Total number of acres irrigated:						65

CONDITIONS OF APPROVAL AND REMARKS

1. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
2. The use of water under this right shall not give rise to any claim against the holder of a senior water right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
3. The Director retains jurisdiction of the right to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.
4. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.

RECORDED

TRANSFER NO. 5129
WATER RIGHT NO. 27-07435

CONDITIONS OF APPROVAL AND REMARKS

5. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.
6. This right shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use.
7. The right holder shall measure and annually report diversions of water and/or other pertinent hydrologic and system information as required by Section 42-701, Idaho Code.
8. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
9. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
10. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
11. Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
- * 12. The total instantaneous diversion of water from all points of diversion under Transfer No. 5129 shall not exceed 1.30 cfs, nor total combined annual volume of 260.0 af at the field headgate.

Total number of acres irrigated: 65

CONDITIONS OF APPROVAL AND REMARKS

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. The use of water under this right shall not give rise to any claim against the holder of a senior water right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
5. The Director retains jurisdiction of the right to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.
6. This right when combined with all other rights shall provide no more than 4.0 afa per acre for the lands above.
7. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 27-7435, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before July 1, 19 90.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other: Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

The right to the use of water acquired under this permit shall not give rise to any right or claim against the holder of a senior right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.

The Director retains jurisdiction of the permit and any license subsequently issued to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.

Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Witness my hand this 6th day of June, 1989.

J. Glen Saylor

Director

RE: Water Right 27-07435 (Transfer 5129)

Dear Water Right Holder(s):

Enclosed is a copy of your approved Transfer of Water Right for the above referenced water right (Transfer 5129). Please be sure to thoroughly read the Conditions and Remarks listed on the transfer. Also, please be advised that the accompanying transfer approval should be considered and treated as a **preliminary order** of the department issued pursuant to section 67-5243, Idaho Code. Enclosed are instructions for responding to **Preliminary Orders** if you are in disagreement with the approved transfer.

As of July 1, 1996, all water right owners are required to report any change in water right ownership and any change of mailing address to the department.

If you have acquired any other water right or have changed your mailing address **PRIOR TO** July 1, 1996, you have until July 30, 1998, to record the ownership and/or address change with the department.

If you acquired other water rights or changed your mailing address **AFTER** July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes in a timely manner could result in a \$100 late filing fee. You can contact any office of the department for more information. If you have any questions concerning your water right listed above you can contact me at (208) 327-7947.

Sincerely,

JIM JOHNSON, Manager
Water Right Permits Section

MEMORANDUM

TO: FILE NO. 27-07435
FROM: PAM SKAGGS²⁸/STATE OFFICE
SUBJECT: TRANSFER NO. 5129
DATE: October 7, 1997

ok

=====

Transfer No. 5129 adds a second well under Right No. 27-07435. ✓ The original well is powered by natural gas and will remain on the system as a back-up well. ✓ The applicant found it more cost effective to add the second well near an electric power source than run a power line to the original well.

Recommended conditions include drilling permit requirements, non-trust conditions, irrigation overlap, supplemental groundwater, measure/annual report, multiple points of diversion and standard transfer conditions.

Conditions of Approval:

- 046 - Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
- 048 - The use of water under this right shall not give rise to any claim against the holder of a senior water right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
- 049 - The Director retains jurisdiction of the right to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.
- R31 - This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for irrigation of the lands above.
- 065 - The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.
- 079 - This right shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use.
- 067 - The right holder shall measure and annually report diversions of water and/or other pertinent hydrologic and system information as required by Section 42-701, Idaho Code.
- T07 - The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
- T08 - Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval

} Remarks
@FHG

Conditions of Approval:

- of the transfer should not be rescinded.
- T09 - Approval of this transfer does not preclude the opportunity for
 - review of the validity of the water right(s) in the ongoing
 - Snake River Basin Adjudication.
- T17 - Prior to diversion of water under this approval, the right holder
 - shall provide a means of measurement acceptable to the Department
 - from all authorized points of diversion which will allow
 - determination of the total rate of diversion.

Remarks: The total instantaneous diversion of water from all points of diversion under Transfer No. 5129 shall not exceed 1.30 cfs, nor total combined annual volume of 260.0 af.

NOTICE OF PROPOSED
CHANGE OF A WATER RIGHT
NO. T5129

NOTICE IS HEREBY GIVEN that Dick Wasia, c/o Wasia Farms, 54 N., 50 E., Blackfoot, Idaho, 83221, has applied to the Department of Water Resources to add a point of diversion. The right sought to be changed is evidenced by a license and recorded as follows:

License No.: 27-07435
Source: Groundwater
Amount: 1.30 cfs
Priority: 07/10/1987
Point(s) of Diversion: Lot 2 (SWNW), Sec. 31, T02S, R36E, B.M.

The water is used for irrigation of 65 acres from 04/01 to 10/31 within Lot 2 (SWNW) SENW, Sec. 31, T02S, R36E, B.M.

TO BE CHANGED AS FOLLOWS:

The applicant intends to add a well in the SENW, Sec. 31, T2S, R36E, to enable him to use electric power instead of natural gas. The original well will be delegated to backup status.

Any protests against approval of the proposed change must be filed with the Idaho Department of Water Resources, 900 N. Skyline Drive, Idaho Falls, Idaho, 83402, together with a protest fee of \$25 on or before September 22, 1997. The protestant must also send a copy of the protest to the applicant.

RE: Notice of Application for Transfer No. T5129

Dear Applicant:

This office is currently in the process of advertising the application in the Morning News on Sept. 4 & 11, 1997. The advertisement will be published once a week for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Re: Permit No. 27-07435

Dear Permit Holder:

Returned is the proof of beneficial use filed in connection with the above referenced permit. I have also enclosed a copy of another proof of beneficial use and acknowledgement letter for the same permit. As you can see, you filed and paid the license examination fee for this permit in June of 1990.

I have begun the process to refund the \$125 license exam fee that you recently submitted. The process takes between two and four weeks and will arrive under separate cover.

I have done some research and found that you possess another water right no. 27-07459. This permit is a well used for irrigation, domestic and stockwater purposes. It has proof due on January 1, 1992. I can only assume that you inadvertently filed proof on the wrong permit. I have enclosed a copy of that permit for your convenience as well. I have also enclosed another proof of beneficial use form and instructions since it is still necessary for you to file proof on this permit.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 27-07435

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Rita Fleck
Secretary/Records Manager

ACTION OF IDWR

() Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. The permit holder or his representative shall notify the Department ten (10) days prior to the start of construction unless good cause for later notification can be shown.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

SPECIFIC CONDITIONS:

Dated this 15 day of July, 1987.

PROOF DUE NOTICE

RE: PERMIT NO. 27-07435

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1990.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

RE: PERMIT NO. 27-07435

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

RECEIVED

JUN 12 1989

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor

RE: LAPSED EMERGENCY TEMPORARY APPROVAL #27-7435

Dear Mr. Bartausky:

On 10 November, 1987, the Emergency Temporary Approval of Application for Permit No. 27-7435 lapsed. Consequently, it cannot be used as a basis for the diversion of groundwater subsequent to the above date.

This temporary approval was issued on 14 July, 1987. It granted the drilling of well and diversion of groundwater to supplement irrigation needs when surface water was no longer available in 1987.

With the lapsing of the temporary approval, the status of your filing will revert to pending application for permit. It will remain on file in this office; however, future administrative review of the application will be deferred until the Swan Falls Agreement has been ratified by the Federal Energy Regulatory Commission.

You should be aware that drilling permit no. 27-87-E-006 has also lapsed. This permit was issued in conjunction with the emergency temporary approval of application no. 27-7435 and authorized the drilling of an irrigation well. This permit was in effect until 14 August, 1987.

Feel free to call or contact this office should you have questions concerning the status of your application.

Respectfully submitted,

Ernest Carlsen
Water Rights Supervisor

RE: Water Right No. 27-7435

Dear Water Right Applicant:

Enclosed is a temporary approval for diversion of groundwater during the 1987 irrigation season.

The copy of the application for permit to appropriate water attached to the interim approval defines the various components of your temporary approval. The inclusion of the copy of the application is only for the purpose of definition, and any terms contained therein are limited by the conditions of the temporary approval.

As described in condition of approval (k), this office will hold the original application for permit for future processing, pursuant to Chapter 2, Title 42, Idaho Code, unless directed otherwise by you. This processing will include advertisement for two weeks in the county where the point of diversion is located. It will be initiated subsequent to ratification of the Swan Falls Agreement.

Sincerely,

Ronald Carlson
Manager, Eastern Regional Office

Enclosures: Temporary Approval
Copy of Application for Permit

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES
WITH RESPECT TO TEMPORARY APPROVAL OF
APPLICATION FOR PERMIT NO. 27-7435

This is to certify that I have examined Application for Permit to Appropriate the public waters of the State of Idaho No. 27-7435 and a temporary approval to divert groundwater is granted until November 10, 1987, subject to the following limitations and conditions:

- a. The water use approved herein is subject to all prior water rights.
- b. The water user acknowledges that the temporary approval does not convey a continuing right to divert water and does not convey any right to divert water except as specifically provided in the temporary approval.
- c. The water user assumes all risk that he or she will be successful in obtaining a permanent water right permit when the application is processed under the provisions of Chapter 2, Title 42, Idaho Code and the Water Appropriation Rules and Regulations.
- d. Violation of temporary approval conditions, provisions of the Idaho Code, or the Water Appropriation Rules and Regulations is cause for cancellation of the temporary approval and denial of future requests.
- e. By commencing diversion of water under this temporary approval, the water user acknowledges and agrees that the Director of IDWR is authorized to disconnect the power supply from the pump motor used to divert water under the temporary approval, or to take other reasonable steps to insure that water is not diverted during any period the temporary approval is suspended or revoked.
- f. The Director may impose additional conditions not a part of the original temporary approval conditions.
- g. The temporary approval applies only to uses and lands which normally have an adequate supply of water from surface water sources, but are temporarily water short because of drought conditions.
- h. The temporary approval granted under the expedited procedure shall not be effective for more than the 1987 irrigation season and will expire upon termination of the declared drought emergency, or on the expiration of the term of the approval set herein, whichever is earlier.

JUN 12 1989

- i. The Director will retain jurisdiction of any temporary approval given.
- j. By acceptance of the temporary approval and diversion of water under the temporary approval, the water user assumes all risk relative to interference with other water rights and acknowledges and agrees that the Director is authorized to take reasonable steps to insure that water is not diverted under the approval at any time the Director determines there is not water available for diversion.
- k. Temporary approval granted will be of no force nor effect from and after the 1987 irrigation season. The application for permit, however, will be held by the Department for future processing under the provisions of Chapter 2, Title 42, Idaho Code, and Water Appropriation Rules and Regulations, unless directed otherwise by the applicant.

Witness my hand this 14 day of July, 1987.

ADDITIONAL CONDITIONS OF APPROVAL

The emergency procedure for temporary approval will not be valid so long as the priority of the surface water used to irrigate the declared acreage is being served.

The applicant, by accepting this emergency temporary permit, acknowledges that the well/pump will be inoperative on or before April 1, 1988, unless the emergency status is reinstated or the application is granted permanent status.

The applicant acknowledges that the Director is authorized to enforce the above conditions in a court of competent jurisdiction.

ACTION OF IDWR

() Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. The permit holder or his representative shall notify the Department ten (10) days prior to the start of construction unless good cause for later notification can be shown.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

SPECIFIC CONDITIONS:

Dated this 15 day of July, 1987.

RE: EMERGENCY TEMPORARY APPROVAL

Mr. Ron Carlson:

I am requesting my application for permit #27-7435 be considered for emergency temporary approval.

I understand the nature of an emergency temporary approval and agree to abide by the conditions imposed by the Department of Water Resources.

To obtain a permanent water right permit after expiration of the emergency temporary approval, I do/~~do not~~ want the Department to hold my application until it can be processed under the provisions of Chapter 2, Title 42, Idaho Code, and the Water Appropriation Rules and Regulations.

Respectfully yours,

RECEIVED
