MEMORANDUM

TO: File 27-07470

FROM: Sharla

DATE: December 16, 1996

RE: Recommendation Adjustment(s)

The final license recommendations for Right 27-07470 are based on the following:

H. RECOMMENDATIONS

Irrigation	4/1 - 10/31	0.04 cfs	8.0 afa
Domestic	1/1 - 12/31	0.02 cfs	0.6 afa
	TOTALS	0.04 cfs	8.6 afa

The examiner recommends the domestic use be treated as a small domestic (home). The irrigation component covers all irrigation, therefore, the church use has been calculated as an in-house use only; the rate of diversion and volume have been adjusted accordingly.

RE: PERMIT NO. P27-07470

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of
