In Re: District No. 19

Dear Sir:

In regard to your permit right on Big Creek, the records of this office show that you are the owner of three permits, numbers 11510, 12156 and 12174. Of these three permits the last two mentioned are in default on account of failure to make proof of completion of works, which was due May 27, 1920 and are therefore, subject to cancellation.

Under permit No. 11510 a license has been issued for 2.4 second feet of water, priority date July 19, 1915.

We are sending a copy of this letter to Mr. John Eilers, watermaster in your district, and believe that the information contained herein will be sufficient advice for him to divert this water in accordance with your request.

Very truly yours,

W. G. SWENDSEN

Dear Sir:-

I am writing to you in-regard to a ditch, known as the Hooper ditch which I enlarged in the year 1919 and I have helped to keep this ditch up since that time, and have used water thru this ditch four years, - You will also note that I have been charged with my share of the heading which was constructed at the head of this ditch last year, I have also made proof on 120 inches water to be delivered thru this ditch, Will you please notify the water Master to deliver my amount of water thru this ditch, in accordance with the date of my permit, and also what water I may wish to use during the flood waters of the season, Will you please send me a copy of the notification you send to the Water Master, I am,

Yours Very Truly,

Instructions to Examiners

1. Examiners will not be permitted to examine any of the receipts in the office pertaining to this permit. They are to furnish a report of the facts and conditions as they exist, from their own observations and inquiries.
2. Always carefully note the location of the point of diversion, and accurately plat same.
3. Find out how many parties own right in the ditch or canal and give their names and amount of right.
4. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
5. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
6. If any unusual conditions are discovered, make a plain statement of them under remarks.
7. Always see the holder, if possible, and go over the whole ground with him, and make your report only upon actual existing facts and conditions.

(This report must be sworn to when not made by an attache of the office.)

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Albert J. Keirnes
May, Idaho

Boise, Idaho, **May 15, 1918**

Dear Sir:—

Under the terms of your Permit No. 11510, you are required to complete your diversion works on or before August 12, 1918. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

FRED A. WILKIE
