WATER RIGHT LICENSE

License of Water Right No. 24-7010 Priority October 3, 1972 Amount 0.03 cfs

THIS IS TO CERTIFY, that CLYDE W. STOCK
of Freedom, Wyoming, has complied with the terms and conditions of Permit
No. 24-7010 issued pursuant to Application for Permit dated October 3, 1972,
and has submitted proof to the Department of Water Resources on October 22, 1973,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.03 cfs of water from a spring,
tributary to Schiess Creek, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Domestic	from <u>January 1</u> to <u>December 31</u>	at <u>0.03</u> cfs and	<u>1.2 acre feet</u>
	from _____ to _____	at _____ cfs and	_____
	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 0.03 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
1.2 acre feet per year, said waters to be diverted within the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 8, Twp. 5S,

Dear Mr. Stock:

A representative of this Department made an examination of the works covered by your Permit No. 24-7010 on June 15, 1977, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 0.03 cfs Source: a spring

The maximum quantity diverted shall not exceed 1.2 acre feet
per year.

Point of diversion: SW¹/₄SE¹/₄, Sec. 8, Twp. 5S, Rge. 46E, B. M.

Beneficial use: Domestic use within the NW¹/₄SE¹/₄, Sec. 8, Twp. 5S,
Rge. 46E, B. M.

Priority date established: October 3, 1972

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a \$20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

Dear Mr. Stock:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If you have any questions regarding the field exam, please contact our Eastern District Office at 1515 Lincoln Road, Idaho Falls, Idaho.

Sincerely,

Re: Permit No. 24-7010

Clyde W. Stock
Freedom,
Wyoming

Dear Mr. Stock:

One of the conditions of approval of your water Permit No. 24-7010 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before December 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

4. Development plans; layout plan; construction, reconstruction, or alteration of improvements; or revision of layout or construction plans for this area must be approved in advance and in writing by the forest supervisor. Trees or shrubbery on the permitted area may be removed or destroyed only after the forest officer in charge has approved, and has marked or otherwise designated that which may be removed or destroyed. Timber cut or destroyed will be paid for by the permittee as follows: Merchantable timber at appraised value; young-growth timber below merchantable size at current damage appraisal value; *provided* that the Forest Service reserves the right to dispose of the merchantable timber to others than the permittee at no stumpage cost to the permittee. Trees, shrubs, and other plants may be planted in such manner and in such places about the premises as may be approved by the forest officer in charge.

5. The permittee shall maintain the improvements and premises to standards of repair, orderliness, neatness, sanitation, and safety acceptable to the forest officer in charge.

6. This permit is subject to all valid claims.

7. The permittee, in exercising the privileges granted by this permit, shall comply with the regulations of the Department of Agriculture and all Federal, State, county, and municipal laws, ordinances, or regulations which are applicable to the area or operations covered by this permit.

8. The permittee shall take all reasonable precautions to prevent and suppress forest fires. No material shall be disposed of by burning in open fires during the closed season established by law or regulation without a written permit from the forest officer in charge or his authorized agent.

9. The permittee shall exercise diligence in protecting from damage the land and property of the United States covered by and used in connection with this permit, and shall pay the United States for any damage resulting from negligence or from the violation of the terms of this permit or of any law or regulation applicable to the National Forests by the permittee, or by any agents or employees of the permittee acting within the scope of their agency or employment.

10. The permittee shall fully repair all damage, other than ordinary wear and tear, to national forest roads and trails caused by the permittee in the exercise of the privilege granted by this permit.

11. No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this agreement or to any benefit that may arise herefrom unless it is made with a corporation for its general benefit.

12. Upon abandonment, termination, revocation, or cancellation of this permit, the permittee shall remove within a reasonable time all structures and improvements except those owned by the United States, and shall restore the site, unless otherwise agreed upon in writing or in this permit. If the permittee fails to remove all such structures or improvements within a reasonable period, they shall become the property of the United States, but that will not relieve the permittee of liability for the cost of their removal and restoration of the site.

13. This permit is not transferable. If the permittee through voluntary sale or transfer, or through enforcement of contract, foreclosure, tax sale, or other valid legal proceeding shall cease to be the owner of the physical improvements other than those owned by the United States situated on the land described in this permit and is unable to furnish adequate proof of ability to redeem or otherwise reestablish title to said improvements, this permit shall be subject to cancellation. But if the person to whom title to said improvements shall have been transferred in either manner provided is qualified as a permittee and is willing that his future occupancy of the premises shall be subject to such new conditions and stipulations as existing or prospective circumstances may warrant, his continued occupancy of the premises may be authorized by permit to him if, in the opinion of the issuing officer or his successor, issuance of a permit is desirable and in the public interest.

14. In case of change of address, the permittee shall immediately notify the forest supervisor.

15. The temporary use and occupancy of the premises and improvements herein described may be sublet by the permittee to third parties only with the prior written approval of the forest supervisor but the permittee shall continue to be responsible for compliance with all conditions of this permit by persons to whom such premises may be sublet.

16. This permit may be terminated upon breach of any of the conditions herein or at the discretion of the regional forester or the Chief, Forest Service.

17. In the event of any conflict between any of the preceding printed clauses or any provisions thereof and any of the following clauses or any provisions thereof, the following clauses will control.

18. (A13) A service charge in addition to the regular fees shall be made for failure to meet the fee payment due date or any of the dates specified for submission of statements required for fee calculation. The service charge shall be one (1.0) percent per month of the fee from the date statement and fees were due or \$15, whichever is greater. If a due date falls on a nonworkday, the service charge will not apply until the end of the next workday.
19. (B8) The permittee shall indemnify the United States against any liability for damage to life or property arising from the occupancy or use of National Forest lands under this permit.
20. (B31) Avalanches, rising waters, high winds, falling limbs or trees, and other hazards are natural phenomena in the forest that present risks which the permittee assumes. The permittee has the responsibility of inspecting his site, lot, right-of-way, and immediate adjoining area for dangerous trees, hanging limbs, and other evidence of hazardous conditions and, after securing permission from the Forest Service, of removing such hazards.
21. (D2) No waste or byproducts shall be discharged if it contains any substance in concentrations which will result in substantial harm to fish and wildlife, or to human water supplies.

Storage facilities for materials capable of causing water pollution, if accidentally discharged, shall be located so as to prevent any spillage into waters, or channels leading into water, that would result in substantial harm to fish and wildlife or to human water supplies.

22. (D3) The permittee shall protect the scenic esthetic values of the area under this permit, and the adjacent land, as far as possible with the authorized use, during construction, operation, and maintenance of the improvements.
23. (D7) The permittee shall be responsible for the prevention and control of soil erosion and gullyng on the area covered by this permit and lands adjacent thereto, and shall provide preventive measures as required by specifications attached to and made a part of this permit.
24. (D11) Seeding or planting will be done at a time of the year, in a manner, and with species which the District Ranger considers offer the best chance of success and will be repeated annually until such areas are accepted in writing by the District Ranger as satisfactorily revegetated and stabilized.
25. (E4) Unless sooner terminated or revoked by the Forest Supervisor, in accordance with the provisions of the permit, this permit shall expire and become void on December 31, 1993, but a new permit to occupy and use the same National Forest land may be granted provided the permittee will comply with the then-existing laws and regulations governing the occupancy and use of National Forest lands and shall have notified the Forest Supervisor not less than one year prior to said date that such new permit is desired.

26. (X5) The land herein described is subject to certain rights reserved by or outstanding in parties other than the United States, and nothing herein shall abridge said rights or authorize prevention or obstruction of the reasonable exercise thereof.
27. (X6) This permit is subject to the rights and privileges granted in mineral, oil, or gas leases covering this land which have been issued by an authorized agency of the United States, and this permit does not authorize the prevention or obstruction of the reasonable exercise of the rights and privileges granted by said mineral, oil, or gas leases.
28. (X33) This permit is granted with the express understanding that should future location of Government improvements or road rights-of-way require the relocation of the permittee's improvements, such relocation will be done by the permittee at his expense within sixty (60) days following request to relocate.
29. (X49) This permit shall not be exclusive. The Forest Service reserves the right to use or permit others to use any part of the permitted area for any purpose, provided such use does not interfere with the rights and privileges hereby authorized.
- (30. (X81) This permit confers no right to the use of water by the permittee.

Dear Mr. Stock:

Processing of the above referenced application has been completed but we find the issuance of permit must wait until we have received a copy of the special use application from the U. S. Forest Service, allowing you access to the spring.

Your application had indicated that you owned both the property at the point of diversion and the place of use. However, it appears from the letter from the U. S. Forest Service (copy enclosed) that you do not hold access to the spring.

Please provide us with a copy of the special use permit at your earliest convenience. Failure to do so within 30 days of the date of this letter will be cause to reduce the priority date of the insuing water right.

If you have any questions, please do not hesitate to contact this office.

Dear Mr. Johnson,

In regards to the application of Dr. Clyde Stock, I offer the following information.

Dr. Stock has signed the necessary applications for a special use permit as required by the Forest Service. It is now just a matter of me looking at the site and completing the application. As soon as I have done this, a copy of the special use application will be sent to your office.

The following requirements will probably apply to the permit:

1. Slope trench backfill to match existing side slope and allow for settling.
2. Hand dig collection system and other excavation in seep areas.
3. Construct no road from private land to spring.
4. Collect water in a covered pipe and box system.
5. Fence spring source.
6. Install spigot below spring source for attaching future range livestock water development.
7. Hand clear brush and vegetation.
8. Reseed all soil disturbance with a suitable grass seed mixture.

Thank you for sending a copy of the application required by your office. If I can be of further assistance, please contact me.

Dear Mr. Stock:

We are again returning your Application for Permit and check No. 90-1961 in the amount of \$25, as there are several additional corrections which must be made before processing can continue. We have again taken the liberty of retyping the application with the information that we believe to be correct. Please make the necessary corrections and additions on the retyped copy, sign, and return it to this office with the appropriate filing fee.

1. In Item 8a-1, we have typed in a place of use for both domestic and stockwater, based upon information given in Item 11 of your previous application.
2. Item 8b must agree with the map drawn in Item 11. The information presented in your previous application did not agree with the information presented in Item 11. I have sketched a sample map showing that the information does not agree. The 40-acre subdivisions shown in red are taken from Item 8b, while the 40-acre subdivisions shown in lead are from the information presented in Item 11. Please complete Item 8b with the correct information.
3. Please complete the map of Item 11 in a manner similar to the enclosed sample.

If you have any other questions, please do not hesitate to contact this office.

Dear Mr. Stock:

We are returning your application for permit to appropriate water from a spring, tributary to Tin Cup Creek, and the accompanying check for \$25, as there are several corrections which must be made before processing can continue.

1. In Item 3a, the location of the point of diversion must be listed to the nearest 40-acre subdivision (quarter of a quarter section - see Item 3a of the instructions).
2. In Item 8a-1, the place of use for both domestic and stockwater must be clearly indicated to the nearest 40-acre subdivision.
3. In Item 8b, the number of acres to be irrigated in each 40-acre subdivision must be clearly shown.
4. Complete Item 8c.
5. The map of Item 11 must be completed to show clearly the location of the intended point of diversion and the place of use for each separate usage including the location of any irrigated ground.

If you will complete the above mentioned items on the enclosed partially completed application, return it to this office with the statutory filing fee (see page four of the instruction sheet) we will be happy to begin processing the application.
