WATER RIGHT NO. 27-07419

Priority: November 27, 1990

Maximum Diversion Rate: 1.20 CFS
Maximum Diversion Volume: 240.0 AF

It is hereby certified that ROBERT OLSEN
21 E 100 N
BLACKFOOT ID 83221 has complied with the terms and
conditions of the permit, issued pursuant to Application for Permit dated February 24, 1986; and has
submitted Proof of Beneficial Use on November 27, 1990. An examination indicates that the works have
a diversion capacity of 1.47 cfs of water from:

SOURCE

GROUND WATER

and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>DIVERSION RATE</u>	<u>ANNUAL DIVERSION VOLUME</u>
IRRIGATION	04/01 to 10/31	1.20 CFS	240.0 AF

Total Acres: 60

CONDITIONS OF APPROVAL

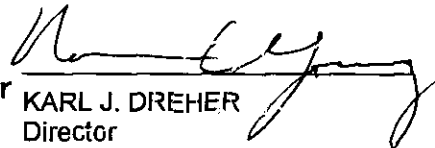

1. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
2. The use of water under this right shall not give rise to any claim against the holder of a senior water right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
3. Diversion and use of water under this right is subject to rules that may subsequently be promulgated for existing rights used for supplemental purposes.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed and sealed this 27TH day of DECEMBER, 2002.

Acting for
KARL J. DREHER
Director

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT	)	
	)	
NO. 27-7419 IN THE NAME OF	)	ORDER OF REINSTATEMENT
	)	
ROBERT OLSEN, JOHN OLSEN	)	
AND LYNN OLSEN	)	

This matter having come before the Idaho Department of Water Resources (Department) the Department finds as follows:

FINDINGS OF FACT

1. On May 30, 1989 the Director of the Department of Water Resources issued Permit No. 27-7419 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before June 1, 1990.
2. On March 31, 1990 the Department sent a proof due notice to the former permit holder of record, Clark Turner.
3. On June 13, 1990 the Department sent a lapse notice to the permit holder since neither proof of beneficial use nor a request for extension of time had been received from the permit holder.
4. On November 27, 1990 Proof of Beneficial Use was received by the Department from the present permit holders of record.
5. Section 42-218a, Idaho Code, authorizes the

RECEIVED
SEP 27 1991

Department to reinstate a lapsed permit, with the priority date advanced to the date that proof of beneficial use was received, upon submittal of evidence clearly establishing the extent of beneficial use prior to the proof due date and a showing of reasonable cause why the proof was submitted late.

6. The current permit holders of record have submitted evidence to confirm that water has been put to beneficial use prior to the proof due date. Evidence includes a copy of a well driller's report confirming that the well had been completed prior to the proof due date. Other evidence includes an Idaho Power Company summary of account activity and meter reading dates for electric power service provided to the irrigation pump. The summary shows that the account was active and the meter was read prior to the proof due date. Idaho Power confirmed on September 9, 1991 that the account is for an irrigation pump and that the original billing and service was provided in 1987. Additional evidence also includes well pump and irrigation system estimates from 1986.

7. The former permit holder of record, Clark Turner, died in June of 1987. Later in 1987, Clark Turner's wife sold the land to which the permit is appurtenant to the present permit holders of record, John, Robert and Lynn Olsen. Mrs. Turner died in 1989. The department's proof due and lapse notices were sent to an executrix of the Turner's estate who failed to forward the notices to the present permit owners. The Olsens's never received the notices and thus submitted proof late after learning

SEP 27 1991

that the permit had lapsed.

CONCLUSIONS OF LAW

1. The permit holders have submitted proof of beneficial use along with supporting evidence which establishes that water was in fact beneficially used as identified on the permit.

2. The permit holders have shown sufficient cause why the proof of beneficial use was not submitted in a timely manner.

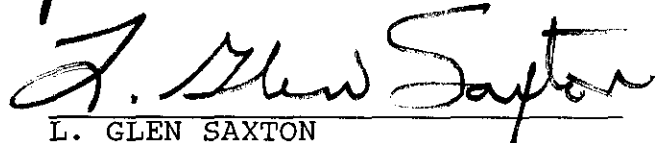

3. The permit can be reinstated with the date of priority advanced to the date proof of beneficial use was received by the Department.

ORDER

IT IS HEREBY ORDERED that Permit No. 27-7419 is reinstated.

IT IS FURTHER ORDERED that the date of priority of this permit is advanced to November 27, 1990.

Dated this 23rd day of September, 1991.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 27-7419, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

WITH RESPECT TO INTERIM APPROVAL OF

APPLICATION FOR PERMIT NO. 27-7419

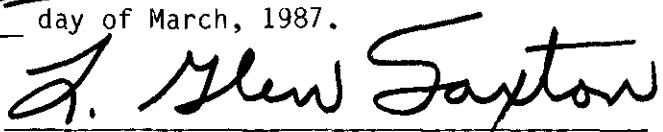

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 27-7419; and interim approval is granted subject to the following limitations and conditions:

- a. Subject to all prior water rights.
- b. A measuring device or an access port of a design approved by IDWR shall be installed prior to diverting water under the interim approval.
- c. The water user acknowledges that the interim approval does not convey a continuing right to divert water and does not convey any right to divert water except as specifically provided in the interim approval.
- d. The water user assumes all risk that he or she will be successful in obtaining a permit for water which may be reallocated under the Water Appropriation Rules and Regulations. The water user accepts all risk that storage water will be available and obtainable from the rental pool in future years to allow the interim approval procedure to continue, if storage water is required.
- e. Violation of interim approval conditions, provisions of the Idaho Code, or the Water Appropriation Rules and Regulations is cause for cancellation of the interim approval and denial of future requests.
- f. By accepting and commencing diversion of water under this interim approval, the water user acknowledges and agrees that the Director of IDWR is authorized to disconnect the power supply from the pump motor used to divert water under the interim approval or to take other reasonable steps to insure that water is not diverted during any period the interim approval is suspended or revoked.
- g. The Director may impose additional conditions not a part of the original interim approval conditions as determined by the Director.
- h. The filing on which the interim approval is given may be reprocessed under the provisions of Section 42-203C, Idaho Code, at the request of the water user or as determined by the Director in compliance with pertinent adopted rules and regulations and statutes.
- i. Investments made by the water user to divert and use water under the interim approval will not be considered by IDWR when reprocessing the filing under the provisions of 42-203C, Idaho Code.

RE: License No. 27-7419 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

Water Rights Supervisor

CERTIFICATE OF SERVICE

I hereby certify that on December 27, 2002 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER(Approved License) to the person(s) listed below:

RE: WATER RIGHT NO.

27-7419

**ROBERT OLSEN
21 E 100 N
BLACKFOOT ID 83221**

**Karl Lynn Townsend
Secretary**

MICROFILMED

APR 11 2003

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED

SEP 1 1991

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Permit No. 27-7419

Robert Olsen
21 E 100 N
Blackfoot ID 83221

Dear Permit Holder(s):

We acknowledge receipt of the statement of beneficial use and the supporting documentation for reinstating the above referenced permit.

Before a license can be issued, a field examination will be made by a representative of this Department. Enclosed is an Order of Reinstatement. Please note that the priority date has been advanced to November 27, 1990.

If you have any questions regarding this matter, please feel free to contact our office.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

RE: Reinstatement of Permit No. 27-7419

Dear Mr. Olsen:

I have received the documentation showing ownership of the land to which the above referenced permit is appurtenant. This documentation is sufficient for allowing the department to change the ownership of the permit into your name.

You may recall that my last letter asked for both the above documentation as well as evidence that the development authorized under the permit was completed prior to the permit proof due date of June 1, 1990. I did not receive any of the latter information.

Please be advised that you must still submit evidence concerning development of the permit prior to June 1, 1990 in order to reinstate the permit. Evidence may include dated aerial photos, utility records, records or receipts pertaining to purchase, installation or construction of diversion and/or conveyance works, and affidavits from individuals knowledgeable of past development and use of water under the permit.

Again, I will hold the permit for another 60 days in order for you to submit the additional required information. Please contact me at 327-7864 if you have questions concerning this matter.

Sincerely,

A handwritten signature in ink, appearing to read 'T. Luke'.

Tim Luke
Sr. Water Resource Spec.

SEP 27 1991

Mr. Luke,

Rich Lane Farms, Robert, John and Lynn Olsen, purchased the Turner property in late December of 1987.

Mr. Clark Turner died in June of 1987.

His will conveyed all personal property to his wife, Lorraine B. Turner.

Mrs. Turner died in May of 1989 leaving 3 minor children, and Mrs. Morgan, a neice of Mrs. Turners was named Executrix of the estate.

Your department sent the permit notices to the Turner children, and we were not notified until the permit had lapsed. SEP 27 1991

Enclosed is a copy of the Sales Agreement signed by Mrs. Turner and Rich Lane Farm's partnership. Also enclosed is the warranty Deed.

Thank You,
Robert W. Olsen

SALES AGREEMENT

THIS AGREEMENT entered into this 30th day of December, 1987, by and between LORAIN B. TURNER, a widow, of 2 East Rich Lane, Blackfoot, Idaho, hereinafter referred to as "GRANTOR", and ROBERT W. OLSEN and LUANNE OLSEN, husband and wife, JOHN W. OLSEN and LOIS C. OLSEN, husband and wife, and LYNN D. OLSEN and ROZLA W. OLSEN, husband and wife, of 21 East 100 North, Blackfoot, Idaho, hereinafter referred to as "GRANTEES".

W I T N E S S E T H :

WHEREAS, the Grantor owns certain farm property which she is desirous of selling. However, she desires to remain in the home for a period of time,

AND, WHEREAS, the Grantees are desirous of purchasing said property subject to the desires of the Grantor and her living there,

NOW, THEREFORE, in mutual consideration of the conditions and covenants hereinafter performed, it is hereby agreed as follows:

1. Grantors sells to Grantees the property hereinafter described for a total sum of \$135,000.00 cash. The legal description to the property is as follows:

Township 2 South, Range 36, E.B.M., Bingham County, Idaho
Section 31: Lots 3 and 4 and 55 feet off the West side
of the E1/4SW1/4...

SEP 27 1991

Together with the tenements, hereditaments and appurtenances thereunto belonging or in anywise appertaining, including all water and water rights, all ditch and ditch rights, and all irrigation equipment including but not limited to 2 circle pivots, mainline, pump and electric panels.

2. That the Grantor hereby reserves a right to live and occupy said residential house located on said property together with sufficient ground for a yard, garden and one acre of pasture without charge terminating no later than January 1, 1990. During the term of the Grantor occupying said property, she shall live on the property without rent but agrees to maintain it in good condition, maintain her own utilities and, further, insure said structure and dwelling with fire insurance for a minimum amount of \$40,000.00 with the loss payable to the Grantees.

Further, the Grantees shall allow Grantor the use of the water from their irrigation system during the irrigation season for irrigating the pasture, yard and garden.

3. Grantor shall pay all water and property taxes for 1987 and prior years with the Grantees being responsible for all taxes and assessments for 1988 and thereafter.

4. Grantor upon closing will pay all closing costs and further provide title insurance in the sum of \$95,000.00.

5. Grantor shall be allowed to remain in the house and yard as above specified until January 1, 1990, unless she should move from said premises sooner then her interest shall terminate. Further, should she desire to remain in occupation

SEP 27 1991

of the home, she shall be given the first right of leasing said residential house at the expiration date on January 1, 1990 for a reasonable rental.

6. Further, Grantor shall be allowed the use and possession of the barn corrals and grainery until she sells her four bulls but no later than June 30, 1988, whichever occurs first.

DATED and signed this 30th day of December, 1987.

RE: Permit No. 27-7419

Dear Mr. Olsen:

The Department received your proof of beneficial use statement for the above referenced permit on November 21, 1990. The permit lapsed June 1, 1990 so the 60-day late period during which the permit can be readily reinstated has passed.

Pursuant to Section 42-218a, Idaho Code, (copy enclosed) the permit can now be reinstated only if you submit the following:

- a) Evidence to show that beneficial use of the water did commence and to show the extent of the use of water during the authorized permit period from the time the permit was issued until the proof due date.
- b) Reasonable cause why the proof of beneficial use was filed late.

I also wish to advise you that the department has still not received proper documentation which shows you have a possessory interest in either the permit or the land to which the permit is appurtenant. The problem with ownership of the permit is in clearly identifying the chain of ownership between the permit holder, Clark Turner, and yourself. All we have received thus far is an assignment to you from Lyla Morgan. We asked you and Ms. Morgan to show that she was the executrix of Clark Turner's estate. Instead we received an incomplete copy of a probate of will which identifies Morgan as the executrix of the estate of Lorain B. Turner. We are not clear as to the relationship between Lorain Turner and Clark Turner and if the permit and/or land was ever assigned or conveyed to Lorain Turner.

If you wish to have the permit reinstated under your name, you must clearly provide documentation which shows that you have ownership of the permit. If this can not be done, the department will reinstate the permit upon documentation that you have possessory interest in the land to which the permit is appurtenant, but we will not include your name as the current owner of the permit. In addition to submitting the permit or land ownership documentation, you must also submit the additional information required by Section 42-218a, Idaho Code.

SEP 27 1991

Your proof of beneficial use statement along with any information which may have been submitted with it will remain on file in this office for 60 days to allow you an opportunity to assemble and submit the additional required information.

Please feel free to contact this office if you have additional questions.

Sincerely,

A handwritten signature in cursive script that reads "Tim Luke".

TIM LUKE
Sr. Water Resource Spec.

RE: Permit Ownership

The documentation submitted for the processing of the proof of beneficial use is not acceptable as an assignment of the right and therefore, the ownership of the permit will not be changed. The documentation may be sufficient, however, to show possessory interest in the land and therefore, the proof of beneficial use may be acceptable.

SEP 27 1991

March 18, 1991

ROBERT W OLSEN
21 E 100 N
BLACKFOOT ID 83221

Dear Mr. Olsen:

RE: Permit No. 27-7419

On November 27, 1990, the department received the proof of beneficial use form along with the \$125 filing fee for the above referenced permit and assignment. Since that time, the department has held the proof processing since the permit is in the name of Clark Turner and Lola Morgan has not identified her relationship with the permit holder. The department wrote you in January asking for clarification.

When submitting the proof of beneficial use form, there are other options the department can consider to show ownership of the land which are not as desirable as a properly executed assignment, but effective. These are: 1) a demonstration that you have possessory interest in the land by providing the department with a copy of the tax record, or 2) providing the department with a copy of your warrenty deed and/or sales contract. By submitting such document(s), the department may be able to accept the proof of beneficial use as action for maintaining the permit, but not necessarily, as a documentation for conveying ownership of the permit.

I will hold action on the permit for 30 days. The department will be waiting for your response.

Please contact me if you have questions.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

Blackfoot, ID 83221

Dear Mr. Olsen:

I received the Assignment of Permit form assigning the above referenced water right to you. A permit is considered personal property and only the holder of record can take action on the right. In this case, only Clark Turner can assign the right to someone else.

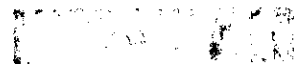

If Lyla Morgan is the executrix of Mr. Turner's estate, we need documentation to show that she has been appointed as such. Once Ms. Morgan supplies the documentation, the assignment form will be processed.

If you have any questions regarding this matter, please feel free to contact me.

Sincerely,

SHARLA CURTIS
Technical Records Specialist

LAPSE NOTICE

RE: PERMIT NO. 27-07419

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated March 31, 1990. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

L. GLEN SAXTON
Chief, Water Allocation Bureau

BLACKFOOT, ID 832210000

PROOF DUE NOTICE

RE: PERMIT NO. 27-07419

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. ~~P~~27-07419

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

RECEIVED

JUN 1 1989

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section

RE: Application for permit no. 27-7419

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification no. 27-7419. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in the Blackfoot News. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Enclosed please find receipt no. 35568 for the amount of \$65.00.

Please feel free to contact his office if you have any questions regarding this procedure.

Sincerely,

Ernest Carlsen
Assistant Regional Manager

NAME OF PARTY Clark Turner

EMPLOYEE Ron Carlson

RE: Clark Turner was in my office several times during the month of Sept. & the first week in Oct. He wanted to be able to make a decision about proceeding with his conversion from surface to groundwater. Mr. Turner, who is retired, wishes to lease his farm & needs to make a commitment to a lessee this fall.

The property described in this application has received water from both the Blackfoot Canal (Snake River) and Eastern Idaho Irrigation (Blackfoot River). There is no new land being developed under this project. Mr. Turner said he needed to get his well drilled, and equipment purchased this fall if he is to be able to assure that he will be able to keep his commitments next spring. He said he was willing to lease replacement water from the water bank if necessary but wondered about making arrangements to get credit for Blackfoot canal storage. I told Clark Turner that he presently could drill a well and purchase the equipment if he wanted to take the risk. I did tell him that I could see no reason why his application could not be processed within the next 30-60 days.

February 18, 1986

Clark Turner
