BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT	)	
NO. 27-7316' IN THE NAME OF	)	ORDER OF REINSTATEMENT
HERESCHELL A. OR	)	
BEVERLY J. MYNARCIK'	)	

This matter having come before the Idaho Department of Water Resources (Department) the Department finds as follows:

FINDINGS OF FACT

1. On June 27, 1982' the Director of the Department of Water Resources issued Permit No. 27-7316' with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before July 1, 1983'.

2. On April 30, 1983', the Department sent a proof due notice to the permit holders.

3. On July 8, 1983', the Department sent a lapse notice to the permit holders since neither proof of beneficial use nor a request for extension of time had been received from the permit holders.

4. On August 16, 1988', Proof of Beneficial Use was received by the Department from the permit holders.

5. Section 42-218a, Idaho Code, authorizes the Department to reinstate a lapsed permit, with the priority date advanced to the date that proof of beneficial use was received, upon submittal of evidence clearly establishing the

MICROFILMED

MAR 30 1989

extent of beneficial use prior to the proof due date and a showing of reasonable cause why the proof was submitted late.

6. The permit holders submitted evidence to confirm that water has been put to beneficial use. These documents include: a well driller's report showing completion of well in May, 1981; copies of checks made by the permit holders for well pump installation and other well services dated from December of 1980 through July of 1981; an affidavit from an employee stating that water had been put to use for stock and irrigation since 1980; and an affidavit from a mechanic verifying installation of a well pump in June of 1982. Also included is a photocopy of a 1980 aerial photo signed by a local ASCS agent which shows the land described under the permit. The quality of this photocopy only indicates that the land may have been farmed but does not verify irrigation in that year.

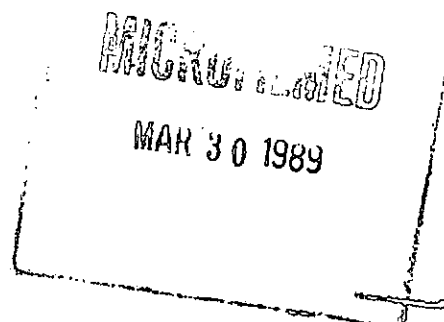

7. The permit holders have stated that their mail service was disrupted at approximately the same time as the Department sent the proof due and lapse notices. As a result, the permit holders were unaware of the requirements concerning the submittal of a beneficial use statement.

CONCLUSIONS OF LAW

1. The permit holders have submitted proof of beneficial use along with supporting evidence which establishes that water was in fact beneficially used as identified on the permit.

2. The permit holders have shown sufficient cause why the proof of beneficial use was not submitted in a timely manner.

3. The permit can be reinstated with the date of priority advanced to the date proof of beneficial use was received by the Department.

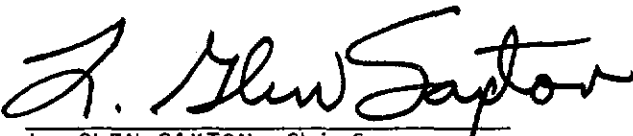

ORDER

IT IS HEREBY ORDERED that Permit No. 27-7316 is reinstated.

IT IS FURTHER ORDERED that the date of priority of this permit is advanced to August 16, 1988.

Dated this 6th day of March, 1989.

Dear Permit Holder(s):

The Department received your proof of beneficial use statement for the above referenced permit on August 22, 1988. The permit lapsed on July 1, 1983 so the 60-day late period during which the permit can be readily reinstated has passed.

Pursuant to Section 42-218a, Idaho Code, (copy enclosed) the permit can now be reinstated only if you submit the following:

- a) Evidence to show that beneficial use of the water did commence and to show the extent of the use of water during the authorized permit period from the time the permit was issued until the proof due date.
- b) Reasonable cause why the proof of beneficial use was filed late.

Evidence showing commencement and extent of use within the permit period should at least include aerial photos which are signed and dated by a local ASCS agent. Other evidence may include receipts for well pump purchase and installation, power records, and affidavits from persons knowledgeable of your operation.

Your proof of beneficial use statement along with any information which may have been submitted with it will remain on file in this office for 60 days to allow you an opportunity to assemble and submit the additional required information.

Please feel free to contact this office if you have additional questions.

Sincerely,
