EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this Department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the Department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the Department, but you must within sixty (60) days of the date of this letter return to the Department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the Department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the Department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing of certified water right examiners will be available from this Department when examiners have been certified.

MICROFILMED

OCT 11 1989

If your permitted use, in fact, has already been examined by the Department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the Department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

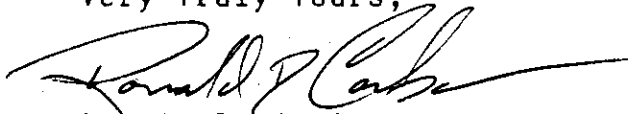

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following Department office:

Re: Permit Nos. 24-7031, 24-7033 and 24-7034

Enclosed is a copy of each of the three approved Applications for Amendment. Note the conditions of approval on the back page.

This office acknowledges receipt of the proofs of beneficial use. Enclosed is a copy of the orders of reinstatement.

Before a license can be issued, an examination of the distribution system and a determination of the extent of use must be made by a representative from our regional office. I cannot tell you just when this examination will be made, but our representative will try to contact you to schedule a convenient time.

If you have any questions concerning this field examination, please contact our Eastern Regional office in Idaho Falls at 525-7161.

Re: Permit Nos. 24-7031, 7032, 7033, and 7034

Dear Mr. and Mrs. Anderson:

On March 18, 1985, this office received your letter dated March 14, 1985, in which you conveyed a Proof of Beneficial Use postcard for Permit No. 24-7032, and in which you raised questions regarding the possibility of changing the use on the other three permits to stockwater.

In accordance with the telephone conversation on April 11, 1985 between Mrs. Anderson and myself, the following actions are taken with respect to the four permits:

- A. Proof of beneficial use was received for Permit No. 24-7032 in a timely manner because proof of beneficial use was due on April 1, 1985. A copy of the proof card will be conveyed with a copy of this letter to our Eastern Regional Office in Idaho Falls, so the personnel from that office can schedule a field examination of the permit. A representative from the office will personally visit the site and determine the number of acres irrigated, and based on his report, a water right license will subsequently be issued.
- B. For the other three permits, Nos. 24-7031, 7033, and 7034, the proof due date was March 1, 1985. Our files show that you have sent a letter to this office which had arrived on January 30, 1985 regarding disposition of the permits. In a response from Mrs. Roberta Garrett of this office dated February 4, 1985, she indicated that additional information concerning the permits needed to be returned on or before March 1, 1985 to prevent lapsing. Because your letter arrived seventeen days after lapsing began, the dates of priority on the three permits have lapsed by seventeen days. If proof of beneficial use is submitted for these three permits in a timely manner, an Order of Reinstatement will be issued and will formally reinstate the permits and delay the dates of priority.

- C. In accordance with our telephone conversation, we have prepared three draft Applications for Amendment for the three permits. Please review the information on the draft forms, make any changes that are necessary, and, if you wish to change the use of permits from irrigation to instream stockwater use, sign the applications and return them with associated filing fees of \$20 each to this office. In addition to the signed applications, you will need to submit proof of beneficial use for the instream stockwater use, in accordance to the information provided by Mrs. Anderson. Note that we have also enclosed draft Proof of Beneficial Use forms, which should be reviewed and submitted if they are correct.

As I indicated to Mrs. Anderson, we can allow twenty-five (25) days from the date of mailing of this letter for you to complete and return the enclosed information, with no further lapsing of the permits. Therefore, please be advised that if the enclosed information is completed and returned for the permits by May 13, 1985, no further lapsing will take place. Submittal of the information after that date will result in the additional lapsing of each permit of one day for each day late. This lapsing will continue until the end of sixty (60) days, including the seventeen days of lapsing that have already occurred, after which time the permits will become of no further or effect.

I recognize that much information is enclosed in this letter, and you may have some questions about what is being proposed. Please be advised that the forms included herein are prepared at the request of Mrs. Anderson and can be filed totally at your discretion. We have merely included some of the information for your convenience. If you do have questions regarding the items, please feel free to contact me at telephone no. 334-4104, or you are also invited to visit our Eastern Regional Office in Idaho Falls at 150 Shoup Ave., Suite 15, Idaho Falls, ID 83401, telephone no. 525-7161.

Dear Roberta Garrett:

On April 12-1985 you called me in regards to the letter I had mailed to you and ask a few questions about permits - 24-7031 - 24-7033 - 24-7034. Changing their use to stock watering filings - also stated you would mail to us the necessary information and papers to do this - also stated there was just a short time remaining to get this done.

To date we have not received any information from you regarding these permits.

Will you please reply. Thank you

Yours Truly,

Re: Permit Nos. 24-7031, 7032, 7033, and 7034

Dear Mr. and Mrs. Anderson:

On March 18, 1985, this office received your letter dated March 14, 1985, in which you conveyed a Proof of Beneficial Use postcard for Permit No. 24-7032, and in which you raised questions regarding the possibility of changing the use on the other three permits to stockwater.

In accordance with the telephone conversation on April 11, 1985 between Mrs. Anderson and myself, the following actions are taken with respect to the four permits:

- A. Proof of beneficial use was received for Permit No. 24-7032 in a timely manner because proof of beneficial use was due on April 1, 1985. A copy of the proof card will be conveyed with a copy of this letter to our Eastern Regional Office in Idaho Falls, so the personnel from that office can schedule a field examination of the permit. A representative from the office will personally visit the site and determine the number of acres irrigated, and based on his report, a water right license will subsequently be issued.
- B. For the other three permits, Nos. 24-7031, 7033, and 7034, the proof due date was March 1, 1985. Our files show that you have sent a letter to this office which had arrived on January 30, 1985 regarding disposition of the permits. In a response from Mrs. Roberta Garrett of this office dated February 4, 1985, she indicated that additional information concerning the permits needed to be returned on or before March 1, 1985 to prevent lapsing. Because your letter arrived seventeen days after lapsing began, the dates of priority on the three permits have lapsed by seventeen days. If proof of beneficial use is submitted for these three permits in a timely manner, an Order of Reinstatement will be issued and will formally reinstate the permits and delay the dates of priority.

- C. In accordance with our telephone conversation, we have prepared three draft Applications for Amendment for the three permits. Please review the information on the draft forms, make any changes that are necessary, and, if you wish to change the use of permits from irrigation to instream stockwater use, sign the applications and return them with associated filing fees of \$20 each to this office. In addition to the signed applications, you will need to submit proof of beneficial use for the instream stockwater use, in accordance to the information provided by Mrs. Anderson. Note that we have also enclosed draft Proof of Beneficial Use forms, which should be reviewed and submitted if they are correct.

As I indicated to Mrs. Anderson, we can allow twenty-five (25) days from the date of mailing of this letter for you to complete and return the enclosed information, with no further lapsing of the permits. Therefore, please be advised that if the enclosed information is completed and returned for the permits by May 13, 1985, no further lapsing will take place. Submittal of the information after that date will result in the additional lapsing of each permit of one day for each day late. This lapsing will continue until the end of sixty (60) days, including the seventeen days of lapsing that have already occurred, after which time the permits will become of no further or effect.

I recognize that much information is enclosed in this letter, and you may have some questions about what is being proposed. Please be advised that the forms included herein are prepared at the request of Mrs. Anderson and can be filed totally at your discretion. We have merely included some of the information for your convenience. If you do have questions regarding the items, please feel free to contact me at telephone no. 334-4104, or you are also invited to visit our Eastern Regional Office in Idaho Falls at 150 Shoup Ave., Suite 15, Idaho Falls, ID 83401, telephone no. 525-7161.

The following we would like to know.
The request for extension of time permits
which were declined March 1-85
Permit # 24-7034 — 24-7033 and
24-7031. Is it possible to change
them to stock water permits and
also the enclosed card permit if
this is not satisfactory.

What would be the procedure to follow.
We would appreciate the necessary

Dear Mr. and Mrs. Anderson:

RE: Permits 24-7032, 24-7033, 24-7034

On January 30, 1985, the Department received the requests for extension of time in which to submit proof to beneficial use for the above referenced permits.

However, Idaho Code, allows the Director to approve requests for extension of time if the permit holder can show that he has made reasonable diligence toward permit development; you indicated on your request forms that no work had been done. Therefore, based upon this information rather than officially acting upon your requests we are returning your \$60 check, No. 2437, 99-183/1023 and extension requests, with the suggestion if you still plan to develop the water as intended you refile for a new permit(s). Enclosed are application for permit forms with instructions for filing.

Please be advised that the Idaho Legislature added a requirement that a permit holder must commence the excavation or construction of diverting works within one year of the date the permit was issued, and proceed diligently until the project is completed. Under this new requirement, you may wish to postpone filing until such time that you are assured that you will be able to commence development of the permit(s) within one year of the date of issuance of the permit(s).

If you have additional information concerning the permits or wish us to act officially on your extension requests, please return the form(s) with the fee of \$15 for each extension on or before March 1, 1985, for permits 24-7034 and 24-7033, and April 1, 1985 for Permit 24-7032.

Sincerely,

ROBERTA GARRETT

PROOF DUE NOTICE

DECEMBER 31, 1984

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT NO. 24-7031 WAS THAT PROOF OF THE EXTENT OF YOUR BENEFICIAL USE MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE MARCH 01, 1985. (SEE LAST PAGE OF YOUR APPROVED PERMIT OR YOUR LAST APPROVED EXTENSION REQUEST). ENCLOSED IS A POSTCARD WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU OR A PREVIOUS OWNER OF THIS PERMIT HAVE NOT RECEIVED A PRIOR EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME IF THE DELAY IS FOR REASONABLE CAUSE AS PROVIDED IN SECTION 42-204, IDAHO CODE. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. AN EXTENSION OF TIME REQUEST FORM IS ENCLOSED FOR YOUR CONVENIENCE.

EITHER THE BENEFICIAL USE POSTCARD OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE DESCRIBED PROOF DUE DATE. IF NEITHER IS RECEIVED, THE DEPARTMENT WILL SEND YOU A LAPSE NOTICE. WITHIN SIXTY (60) DAYS OF THE MAILING OF THE LAPSE NOTICE, THE PERMIT WILL NO LONGER BE OF ANY FORCE NOR EFFECT.

SINCERELY,

RITA FLECK

Dear Mr. & Mrs. Anderson,

RE: Permit No. 24-7031

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note the special condition requiring you to install and maintain a measuring device at your point of diversion prior to submitting proof of beneficial use of water. We have enclosed a letter describing the different types of measuring devices accepted by this office.

Sincerely,

David R. Tuthill Jr.
