LEGAL ADVERTISEMENTS

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 a. m. on the 30th day of March, 1951, at Afton, County of Lincoln, State of Wyoming, before Carl Cook, Notary Public, proof will be submitted of the application to beneficial use of 3 cubic feet per second of the waters of Spring Creek in accordance with the terms and conditions of Permit No. 19791 heretofore issued by the Dept. of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are James E. Grasse, Box 322, Afton, Wyoming. The use to which said water has been applied is Trout Raising (Fish Hatchery).

The amount applied to beneficial use is three (3) Sec. ft.

The place where said water is used SE 1/4 NE 1/4 Sec. 32 T7S R46E.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Spring Creek.

The right to take water from such works is based upon Permit No. 19791.

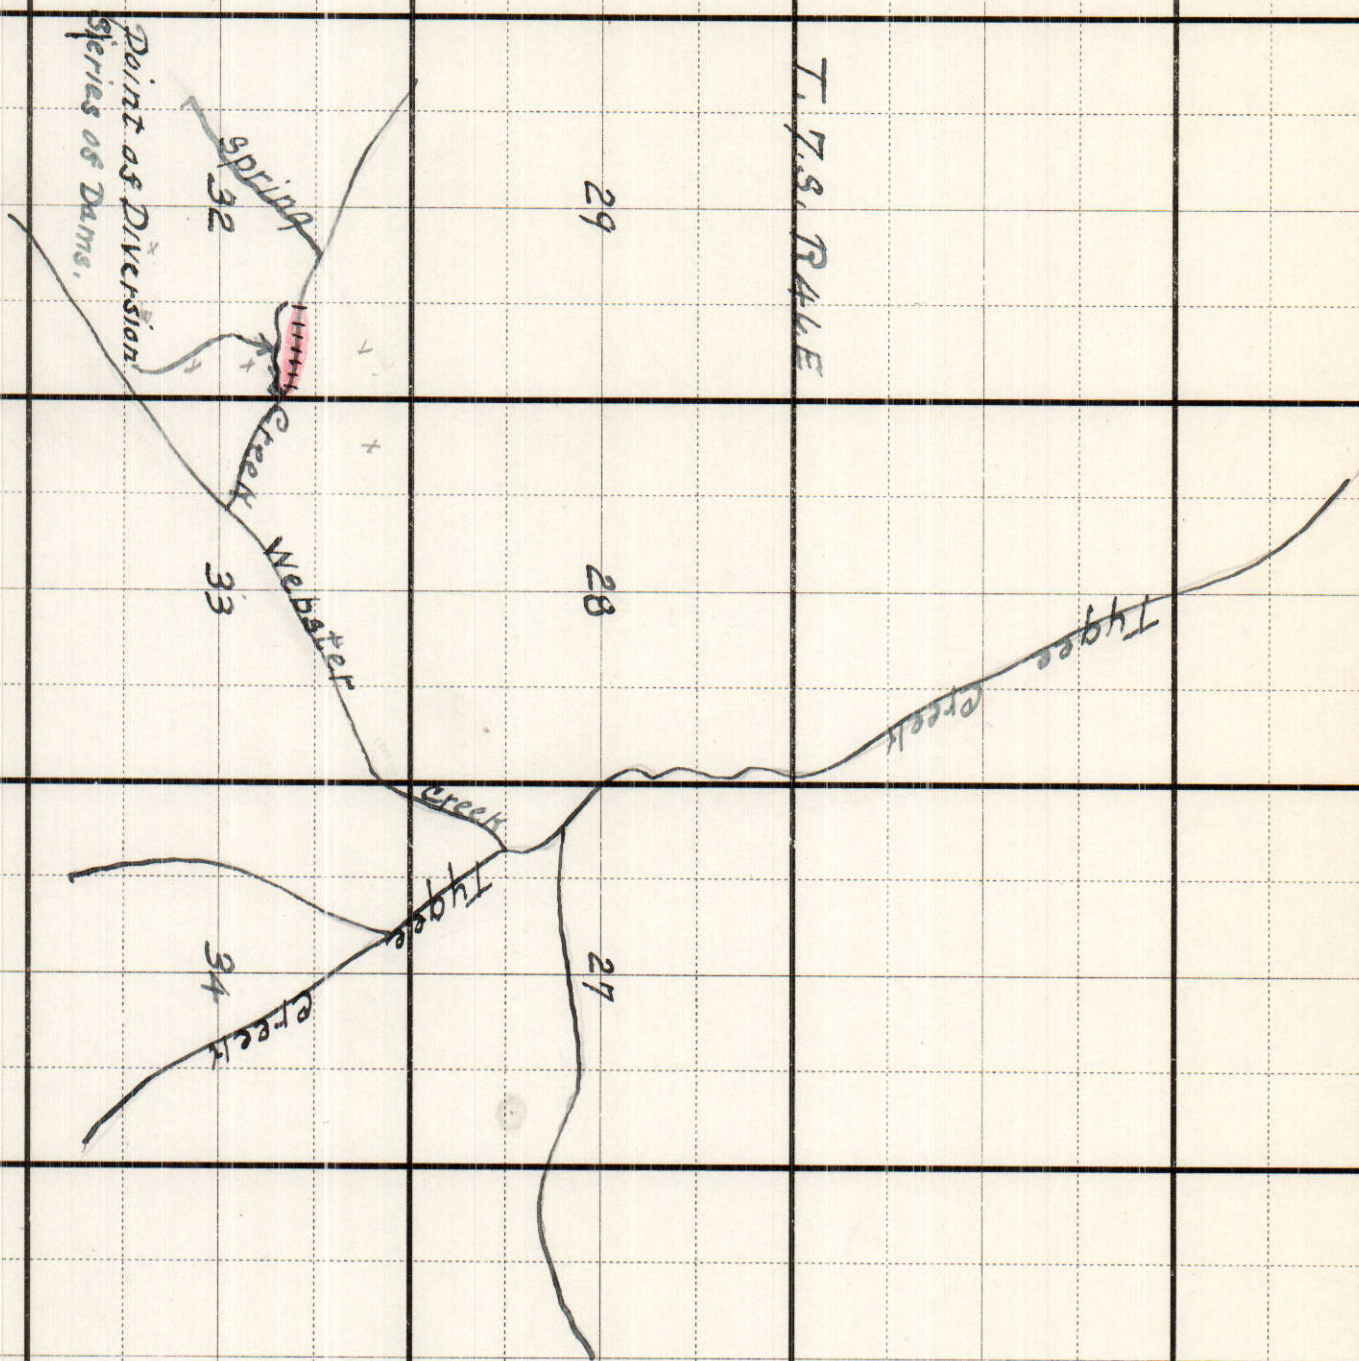

The source of supply from which such water is diverted is Spring Creek, a tributary of Tygee Creek.

The date of priority which said user is prepared to establish is March 23, 1946.

Mark R. Kulp, 19791
State Reclamation
Engineer.

First publication March 1, 1951
Last publication March 22, 1951.

Water License No. 19791

Amount 3 second feet

Water District No.

Priority March 25, 1945

THIS IS TO CERTIFY that JAMES E. GRASSE
of Afton, Wyoming, made application for a permit to appropriate the
public waters of the State of Idaho, dated March 25, 1945; that Permit No. 19791
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
three second feet, was issued thereunder on February 20, 1951, showing that said works
were completed on the 6th day of February, 1951; and that on the 30th
day of March, 1951,

JAMES E. GRASSE

of Afton, State of Wyoming, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of Spring
Creek, a tributary of Tyger Creek, for the purpose of fish hatchery
under Use Permit No. 19791 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
8 of Licenses at page 5005, on the 30th day of September, 1952;

The right hereby confirmed dates from 1945;

The Point of Diversion is located:

in the SE 1/4 NE 1/4, Sec. 32, Tp. 7 S., R. 46 E., B. M. Caribou County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed Three (3) cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
			SE 1/4 NE 1/4 Section 32, Township 7 South, Range 46 East, B. M.		

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this
30th day of September, 1952.

MARK B. KULP
State Reclamation Engineer

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

Application No. 27332
Permit No. 19791
District No.

1. Name of Applicant: JAMES E. GRASSE

Postoffice address: Afton

County:

State: Wyoming

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (a) Cash on hand:
- (b) Treasury stock:
- (c) Bonds to be issued:
- (d) Other resources:

2. Quantity of water claimed: Three (3) cubic feet per second.

3. Source of water supply: Spring Creek which is a tributary of Tygee Creek

4. Location of point of diversion: On West line feet distant from the

corner of Section , T. , R. , B. M., and is in the SE $\frac{1}{4}$ NE $\frac{1}{4}$

of Section 32 , T. 7 S. , R. 46 E. , B. M., County of Caribou

5. Water is to be used for Fish Hatchery purposes

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T. , R. , B. M., in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 32 , T. 7 S. , R. 46 E. , B. M.

(b) Amount of power generated: H. P., under feet head.

(c) Water is to be returned to Spring Creek at a point in the West side feet

distant from the ~~corner~~ corner of Section 33 , T. 7 S. , R. 46 E. , B. M., in the

SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 33 , T. 7 S. , R. 46 E. , B. M.

7. Estimated cost of works: \$3,000.00

8. Kind of works: Earth filled dams and concrete headgates, in series

9. Height of dam 4 feet; length of dam at top 15 feet; length of dam at bottom 6

feet; material used in dam: Earth

10. Size of headgate: Width 5 feet; height 3 feet;

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;

dimensions of flume:

Diameter of pipe inches; length of conduit miles.

Average grade per mile feet.

12. The time required for the completion of such work is Five (5) years.

13. The time required for the complete application of the water to the proposed use is Six (6) additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. (a) Is reservoir to be used? If so, fill in (b) and (c) below.
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

JAMES E. GRASSE *Applicant.*

By

Agent.

Date of first receipt at Department of Reclamation: 1:30 P. M. March 23, 1946

Returned to applicant for correction:

Corrected application received:

Approval of State Reclamation Engineer

The number of this permit is 19791

Recorded in Book 71 Page 19791 Approved April 9, 1946

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ _____ to be filed on or before _____

Work to begin on or before June 9, 1946 and to continue diligently and uninterruptedly to completion,

unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before October 9, 1948

The whole of said work to be completed on or before April 9, 1951

Beneficial use of water appropriated in accordance herewith, to be made on or before April 9, 1957

Witness my hand this 9th day of April, 1946

MARK R. KULP
State Reclamation Engineer.

Examination for Beneficial use

County Caribou

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

smaller pond spillway
same size

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 19791This proof is for Beneficial use In Water District No. _____

1. Name of applicant James E. Grasse, Afton, Wyoming
2. Source of water supply: Spring Creek, a tributary of Tygee Creek - To Stump Cr. - Snake R.
3. Location of point of diversion: Is in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 32
T. 7 S. R. 46 E. County of Caribou
4. Describe works as they exist, giving dimensions and capacities of same: Spring Creek is well named as there are multiple springs arising in the stream bed. At both the point of diversion and place of use, there are a number of small ponds, 5 to be exact, and 2 fairly large ponds constructed. Each of these ponds is equipped so that it can be drained through an outlet in the bottom at the front end of which is a vertical metal Calco gate, usually either 6" or 8" in diameter. Each pond has a spillway tailored to the amount of spring and creek water received by the pond. The largest pond has 2 spillways. 24" deformed culvert pipes have been used for the spillways. The smaller of the large ones has one spillway of the same dimensions. The embankment for the largest pond is 9' high by 3' wide by 270' long. There is approximately 2 acre feet of water impounded in the largest pond.
5. Water is used for: Fish Hatchery (Trout raising)
6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Place of use: SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 32, Township 7 South, Range 46 East, B. M.

See map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Snake River

Remarks: Mr. Grasse was not present at the time of this inspection, and I was accompanied by Mr. Wilde of the fish hatchery. For economical reasons perhaps, Mr. Grasse has been forced to take a position with the Wyoming Fish and Game Commission and at present is stationed at Cheyenne. His intention apparently is to set himself up in the fish rearing business as soon as he can do so. The ponds are in condition so that fish could be reared in same at present and may already have been as far as possible to determine, but is not being so used at the present time.

This examination was made on the 28 day of August, 1952.

(Signed) E. N. Humphrey Examiner.

RE: Permit No. 19791

Mr. James E. Grasse
2248 E. Pershing Blvd.
Cheyenne, Wyoming

Dear Mr. Grasse:

We wish to apologize if we have caused you any delay in business dealings that involves your Permit No. 19791. Delay in making the inspection as required by law in connection with your permit has been caused solely due to the extremely heavy load of inspections that has been thrust upon this department the last few years, mainly by the filings on wells.

We wish to assure you that your permit is in good standing, and if inspection verifies all of the affidavits and finds that everything is in compliance with Idaho State Law, you will, upon payment of a small fee, be issued the license after inspection is made.

Inspection will be made as soon as possible, probably sometime during July if possible. I cannot set the date definitely at this time, because it is contingent upon other inspections, but it will be made at a time when I am making inspections in the extreme Eastern portion of the State.

I trust this information will allay any concern that you may have had regarding this inspection.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
By

E. N. Humphrey
Deputy State Reclamation Engineer

H:fg

P. S. I will try and contact you at the time this examination is made so that arrangements may be made to show me the project, and will notify you a week or two in advance if possible.

MR. MARK CULP
STATE RECLAMATION ENGINEER
STATE OF IDAHO
BOISE, IDAHO

DEAR SIR:

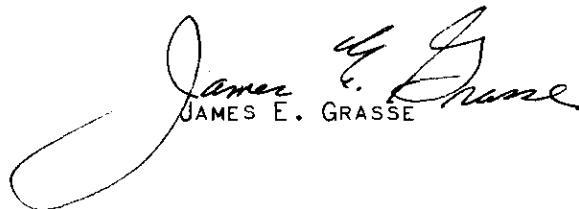

I AM WRITING WITH REGARD TO MY APPLICATION FOR A WATER
RIGHT, PERMIT NO. 19791.

PROOF OF BENEFICIAL USE WAS MADE BEFORE MR. COOK, NOTARY
PUBLIC OF AFTON, WYOMING, ON MARCH 30, 1951. I WAS LATER TOLD
BY YOUR OFFICE THAT AN INSPECTION WOULD BE MADE AND THAT A
FINAL WATER RIGHT PERMIT TO USE WATER FOR FISH HATCHERY PUR-
POSES WOULD BE ISSUED. I HAVE HAD NO FURTHER WORD ON THE MAT-
TER.

THE WYOMING GAME AND FISH COMMISSION HAS MADE AN INFOR-
MAL REQUEST TO LEASE MY PONDS TO SUPPLEMENT THE OPERATIONS
OF THE WESTERN WYOMING FISH HATCHERY LOCATED ONE-HALF MILE
SOUTH OF MY PONDS. NATURALLY I DO NOT FEEL FREE TO ENTER
INTO ANY AGREEMENT UNTIL I HAVE MY WATER RIGHT.

I WOULD APPRECIATE ANY ATTENTION YOU MAY GIVE TO THIS
MATTER.

VERY TRULY YOURS,

JAMES E. GRASSE

19791

April 2, 1951

Re: Permit No. 19791

Mr. James H. Grasse
Afton, Wyoming

Dear Mr. Grasse:

We have received from Mr. Carl Cook, Notary Public, the depositions of yourself and two witnesses, also Affidavit of Publication in the Soda Springs Sun, all submitted in proof of Beneficial Use under Permit No. 19791.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We cannot say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at
10:00 a. m. on the 30th day of
March, 1951, at Afton, County of
Lincoln, State of Wyoming, before
Carl Cook, Notary Public, proof
will be submitted of the applica-
tion to beneficial use of 3 cubic
feet per second of the waters of
Spring Creek in accordance with
the terms and conditions of Per-
mit No. 19791 heretofore issued by
the Dept. of Reclamation of the
State of Idaho.

The name and postoffice address
of the person or corporation hold-
ing said permit are James E.
Grasse, Box 322, Afton, Wyoming.
The use to which said water has
been applied is Trout Raising (Fish
Hatchery).

The amount applied to beneficial
use is three (3) Sec. ft.

The place where said water is
used SE 1/4 NE 1/4 Sec. 32 T7S R46E.

The name of the canal or ditch
or other works by which said wa-
ter is conducted to such place of
use is Spring Creek.

The right to take water from
such works is based upon Per-
mit No. 19791.

The source of supply from which
such water is diverted is Spring
Creek, a tributary of Tygee Creek

The date of priority which said
user is prepared to establish is
March 23, 1946.

Permit No. 19791

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. James E. Grasse, Residence at Afton, Wyoming, P. O. same.
Occupation is Biologist for Wyoming Game & Fish Commission.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. This is individual and personal

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. 19791, Priority of March, 23, 1946

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Spring Creek, a tributary of Tyree Creek. Point of diversion is in the SE¹NE¹ of Section 32, Township 7 South, Range 46 East of Boise Meridian, Idaho

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Seven dirt fills forming ponds, equipped with Calco Headgates for drains and corrugated steel overflows, all constructed in natural stream-bed, capable of carrying and controlling three second feet of water, or more. Place of use is the ponds formed by the several dams or fills, to be used as fish ponds.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is to be used for propagating and raising fish. Ponds and control works to be built in and used at the location of the natural springs and stream in the SE¹NE¹ of Section 32 Twp. 7, South Range 46 E. B. M. Not intended to be used for irrigation, and water will be returned to the natural stream after passing through the fish ponds.

19791

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Water to be impounded and used for fish ponds, and then permitted to continue in the natural channel.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Three cubic feet per second, or 3 second-feet

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the original applicant for Permit.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Three of the ponds have been used experimentally. Hatched out about 31,000 rainbow trout, made growth observations for one year then released all fish. Future use contemplate and include commercial use for fish raising.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

(Sign)

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Afton, County of Lincoln, State of ^{WYOMING} ~~Idaho~~, on this 30th day of March, A. D. 1951.,

BOISE, IDAHO

Permit No. 19791

Proof of Application of Water to Beneficial Use
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Carl A. Sperl. Age 57 years. Residence in Afton, Wyoming. Occupation Carpenter, and business man. Own the Sperl paint and Flower Shop in Afton.

Ques. 2. Are you acquainted with James E. Grasse, the holder of Permit No. 19791? How long have you known him and where does he reside?

Ans. Have known him about eight years. He lives in Afton, Wyo. now but on his ranch in Caribou County, Idaho in summer time.

Ques. 3. Have you read or heard read said Permit No. 19791, and are you familiar with its provisions and conditions?

Ans.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Water comes from springs, known as Spring Creek, a tributary of Tygee Creek. The point of diversion as I understand is in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 7, Twp. 7 South, Range 16 E. B. M.. The works consist of several dams, or fills of earth with head gates, and spill-ways, or over-flows. Water used in natural channel.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Three or four second feet, I should say. They works are probably adequate to handle all the water at any season.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. There are no pumps

19791

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is to be used for fish ponds, to propagate and raise trout, on the ground, in the natural course of the spring and stream. Not for irrigation

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. To be used for fish ponds only, and will return to the natural creek bed after passing through the ponds. Water has been used experimentally and 31,000 rain bow trout were hatched, and raised. I saw some in the ponds.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Not for irrigation

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I first saw the ponds in operation, and the fish hatch therein, in the summer of 1948, also later a time or two. I believe they are efficient to hold and control the entire flow of the springs

(Signed)

Carl G. Spert

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Afton, County of Lincoln, State of Wyoming, on this 30th day of March, A. D. 1951.

DEPARTMENT OF RECLAMATION
BOISE, IDAHO**

Permit No. 19791

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Claud H. Stauffer. Age 33 years. Residence, Afton, Wyoming.
Occupation: pharmacist, and owner of drug store in Afton.

Ques. 2. Are you acquainted with James E. Grasse, the holder of Permit No. 19791? How long have you known him and where does he reside?

Ans. Yes. I have known him three years. He resides in Afton, Wyoming. He
also has a ranch near Tygee Creek, in Caribou County, Idaho.

Ques. 3. Have you read or heard read said Permit No. 19791, and are you familiar with its provisions and conditions?

Ans. No

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Spring Creek, a tributary of Tygee Creek. The place of diversion in
as I am advised in the SE¹NE¹ of Sec. 32, Twp. 7 South, Range 16 East of Boise
Meridian. The works consist of several earth dams or fills, with their control
works, head-gates and overflow, all constructed at the springs and natural stream.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Probably all that the springs will ever produce, at least 3 second feet.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. No pumps are to be used.

19791

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is to be used for fish ponds, to propagate and raise fish for private use, as well as commercial sales. Not to be used for irrigation, but is apparently sufficient and satisfactory for cultivation and propagation of fish.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Not for power. Water has been used for hatching and rearing trout experimentally.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Not for irrigation

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have only seen the ponds and understand that they are probably sufficient for the purposes intended.

(Signed) *Claud H. Stauffer*

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Afton,

Mr. Carl Cook
Notary Public
Afton, Wyoming

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 19791

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On March 30, 1951, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Afton, Wyoming, before Carl Cook, Notary Public,

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.

Re: Permit No. 19791

Major James E. Grasse
Box 322
Afton, Wyoming

Dear Major Grasse:

We enclose Certificate of Completion of Works issued under your Permit No. 19791 for the diversion of three second feet of water from Spring Creek, with point of diversion in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 32, Township 7 South, Range 46 East, B.M. for fish hatchery purposes.

We also enclose Departmental Receipt No. 23072 for the \$5.00 fee paid in connection with this proof.

As stated in our former letter, we shall send Mr. Cook, Notary Public, the necessary forms to be used in making your Proof of Beneficial Use on March 30, 1951. At that time, you should appear before him with two disinterested witnesses who are familiar with the terms of the Permit and the work done thereunder for the purpose of executing the depositions.

Very truly yours,

Major James E. Grasse, O-315847
U. S. Naval Amphibious Base
Little Creek, Norfolk, Virginia

Dear Major Grasse:

We have issued Certificate of Completion of Works under your Permit No. 19791 in accordance with the affidavit which you submitted, but before transmitting it to you, would like to have your advice as to whether it should be sent to you at the Naval Base or to your home address in Afton, Wyoming.

We have completed your Notice of Beneficial Use Proof to be made under this Permit on March 30, 1951, before Carl Cook, Notary Public. The priority which can be established under this Permit is March 23, 1946.

We have sent a copy of the notice to the Soda Springs Sun, with instructions to publish it once a week for four consecutive weeks prior to that date and to send the Affidavit of Publication, together with statement of costs, to you at your Afton address.

If for any reason you will not be there at the time set for proof, you can have some member of your family or someone else act as your agent in making the proof.

We shall send Mr. Cook the necessary forms of deposition, consisting of one for the Permit holder and one for each of two witnesses, and at the time set, either you or your agent should appear before Mr. Cook with two disinterested witnesses who are familiar with the terms of your Permit and the work done thereunder for the purpose of executing the depositions.

Very truly yours,

(Date) February 15, 1961

(P. O.) Box 322 Dillon, Wyoming

TO THE STATE RECLAMATION ENGINEER:

Boise, Idaho.

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the Soda Springs Sun of Soda Spg., Idaho published in the county in which the works are situated.

James F. [Signature]

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

Engineer.

1979/

**NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE**

Notice is hereby given that at 10:00 A. M. on the 30th day of March, 1951,
at Afton, County of Lincoln, State of ^{Wyoming} ~~Idaho~~, before
Carl Cook (Notary) Notary Public, proof will be submitted of the
application to beneficial use of 3 cubic feet per second of the waters of Spring
Creek in accordance with the terms and conditions of Permit No. 19791
heretofore issued by the Dept. of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are.....

Jamie E. Grasse, Box 322, Afton, Wyoming

The use to which said water has been applied is Troul Raising (Fish Hatchery)

The amount applied to beneficial use is Three (3) sec. 11.

The place where said water is used (if for irrigation, give full and accurate description of the
lands irrigated) SE 1/4 NE 1/4 Sec. 32 T. 25 N. 46 E

The name of the canal or ditch or other works by which said water is conducted to such place of
use is Spring Creek

The right to take water from such works is based upon Permit No. 19791
~~19791~~

The source of supply from which such water is diverted is Unnamed Spring
which rises at Spring Creek, a tributary of Tyger Creek

The date of priority which said user is prepared to establish is March 23, 1946

Mark B. Kuep

State Reclamation Engineer.

19791

February 7, 1951

Re: Permit No. 19791

Mr. James E. Grasse
Box 322
Afton, Wyoming

Dear Mr. Grasse:

We acknowledge receipt of your letter of February 6, 1951, enclosing Proof of Completion of Works under Permit No. 19791, together with your check for the \$5.00 fee in connection therewith.

Question 3 of your affidavit describes the point of diversion as in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 32, Township 7 South, Range 46 East, B.M., whereas the Permit and the map accompanying same show it in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of said Section.

Also, Question 7 fails to state the quantity the works are capable of conducting to the place of use.

We return your Affidavit for the above corrections.

Before making final proof or Proof of Beneficial Use, the law requires publication once a week for four consecutive weeks in the county in which the water is located. This notice should be made in duplicate on Form 10 enclosed, setting the time and place and naming the Notary Public before whom the proof is to be made. The time, of course, should be set sufficiently far ahead to allow for four weeks publication and the proofs may be made at any place convenient for yourself and your two witnesses.

Both copies of Form 10 to be returned to this Department together with Form 11 which is your authorization for us to have the notice published in the designated county newspaper at your expense. We shall then send a copy of the notice to the newspaper with instructions in regard to publishing.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. James E. Grasse

Afton, Wyoming

Boise, Idaho **February 1, 1951**

Dear Sir:-

Under the terms of your permit No. 19791-----you are required to complete your diversion works on or before April 2, 1951----- I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

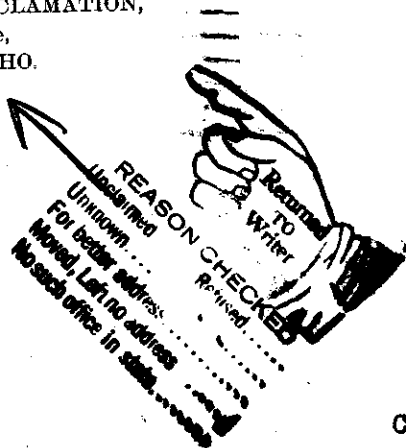

Yours truly,

MARK R. KULP

State Reclamation Engineer
