & motor. The pump will discharge 200" (1800 gpm). The Johnson Pump Co. of Idaho Falls tested this. This is all gravity irrigation.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. This is for the irrigation of the following: T14N-R22E., Sec. 18, Lot 1, 30 acres; Lot 2 (30 acres), NE¹NW¹, 30 acres; SE¹NW¹, 40 acres. T14N-R21E., Sec. 13, NE¹NE¹, 35 acres; NW¹NE¹, 20 acres; SW¹NE¹, 25 acres; SE¹NE¹, 38 acres; T14N-R22E., Sec. 18, NW¹SE¹, 30 acres; SW¹NE¹, 30 acres; NE¹SW¹, 10 acres. I have spent some \$10,500 on the development of the land and water. There is no natural meadow land and all improvements are made as a direct result of this pumping.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. The Cole Drilling Co. of Gooding, Idaho.

22738

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Irrigation only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. I need all this water and sometimes in the year, I could use more than 1" to the acre for certain crops.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. This was originally in the name of my father, Claus Burstedt, but has been assigned to me.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. This permit was filed on and has been pursued at all times with my desert entry.. Last year and this year were the first years of actual use.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. I have a ground root storage permit R-891 which is also appurtenant to part of this land. I have permit 26992 which takes some surface water that I use on this land along with other land for early water but does not last as long as I need it for my crops and I have Permit G-28709 which had the same original point of diversion but is not fully developed and will be combined with this. I have a decreed 1910 water right that was originally decreed to Mark Howe & others which is brought out of the Pansameroi River and tributaries to this land.

Permit No. G-22738

Proof of Application of Water to Beneficial Use
Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Gilman Martiny; age, 42; residence, 3½ miles south of May, Idaho; occupation, rancher; postoffice address, May, Idaho.

Ques. 2. Are you acquainted with Jack C. Burstadt, the holder of Permit No. G-22738? How long have you known him and where does he reside?

Ans. I have known him all his life and know that he lives 2 miles south of Ellis, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-22738, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. The source of the water is a drilled well in NW¼SE¼, Sec. 18, T14N-R22E. This is a 20" hole to a depth of 152', cased all the way. Distribution is by private ditch about 1 mile long.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. The works will safely convey at least 200" of water and I have seen this much so conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen the pump deliver 200" of water. I haven't seen this tested but this estimate is based on my past experience with irrigation.

22738

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. ~~The purpose of the water is irrigation of the following subdivisions:~~
~~T14N-R21E, Sec. 13, NE1/4NE1/4, 35 acres; NW1/4NE1/4, 20 acres; SW1/4NE1/4, 25 acres; SE1/4NE1/4,~~
~~38 acres. T14N-R22E, Sec. 18, Lot 1, 30 acres; Lot 2, 30 acres; NE1/4NW1/4, 30 acres;~~
~~SE1/4NW1/4, 40 acres; NW1/4SE1/4, 30 acres; SW1/4NE1/4, 30 acres; NE1/4SW1/4, 10 acres.~~
~~This is all cultivated land, and all the improvements have been made as a direct result~~
~~of said use.~~

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This is a gravelly soil, what we call bar ground and needs at least
1" to the acre. The way they work this to have it irrigated before, probably they used
quite a bit more and still don't have too much.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have known this land back when it was patented during the 1930s and have seen
it probably every week since Burstedt began to develop it. I live in this same
neighborhood.

Dear Mr. McDowell:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-22738, in the name of Claus Burstedt. Final Proof is to be made before you, as Notary on the 19th day of May, 1961, ~~1959~~ at 10:00 o'clock A.M., at Boise, Idaho.

As of this date we have mailed the Notice to the Messenger with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Re: Permit No. G- 22738 - Claus Burstedt

Date: Feb. 1, 1961

Harley M. McDowell
Boise, Idaho

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Benefi-
cial Use, as set out under the terms of Permit No. G- 22738 are due not later
than April 17, 1961.

Before these proofs can be made, the statutory requirement is that a notice of
your intention of proof be published once a week for four consecutive weeks in
a newspaper within the county in which the land is located. In completing the
Notice of proof for publication, the information should be taken from your Per-
mit, including any amendments made in connection with a change of point of diver-
sion or land list which has been recorded in this department. If charges have
been made and no amendments are on record, we advise that you request a form
for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to
this department at least forty (40) days before the above mentioned date,
(allowing for four weeks publication). Please give the name of the town, the
address of the place where the depositions will be executed, and, the name of
notary public before whom you will appear to make the depositions of proof
(this may be at any place convenient for you and your two witnesses), the
quantity of water filed; for what purpose it is used; the point of, or points of
diversion; and the location of use or the lands which are irrigated -- all by
legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice
published in the designated county newspaper at your expense. This is to be
returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms
for the depositions of holder and two disinterested witnesses. It is important
that the depositions be executed at the time, on the date set, at the place
named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
STATE RECLAMATION ENGINEER
