Dear Mr. Grasse:

We return License issued under the above numbered Permit, which we find was correctly made out to describe an unnamed spring as the source of water supply which we had incorrectly recorded as an unnamed stream.

We note your inquiry as to why the amount allowed was reduced to .04 of a second foot (or two inches) instead of the .2 of a second foot applied for. Since your proof, as well as the report of our Field Engineer, shows that the water was only used for the irrigation of your garden and domestic purposes, we have allowed 1 inch for each use, which we are sure you will find is ample.

Dear Mr. Grasse:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in the Soda Springs Sun, all in proof of beneficial use under Permit No. 19998.

Before final action is taken in the matter the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for this Department, will try and contact you at the time he makes the examination in order that you may arrange to show him over the grounds.

Re: Permit No. 19998
Jas. L. Grasse

Mr. J. K. McLean
Notary Public
Soda Springs, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 19998.

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On May 15, 1948, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Soda Springs, Idaho before J. K. McLean, Notary Public.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

Dear Mr. Grasse:

We are in receipt of your letter of March 5, 1948, and note what you say in regard to beneficial use proof to be made under Permit No. 19998 on June 2, 1947.

In order to complete this water right, it will be necessary for you to set a new date for making the proof, republish for four consecutive weeks and then make the proof at the time set. Notice should be made in duplicate on Form 10 enclosed, setting the date sufficiently far in advance to allow for four weeks publication and naming the Notary Public before whom the proof will be made, both copies of the notice to be returned to this Department together with Form 11, which is your authorization for us to have the notice published at your expense in the newspaper you designate in Carbon County.

For your information, however, will state that your original priority of January 28, 1947, will now be as much later as this beneficial use proof was past due.

Mr. Jeanne L. Anderson

Dear Mr. Anderson:

If you do business with many people like me you must have a great deal of patience. I hope you do.

I was to appear before the Caribou County Clerk to make proof of beneficial use sometime last June. I was prevented from making the proof on the date set as I was sent to a conference in Santa Fe, N.M. I finally appeared around the first of August and was told that I was too late. I requested the Caribou County Clerk to retain the papers until I could contact you and get instructions. Thinking I would be in Boise I procrastinated. Now it doesn't look like I'll make it to Boise for some time.

What can I do to reinstate my application?

Very sincerely yours,

Re: Permit No. 19998

Mr. James E. Grasse

Dear Mr. Grasse:

We enclose herewith Permit No. 19998, and call attention to the limitations and conditions of same as given on the fourth page.

Since your application stated that the works were already completed, we have allowed the minimum of three months in which to make the statutory proofs required to complete your water right, that is, on or before May 8, 1947.

The first, or completion of works proof, is made by executing Form 8, enclosed, before a Notary Public, and returning to this Department with the statutory fee of \$5.00, upon receipt and approval of which a Certificate of Completion of Works will be issued.

Notice of proof of beneficial use is required by law to be published once a week for four consecutive weeks prior to the date set for proof, in the county where the water is diverted. This notice should be made out in duplicate on Form 10 enclosed, setting the date sufficiently far ahead to allow for the four weeks' publication, and naming the Notary Public, or other officer authorized by law to administer oaths, before whom the proof will be made.

Both copies of the notice are to be returned to this Department, together with Form 11, which is your authorization for us to have the notice published at your expense in the newspaper you designate. We shall then send a copy of the notice to the newspaper, with instructions in regard to publishing same.
