RE: Permit No. 27-07517

Dear Permit Holder:

Returned is the Proof of Beneficial Use form submitted to this office in connection with the above referenced permit. Unfortunately it is unacceptable as filed. Condition #4 of your permit to appropriate water states you must install a flow measurement port or other device to measure the rate of diversion. It does not appear you have complied with this condition.

If you have installed a flow measurement port, please indicate this on the proof. If you have not installed the port, you may return the proof form and request, in writing, a waiver of the condition. I will hold the application for 30 days to give you time to submit the required information.

If you have any questions, or if I can be of any further assistance, please feel free to contact me.

Sincerely,

PROOF DUE NOTICE

RE: PERMIT NO. 27-07517

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

RE: Conflict of Permit to Appropriate Water No. 27-7547 with
Permit No. 27-7517 Owned by Kathleen & T. Lynn Evans

Dear Permit Holders:

On February 12, 1991, the Department of Water Resources approved permit to appropriate water no. 27-7517, granting Kathleen and T. Lynn Evans the right to drill a well in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 9, T2S, R6E, for the irrigation of 73 acres. In October 1991, the Department approved permit no. 27-7547, granting Elcy Bleazard and Tom Bartauskys the right to divert 1.54 cfs from a well located in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 16, T2S, R36E, for the irrigation of 77 acres.

I have enclosed with this letter maps attached to the applications for permit, which locate the proposed points of diversion. After comparing the locations of the proposed points of diversion, I have determined that the wells as proposed will be in very close proximity to each other.

Please be advised that the Evans permit has an earlier date of priority. If your well is drilled too close to the Evans well, it could interfere with the Evans well, which might prompt legal action, and force curtailment of pumping from your well. Prior to drilling your well, I suggest that you coordinate the location of it with Evans, and also attempt to locate it as far as possible from the Evans well.

Respectfully,

GARY SPACKMAN, Manager
Water Right Permits Section

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 27-07517

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water.

RECEIVED

MAR 1 1991

Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

RE: Application No. 27-07517

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in Morning News on NOVEMBER 15 & 22, 1990. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
