NOTICE OF CORRECTION

Notice is hereby given that
Application No. 24-7032 in the
name of J. Delos or Maurine
Anderson was advertised incor-
rectly on February 14 and 21,
1980. The point of diversion was
advertised as being within the
SW 1/4 NW 1/4, Sec. 17, Twp. 7S,
Rge. 46E, B.M., Caribou County.

WHEREAS, the actual point of
diversion is within the
SE 1/4 NW 1/4, Sec. 17, Twp. 7S,
Rge. 46E, B.M.

Any protest against the granting
of this permit as a result of this
correction must be filed with the
Idaho Department of Water Re-
sources, 1515 Lincoln Road,
Idaho Falls, Idaho, 83401 on or
before April 14, 1980.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 24-7032 , and said application is hereby approved .

- 1. Approval of said application is subject to the following limitations and conditions:
 - a. SUBJECT TO ALL PRIOR WATER RIGHTS.
 - b. Proof of construction of works and application of water to beneficial use shall be submitted on or before April 1 , 19 85 .
 - c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
 - d. Other: (1) The maximum rate of diversion under this permit shall not exceed 1.2 cfs. (2) A measuring device of a type approved by the Department shall be permanently installed and maintained as part of the diverting works.

Witness my hand this 23rd day of April , 19 80 .

Dear Permit Holder:

On January 26, 1987 this Department sent you a certified letter explaining the recent statutory changes in the licensing procedure that will pertain to the above referenced permit. The new statutes provide the permit holder with a choice of who will perform the licensing field examination. You may either choose a certified water rights examiner from the private sector, or select the Department. If you elect to have the examination done by the Department there is now a fee for this service based on the amount of water being diverted.

The letter advised you had a period of 60 days to notify the Department of your decision. You were to notify the Department by returning the examination fee information form which accompanied the certified letter and the appropriate examination fee, provided you wanted the Department to do the examination. As indicated in the certified letter, failure to return the form and submit the examination fee, within 60 days would cause the priority of your permit to be advanced.

Our records indicate you did not respond within the 60 day period. Starting with March 27, 1987 the priority of your permit will be advanced one day for each day your response is late. Failure to submit a completed examination fee information form, with the examination fee, by March 27, 1988 will result in the permit being lapsed.

As always our staff is available to assist you or answer questions concerning the above matter. For your convenience, we have enclosed another examination fee information form.

Respectfully submitted,

Ernest Carlsen
Assistant Regional Manager

January 26, 1987

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this Department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the Department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the Department, but you must within sixty (60) days of the date of this letter return to the Department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the Department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the Department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing of certified water right examiners will be available from this Department when examiners have been certified.

If your permitted use, in fact, has already been examined by the Department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the Department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following Department office:

Re: Permit Nos. 24-7031, 7032, 7033, and 7034

Dear Mr. and Mrs. Anderson:

On March 18, 1985, this office received your letter dated March 14, 1985, in which you conveyed a Proof of Beneficial Use postcard for Permit No. 24-7032, and in which you raised questions regarding the possibility of changing the use on the other three permits to stockwater.

In accordance with the telephone conversation on April 11, 1985 between Mrs. Anderson and myself, the following actions are taken with respect to the four permits:

- A. Proof of beneficial use was received for Permit No. 24-7032 in a timely manner because proof of beneficial use was due on April 1, 1985. A copy of the proof card will be conveyed with a copy of this letter to our Eastern Regional Office in Idaho Falls, so the personnel from that office can schedule a field examination of the permit. A representative from the office will personally visit the site and determine the number of acres irrigated, and based on his report, a water right license will subsequently be issued.
- B. For the other three permits, Nos. 24-7031, 7033, and 7034, the proof due date was March 1, 1985. Our files show that you have sent a letter to this office which had arrived on January 30, 1985 regarding disposition of the permits. In a response from Mrs. Roberta Garrett of this office dated February 4, 1985, she indicated that additional information concerning the permits needed to be returned on or before March 1, 1985 to prevent lapsing. Because your letter arrived seventeen days after lapsing began, the dates of priority on the three permits have lapsed by seventeen days. If proof of beneficial use is submitted for these three permits in a timely manner, an Order of Reinstatement will be issued and will formally reinstate the permits and delay the dates of priority.

MICROFILMED

J. Delos and/or Maurine Anderson
April 16, 1985
Page 2

- C. In accordance with our telephone conversation, we have prepared three draft Applications for Amendment for the three permits. Please review the information on the draft forms, make any changes that are necessary, and, if you wish to change the use of permits from irrigation to instream stockwater use, sign the applications and return them with associated filing fees of \$20 each to this office. In addition to the signed applications, you will need to submit proof of beneficial use for the instream stockwater use, in accordance to the information provided by Mrs. Anderson. Note that we have also enclosed draft Proof of Beneficial Use forms, which should be reviewed and submitted if they are correct.

As I indicated to Mrs. Anderson, we can allow twenty-five (25) days from the date of mailing of this letter for you to complete and return the enclosed information, with no further lapsing of the permits. Therefore, please be advised that if the enclosed information is completed and returned for the permits by May 13, 1985, no further lapsing will take place. Submittal of the information after that date will result in the additional lapsing of each permit of one day for each day late. This lapsing will continue until the end of sixty (60) days, including the seventeen days of lapsing that have already occurred, after which time the permits will become of no further or effect.

I recognize that much information is enclosed in this letter, and you may have some questions about what is being proposed. Please be advised that the forms included herein are prepared at the request of Mrs. Anderson and can be filed totally at your discretion. We have merely included some of the information for your convenience. If you do have questions regarding the items, please feel free to contact me at telephone no. 334-4104, or you are also invited to visit our Eastern Regional Office in Idaho Falls at 150 Shoup Ave., Suite 15, Idaho Falls, ID 83401, telephone no. 525-7161.

Sincerely,

DAVID R. TUTHILL, JR., P.E.

Afton, WY 83110

Dear Mr. and Mrs. Anderson:

RE: Permits 24-7032, 24-7033, 24-7034

On January 30, 1985, the Department received the requests for extension of time in which to submit proof to beneficial use for the above referenced permits.

However, Idaho Code, allows the Director to approve requests for extension of time if the permit holder can show that he has made reasonable diligence toward permit development; you indicated on your request forms that no work had been done. Therefore, based upon this information rather than officially acting upon your requests we are returning your \$60 check, No. 2437, 99-183/1023 and extension requests, with the suggestion if you still plan to develop the water as intended you refile for a new permit(s). Enclosed are application for permit forms with instructions for filing.

Please be advised that the Idaho Legislature added a requirement that a permit holder must commence the excavation or construction of diverting works within one year of the date the permit was issued, and proceed diligently until the project is completed. Under this new requirement, you may wish to postpone filing until such time that you are assured that you will be able to commence development of the permit(s) within one year of the date of issuance of the permit(s).

If you have additional information concerning the permits or wish us to act officially on your extension requests, please return the form(s) with the fee of \$15 for each extension on or before March 1, 1985, for permits 24-7034 and 24-7033, and April 1, 1985 for Permit 24-7032.

Sincerely,

ROBERTA GARRETT
Records Supervisor

Department of Water Resources

Dear Sir:

These are a few things not stated on enclosed permit sheets that explain our request for an extension of time. This land is only range pasture privately owned used only for summer pasture, it could almost be turned wilderness area. You can only get to working area from about July to October depends on how wet the season.

By July it is haying then harvesting time farm work must come first.

The most acreage that could be irrigated from springs would be about 200 acres.

The problem is time - elements and weather. These spring permits we are filing for would be beneficial to us for some irrigation and stock water if this meets your approval.

Yours Truly,
J. Delos Anderson
Maurine Anderson

PROOF DUE NOTICE

JANUARY 31, 1985

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT NO. 24-7032 WAS THAT PROOF OF THE EXTENT OF YOUR BENEFICIAL USE MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE APRIL 01, 1985. (SEE LAST PAGE OF YOUR APPROVED PERMIT OR YOUR LAST APPROVED EXTENSION REQUEST). ENCLOSED IS A POSTCARD WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU OR A PREVIOUS OWNER OF THIS PERMIT HAVE NOT RECEIVED A PRIOR EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME IF THE DELAY IS FOR REASONABLE CAUSE AS PROVIDED IN SECTION 42-204, IDAHO CODE. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. AN EXTENSION OF TIME REQUEST FORM IS ENCLOSED FOR YOUR CONVENIENCE.

EITHER THE BENEFICIAL USE POSTCARD OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE DESCRIBED PROOF DUE DATE. IF NEITHER IS RECEIVED, THE DEPARTMENT WILL SEND YOU A LAPSE NOTICE. WITHIN SIXTY (60) DAYS OF THE MAILING OF THE LAPSE NOTICE, THE PERMIT WILL NO LONGER BE OF ANY FORCE NOR EFFECT.

SINCERELY,

RITA FLECK
SECRETARY/RECORDS MANAGER

FILED

NOTICE OF CORRECTION

Notice is hereby given that Application No. 24-7032 in the name of J. Delos or Maurine Anderson was advertised incorrectly on February 14 and 21, 1980. The point of diversion was advertised as being within the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 17, Twp. 7S, Rge. 46E, B.M., Caribou County.

WHEREAS, the actual point of diversion is within the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 17, Twp. 7S, Rge. 46E, B.M.

Any protest against the granting of this permit as a result of this correction must be filed with the Idaho Department of Water Resources, 1515 Lincoln Road, Idaho Falls, Idaho, 83401 on or before April 14, 1980.

C. STEPHEN ALLRED

Director

From: Ernest Carlsen

RE: Notice of Correction for Application for Permit No. 24-7032

On 2/5/1980, Mr. J. Delos Anderson was assisted in completing several applications for permit by personnel from the Eastern Regional Office. The applications were subsequently staffed and advertised. However, final review identified an error on the legal description of the point of diversion for application for permit No. 24-7032. Subsequent review of the original rough draft indicated the point of diversion was in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 17 and not SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 17 as advertised. Since the error was made by Department personnel and not Mr. Anderson it was decided to correct the legal description for the point of diversion and to readvertise the application with a notice of correction at no additional expense to Mr. Anderson.

RECEIVED

NOTICE OF APPLICATION FOR WATER RIGHT

Notice is hereby given that the following application(s) have been submitted for permit to appropriate the public waters of the State of Idaho:

If issued, the permit(s) will be subject to all prior water rights. Protests against the granting of any permit must be filed with the Director of the Idaho Department of Water Resources, 1515 Lincoln Road, Idaho Falls, Idaho 83401 on or before MARCH 3, 1980.
