RE: WATER RIGHT NO. 27-07383

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

RECORDED

JUN 09 1997

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

For your records I have also enclosed a copy of your Application for Amendment of Permit, which was approved.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

RE: WATER RIGHT NO.(S) 27-07444/27-07383

Dear Permit Holder(s):

The above referenced water rights are in the process of being licensed. However, before the licenses can be issued, your permits must be amended to depict your water rights as they have actually been developed.

The enclosed Application for Amendments contains information that will be included on the licenses when they are issued. The amendments reflect a change in the location of the point(s) of diversion and the place(s) of use description. Please review carefully and if you concur, sign the amendments and return them with the \$100.00 (50.00 for each) filing fee within fourteen (14) days.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7947.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Shelley W. Keen'.

MEMORANDUM

TO: Files 27-07445, 27-07383 and 27-07444

FROM: Sharla

DATE: April 16, 1997

RE: Recommendation Adjustment(s)

On January 17, Cindy Bird contacted the Wernette's concerning verification of surface water use on the lands to be licensed. Cindy spoke with Mrs. Wernette who confirmed the use of surface water. According to Mrs. Wernette, they have 130" canal shares through Idaho Irrigation, 300" from the Blackfoot River through Sand Creek Irrigation, and 290" through Snake River Irrigation District.

With this confirmation, it is appropriate to issue the licenses with standard conditions relating to the use of surface water.

Also, in a conversation with Paul Meyer at Eastern Region, it was confirmed that the pivot identified under 27-07445 is now operated as a full pivot. Therefore, the license for this right will be issued for a permissible place of use with the limitation of 50 acres/season.

Other adjustments for 27-07445:

Irrigation 4/1 - 10/31 0.87 cfs

The field report has not been completely filled out, however, there is sufficient information to finalize a license. This right diverts from the same well as 27-07157(1.51 cfs based on capacity of system at time it was examined in 1982 and again in 1986 using a 40 hp pump) and 27-07158. 27-07157 covers 94 of the acres served by the pivot; 27-07158 was transferred in November, 1992 (Trans. #3781) to fill in acres between two pivots for a total of 35.5 acres. Attached is a copy of the map identifying these acres; the transfer showed two wells serving these acres. Logically assuming that the well in the NWSE, S12 supplies water to the extra acres picked up by the pivot in the E1/2SW1/4 and W1/2SE1/4, the well overlapping with 27-07157 and 27-07445 serves 16.5 acres out of the 35.5 listed; the rate is $.59/35.5 \text{ acres} = 0.0166197 \text{ cfs/ac} \times 16.5 = 0.27 \text{ cfs}$. The system to be licensed was measured as 2.65 cfs; $2.65/160.5 \text{ acres} (94 \text{ from } 7157, 16.5 \text{ from } 7158, \text{ and } 50 \text{ under } 7445) = 0.0165109 \text{ cfs/acre}$. 2.65 minus 1.51 and 0.27 licensed, leaves .87 cfs which will be picked up under 7445.

RE: PERMIT NO. P27-07383

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

RECORDED

MAR 05 1990

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor

RE: Application for Permit No. 27-7383

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Morning News. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

between the SE $\frac{1}{4}$ and the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of
Section 12, T 2 S R 36 E B.M. Bingham County for
the purpose of irrigating the lands described
in application for permit # 27-7383

The well was dug in Sept 1983 and the
Point and pump were finished in September
and October of 1983. We planted potatoes
in the last part of April ¹⁹⁸⁴ and we have
been in place and pumping since that
time.
