NOTICE OF CHANGE OF WATER RIGHT OWNERSHIP

Department of Water Resources
Eastern Region

Please print or type. Attach pages with additional information. Instructions are on the back of this page.
Incomplete forms will be returned.

1. Water Right No(s): 27-07540, 27-07499, 27-07506, 27-07417, 27-07500,
27-07505, ~~27-07539~~, 27-07501, 27-07503, 27-07504, 27-07502

- Adjudication Claim No(s): N/A

2. The following REQUIRED information must be submitted with this form:
 - a. A copy of the most recent DEED, TITLE POLICY, CONTRACT OF SALE or other legal document indicating your ownership of the property and water rights or claims in question, WITH ATTACHED LEGAL DESCRIPTION. See attached Narrative and Attachments A.1. and A.2.
 - AND
 - b. PLAT OF PROPERTY or SURVEY MAP for parcel of ten acres or less. (These are usually attached to your deed or on file with the county.) N/A. Property conveyed exceeds ten acres.
 - OR
 - c. For water rights or adjudication claims involving ten or more irrigated acres, a USDA Farm Service Agency AERIAL PHOTO with irrigated acres outlined and point(s) of diversion clearly marked. N/A. Rights are for non-irrigation uses.

3. Name and Address of Former Owner/Claimant Rhodia Inc.
259 Prospect Plains Road, Cranberry, NJ 08512

4. New Owner/Claimant(s) Nu-West Industries, Inc.

New Mailing Address 3010 Conda Road

City, State and ZIP Code Soda Springs, ID 83276

New Telephone Number 208-547-4381

5. Date you acquired the property January 29, 1998

6. If you have acquired only a portion of the former owner's property, IDWR may need to split the water right(s) or adjudication claim(s). If this applies describe in detail your portion of each water right or adjudication claim in the spaces below. If necessary, attach additional pages. N/A

Number of acres you irrigate _____ Number and type of stock _____

Diversion rate in CFS _____ Number of homes _____ Other uses _____

6. If a water right or adjudication claim is being split and you are not sure how to identify your portion of the original right or claim, please contact the nearest IDWR office for assistance.

7. Signature of New Owner Or Claimant(s) Nu-West Industries, Inc. by: 

(Corporations or other organizations must submit a list of directors and/or officers demonstrating authority to sign form.)
See Attachment B

8. For Snake River Basin Adjudication Claims: Please attach a Notice of Appearance completed by your attorney, if you wish IDWR to correspond with him or her for all matters related to your claims.

Refer to 27-07417 for ownership change support documentation. Ret 4-28-99

WATER RIGHT LICENSE

WATER RIGHT NO. 27-07506

Priority: February 8, 1990

Maximum Diversion Rate:

0.42 CFS

This is to certify, that RHONE POULENC
PO BOX 728

SODA SPRINGS ID 83276 has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated February 8, 1990; and has submitted Proof of Beneficial Use on January 29, 1991. An examination indicates that the works have a diversion capacity of 1.530 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
INDUSTRIAL	01/01 to 12/31	0.42 CFS	

LOCATION OF POINT(S) OF DIVERSION:

NWNE , Sec. 22, Township 07S, Range 43E
SWNW , Sec. 26, Township 07S, Range 43E
SENE , Sec. 26, Township 07S, Range 43E
SENE , Sec. 27, Township 07S, Range 43E
CARIBOU County

PLACE OF USE: INDUSTRIAL
TWN RGE SEC
07S 43E 14 SWSW

CONDITIONS OF APPROVAL AND REMARKS

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. The use of water under this right shall not give rise to any claim against the holder of a senior water right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
5. The Director retains jurisdiction of the right to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.
6. Water used under this right when discharged into a natural channel or subsurface system shall meet Idaho Water Quality Standards.
7. When water used under this right is discharged into the natural channel, settling ponds must be maintained which are capable of reducing the silt load to such a level that the quality of water will not be impaired for other beneficial uses.

AUG 07 1996

State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

WATER RIGHT NO. 27-07506

CONDITIONS OF APPROVAL AND REMARKS

8. Use of this right with Right 27-07417 is limited to a total combined annual diversion volume of 67.5 af.
9. Two points of diversion located in SWNW, S26, T7S, R43E.
10. Industrial use is for phosphate rock washing plant.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code, Witness the seal and signature of the Director, affixed at Boise, this 29TH day of July, 1996.

Dear Water Right Holder(s):

The Department is in receipt of the correspondence changing the ownership of the above referenced water rights to you. We have modified our records to reflect this change in ownership and computer-generated reports are enclosed.

Just a reminder, because of a law that went into effect July 1, 1996, all water right owners are required to report change of address or ownership to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee to the water right owner. If you have other water rights that haven't had the ownership updated please contact the department as soon as possible.

If you have any questions regarding this matter, please feel free to contact me at (208) 327-7947.

Sincerely,

JIM JOHNSON, Manager
Water Right Permits Section

MEMORANDUM

TO: Files 27-07417 and 27-07506

FROM: Sharla

DATE: July 23, 1996

RE: Recommendation Adjustment(s)

The final license recommendations for Rights 27-07417 and 27-07506 are based on the following.

C. DIVERSION AND DELIVERY SYSTEM

1. Point(s) of Diversion - NWNE, S22, T7S, R43E (#1)
SENE, S27, T7S, R43E (#7)
SWNW, S26, T7S, R43E (#8)
SWNW, S26, T7S, R43E (#5)
SENW, S26, T7S, R43E (#6)

The permits were amended in 1991 to add points of diversion. The legal descriptions shown on the amendments are the same as shown above. The examiner has indicated the location of each well by number on the map attached to the field examination report and the map shows 2 points of diversion in the SWNW, S26 and one in the SENW of the same section. These locations match the amendments. The examiner indicated on the back of the exam report that no amendments were required, further indicating that one well in the SENW is correct as on the map.

The capacity to be listed for both of these licenses is based on documentation dated 12/13/90 located in file 27-07506 (Water Well Summary for Rhone-Poulenc Washplant). The 5 wells are listed with their respective pump capacities and the estimated flow rates delivered by each. The pump capacities listed in this document were used as the capacity of the system listed under both licenses and a remark limiting the two rights to that capacity and a total combined annual volume of 67.5 af will be added to the second license, 27-07506.

Examiner: Don Simpkins
Exam date: March 30, 1995

Conditions of Approval:

- 048 - The use of water under this right shall not give rise to any claim against the holder of a senior water right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
- 049 - The Director retains jurisdiction of the right to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.
- 09E - Water used under this right when discharged into a natural channel or subsurface system shall meet Idaho Water Quality Standards.
- R06 - When water used under this right is discharged into the natural channel, settling ponds must be maintained which are capable of reducing the silt load to such a level that the quality of water will not be impaired for other beneficial uses.

Remarks:

The total combined rate of diversion under this right and Right 27-07417 shall not exceed 1.53 cfs nor a combined annual diversion volume of 67.5 af.
Two points of diversion located in SNNW, S26, T7S, R43E.
Industrial use is for phosphate rock washing plant.

RE: PERMIT NO. 27-07506

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Drilling Permit No. unknown
Drilling Date: September 1989-September 1990
Proposed Location: 7S, 43E, Section 22, NW1/4,
NE1/4.

In the department's review of the proof of beneficial use submitted in connection with the above referenced permit, the department was not able to locate a well log which should have been submitted 30 days after completion of the construction of this well.

While it is possible that you have submitted the log, we have been unable to locate it. Please supply me with another copy. Also, please supply me with a copy of the drilling permit as well. Please address any correspondence directly to me. Your response should be received within 20 days of the date of this mailing.

This information is needed before the department can proceed further with the examination of the permit holders system and the eventual issuance of a license of water right.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

FROM: Karen Gustafson

TO: Gary Funderburg

Well logs for 27-90-E-051 & 27-90-E-052.

Glen has advised me to accept the proof of Beneficial Use. The Permit Holder has complied with all of his conditions & requirements. Since I have already forwarded all the pertinent info, this memo is only to confirm that you will pursue the well logs with Vaughn Thomas.

1/23/92

Thanks, Karen

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is Approved

Date 3 Jan 1991

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

Re: Permit No. 27-07506

Dear Permit Holder:

On November 12, 1991 I contacted you concerning a well log on the above mentioned permit. On December 3, 1991, I contacted Thomas Drilling Inc. concerning the same well log.

As of this date, we have not received the well log from Mr. Thomas. The Department will continue to pursue the well log with Mr. Thomas. However, until we receive the log, we cannot process your proof of beneficial use and begin the process to license your permit.

Your proof of beneficial use has been put on hold until such time that we acquire the well log from Thomas Drilling Inc.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,
Karen L. Gustafson
Karen L. Gustafson
Secretary/Records Manager

Mr. Johnson: I received your letter and information today. While it was very helpful in locating the drilling permits, we still do not have copies of the well logs. The driller is required to file these within 30 days of the date of the drilling. We will continue to pursue these logs with Mr. Thomas. However, I still cannot begin the licensing process until the logs are received.

*Any questions - please call
Karen*

RE: Permit No. 27-07506

Karen:

In response to your letter of November 12, 1991, I am enclosing the information that I have concerning Permit No. 27-07506.

Last year, I made contact with Mr. Dennis Dunn of your Eastern Regional Office concerning our well drilling program at our ore beneficiation facility north of Soda Springs, Id. During our meeting, he suggested that we amend our existing application and drilling permit to encompass what we were planning at our location. Since more than one well (originally 27-7417) is required to supply water for our application for water rights at the plant, he suggested that we apply for extra drilling permits at the locations where wells are to be located. We enclosed a check for \$800 to cover the cost of the additional well drilling permits and \$40 to cover the costs of additional applications to appropriate water. (Please refer to pages 1-6 of the enclosed information).

On December 13, 1990 I wrote a Summary of Well logs for all the water wells drilled for the beneficiation plant. The summary includes hole depths, diameters, casing sizes, pump sizes, flow rates and pipe sizes. The locations of the wells are shown on the attached map. (Please refer to pages 7-9).

I trust that this is the information that you are looking for. If you have any questions, please feel free to call me at 547-2183.

APPLICATION FOR AMENDMENT OF A PERMIT

To change the point of diversion and/or the place of use.

Comes now Rhone Poulenc Phone (208) 847-2185

of (address) PO Box 160 Montpelier Id 83254, and represents to the
Director of the Idaho Department of Water Resources:

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho
No. 27-7506, and requests that the permit and permit map be changed as follows:

1. Point of diversion: NW 1/4 NE 1/4, Section 22, Township 7S, Range 43E, B.M.,
County of Caribou. Other points of diversion: SE 1/4 NW 1/4 Sec 26 7S 43E,
2 wells SW 1/4 NW 1/4 Sec 26 7S 43E, SE 1/4 NE 1/4 Sec 27 7S 43E,
all in Caribou County

2. Period and nature of use: (irrigation, domestic, stockwatering, industrial, etc.)

Amount 1.12 for Industrial purposes from Jan 1 to Dec 31 (both dates inclusive)
(cfs or acre feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre feet per annum)

3. Place of use or land to be irrigated:

WATER WELL SUMMARY FOR RHONE-POULENC WASHPLANT

WELL #1

Well Location: NW1/4, NE1/4, Sec. 22; T 7 S R 43 E
 Total depth of hole: 302 Feet
 Diameter of hole: 16 Inches
 Diameter of casing: 16 Inches
 Pump Depth: 260 Feet
 Pump Capacity: 75 GPM
 Pump pipe Diameter: 3 Inches
 Estimated flow rate (GPM): 40 GPM
 Remarks: Tight Formation - little water available.

WELL #2

Well Location: NE1/4, SW1/4, Sec 22; T 7 S R 43 E
 Total depth of hole 350 Feet
 Diameter of hole: 7 7/8 Inches
 Diameter of casing: 8 Inches
 Pump Depth: N/A
 Pump Capacity: N/A
 Pump pipe Diameter: N/A
 Estimated flow rate (GPM): N/A
 Remarks: Hole Abandoned - Cemented to Surface

WELL #3

Well Location: NE1/4, SW1/4, Sec 22; T 7 S R 43 E
 Total depth of hole: 205 Feet
 Diameter of hole: 8 Inch
 Diameter of casing: N/A
 Pump Depth: N/A
 Pump Capacity: N/A
 Pump pipe Diameter: N/A
 Estimated flow rate (GPM): N/A
 Remarks: Hole Abandoned - Cemented to Surface

WELL #4

Well Location: NE1/4, SW1/4, Sec 22; T 7 S R 43 E
 Total depth of hole: 454 Feet
 Diameter of hole: 8 Inch
 Diameter of casing: N/A
 Pump Depth: N/A
 Pump Capacity: N/A
 Pump pipe Diameter: N/A
 Estimated flow rate (GPM): N/A
 Remarks: Hole Abandoned - Cemented to Surface

WELL #5

Well Location: SW1/4, NW1/4, Sec 26; T 7 S R 43 E
 Total depth of hole: 414 Feet
 Diameter of hole: 20 Inch
 Diameter of casing: 250 Feet 16 Inch
 Pump Depth: 250 Feet
 Pump Capacity: 200 GPM
 Pump pipe Diameter: 4 Inch
 Estimated flow rate (GPM): 125 GPM
 Remarks: Sand Screened And Packed from 250 to 414 Feet

REPRODUCED
 FEB 07 1992

WELL #6

Well Location: SE1/4, NW1/4, Sec 26; T 7 S R 43 E
 Total depth of hole: 80 Feet
 Diameter of hole: 7 7/8 Inch
 Diameter of casing: 6 Inch
 Pump Depth: 60 Feet
 Pump Capacity: 60 GPM
 Pump pipe Diameter: 3 Inch
 Estimated flow rate (GPM): 60 GPM
 Remarks: Water located in chert formation. Casing collapsed at 60 Feet.

WELL #7

Well location: SE1/4, NE1/4, Sec 27; T 7 S R 43 E
 Total depth of hole: 140 Feet
 Diameter of hole: 6 Inch
 Diameter of casing: 6 Inch
 Pump Depth: 115 Feet
 Pump Capacity: 100 GPM
 Pump pipe Diameter: 4 Inch
 Estimated flow rate (GPM): 100 GPM
 Remarks: Located in Sandstone

WELL #8

Well Location: SW1/4, NW1/4, Sec 26; T 7 S R 43 E
 Total depth of hole: 432 Feet
 Diameter of hole: 300 Feet 9 1/2 Inch, 132 Feet 7 7/8 Inch
 Diameter of casing: 300 feet 8 Inch, 132 Feet 6 Inch
 Pump Depth: 250 Feet
 Pump Capacity: 250 GPM
 Pump pipe Diameter: 4 Inch
 Estimated flow rate (GPM): 225 GPM
 Remarks: Slotted Casing - No Screens.
 Produces Large Volumes of Sand After Pump
 Shutdown - Then Sand Problem Diminishes After
 Pumping Resumes For Several Hours.

Drilling Permit No. unknown
Drilling Date: September 1989-September 1990
Proposed Location: 7S, 43E, Section 22, NW1/4,
NE1/4.

In the department's review of the proof of beneficial use submitted in connection with the above referenced permit, the department was not able to locate a well log which should have been submitted 30 days after completion of the construction of this well.

While it is possible that you have submitted the log, we have been unable to locate it. Please supply me with another copy. Also, please supply me with a copy of the drilling permit as well. Please address any correspondence directly to me. Your response should be received within 20 days of the date of this mailing.

This information is needed before the department can proceed further with the examination of the permit holders system and the eventual issuance of a license of water right.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

Re: Permit No. 27-07506

Dear Permit Holder:

In the department's review of the proof of beneficial use submitted in connection with the above referenced permit, the department was not able to locate a drilling permit which should have been applied for before construction of your well began. We have also been unable to locate a well log which should have been submitted by your well driller 30 days after completion of the construction of your well.

If you have a drilling permit or a copy of the well log, please provide this office with a copy of each. If you do not have a copy of the well log, please contact your driller and ask that he submit a copy. In your return letter, please be sure to show the above referenced permit number on any documents. Also, please address any correspondence directly to me. Your response, with both forms attached, should be received within 20 days of the date of this mailing.

This information is needed before the department can proceed further with the examination of your system and the eventual issuance of a license of water right.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

RE: Proof of Beneficial Use for Permits 27-7417, and 27-7506.

Dennis:

I am enclosing two (2) Proof of Beneficial Use forms and accompanying \$125.00 checks for inspection fees. The proof of beneficial use documents are for the well locations we are currently pumping from to supply well water to our new wash plant and are the same wells that you have done well drilling permits on recently.

I hope that we have provided the information you need for this phase of the water right process. If there is anything that we have forgotten, please feel free to contact me.

RE: PERMIT NO. P27-07506

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

RECEIVED

JUL 20 1990

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor
