JAN 09 1995

Department of Water Resources

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 27-07535 Telephone No. 785-0768

2. Name(s) of Permit Holder(s): Carl R. COOPER
1111 E Airport, Blackfoot Id 83221

3. Mailing Address: _____

4. Source of Water: Groundwater If GROUNDWATER (well), Date Drilled: mo. June / yr. 93

a. Well Driller: Lamar Barrus Drilling Permit Number: _____

b. **OPTIONAL:**
Pump Horsepower: 60 Pressure (psi): 70 Dynamic pumping level (ft): 45'

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): _____ Stockwater (No. and type of stock): _____

Irrigation (No. of acres): 93 Other: _____

6. Total rate of diversion and/or volume for which proof is submitted: 1.86 cfs OR _____ acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required? Yes _____ or No ✓
Has the measuring device been installed? Yes _____ or No ✓

Flow Measurement Port: Is a flow measurement port required? Yes ✓ or No _____
Has the measurement port been installed? Yes _____ or No ✓

8. Fee Enclosed: \$ 125⁰⁰ (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the permit:

Name: Same as Above Telephone Number: _____

Address: _____

RECEIVED
FEB 13 1995

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder: Carl R. Cooper Date: 12-23-1994
(include your title, if on behalf of company or organization)

SUBMITTED AND IS NOT PAST DUE)

**ORDER FOR TEMPORARY
STAY OF DEVELOPMENT AND
NOTICE OF FORMAL PROCEEDINGS**

The Director of the Idaho Department of Water Resources (Director), having responsibility for the administration of the appropriation of the water of the state of Idaho, the protection of rights to the use of water within the state, the protection of the public interest in the waters of the state and the conservation of the water resources of the state enters the following Findings of Fact, Conclusions of Law and Order for temporary stay; and provides the following notice of formal proceedings:

FINDING OF FACTS

1. On May 15, 1992, the Director issued an order establishing a moratorium on the processing and approval of applications for permit to appropriate water from all surface and ground water sources upstream from the USGS Gauge on the Snake River near Weiser, Idaho. On April 30, 1993, the Director issued an Amended Moratorium Order covering the Eastern Snake River Plain Aquifer. The 1994 session of the Idaho Legislature enacted section 42-1806, Idaho Code, requiring that the moratorium relating to the the Eastern Snake River Plain area shall continue in effect until December 31, 1997.

2. The state of Idaho has experienced seven (7) recent years of drought conditions resulting in lowered ground water levels and decreased discharge from surface water sources. The Idaho Legislature has authorized a study to examine the implications of these changes and the relationships between surface and ground water resources. The study is expected to be completed in approximately two (2) years.

3. Delivery calls have been made by the holders of senior-priority surface and ground water rights against the holders of junior-priority ground water rights from the Eastern Snake Plain Aquifer which could result in the curtailment of diversion and use of water under junior-priority ground water rights including rights which might otherwise be developed under permits which are the subject of this order and notice.

RECEIVED
FEB 13 1995

CONCLUSIONS OF LAW

1. Section 42-1805, Idaho Code, provides in part as follows:

In addition to other duties prescribed by law, the director of the department of water resources shall have the following powers and duties:

...

(7) After notice, to suspend the issuance or further action on permits or applications as necessary to protect existing vested water rights or to ensure compliance with the provisions of chapter 2, title 42, Idaho Code, or to prevent violation of minimum flow provisions of the state water plan.

2. Water Appropriation Rule 55.02. of the Department of Water Resources (IDAPA 37.03.08055.02) provides as follows:

02. PERMITS

a. To the extent a permit has not been developed, the director may cancel, or modify permits for which proof of beneficial use has not been submitted in a designated geographical area as an extension of Rule 55.01.

b. Notice of the director's action to cancel or modify permits shall be by:

i. Summary Order served by certified mail upon the affected permit holders in the designated area.

ii. Publication of the order for three (3) consecutive weeks in a newspaper or newspapers of general circulation in the area.

c. Objections to the director's action shall be considered under the department's adopted rules of procedure and applicable law.

3. Rule of Procedure 104 of the Department of Water Resources (IDAPA 37.01.01104) provides in part as follows:

Formal proceedings may be initiated by a document from the agency informing the party(ies) that the agency has reached an informal determination that will become final in the absence of further action by the person to whom the correspondence is addressed, provided that the document complies with the requirements of Rules 210 through 280.

4. Protection of prior rights to the diversion and use of surface and ground water of the Eastern Snake River Plain Aquifer

RECEIVED
FEB 13 1995

and the Snake River may require that the further development of water under existing undeveloped permits be suspended indefinitely to assure that the effects and conditions caused by drought, changes in irrigation practices and resulting aquifer recharge, and diversion and use of ground water from the aquifer under prior established water rights are properly evaluated.

5. Section 42-204, Idaho Code, provides in part as follows:

Every holder of a permit which shall be issued under the terms and conditions of an application filed hereafter appropriating twenty-five (25) cubic feet or less per second must, within one (1) year from the date upon which said permit issues from the office of the department of water resources, commence the excavation or construction of the works by which he intends to divert the water, and must prosecute the work diligently and uninterruptedly to completion, unless temporarily interrupted through no fault of the holder of such permit by circumstances, over which he has no control.

ORDER

IT IS THEREFORE, HEREBY ORDERED as follows:

1. The owners of all permits to appropriate ground water within the boundaries of the Eastern Snake Plain Aquifer, as that area is defined by Rule 50 of the rules for Conjunctive Management of Surface and Ground Water Resources (IDAPA 37.03.11), shall, effective immediately upon receipt of this order, temporarily stop further development under the permit until the Director authorizes further development.

2. The owners of all permits for appropriation of ground water within the boundaries of the Eastern Snake River Plain Aquifer shall on or before February 1, 1995, either:

A. File proof of beneficial use to cover the extent of diversion and beneficial use of water that has been accomplished prior to receipt of this order; or

B. File a response with the Director in this proceeding to satisfy the requirements of either subparagraph 1) or 2) below:

1) Document with supporting information that a "substantial investment" has been made, prior to receipt of this order, in facilities to divert and beneficially use water under the permit that merits the granting of additional time to complete all or part of the project. Substantial investment means an actual expenditure or written commitment for development of the project which meets the following requirement

RECEIVED
FEB 13 1995

- a) The actual expenditure or written commitment for the diversion and related equipment must equal or exceed the amount of fifteen thousand dollars (\$15,000) or exceed twenty five (25) percent of the estimated cost of the system for diverting and beneficially using the water, whichever is less; and
- b) The actual expenditure or written commitment must have been made before receipt of this order.

2) Request an indefinite stay in the development period for the project, or any part of the project for which a substantial investment has not been made, until the conditions that resulted in this order have been alleviated if such should ever occur. Upon approval of any such stay, no further development is to occur until such time as the department has issued an extension of time setting a date for completion of the project.

3. Failure to submit either proof of beneficial use or a satisfactory response shall result in cancellation of the permit without further notice.

4. Before receiving approval for either additional time to complete a project under subparagraph 2.B.1) or a stay under subparagraph 2.B.2) above, the owner of the permit shall provide information to demonstrate compliance with the provisions of Sections 42-204, Idaho Code, with respect to commencing and diligently proceeding to develop the project authorized under the permit.

5. This order does not prevent the Director from reviewing continued development of a permit on a case-by-case basis if,

- a. The Director determines that protection and furtherance of the public interest justifies continued development of a permit; or
- b. The Director determines that continued development and use of water will have no effect on prior water rights because of its location, insignificant consumption of water or mitigation provided by the permit holder to offset injury to other rights.

Dated this 9TH day of NOVEMBER, 1994.

R. KEITH HAGGINS
Director

FEB 13 1995

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

REQUEST FOR EXTENSION OF TIME

TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of water right under the provisions of Section 42-204, Idaho Code.

Permit No. 27-07535

Name(s) of Permit Holder: CARL R COOPER

Mailing Address: 1111 E AIRPORT BLACKFOOT ID 83221

Date Proof is Due June 1 1994 Telephone No. 785-0768

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

WELL DRILLER IS IN PROCESS OF DRILLING DEEPER FOR
NEEDED WATER SUPPLY

Costing \$ 15⁰⁰

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Permit holder(s) request an extension to SEPTEMBER 1, 1994.

FEE: \$15.00

02S	35E	34	NENE 40	NWNE 20	SENE 17	77
		35	NWNW 16			16

Total number of acres irrigated: 93

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before June 1, 1994.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.
5. Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
6. The right to the use of water acquired under this permit shall not give rise to any right or claim against the holder of a senior right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
7. The Director retains jurisdiction of the permit and any license subsequently issued to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
		Fuji				

2. Measurements: 8" .15 Thick Pivot observed 880 gpm
6" .058 Alum observed 177 gpm
3 .049 Alum observed 136 gpm
1193 gpm

E. NARRATIVE/REMARKS/COMMENTS

Well → Pump → Pivot (8 Towers) and handlines (15 pipe) + an additional 1/4 mile line was turned on before taking measurements.

Three flow readings were taken to get total system flow.

1 for the pivot 27-7535

1 for 3 short handlines 27-7535 A

1 for a long handline 27-7535 B

System pressure was at 50 psi during flow measurements.

See aerial for POU info. SE corner is out as indicated on map.

A small acreage of approximately 14 acres is watered by a wheel line from this POD a couple times each summer. See aerial photo.

Have conditions of permit approval been met? ☒ yes ☐ no

F. FLOW CALCULATIONS

____ Additional Computation Sheets Attached

Measured Method:

$$\text{CFS } \frac{1193 \text{ gpm}}{448.83} = 2.66 \text{ cfs} \quad \text{permit limit is } 1.86 \text{ cfs}$$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 93 \times 4 = 372$$

$$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 1.86(214)(1.9835) = 789 \text{ AF}$$

$$V = \text{Smaller of } V_{IR} \text{ and } V_{DR} = 372$$

2. Volume Calculations for Other Uses:

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
IRR	4/01	10/31	1.86 cfs	372 AF/A
Totals:			1.86 cfs	372 AF/A

2. Recommended Amendments

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 27-07535

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that one of the conditions of your water right permit requires that the permit holder install a flow measurement port (refer to condition # 4 of your permit). This condition must be complied with before the license exam, or you can request in writing, a waiver of the condition.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls, at (208) 525-7161.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

RE: Permit No. 27-07535

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to June 1, 1995. Please note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed since the department will not be able to grant additional extensions based on due diligence.

If you have any questions or if I can be of any further assistance, please feel free to contact this office.

PROOF DUE NOTICE

RE: PERMIT NO. 27-07535

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1994.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 27-07535

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of of measuring device options.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

You should be aware that you are located within a drainage basin where surface water diversions are regulated by a watermaster. It is possible that diversion of groundwater under your permit may cause a reduction of surface water flow. Siting your well as far as possible from surface water channels and

MICROFILMED

JUL 01 1991

so that groundwater tributary to surface water flows are not diverted will reduce the potential for the watermaster to regulate your water use.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

COMMENTS

11-Apr-1991

CARL R. COOPER
1111 E. AIRPORT
BLACKFOOT ID 83221

RE: Application No. 27-7535

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in MORNING NEWS on April 18 & 25, 1991. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor
