						Total number of acres irrigated:			240

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before February 1, 1991.
2. Subject to all prior water rights.
3. The right to the use of water acquired under this permit shall not give rise to any right or claim against the holder of a senior right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
4. The Director retains jurisdiction of the permit and any license subsequently issued to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.
5. Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
6. The issuance of this permit in no way grants any right-of-way or easement across the land of another.
7. Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

D. FLOW MEASUREMENTS

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
		Fuji				

2. Measurements: 8.00 Dia Thickness .106 North pivot in section 8
 Visually observed 1249 gpm from North Pivot File 27-7398
 8.00 Dia Thickness .107 South pivot in section 17
 Visually observed 566 gpm from South Pivot File 27-7398A

E. NARRATIVE/REMARKS/COMMENTS

GPS File R070618A goes with well in section 8. GPS unit was sitting 3 ft southwest of actual POD

GPS File R070618B goes with well in section 17. GPS unit was sitting directly on well as power had been cut off and pump was idle.

Both wells run a pivot with corner catchers and end guns. Measurements from both pivots had corner catchers and end guns running. End gun turned off near end of recording on north pivot. It got dropped near end of recording, that is why.

Have conditions of permit approval been met? ☒ yes ☐ no

F. FLOW CALCULATIONS

Measured Method:

Additional Computation Sheets Attached

North well $\frac{1249 \text{ gpm}}{448.83} = 2.78 \text{ cfs}$ South well $\frac{566 \text{ gpm}}{448.83} = 1.26 \text{ cfs}$

total 4.04 cfs

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 226 \times 4 = 904 \text{ AF/A}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 4.04(214)1.9835 = 1714 \text{ AF/A}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 904 \text{ AF/A}$$

2. Volume Calculations for Other Uses:

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
IR.R	4/01	10/31	4.04 cfs	904 AF/A
Totals:			4.04 cfs	904 AF/A

2. Recommended Amendments

☒ Change P.D. as reflected above ☐ Add P.D. as reflected above ☐ None

RE: ASSIGNMENT OF PERMIT 27-07398

Dear Water Right Holder(s):

We acknowledge receipt of the correspondence changing ownership of the above referenced water right to you. We have modified our computer records to reflect this change in ownership. A computer generated report is enclosed for your information.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address **PRIOR** TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address **AFTER** July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

If you have any questions regarding this matter, please feel free to contact us.

Sincerely,

JIM JOHNSON, Manager
Water Right Permits Section

RE: PERMIT NO. P27-07398

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

MAILED

MAR 05 1990

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section

FROM: KAY WALKER

RE: WAIVER OF RULE 4,5. ADDITIONAL INFORMATION REQUIREMENT

DATE: 12-JAN-1990

=====

This application was filed prior to July 1, 1985, and represents development that occurred in 1985. The location of the point of diversion falls outside of the trustwater area. Normally, additional information would be required under Rule 4,5. of the Water Appropriation Rules and Regulations. Possible issues that the additional information should address have probably already been raised during development and operation. The Rule 4,5. informational requirement should be waived.

RE: Water Right Application No. 27-7398

Dear Mr. Jones:

In order to answer your letter requesting more information regarding the highlighted question, I have prepared this reply.

Regarding 4,5,3,1,2: I have enclosed a copy of an ASCS plat map.

Regarding 4,5,3,1,3: two Lockwood center pivot irrigation systems with attached "Flexspans" have been installed. These systems are low-pressure in nature with drop type sprays which reduce drift, reduce energy requirements, and also reduce water evaporative water loss thereby reducing water consumption. Runoff on the nearly level fields is eliminated with a "Dammer-Diker" type cultivator.

Regarding 4,5,3,2,1: Pump No. 1 is rated at 1,200 gpm. Pump No. 2 is rated at 700 gpm. The principle crops grown are potatoes and irrigated small grains, e.g., wheat and barley, which are irrigated from May 1 through November 1. The months of highest water consumption for potatoes are July and August, while the months of highest water consumption for small grains are June and July. The approximate total quantity of water to be pumped annually is 4.80 cfs.

Regarding 4,5,3,2,2: copies of the Well Driller's Report for the above mentioned pumps is enclosed.

Regarding 4,5,3,6,2: 147 acres are irrigated with a 75 hp pump (Pump No. 1), while 75 acres are irrigated with a 40 hp pump (Pump No. 2). The crop rotation for these two fields is alternated every year from potatoes to small grains.

If you have additional questions, please do not hesitate to ask. I look forward in anticipation of your approval of my application.

Sincerely,

Rone Clawson

RE: Application for Permit No. 27-7398

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Morning News. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor
