RE: License 17805

Clyde W. Stock, D.D.S.
Freedom, Wyoming

Dear Dr. Stock:

We have a licensed right, License 17805, for the two springs located on property purchased from Anna Snyder. This license was issued to George Snyder, for domestic and stock water in the amount of .04 c.f.s. with the points of diversion in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ and SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 8, T 5 S., R 46 E., B.M. Therefore, you do not have to file on these springs on your own property. If you intend to use the springs located on Forest Service land you will have to file on these.

We are enclosing an application for permit in case you decide to file on the other two springs not presently licensed and on Forest Service land.

If we can be of further help in this matter please feel free to contact us.

Very truly yours,

Dear Mr. Higginson,

We are interested in the water-rights to the two springs above the ranch we bought from Anna Snyder.

These springs are on the Forest Service.

There are also two springs on the ranch. Do we need to file for water-rights on our own land, or is it automatic by owning the land?

Our land is located:

The west half of the Southeast Quarter of the East half of the Southwest Quarter of Section 8, in township 5 South of Range 46, East of the Boise Meridian containing 160 acres, in the County of Caribou, State of Idaho.

The Springs were to the South of our land, on the Forest Service.

Thanks alot for your help,

Dear Sir:-

We enclose Receipt No. 17286 for the \$5.00 fee in connection with beneficial use proof under the above numbered permit, sent in reply to our letter of January 13th.

On proceeding to make out your license, we find that there is one part of your beneficial use proof which is incomplete, in that no affidavit has been received from the newspaper which published the notice of intention to make proof.

A clipping was attached to the depositions showing that the notice was published in October, 1938, but it is necessary to have an affidavit from the Soda Springs Sun in order to make your proof complete.

No doubt this affidavit can be obtained by writing the newspaper, and we suggest that you write them at once in regard to it. As soon as this affidavit reaches us, the license will be issued promptly.

Dear Sir:

We have received the report of our Field Engineer on examination for beneficial use under the above numbered permit.

However, this report shows the points of diversion as being in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ and SW $\frac{1}{4}$ SE $\frac{1}{4}$, of Section 8, Township 5 South, Range 46 East, B.M., whereas your application and permit describe the points of diversion as in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ and SW $\frac{1}{4}$ SE $\frac{1}{4}$.

If your point of diversion has been changed, you may execute the enclosed Affidavit for Change of Point of Diversion, and return to this office.

Upon receipt of your reply, and the statutory fee of \$5.00 in connection with this beneficial use proof, a License will be issued to you.

Mr. George Snyder

Dear Sir:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses, and the affidavit of proof of publication from the newspaper, all in connection with beneficial use proof under the above numbered permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since the department has but one field engineer who makes examinations all over the state. However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination so that you may show him over the grounds. After his report is on file in this office you will be further notified as to fees due before the issuance of your license.

Permit No. 17805

Dear Sir:

On Sept. 9, 1938, George Snyder with two witnesses appeared before me to make final proof on water according to your notice which I received. After taking their depositions I asked for the notice of publication. Mr. Snyder stated that it was published in the Soda Springs Sun, but as he had no copy of it I wrote to the Editor for a copy but received no reply. After waiting for several days I drove out to Soda Springs and found that the editor was in the hospital and had been there for a month or more and the man in the printing office knew nothing about receiving a notice for publication.

After looking through several of the back papers we concluded that the notice had never been published.

I am holding their papers waiting for your further instructions.

Dear Sir:

This will acknowledge receipt of notice in duplicate for publication in connection with beneficial use proof, and also your authorization to have the notice published in the Soda Springs Sun, Soda Springs, Idaho, all in connection with Permit No. 17805.

Inasmuch as a four weeks publication of the notice is required prior to the date set for proof, we changed the date for proof from August 3rd to September 9th. If this date does not meet with the convenience of you and Mr. Jenkins, please notify us, as well as the newspaper, at once. A copy of the notice has been mailed to the newspaper with instructions to publish it once a week for four consecutive weeks prior to September 9th, 1938. About ten days prior to this date depositions, consisting of one for the holder and one each for two witnesses, will be mailed to L. I. Jenkins, Notary Public, Freedom, Wyoming, so that he will have them in ample time for the proof.

On the date designated you should appear at Mr. Jenkins' office with two disinterested witnesses who are familiar with the terms of the permit and the works constructed thereunder, for the purpose of executing the depositions..

Boise, Idaho, **June 1, 1938**

Dear Sir:—

Under the terms of your permit No. **17805** you are required to complete your diversion works on or before **August 17, 1938**. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00 a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Dear Sir:

In response to your letter Dated August 25th, we are enclosing herewith regular form of affidavit for offering proof of completion of works under a permit claiming less than 6.4 second feet of water.

As you know, proof of completion of works will not be due under this permit until August 17, 1938. However, there is no objection to your offering proof at the present time, since the works have been completed. Will you kindly go before a Notary Public and have this instrument properly executed and return it to this department with a fee of \$5.00. Immediately upon its receipt, accompanied by this fee, assuming that it is in proper form, your certificate of completion of works will be issued.

Dear Sir:

We received your corrected application on August 7, 1933 and it is now in proper form with one exception. You failed to say on whose land the springs from which you intend to appropriate water are located. You eliminated one spring in the filing which you said was located in the National Forest Reserve and could not be included in the filing, but did not say where the other two springs are located. As we previously explained to you, if these springs are located on leased Government land or State land or lands belonging to some one other than yourself, you must have the affidavit which appears on the 3rd page of the application properly executed by the owner or the lessee as the case may be of the said land, before your application can be approved. If the springs are located on your own land or unleased Government or State land, a statement from you to that effect will suffice to waive this requirement.

There is not sufficient time to again return the application and we are, therefore, holding it awaiting a reply from you. The application should be fully completed by ~~September~~ ^{August} 13th, so it is of the utmost importance that you reply at once.

Boise, Idaho.

Dear Sir:

Inclosed you will find number and description of springs
filed on on June 14, 1933.

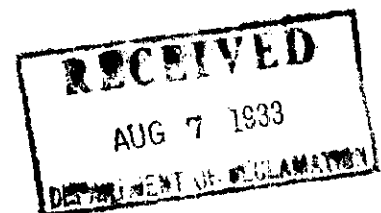

Spring No. 1 is located in South East $\frac{1}{4}$ of Southwest $\frac{1}{4}$.
Section eight. township five south. R. 46E. BM.

Spring No 2 is located in SW $\frac{1}{4}$ of SE $\frac{1}{4}$. Section 8. Township
5S. R. 46E. BM.

I am unable to file on this spring on the Caribou National
Forest on account of the spring being used as a watering place for the
permitted stock that graze on this part of the forest.

There is a minor error in my address. I live in Freedom,
Idaho. but my Post Office is in Freedom, Wyo.
