This topographic map depicts a section of Idaho, bounded by grid lines 10, 12, 13, 15, 22, 23, and 24. The map features several geographical features and infrastructure:

- Infrastructure:** A network of roads is shown, including "KIMBALL ROAD", "EAST VALLEY CANAL", "SAND KIMBALL ROAD", "WEEDING ROAD", and "IDAHO ROAD". A "BRANCH" is also indicated near the top left.
- Topography:** Contour lines are drawn across the map, with elevations marked at 4547, 4549, 4550, 4559, 4560, and 4565. A benchmark "BM 4560" is located in the upper left corner.
- Handwritten Annotations:** A large circle with diagonal hatching is drawn in the center of the map, centered on the intersection of Kimball Road and East Valley Canal. An arrow points from the text "Point of Diversion" to this circle. Another arrow points from the text "Place of Use" to a location on Kimball Road to the right of the circle. The number "14" is handwritten near the bottom of the circle.
- Section Labels:** The section is labeled "R36E" in the upper center. Section numbers 10, 12, 13, 15, 22, 23, and 24 are printed throughout the map.
- Other Features:** A "BITHELL" label is visible on the right side. A "VALLEY" label is on the left. A "SAND KIMBALL" label is near the bottom left. A "WEEDING" label is near the bottom right.

To Whom It May Concern:

We recently received Water Permit Reports from you regarding change of ownership for water rights #27-7372 and 27-7389. We have noticed a couple of errors on the form and would like you to please correct them:

- We provided you with incorrect information when we gave you the address for the Clawsons. Their correct address is: 740 E 450 N, Firth, ID 83236.
- We have changed our name from Eastern Idaho Agricultural Credit Association to Idaho Agricultural Credit Association as highlighted on the copy of the Assignment of Permit form enclosed. Would you please correct the form to show our new name.

Thank you so much for your assistance in correcting the errors.

Sincerely,

RE: Change of Ownership for Water Rights 27-7372 and 27-7389

Dear Water Right Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced water rights to you. The department has modified its records to reflect the changes in ownership and has enclosed computer-generated reports for your records.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

for Jeff Peppersack, Manager

RE: PERMIT NO. P27-07389

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

RE: Application for Permit No. 27-7389

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Morning News. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

RE: Application for Permit No. 27-7389

Kevin Gary Seamons
Rt. 4, Box 333
Blackfoot, Idaho 83221

Dear Mr. Seamons:

In October of 1984, Idaho Power Company and the State of Idaho signed an agreement stating the Company's water rights would be subordinated to those persons who beneficially used water prior to October 1, 1984, and who filed an application or claim for said use by June 30, 1985.

To insure proper consideration of your application pursuant to the above agreement, follow the directions on the enclosed form and return it to this office when completed. For your benefit in identifying the point of diversion and place of use, included on the form is a description of the major items contained on the application.

Your cooperation in returning the completed form and supplemental documentation will expedite future administrative action on your application when processing of applications above Swan Falls resumes.

Respectfully submitted,

ERNEST CARLSEN
