WATER RIGHT LICENSE

License of Water Right No. 27-7421 Priority October 26, 1982 Amount 0.90 cfs

THIS IS TO CERTIFY, that Greenfields Water & Sewer District
of Shelley, Idaho, has complied with the terms and conditions of Permit
No. 27-7421 issued pursuant to Application for Permit dated October 26, 1982,
and has submitted proof to the Department of Water Resources on April 1, 1985,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.90 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u> from <u>March 15</u> to <u>November 15</u> at <u>0.90</u> cfs and <u>206.5</u> acre feet			
<u>Domestic</u> from <u>January 1</u> to <u>December 31</u> at <u>0.50</u> cfs and <u>75.6</u> acre feet			
<u>(126 Units)</u> from _____ to _____ at _____ cfs and _____			

(both dates inclusive)

Subject, however, to the condition that no more than 0.90 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
282.1 acre feet per year, said waters to be diverted within the (2 points) SE $\frac{1}{4}$ SW $\frac{1}{4}$

CONDITIONS OF APPROVAL

- a. Modifications to or variance from this license must be made within the limits of Section 42-222, **Idaho Code**, or the applicable Idaho Law. This right may be forfeited by five years of non-use.
- b. The right to the use of the water hereby confirmed is restricted and appurtenant to lands or place of use herein described, and is subject to all prior water rights, as provided by the laws of Idaho.
- c. Any water right confirmed in this license for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this license and shall not give rise to any right or claim against any future rights to the use of water other than hydropower, within the State of Idaho initiated later in time than the priority of this license.

This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for the lands above.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 26TH day of DECEMBER, 1986.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 25-7294, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before February 1, 19 86.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. Other: A flow measurement port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

The issuance of this permit in no way grants any right-of-way or easement across the land of another.

Witness my hand this 4th day of January, 1985.

RE: Permit No. 27-7421

Greenfields Water & Sewer District
Attn: Mardee Wallace
Box 423
Shelley, ID 83274

Dear Mr. Wallace:

This letter is in reply to your correspondence of 11/20/86 regarding the above referenced water right.

The reason 0.90 cfs is recommended for licensing is because, as you stated, it is the capacity of the present pump and this flow was being diverted at the time the field examination was conducted. The provisions of Section 42-219, Idaho Code, require that a license be issued for only the amount actually developed.

If you anticipate increasing the present capacity to meet future needs, the proper procedure would be to file for a permit to appropriate the additional amount when you are certain that you are within one year of initiating the development of the additional water.

The examination conducted on 7/2/86 confirmed the existence of 129 lots under your system; however, lots 21 and 22, Block 2 are already covered under water right No. 27-7153 and lot 2, Block 2 is covered under water right No. 27-7128. Because of this, these lots were not included under this right.

I hope this explanation answers your questions. Water right matters are often quite complex and somewhat confusing. If I can be of further assistance on this matter, I can be reached at 334-4162 and will be happy to answer any remaining questions you may have.

Dear Mr. Johnson:

Thank you for your letter of November 3, 1986 on our proposed water rights license. There are some differences between our application and the license which need to be taken care of.

1. We applied for a 1.0 c.f.s. delivery of water and you show only 0.90 c.f.s. delivery. At the present there are only 80 lots using water, but there is the possibility of 129 lots using water. The 0.90 c.f.s. is the capacity of the present pump. In order to meet expected demand, a reserve of 0.10 c.f.s. is necessary. We applied for this amount and need it, and would appreciate knowing why there is a difference.
2. On June 20, 1986 I stated that we have 129 lots in the District, but you show only 126 domestic lots on the license. Please correct this on the license.

If in the future we need more water than the present water license permits, what procedures do we follow to increase water rights to the District? Would it be better to change the license now to insure adequate water in the future to the District?

Thank you for your help in this matter. We look forward to hearing from you soon.

Sincerely,

Dear Mr. Carlson:

You will find enclosed a copy of your Examination Fee Form along with a check for \$100.00.

As to Question #5, I offer the following explanation: Domestic use - there is a possibility of 129 households in Greenfield Acres. At the present time there is approximately 76 households using water. Stockwater - although there is some livestock in Greenfield Acres, the Board does not feel that it is necessary or relevant to take inventory on the number and type of livestock of each property owner. If your department wishes to take inventory, it is welcome to do so. However, the inventory will likely be out of date in 30 days as livestock turnover is frequent. Irrigation Acres - although there are 129 lots in Greenfield Acres of approximately one acre apiece, we at the present time are not irrigating 129 acres.

Thank you for your help in this matter.

Sincerely,

Mardee Wallace
Treasurer

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

RE: PERMIT NO. 25-7294

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

YOU SHOULD BE AWARE THAT THE GROUND WATER YOU PROPOSE TO DIVERT IS LOCATED WITHIN A DRAINAGE BASIN WHERE SURFACE WATERS ARE REGULATED DURING THE MONTHS OF LOW FLOW. IT IS POSSIBLE THAT DIVERSION OF GROUNDWATER MAY HAVE AN ADVERSE IMPACT ON THESE SURFACE WATER FLOWS. INFORMATION AVAILABLE TO US AT THIS TIME DOES NOT WARRANT REFUSING TO ISSUE PERMITS IN YOUR AREA, BUT WE DO CAUTION THAT DIVERSIONS OF GROUND WATER ARE NOT ALLOWED TO DEplete FLOWS AVAILABLE FOR SURFACE WATER USERS WITH EARLIER PRIORITY DATES. SITING YOUR WELL AS FAR FROM SURFACE SOURCES AS POSSIBLE AND CASING OUT UPPER WATER PRODUCING ZONES MAY REDUCE THE POTENTIAL FOR INTERFERENCE.

BE SURE TO NOTE THE SPECIAL CONDITION REQUIRING YOU TO INSTALL A MEASURING DEVICE, OR A FLOW MEASUREMENT PORT TO PROVIDE FOR THE INSTALLATION OF MEASURING EQUIPMENT BY THE DEPARTMENT. ENCLOSED PLEASE FIND A LIST OF MEASURING DEVICE OPTIONS, AND SPECIFICATIONS FOR THE INSTALLATION OF THE FLOW MEASUREMENT PORT.

WE HAVE ENCLOSED INSTRUCTIONS ENTITLED "MAKING PROOF OF BENEFICIAL USE". PLEASE READ THE INSTRUCTIONS CAREFULLY SINCE YOU MUST TAKE FURTHER ACTION TO DEVELOP THIS PERMIT. ALSO ENCLOSED FOR YOUR CONVENIENCE IS THE STATEMENT OF BENEFICIAL USE POSTCARD THAT MUST BE SUBMITTED WHEN YOUR PROJECT IS COMPLETED.

Re: Application #25-7294
(Bingham County)

Dear Mr. Julius:

We have been apprised of your application for a permit to appropriate the public waters of the State of Idaho to provide domestic water to 129 families (individual connections).

By regulation your proposed water system is defined as "public-community" and, therefore, subject to the Idaho Regulations for Public Drinking Water Systems. The regulations set forth minimum requirements for construction, water quality, monitoring, and maintenance and operation; further, the regulations (Section 1-8400.01) requires approval by the Department of plans and specifications for the water system prior to construction. If you require a copy of these rules and regulations, please forward your request to:

Administrative Procedures Section
Department of Health and Welfare
Division of Support Services
10th Floor - 450 West State
Boise, Idaho 83720

The cost of this booklet is \$4.40, and your payment should accompany your request.

If we may be of assistance, or if you have any questions, please do not hesitate to contact our office.

Sincerely,

Elmer W. (Bill) Smith, P.E.
