INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

PERSONAL REPRESENTATIVE'S DEED

THIS DEED, made by Marin S. Budge, as personal representative of the estate of Thomas A. Budge, Jr., w/k/a Thomas Alvord Budge, Jr., deceased, Grantor, to Franklin B. Smith and Cheryl L. Smith, husband and wife, Grantee;

WHEREAS, Grantor is the qualified personal representative of said estate, filed as Probate Case No. SP-96-1220, in Bonneville County, Idaho;

THEREFORE, for valuable consideration received, Grantor quitclaims, transfers, and conveys to Grantee the following described real property in Bonneville County, Idaho:

Tract 1:

Beginning at a point 100 feet North from the Southwest corner of Section 9, Township 4 South, Range 46 East, Boise Meridian and running thence South 100 feet thence East 1320 feet thence North 43 feet thence Northwesterly approximately 1321.23 feet to the Point of Beginning.

Tract 2:

Beginning at the Southwest corner of Section 16, Township 4 South of Range 46 East, Boise Meridian, Bonneville County, Idaho; thence North 5280 feet to the Northwest corner of Section 16, being the True Point of Beginning, thence East 1320 feet, thence South 726 feet; thence West 1320 feet; thence North 726 feet to the True Point of Beginning.

Except all minerals in or under said land including, but not limited to, metals, oil, gas, coal, stone and mineral rights, mining rights and easement rights or other matters relating thereto, whether expressed or implied.

Subject to: all easements, rights of way, covenants, restrictions, reservations, applicable building and zoning ordinances and use regulations and restrictions and accruing taxes, of record.

Together with all tenements, hereditaments, appurtenances, and water rights, including State of Idaho Department Water Right License No. 24-07173, and including all rights of the Grantee

Maximum Diversion Volume:

1.2 AF

This is to certify, that THOMAS A BUDGE JR
C/O MARIN BUDGE, ADMINISTRATOR
1750 ORCHARD DR
SALT LAKE CITY UT 84106

has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated September 28, 1989; and
has submitted Proof of Beneficial Use on August 2, 1993. An examination indicates
that the works have a diversion capacity of 0.040 cfs of water from:

SPRINGS

tributary to SINKS

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.04 CFS	1.2 AF

LOCATION OF POINT(S) OF DIVERSION:

BONNEVILLE County

PLACE OF USE: DOMESTIC

TWN RGE SEC

04S 46E 16

NWNW

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. The use of water under this right shall not give rise to any claim against the holder of a senior water right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.

RE: OWNERSHIP OF RIGHT NO. 24-07173

Dear New Water Right Holder:

I have received correspondence changing ownership of the above referenced water right to you and I have modified our computer records to reflect this change.

Enclosed is a report listing you as current owners of the right and other important information about your water right. **Please review carefully the Conditions of Approval and Remarks.**

Also, please note that as of July 1, 1996, all water right owners are required to report any change in water right ownership and any change of mailing address to the department.

If you have acquired any other water right or have changed your mailing address **PRIOR TO** July 1, 1996, you have until July 30, 1998, to record the ownership and/or address change with the department.

If you acquired other water rights or changed your mailing address **AFTER** July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes in a timely manner could result in a \$100 late filing fee.

You can contact any office of the department for more information. If you have any questions concerning your water right listed above you can contact me at (208)327-7947.

Sincerely,

JIM JOHNSON Manager
Water Right Permits Section

RE: WATER RIGHT NO. 24-07173

Dear Water Right Holder(s):

Enclosed is a copy of the Water Right License issued on the above referenced permit along with a copy of your approved Application for Amendment. Should you have any questions regarding these documents, please contact me.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

Sincerely,

RE: WATER RIGHT NO. 24-071⁷³

CHANGE OF ADDRESS

Dear Mr. Budge:

IDWR has been notified that the address presently in our records is out-of-date. Although it appears that we can reach you at the address above, we need you to confirm that this is your correct mailing address.

To insure that the proper address is included in all of your water rights on file with IDWR, please check your records to confirm that the water rights listed herein are all of the water rights that you own.

If the address above is correct, please sign your name at the bottom of this letter, date it, and return it to this office. Otherwise, please make the proper corrections, sign, date, and return this letter. Thank you for your help.

If the ownership of the property and/or address to which the water right(s) referenced above have changed, please call this office at (208)327-7941 to obtain a form to make this required change to the water right record.

Sincerely,

Patti Harrell

RE: WATER RIGHT NO. 24-07173

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to depict your water right as it has actually been developed.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the point(s) of diversion. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of Conditions of Approval and Remarks proposed for the license when it is issued. These conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

Sincerely,

Shelley W. Keen

E. NARRATIVE/REMARKS/COMMENTS

~~Spring on Forest Service Land SESENE Sec 17, T4S, R46E~~ ^{KCW}
P/O #1 Spring collection box mainline to storage tanks then
mainline carries water to valve that diverts water to
cabin site under 24-7038 and system that delivers water
to sites under 24-7173 and 24-7174

P/O #1 COULD NOT TAKE AN ACCURATE MEASUREMENT AS
THERE WAS NO PLACE TO TAKE MEASUREMENT.
NOTE: A STREAM/SPRING THAT SURFACES BELOW
STORAGE TANKS APPEARS TO FLOW GREATER
THAN 0.20 cfs.

IT IS MY OPINION THAT THIS PART OF THE SYSTEM
P/O #1, IS CAPABLE OF DIVERTING IN EXCESS OF PERMITTED
AMOUNTS OF 24-7038, 24-7173 & 24-7174, 24-7175

POINT OF DIVERSION #2:

Spring in NW NW NW Sec 16, T4S, R46E

Spring collection box/STORAGE TANK TO COMMON
mainline between sites permitted by 24-7173 & 24-7174
A hydraulic ram diverts water up to those sites.

Domestic use is for a camping trailer that has
been in place year round. Trailer was moved
out for last winter but has been used during
the winter.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 24-07173

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Department of Water Resources

Dear Mr. Saxton:

Enclosed you will find a copy of my Permit To Appropriate Water # 24-~~01~~173 a Proof of Beneficial Use form and a draft in the amount of \$50.00 for the required fee.

The construction is complete. There has been/is beneficial use.

My application and #24-~~01~~⁷¹⁷⁴173 for Charles P. Clausen have been worked simultaneously. We discussed these applications and you notified the region so that the field examinations could be conducted jointly. (See the attached letter dated March 19, 1993 for Karen L. Gustafson.) We are ready for the field examination. As we discussed, the water is used by attaching the water system to a motor/mobile home via a flexible connection. (No buckets.) I have enclosed some photographs showing beneficial use. We anticipate building small homes at some future time.

There is the possibility that Mr. Clausen and I will be in Salt Lake City together on Friday, August 13, 1993. If that happens we would be able to meet the inspector that day in Star Valley or perhaps we could pick up the inspector at the Idaho Falls airport and travel to Star Valley together. If we are together on the 13th, we will call Mr. Harold Jones to determine the availability of an inspector. If we cannot meet on the 13th, Mr. Clausen will act for both of us at a mutually agreeable time.

If you have any questions, please call me at 203-966-0837. I appreciate your spending time with me on these applications.

Sincerely,

Thomas A. Budge, Jr

Re: Permit No. 24-07173

Dear Mr. Budge:

Thank you for your correspondence concerning the above referenced permit and that of Charles P. Clausen.

The Department has accepted the proof of beneficial use on Mr. Clausen's permit and sent notification to the region. We have also informed them of your permit so that a field exam can be conducted jointly.

We have also removed the condition requiring a measuring device on both permits. The order removing the condition on your permit is enclosed.

If you have any questions, or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

March 1, 1993

Glen Saxton
State of Idaho
Department of Water Resources
1301 North Orchard Street
Statehouse Mail
Boise, ID 83720

Dear Mr. Saxton:

Enclosed you will find a copy of my Permit To Appropriate Water # 24-01713 and a letter, a copy of Permit To Appropriate Water # 24-07174, Proof of Beneficial Use form and a draft in the amount of \$50.00 for the fee for Charles P. Clausen.

We discussed this situation by phone a few weeks ago. These two applications have been worked simultaneously. The construction is complete. There has been/is beneficial use. As we discussed, the water is used by attaching the water system to a motor/mobile home via a flexible connection. (No buckets.) We anticipate building small homes at some future time.

You observed that the two permits differ only in the proof dates and the requirement in paragraph 5 of permit # 24-07174 to install a lockable device on the diverting works. The diverting works are buried underground and there are valves on the underground lines accessible by keys. Installing a locking device is possible, but impractical. Based on our discussion, I do not believe that the control derived from a locking device was intended to apply to our type of system. We would request that this requirement be waived.

Notwithstanding the proof date of April 3, 1995 on permit # 24-01713, I intend to file my Proof of Beneficial Use this summer, after I have completed a minor improvement. I suggest that you schedule the field examination no earlier than September, in order to perform the examinations for both permits at the same time.

If you have any questions, please call me at 203-973-7971 or 203-966-0837. I appreciate your spending time with me on these applications.

Sincerely,

Thomas A. Budge, Jr

Dear Mr. Jones:

I have enclosed a fully executed copy of our special use permit from the Forest Service that I was told by your office would be required for issuance of the final water permit. We have begun preparations to make the necessary diversion and will proceed diligently to completion. At which time we will file Proof of Beneficial Use statements.

I appreciate the patience that you and your staff have exhibited in this lengthy process. I've met and worked with some special people during this time.

Permission is hereby granted to THOMAS A. BUDGE, JR.
of P.O. BOX 448 NEW CANAAN, CT 06840 PH.# 203-966-0837, hereinafter called
the permittee, to use subject to the conditions set out below, the following
described lands or improvements for the period of 20 years from the date
thereof:

NE1/4 SE1/4 SE1/4 NE1/4 SECTION 17, T4S, R46E

This permit covers .10 acres and is issued for the purpose of:

Use of an existing water collection and transportation sytem that includes an
underground collection box and approximately 800 feet of pipe.
The water is collected and transported off of national forest land to private
land.

1. Construction or occupancy and use under this permit shall begin within now
months, and construction, if any, shall be completed within none months, from
the date of the permit. This use shall be actually exercised at least 365
days each year, unless otherwise authorized in writing.

2. In consideration for this, the permittee shall pay to the Forest Service,
U.S. Department of Agriculture, the sum of FORTY-FIVE----- Dollars (\$45.00)
for the period from APRIL 1, 1992, to DECEMBER 31, 1992, and thereafter annually
on JANUARY 1, FORTY-FIVE----- Dollars (\$45.00): Provided, however, That the
charges for this use shall be readjusted as of, and effective on, the beginning of
each 5-year period from the due date of the first annual payment in order to place
the charges on a basis commensurate with the value of use authorized by this
permit.

3. This permit is accepted subject to the conditions set forth herein, and to
conditions 4 to 31 attached hereto and made a part of this permit.

2700-5 (9/72)

AUG 25 1993

4. Development plans; lay-out plans; construction, reconstruction, or alteration of improvements; or revision of lay-out or construction plans for this area must be approved in advance and in writing by the forest supervisor. Trees or shrubbery on the permitted area may be removed or destroyed only after the forest officer in charge has approved, and has marked or otherwise designated that which may be removed or destroyed. Timber cut or destroyed will be paid for by the permittee as follows: Merchantable timber at appraised value; young-growth timber below merchantable size at current damage appraisal value; provided that the Forest Service reserves the right to dispose of the merchantable timber to others than the permittee at no stumpage cost to the permittee. Trees, shrubs, and other plants may be planted in such manner and in such places about the premises as may be approved by the forest officer in charge.

5. The permittee shall maintain the improvements and premises to standards of repair, orderliness, neatness, sanitation, and safety acceptable to the forest officer in charge.

6. This permit is subject to all valid claims.

7. The permittee, in exercising the privileges granted by this permit, shall comply with the regulations of the Department of Agriculture and all Federal, State, county, and municipal laws, ordinances, or regulations which are applicable to the area or operations covered by this permit.

8. The permittee shall take all reasonable precautions to prevent and suppress forest fires. No material shall be disposed of by burning in open fires during the closed season established by law or regulation without a written permit from the forest officer in charge or his authorized agent.

9. The permittee shall exercise diligence in protecting from damage the land and property of the United States covered by and used in connection with this permit, and shall pay the United States for any damage resulting from negligence or from the violation of the terms of this permit or of any law or regulation applicable to the National Forests by the permittee, or by any agents or employees of the permittee acting within the scope of their agency or employment.

10. The permittee shall fully repair all damage, other than ordinary wear and tear, to national forest roads and trails caused by the permittee in the exercise of the privilege granted by this permit.

11. No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this agreement or to any benefit that may arise herefrom unless it is made with a corporation for its general benefit.

12. Except as provided in Clause 16 below, upon abandonment, termination, revocation, or cancellation of this permit, the permittee shall remove with a reasonable time all structures and improvements except those owned by the United States, and shall restore the site, unless otherwise agreed upon in writing or in this permit. If the permittee fails to remove all such structures or improvements within a reasonable period, they shall become the property of the United States, but that will not relieve the permittee of liability for the cost of their removal and restoration of the site.

AUG 25 1993

13. This permit is not transferable. If the permittee through voluntary sale or transfer, or through enforcement of contract, foreclosure, tax sale, or other valid legal proceeding shall cease to be the owner of the physical improvements other than those owned by the United States situated on the land described in this permit and is unable to furnish adequate proof of ability to redeem or otherwise reestablish title

to said improvements, this permit shall be subject to cancellation. But if the person to whom title to said improvements shall have been transferred in either manner above provided is qualified as a permittee and is willing that his future occupancy of the premises shall be subject to such new conditions and stipulations as existing or prospective circumstances may warrant, his continued occupancy of the premises may be authorized by permit to him, which may be for the unexpired term of this permit or for such new period as the circumstances justify.

14. The permittee may sublease the use of land and improvements covered under this permit and the operation of concessions and facilities authorized; Provided the express written permission of the Forest Supervisor has been secured. The permittee shall continue to be responsible for compliance with all conditions of this permit by persons to whom such premises may be sublet.

15. This permit may be revoked upon breach of any of the conditions herein.

16. If during the term of this permit or any extension thereof, the Secretary of Agriculture or any official of the Forest Service acting by or under his authority shall determine that the public interest requires termination of this permit, this permit shall terminate upon thirty days' written notice to the permittee of such determination, and the United States shall have the right thereupon to purchase the permittee's improvements, to remove them, or to require the permittee to remove them, at the option of the United States, and the United States shall be obligated to pay an equitable consideration for the improvements or for removal of the improvements and damages to the improvements resulting from their removal. The amount of the consideration shall be fixed by mutual agreement between the United States and the permittee and shall be accepted by the permittee in full satisfaction of all claims against the United States under this clause; Provided, That if mutual agreement is not reached, the Forest Service shall determine the amount and if the permittee is dissatisfied with the amount thus determined to be due him he may appeal the determination in accordance with the Appeal Regulation (36 C.F.R. 211.20 - 211.37) and the amount as determined on appeal shall be final and conclusive on the parties hereto; Provided further, That upon the payment to the permittee of 75% of the amount fixed by the Forest Service, the right of the United States to remove or require the removal of the improvements shall not be stayed pending final decision on appeal.

17. The permittee agrees that the amount which the United States shall be required to pay for improvements in accordance with Clause 16 shall in no event exceed \$2,000.00-----, and that this instrument may be introduced in any judicial proceedings for the acquisition of such improvements by the United States as the stipulation of the permittee and the United States with regard to the maximum amount which the United States shall be required to pay for the taking thereof.

AUG 25 1993

18. In case of change of address the permittee shall immediately notify the Forest Supervisor.

19. In the event of any conflict between any of the preceding printed clauses or any provision thereof and any of the following clauses or any provisions thereof, the following clauses will control.

20. (A-6) Pursuant to the Federal Claims Collection Act of 1966, as amended, 31 USC 3101, et seq., and regulations at 7 CFR Part 3, Subpart B, an interest charge shall be assessed on any payment not made by the payment due date. Interest shall be assessed using the most current rate prescribed by the United States Department of the Treasury's Fiscal Manual (TFM-6-8025.20). Interest shall accrue from the date the fee payment was due. In addition, certain processing and handling administrative costs may be assessed in the event the account becomes delinquent and added to the amounts due.

A penalty of 6 percent per year shall be assessed on any payment overdue in excess of 90 days from the payment due date.

Payments will be credited on the date received by the designated collection officer or deposit location. If the payment due date(s) falls on a nonworkday, the interest and penalty charges shall not apply until the close of business of the next workday.

21. (B-8) The holder shall indemnify the United States against any liability for damage to life or property arising from the occupancy or use of National Forest lands under this permit.

22. (B-24) Avalanches, rising waters, high winds, falling limbs or trees, and other hazards are natural phenomena in the Forest that present risks which the holder assumes. The holder has responsibility of inspecting the site, lot, right-of-way, and immediate adjoining area for dangerous trees, hanging limbs, and other evidence of hazardous conditions and, after securing permission from the Forest Service, of removing such hazards.

23. (B-26) Holder shall take all measures necessary to protect the health and safety of all persons affected by its activities performed in connection with the construction, operation, maintenance, or termination of the right-of-way, and shall promptly abate as completely as possible any physical or mechanical procedure, activity, event, or condition, existing or occurring at any time: (1) that is susceptible to abatement by the holder, (2) which arises out of, or could adversely affect the construction, operation, maintenance, or termination of all or any part of the * , and (3) that causes or threatens to cause: (a) a hazard to the safety of workers or to public health or safety, or (b) serious and irreparable harm or damage to the environment (including but not limited to areas of vegetation or timber, fish or other wildlife populations, or their habitats, or any other natural resource). Holder shall immediately notify the authorized officer of all serious accidents which occur in connection with such activities.

24. (E-2) Unless sooner terminated or revoked by the authorized officer, in accordance with the provisions of the authorization, this authorization shall expire and become void on DECEMBER 31, 2012, but a new special-use authorization to occupy and use the same National Forest System land may be granted provided the holder will comply with the then-existing laws and regulations governing the occupancy and use of National Forest lands and shall have notified the authorized officer not less than THREE MONTHS prior to said date that such new authorization is desired.

100-200-347

AUG 25 1993

25. (X-3) Nothing in this permit shall be construed to imply permission to build or maintain any structure not specifically named on the face of this permit, or approved by the authorized officer in the form of a new permit or permit amendment.

26. (X-33) This permit is granted with the express understanding that should future location of United States Government-owned improvements or road rights-of-way require the relocation of the holder's improvements, such relocation will be done by, and at the expense of, the holder within a reasonable time as specified by the authorized officer.

27. (X-49) This permit is not exclusive; that is, the Forest Service reserves the right to use or permit others to use any part of the permitted area for any purpose, provided such use does not interfere with the rights and privileges hereby authorized.

28. (X-74) This permit confers no right to the use of water by the holder.

29. (X96) Appeal of any provisions of this authorization or any requirements thereof shall be subject to the appeal regulations at 36 CFR 251, Subpart C (54 FR 3362, January 23, 1989), or revisions thereto.

30. (R4-A7) The holder shall pay annually in advance a sum determined by the Forest Service to be the fair market value of the use granted by this authorization. The initial payment is set at \$45.00 for the remainder of the calendar year. Subsequent payments shall be determined by the use of an annual fee schedule. The Forest Service may adjust the amount of payment annually by an appropriate factor to reflect more nearly the fair market value of the use, but at certain intervals the Forest Service shall review the fee and adjust the fee as necessary to assure that it is commensurate with the value of the rights and privileges authorized as determined by appraisal or other sound business management principle.

31. (R4-X3) The holder shall operate and maintain the right-of-way, authorized facilities, and access roads in a manner consistent with National Forest System land and resource management objectives and policies. To meet this requirement, the holder shall prepare a right-of-way management plan and submit it to the Forest Service prior to completion of project construction (or, by DECEMBER 31, 1991). The plan will identify specific management and protection objectives and practices by location, and identify responsibilities and schedules. The right-of-way management plan will become a part of this authorization when approved by the Forest Service, and shall be jointly reviewed and revised periodically, according to its terms.

PERMIT APPROVAL NOTICE

RE: PERMIT NO.. 24-07173

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist

Dear Mr. Jones:

We have concluded an inspection of the site on Application for Permit Nos. 24-07173 and 24-07174 that we previously protested. This inspection has been conducted by both the Caribou National Forest and the Targhee National Forest and they report that there will be adequate water left on site to meet the management needs of the Forests, therefore, a withdrawal of our protest is appropriate.

Sincerely,

for *Randall R. Stee*

Dear Mr. Dickemore,

Last summer I spoke with you in your office concerning the attached Special-Use Application and Report. I am filing the application per your recommendation.

You may recall that there was a question as to whether the collection box was on private or Forest Service property. Fred Fuller and I walked the property in the spring. The survey was completed several weeks afterwards. I have spoken with the surveyor and walked the property again. My estimate is that the collection box (underground) is approximately fifty to seventy-five feet into the Forest Service from the surveyed boundary. The surveyor did not note the location in his survey. I believe that Fred has pictures of the area (snow covered.) The water flows (underground) through the point of collection onto private property. All forest use of the water is uphill of the collection box and therefore it does not diminish the volume available for forest use.

I would be happy to provide you with what ever additional information that you may require to approve the application. I would like to complete the processing of the water right applications in the near future.

I appreciate the time you spent with me and Perry Clausen and the research and advice you provided us on stock crossing from Forest Service to private land.

By copy of this letter I would like to advise Harold W. Jones that the granting of the requested special use application should permit application numbers 24-07173 (Budge) and 24-07174 (Clausen) to be completed.

Sincerely,

Re: Application #s 24-07173
(Budge) & 24-07174 (Clausen)
Your letter of 1-22-90
My letter to you (copy att.)

Dear Mr. Jones,

This spring I had the pleasure of walking over the subject property with Mr. Fred Fuller of the Palasades Ranger District. The water system in question is almost on the property line and we couldn't make any definite judgment without a survey. We located the corners of the section marked in 1899 but the fence is not on the property line. Mr. Fuller has informed me that the Forest Service has scheduled a survey crew in the area and they will survey the property line. I fully expect we will come to an accommodation acceptable to the Forest Service and they will remove their objection to our applications.

Please keep the applications in suspense until we notify you.

Sincerely,

Thomas A. Budge, Jr.

Re: Application #s 24-07173
(Budge) & 24-07174 (Clausen)
Your letter of 1-22-90

Dear Mr Jones,

Subsequent to our telephone conversation I was directed to Ron Dickemore, District Ranger of the Palasades Ranger District. We have agreed that we will meet in Star Valley at a mutually agreeable time (in good weather) and walk the area where the water system is located. I expect we will conclude that it is not on Forest Service property and Stan Tixier will be requested to remove his objection. If we determine that it is encroaching on Forest Service property, I am confident that we will apply for a special use permit or make some other arrangement satisfactory to Ron Dickemore. The small quantity of water we would divert runs on/under private property and would not be used for livestock watering on the forest.

I do not foresee the need for your office to schedule a conference to resolve this matter and would request that you suspense the application until we contact you with the resolution. (Perry Clausen and I can speak for each other in this matter.) If it appears that we will not have resolution before early summer, we will give you a status report.

I appreciate the spirit of cooperation and helpfulness that I have detected in everyone I've spoken with. (A spirit that a Westerner in the East doesn't detect nearly often enough.)

Sincerely,

Tom

Dear Mr. Tixier:

Your protest against the approval of the above referenced application has been received and a copy has been sent to the applicant. The Department suggests you contact the applicant directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

Unless this office is advised that either the matter has been resolved or there exists extenuating circumstances requiring additional time, our objective is to schedule a conference and/or hearing to consider the protests within 60 days. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Sec. 42-203, Idaho Code): the following are the principle items the Department can consider in either approving or denying the application for permit (Sec. 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

Department of Water Resources

Dear Mr. Higginson:

We are writing to object to Applications for Permit Nos. 24-07173 and 24-07174 filed by Messrs. Budge and Clausen respectively. Each application contemplates diverting 0.04 cfs from an unnamed spring tributary to Newswander Creek for domestic purposes. Our objection is based on the following:

1. The United States of America - Forest Service will file a claim to this water in the Snake River Adjudication. The water is currently used for livestock watering from July 1 through September 15 and for wildlife, riparian maintenance, and riparian dependent resources during the entire year.

2. There is no surplus water at the source.

3. Contrary to statements in the applications, the United States owns the land at the points of diversion located in section 16. The applicants do not have authority to occupy National Forest land for the purpose contemplated in the applications.

Accordingly, the applications should be denied.

Sincerely,

J. S. TIXIER
Regional Forester

RE: Application for Permit No. 24-7173

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Post-Register. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

HWJ/rb

THE POST-REGISTER
P.O. BOX 1800
IDAHO FALLS, ID 83403

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billing to this office before DECEMBER 26, 1989.

Yours truly,

Rita Bodell
Secretary

Encl.

RE: Application for Permit

Dear Mr. Budge:

To complete the review of the application for permit that you submitted the points of diversion must be described down to the ten acre parcel (1/4 of 1/4 of 1/4).

To assist you enclosed is an enlarged copy of the U.S.G.S. and an orthophoto map of the area. The U.S.G.S. map has the ten acre parcels indicated by a dashed line.

Please review the maps then indicate on the enclosed U.S.G.S map not only the points of diversion but also the places of use, and return the map to this office by 15 November 1989. Your cooperation will assist in the processing of your application for permit.

Sincerely,

Keith C. Wilson
Senior Resource Agent
