NOTICE OF CORRECTION

Notice is hereby given that Application No. 27-7292 in the name of Robert V. Bradley was advertised incorrectly on November 5 and 12, 1981. The place of use was advertised as being within SENW NESW SESW NWSE SWSE SESE, Sec. 34, T. 02S, R. 36E, Lot 01 (NENE) Lot 01 (NWNE) Lot 04 (SWNE) Lot 02 (NENW) Lot 3 (NWNW) Lot 4 (SENE) Sec. 03 T. R. 36E.

WHEREAS, the actual place of use is within SENW NESW SESW NWSE SWSE SESE, Sec. 34, T. 02S, R. 36E, Lot 01 (NENE) Lot 01 (NWNE) Lot 04 (SWNE) Lot 02 (NENW) Lot 03 (NWNW) Lot 04 (SENE) Sec. 03, T. 3S, R. 36E.

Any protest to the granting of the permit as a result of this correction must be filed with the Idaho Department of Water Resources, 150 Shoup, Idaho Falls, Idaho, 83402, on or before December 7, 1981.

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights, and, if a required claim for the water right has not been filed, to file the needed claim.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures, or if you have questions about completing this form, please contact your nearest IDWR office or call 1-800-451-4129.

If you need additional space to describe or explain any of the items on the form, please attach additional sheets to the form as you may require.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at Item 1. If you or the seller believe there are water rights for the property but the numbers are unknown, you may wish to call IDWR or come into an office of IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at Item 3.
4. The name, mailing address, and telephone number of the new owner(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector "and", "or" or "and/or". If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign, however only one of the named parties is required to sign.
5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. If the property you have purchased is only a portion of the property owned by the former owner/seller, you may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at Item 6.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at Item 7. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

IDWR Western Region, 2735 Airport Way, Boise, ID 83705-5082 (208) 334-2190

IDWR Southern Region, 1341 Fillmore St. N., Twin Falls, ID 83301-3380 (208) 736-3033

WATER RIGHT LICENSE

WATER RIGHT NO. 27-07292

Priority: September 6, 1982

Maximum Diversion Rate: 4.75 CFS
Maximum Diversion Volume: 1032.0 AF

This is to certify, that DALE L ARAVE
CAROL COLLEEN ARAVE

RT 6 BOX 54

BLACKFOOT ID 83221

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated October 21, 1981; and has submitted Proof of Beneficial Use on June 24, 1985. An examination indicates that the works have a diversion capacity of 4.750 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/01 to 10/31	4.75 CFS	1032.0 AF

LOCATION OF POINT(S) OF DIVERSION: Lot 2(NENW), Sec. 3, Township 03S, Range 36E
BINGHAM County

<u>PLACE OF USE:</u> IRRIGATION						
<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>

03S	36E	3	Lot 1(NWNE) 22	Lot 2(NENW) 32	Lot 3(NWNW) 6	60
Total number of acres irrigated:						258

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right limited to the amount that can actually be beneficially use used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, R. Keith Higginson, of the Department of Water Resources hereby approve the above Application for Amendment for Permit No. 27-07292 with the following;

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right limited to the amount that can actually be beneficially use used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.

Witness my hand this 28TH day of April, 1993.Acting for R. Keith Higginson, DirectorRECEIVED

MAY 20 1993

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT)
NO. 27-07292 IN THE NAME)
OF ROBERT V. BRADLEY)
_____)

ORDER

This matter having come before the Director of the Department of Water Resources (department) as a result of reviewing the above captioned permit for the issuance of a license, The department makes the following Findings of Fact, Conclusions of Law and Order:

FINDINGS OF FACT

1. On October 21, 1981, Robert V. Bradley applied to the department for a permit to appropriate 6.86 cubic feet per second of water from a ground water source within the NE1/4NW1/4 Section 3, T3S, R36E, BM., Bingham County, to be used for irrigation purposes.

2. On March 9, 1982, the department approved the application for permit with specific conditions concerning construction of the well. The conditions included the following:

a) Unperforated well casing shall be installed from the surface down to a point 10 feet into the clay layer, or 100 feet, whichever is greater. The casing shall be sealed to the unperforated depth in compliance with Well Construction Standards Rules 3,3,1. and 3,3,2.

b) The well driller shall be required by the permit holder to submit to the department at least five days prior to the drilling of the well his plan for sealing the casing.

3. The well log submitted by the driller indicates that the well was drilled prior to the approval of the permit. The department was not notified prior to the drilling and the well was not constructed as set out in the conditions of permit approval.

4. On February 20, 1992, the department contacted the permit holder of record and outlined the steps required to bring the well up to standards. The department was advised that Robert Bradley no longer owned the land to which the permit was appurtenant.

5. On February 23, 1993, the department sent an Order to Show Cause to Dale Arave (permit holder), the new owner of the land and permit.

MAY 20 1993

6. On March 8, 1993, the permit holder responded to the department and described why construction of the well should not be modified.

CONCLUSIONS OF LAW

1. Section 42-311, Idaho Code, provides that:

"If the director of the department of water resources finds, on the basis of available information at any time after a permit is issued that prior to license, that the permittee has refused or failed to comply with any of the conditions in the permit, ... then the director of the department of water resources may issue an order to show cause ... why the director of the department should not cancel said permit ..."

2. The permit holder has made a sufficient showing why he has not complied with the conditions of approval of the permit which specified certain construction features of the well and prior construction notification.

3. The permit holder has shown why the well construction conditions of approval should be waived and has shown why the permit should not be cancelled.

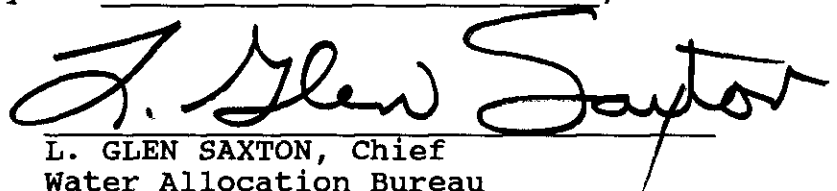

ORDER

IT IS THEREFORE, HEREBY ORDERED, as follows:

1. The Order to Show Cause sent to the permit holder on February 23, 1993, is **SET ASIDE**.

2. The conditions of approval requiring the installation of unperforated casing to a certain depth and the submittal of a plan to the department prior to construction of the well are hereby **WAIVED**.

DATED this 18th day of March, 1993.

IN THE MATTER OF PERMIT)
NO. 27-07292 IN THE NAME)
OF ROBERT V. BRADLEY)
_____)

ORDER TO SHOW CAUSE

This matter having come before the Director of the Department of Water Resources (department) as a result of reviewing the above captioned permit for the issuance of a license, The department makes the following Findings of Fact, Conclusions of Law and Order:

FINDINGS OF FACT

1. On October 21, 1981, Robert V. Bradley applied to the department for a permit to appropriate 6.86 cubic feet per second of water from a ground water source within the NE1/4NW1/4 Section 3, T3S, R36E, BM., Bingham County, to be used for irrigation purposes.

2. On March 9, 1982, the department approved the application for permit with specific conditions concerning construction of the well. The conditions included the following:

a) Unperforated well casing shall be installed from the surface down to a point 10 feet into the clay layer, or 100 feet, whichever is greater. The casing shall be sealed to the unperforated depth in compliance with Well Construction Standards Rules 3,3,1. and 3,3,2.

b) The well driller shall be required by the permit holder to submit to the department at least five days prior to the drilling of the well his plan for sealing the casing.

3. The well log submitted by the driller indicates that the well was drilled prior to the approval of the permit. The department was not notified prior to the drilling and the well was not constructed to standards as set out in the conditions of permit approval.

4. On February 20, 1992, the department contacted the permit holder and outlined the steps required to bring the well up to standards. The department requested a response within twenty (20) days.

5. The permit holder has not responded to the department's request for compliance with permit conditions.

MAY 20 1993

CONCLUSIONS OF LAW

1. Section 42-311, Idaho Code, provides that:

"If the director of the department of water resources finds, on the basis of available information at any time after a permit is issued that prior to license, that the permittee has refused or failed to comply with any of the conditions in the permit, ... then the director of the department of water resources may issue an order to show cause ... why the director of the department should not cancel said permit ..."

2. The permit holder has not complied with the conditions set forth in the permit approval.

ORDER

IT IS THEREFORE, HEREBY ORDERED, that the permit holder or successor-in-interest **SHOW CAUSE** within thirty (30) days of the service of this order why the department should not **CANCEL** the permit pursuant to section 42-311, Idaho Code.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 27-7292, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before March 1, 19 87.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. Other: An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Unperforated well casing shall be installed from the surface down to a point 10 feet into the clay layer, or 100 feet, whichever is greater. The casing shall be sealed to the unperforated depth per standards in Sections 3.3.1 and 3.3.2, IDWR Well Construction Standards dated February, 1981.

The well driller shall be required by the permit holder to submit to the Department at least five days prior to the drilling of the well his plan for sealing the casing.

The Department retains jurisdiction of the permit until all conditions of approval are complied with.

Witness my hand this 9th day of March, 1982.

RE: Water Right 27-07292

Dear Mr. & Mrs. Searle:

The department acknowledges receipt of correspondence changing ownership of the above referenced water right to you. The department has modified its records to reflect the change in ownership and has enclosed a computer-generated report for your records.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact the department if you have questions.

Sincerely,

for L. GLEN SAXTON, Chief

RE: NOTICE OF CHANGE OF WATER RIGHT OWNERSHIP

Dear Mr. and Mrs. Searle:

Regarding the Change in Ownership form we received today, it appears Dale and Carol Arave never filed an adjudication claim on the water right in question. Therefore, it is necessary for either you or the original owners (Araves) to file a Notice of Claim to a Water Right on 27-07292.

Enclosed for your review is a typed copy of the water right as it appears in the database.

Provided you are purchasing the total acreage this water right covers, the filing fees are as follows:

Filing fee.....\$50
\$1 per acre.....\$258

Total \$308

In the event the original owners (Araves) file on this water right, there will be a late fee of \$50 in addition to the above fees.

If you have any questions regarding this matter, please call me at 525-7161.

Respectfully,

Jo Thompson
Adjudication Secretary

Re Permit Nos: 27-07292 and/or 27-07425

Dear Mr Arave and Mr Bradley:

Returned is the proof of beneficial use and subsequent information submitted in connection with permit no. 27-07292. Unfortunately, the proof is not acceptable as filed. There seems to be considerable confusion in connection with the two permits referenced above.

First of all, permit no. 27-07292 is in the name of Dale and Carol Arave. Much correspondence has transpired between the Department and yourselves concerning this permit. Correspondence concerning the proper construction of the well, an order to show cause and other correspondence. In any case, proof of beneficial use was submitted in 1987. Therefore, it is not necessary to submit another proof of beneficial use. The permit is currently in the process of being licensed. In fact, you should have already received correspondence to that effect.

Secondly, there is a second permit for which proof is due on June 1, 1993. That permit no. is 27-07425 and is in the name of Robert V Bradley. I have enclosed a copy of that permit for your convenience. In order for the Department to accept proof on that permit from anyone other than Mr. Bradley, an assignment form would need to be completed and submitted to the Department. Furthermore, permit no. 27-07425 has been authorized for the diversion of 0.20 cfs for the irrigation of four (4) acres, domestic use for one home and 300 head of stock. Also, the license exam fee for 0.20 cfs is \$50, not the six dollars you have submitted. I have enclosed a copy of the instruction sheet for your convenience as well.

In any case, permit no. 27-07292 is in the process of being licensed. In order to receive the license, you need to respond to Pam Skaggs' letter of April 5, 1993, which you should have already received.

RECEIVED

MAY 20 1993

Permit no. 27-07425 needs to have a corrected proof of beneficial use submitted on or before June 1, 1993. You should be able to correctly complete the proof form from the information on the permit that is enclosed. It needs to be submitted along with a \$50 license examination fee. Since you have already submitted \$6.00, you need only submit an additional \$44. However, since Mr. Bradley is the current owner of record, he will need to assign the permit to you. I have enclosed an assignment form for your convenience as well.

I realize that the water right process can be very confusing, especially when more than one permit is in question. I would be more than happy to assist you if you have any questions. Feel free to contact the Department if we can be of any further assistance.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PROOF OF BENEFICIAL USE

Copy

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 27-07292 Telephone No. 208-785-4114
2. Name(s) of Permit Holder(s): Dale Arave (Robert V. Bradley)
3. Mailing Address: 1395 NW Main, Blackfoot, ID 83221
4. Source of Water: Ground Water

If **GROUNDWATER**, Well Driller's Name: LaMar Barrus Date Drilled: 1981

OPTIONAL:

Pump horsepower: 165 Pressure (psi): 74.0 Dynamic pumping level (ft.): 108.3

5. Extent of Use (as authorized by the permit):

Domestic (No. of households) Stockwater (No. and type of stock)

Irrigation 253 (No. of acres) Other

6. Total rate and/or volume for which proof is submitted 5.0 cfs OR acre/feet

7. Refer to the approval conditions on your permit and respond accordingly:

Measuring device: Required? Yes / No Installed? Yes No

OR

Flow Measurement Port: Required? Yes No Installed? Yes No

8. Fee Enclosed: \$ 6.00 (See License Fee Schedule on back of Instruction Sheet)

9. Person to contact to accompany the Department representative during field examination of the water system.

Dale Arave

RE: WATER RIGHT NO. 27-07292

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains information that will be included on the license when it is issued. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 15 days.

If you do not concur with these findings or if you have any questions, please contact us within the 15-day period.

Sincerely,

PAMELA SKAGGS
Water Resource Agent

RE: Robert Bradley - Permit No. 27-07292

Dear Mr. Saxton:

Per your Order to Show Cause in regards to the above matter, please be advised that we did appropriately respond to the request and I attach a copy of the letter dated April 13, 1992, explaining the situation.

Further, this water has been transferred to subsequent owners, although apparently the certificate has not. Pursuant thereto, I believe the Department of Water Resources should give the current owner and user of the well the opportunity to make good without revoking the permit.

Thank you.

Yours very truly,

BLASER, SORESENSEN & HANSEN, Chrt.

RE: Bob Bradley
Permit No. 27-7292

Dear Ms. Curtis:

Per your letter to Bob Bradley on February 20, 1992, and the above permit number, this letter is to be considered in response thereto.

You are correct that he filed for a permit in October of 1981 and the well was drilled in December of 1981. However, prior to drilling he contacted the Idaho Falls office of the Department of Water Resources, asked if he could go ahead and drill and was told that there would be no problem, to go ahead and drill the well and the approval would be forthcoming. So he did get permission prior to drilling.

As to whether or not the well was drilled according to standards, Mr. Bradley assumed the well-driller to whom he provided a letter to, was drilled properly. If it has not been properly drilled, we would have to look at the well-driller to correct the problem.

Finally, I need to advise you that this particular well permit belongs to property which was subsequently sold and/or repossessed by Valley Bank, Broadway Office, Idaho Falls, Idaho. So Mr. Bradley is no longer the owner of the property which is irrigated by this well. You may want to follow up with the current owner, be it Valley Bank or whoever they may have sold it to, to further clarify this matter.

RE: Water Right No. 27-07292

Dear Mr. & Mrs. Arave:

Enclosed is an Order which sets aside the previous Order to show cause for the above referenced application for permit. Please note the conditions of approval requiring the installation of unperforated casing to a certain depth and the submittal of a plan to the Department prior to construction of the well have been waived.

Please be advised that if you do not agree with the decision of the Department you may, within fifteen (15) days of receipt of this order, request a hearing before the Director. Failure to timely petition the Director within fifteen days of receipt of this order may prevent you from further contesting the Order.

ATTENTION: MR. L. GLEN SAXTON

Dear Mr. Saxton:

RE: Permit No. 27-07292

I am writing in response to your letter dated February 23, 1993, to Mr. Robert Bradley and my telephone conversation with you of March 2, 1993.

I, of course, object to any attempt to cancel the water permit on my property. My reasons are as follows:

1. The well was installed, and used continuously since 1982.

2. I purchased the property from the Valley Bank in 1990. No mention was made of inadequate well construction or incomplete permits or licenses. I did receive a telephone call from someone in IDWR during 1992 and mention was made of the well construction. I was told the caller would get back with me. This is the first response I have had since that time.

3. There has now been 11 years of use on this well and property and no adverse effect to any adjacent property or stream flows has been observed.

4. You stated that you believed the casing requirement was because water from shallow depths was believed to come from the Blackfoot River.

I believe this to be incorrect. The area for several miles South, West, and North from the subject property has been subject to subwater for as long as anyone here can remember. The water level is higher than the water level in the Blackfoot River. It seems to be the highest in the mid to later part of the irrigation season, leading us to believe the surface irrigation to the North at least contributes to the ground water problem. Nearly all of the land is watered with Snake River Water.

MAY 20 1993

5. The subject property has an excess of water. There is a tile drain line running in a North and South line the length of the property and thence turning easterly to empty into the Blackfoot River to rid this property of the excess water and lower the water table.

In checking the water level in the well last summer, the Power Company indicated that it was setting at 10 feet with the pump running.

In conclusion, I believe the well is best left as is and if a license has not been issued it should be done now. I really don't want to do anything that might raise the water table any more than it is.

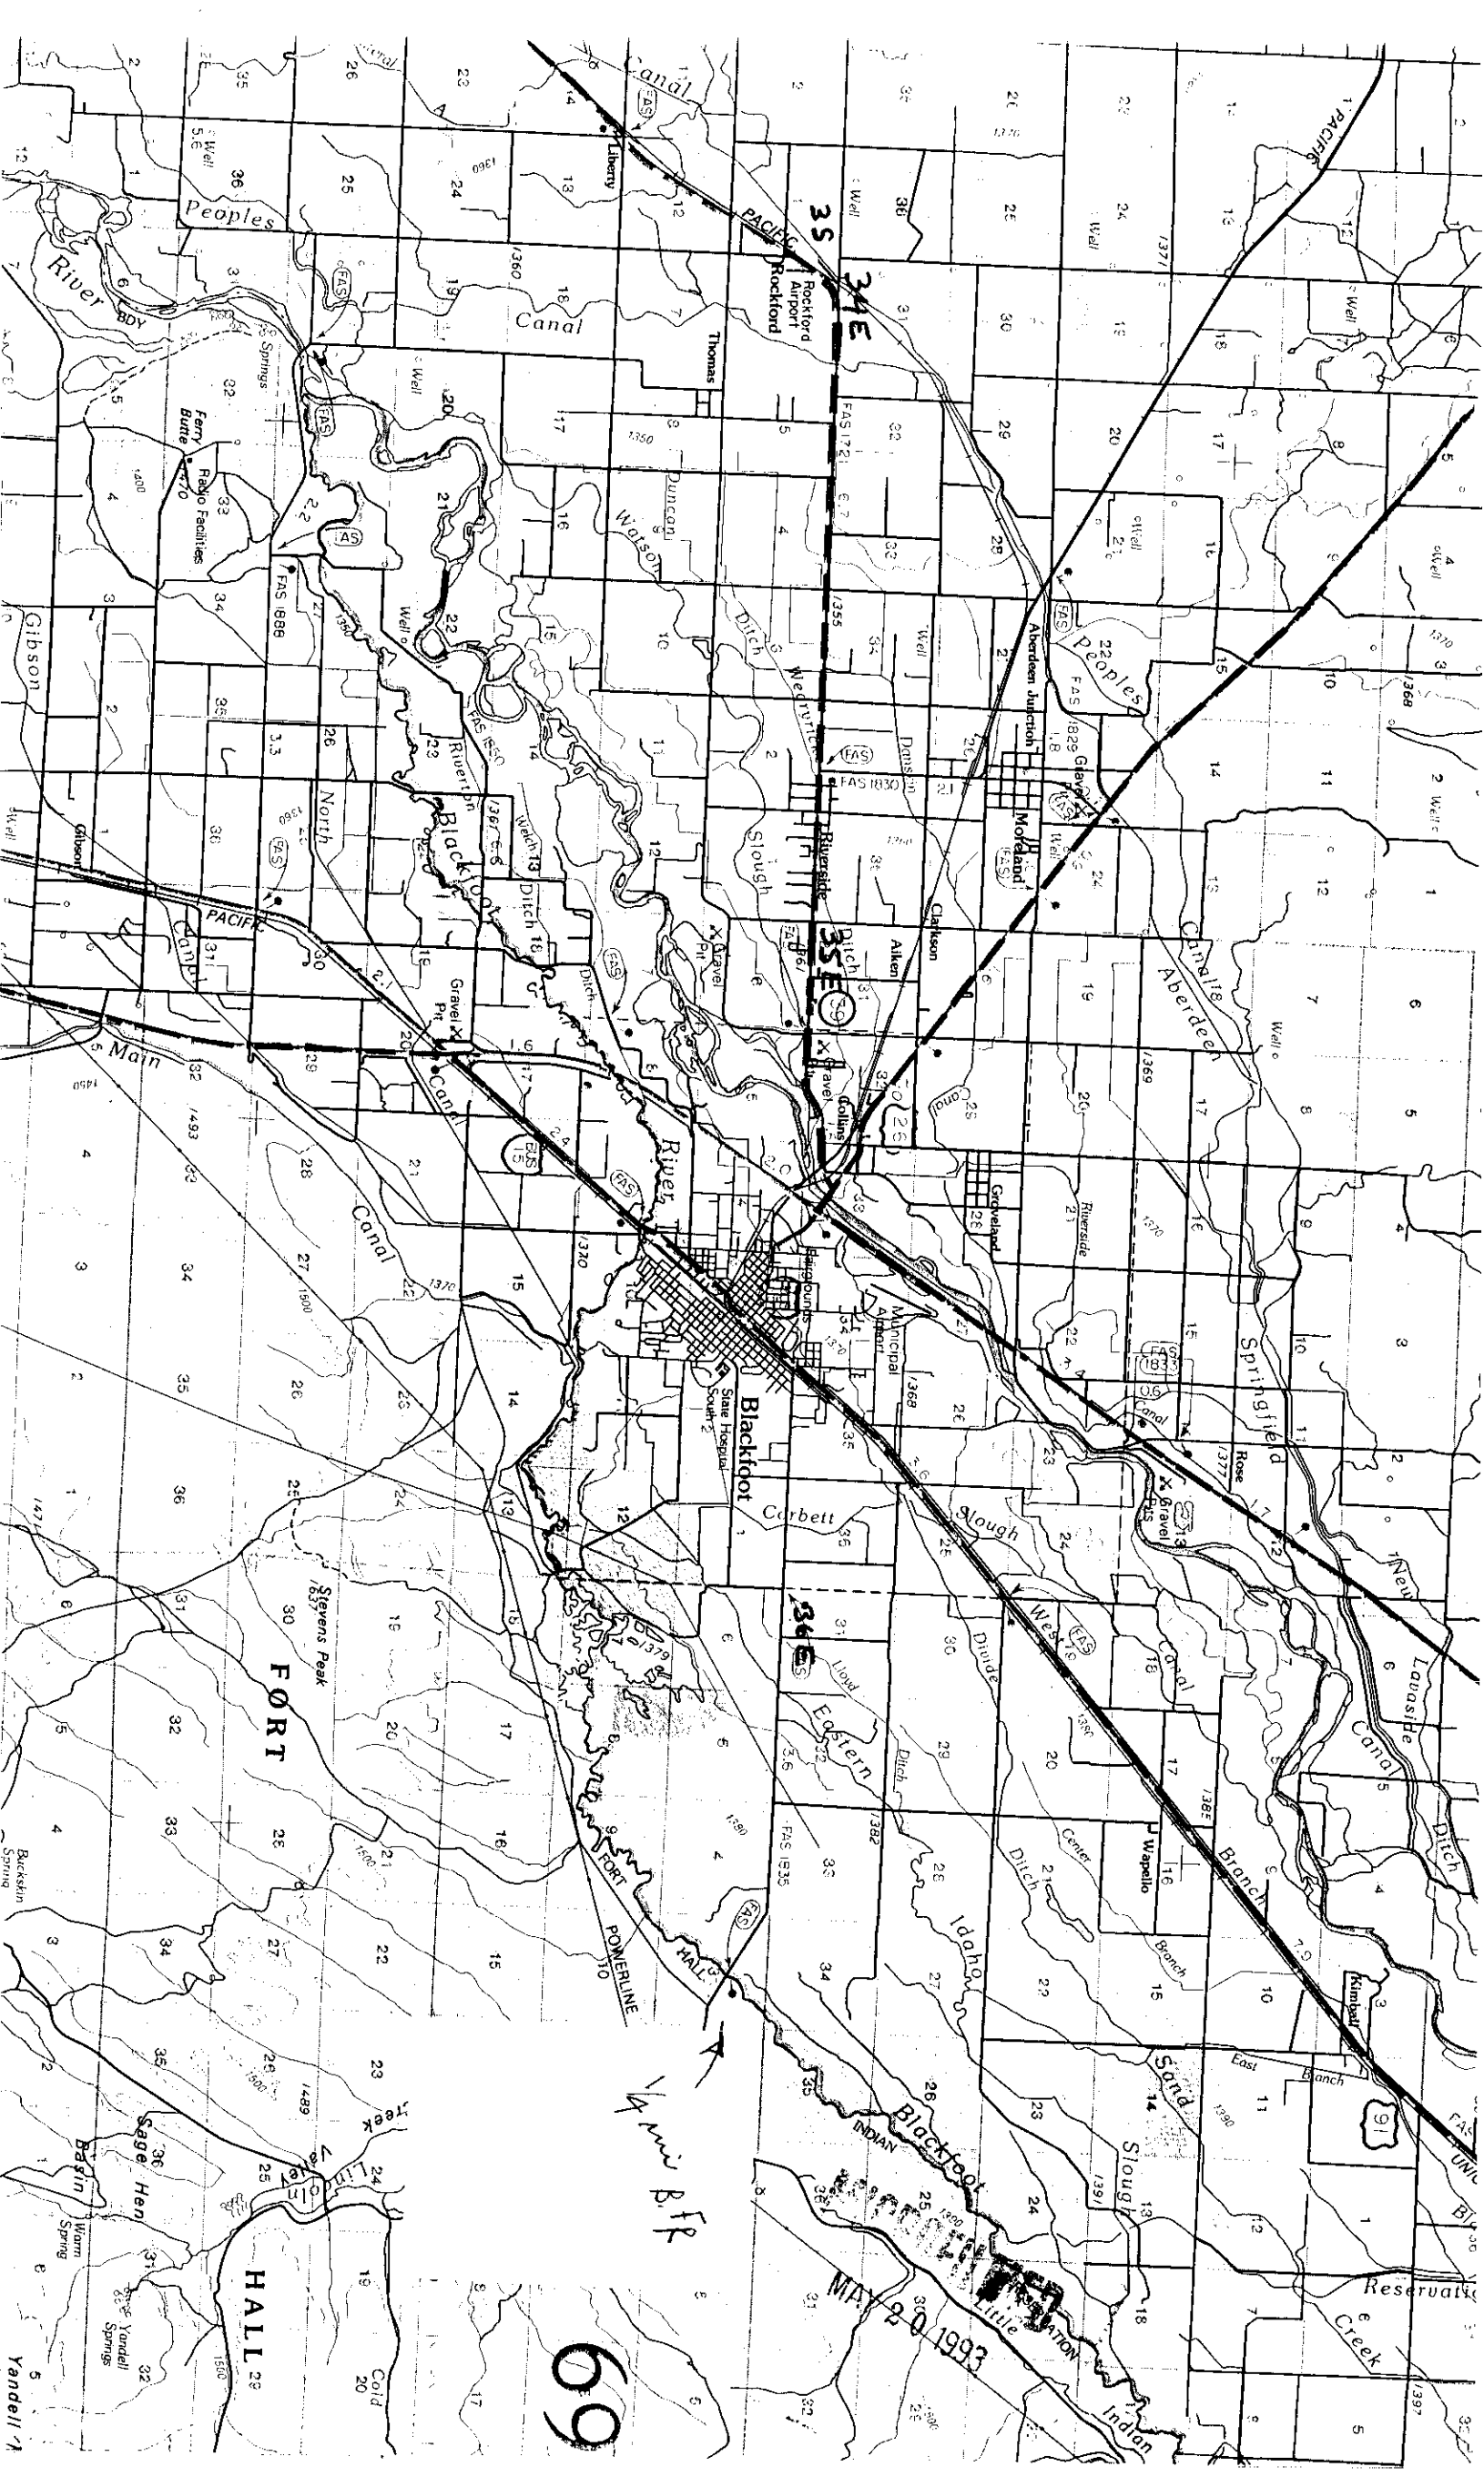

Respectfully,

A handwritten signature in cursive script, appearing to read "Dale Arave", written in dark ink.

RE: Bob Bradley
Permit No. 27-7292

Dear Ms. Curtis:

Per your letter to Bob Bradley on February 20, 1992, and the above permit number, this letter is to be considered in response thereto.

You are correct that he filed for a permit in October of 1981 and the well was drilled in December of 1981. However, prior to drilling he contacted the Idaho Falls office of the Department of Water Resources, asked if he could go ahead and drill and was told that there would be no problem, to go ahead and drill the well and the approval would be forthcoming. So he did get permission prior to drilling.

As to whether or not the well was drilled according to standards, Mr. Bradley assumed the well-driller to whom he provided a letter to, was drilled properly. If it has not been properly drilled, we would have to look at the well-driller to correct the problem.

Finally, I need to advise you that this particular well permit belongs to property which was subsequently sold and/or repossessed by Valley Bank, Broadway Office, Idaho Falls, Idaho. So Mr. Bradley is no longer the owner of the property which is irrigated by this well. You may want to follow up with the current owner, be it Valley Bank or whoever they may have sold it to, to further clarify this matter.

RE: Permit No. 27-7292

Robert V. Bradley
348 E. Rich Lane
Blackfoot, ID 83221

Dear Mr. Bradley:

During review of the above referenced permit for license issuance, the Department discovered a problem which requires your prompt attention.

You filed the application for permit in October of 1981. The permit allowing commencement of construction was not issued until March of 1982, however, the well log filed by the driller indicates that the well was drilled before permit approval (December, 1981). The permit contained the following specific conditions regarding the drilling of the well:

1) Unperforated well casing shall be installed from the surface down to a point 10 feet into the clay layer, or 100 feet, whichever is greater. The casing shall be sealed to the unperforated depth per standards in Sections 3.3.1 and 3.3.2, IDWR Well Construction Standards dated 2/81.

2) The well driller shall be required by the permit holder to submit to the Department at least five days prior to the drilling of the well his plan for sealing the casing.

The department was not notified prior to drilling and the well log indicates that the well was not constructed to standards. Mark Slifka of our Ground Water Permits Section recommends the following action to bring the well up to standards:

A licensed driller should be contacted. It is unlikely that the existing casing can or should be pulled. It will be necessary to seal the top 100' of the well. The sealing of

RECEIVED

MAY 20 1993

Page 2

this upper section will likely require the setting of another string of casing and setting it to a depth of 100' or deeper and sealing between the existing perforated casing with bentonite clay grout or cement.

A proposed well reconstruction plan is required to be submitted to the Department at least five (5) days prior to commencement of reconstruction.

Section 42-311, Idaho Code, provides that the department can cancel a permit for failure to comply with conditions of a permit. Please advise me within 20 days of actions you will take to comply with conditions of the permit. If you do not timely respond, I will send you an Order to Show Cause why the permit should not be cancelled pursuant to Section 42-311, Idaho Code.

If you have any questions, please contact the department.

Sincerely,

SHARLA CURTIS

D. FLOW MEASUREMENTS

☐ Additional Data Sheets Attached

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
Flow Measurement Station	Annubar	Dieterich	7517-316-SS	191147	10.02	
	Annubar	Dieterich	7517-316-SS	191136	7.981	

2. Measurements:

#1 $ID = 10.5 - 1.25 = 9.25$

#2 $+ D = 9.5 - 2 = 7.5$

Manometer #2 $16'' - 12.5'' = 3.5$ #1 $26.6'' - 0.5'' = 26.1$

#1 42 psi = Pressure

#2 42 psi = Pressure

E. FLOW CALCULATIONS

☒ Additional Computation Sheets Attached

1. Measured Method:

Annubar Q = 3.84 + .91 = 4.75 cfs Q LIMITED By Capacity

2. Alternate Method for Checking Purposes:

Theoretical $\frac{125 \times 8.814 \times .80}{25' + (2.308 \times 42)} = 7.22 \text{ cfs}$

F. PUMP EFFICIENCY DATA (Optional)

Discharge Pressure: _____ psi x 2.31 = _____ ft (1); Dynamic pumping level: _____ ft (2)

Total Head: (1) + (2) = _____ (3) ; Flow rate: _____ cfs (4)

Water HP: (3) x (4) ÷ 8.8 = _____ (5)

Meter Input KW: 3.6 x _____ KH x _____ CTR or _____ MULT x _____ PTR x _____ N/ _____ T = _____ (6)

Meter Input HP: (6) x 1.34 = _____ (7)

Panel Input KW: _____ Ave PF x _____ Ave Volts x _____ Ave Amps x .001732 = _____ (6)

Panel Input HP: (6) x 1.34 = _____ (7) Efficiency: (5)/(7) x 100 = _____ %

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 258 \times 3.5 = 903.0$

$V_{OR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 4.75 \times 245 \times 1.9835 = 2308 \text{ afa}$

$V = \text{Smaller of } V_{IR} \text{ and } V_{OR} = 903.0$

2. Volume Calculations for Other Uses:

H. REMARKS AND OVERLAP REVIEW ANALYSIS

I. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
IRRIGATION	3/15	11/15	4.75	903.0
Totals:			4.75 a/c	903.0 a/c

2. Recommended Amendments

☐ Change P.D. as reflected above

☒ Add P.D. as reflected above

☐ None

☐ Change P.U. as reflected above

☐ Add P.U. as reflected above

RE: WATER RIGHT NO. 27-07292

Dear Water Right Holder(s):

We previously forwarded to you an Amendment for Water Permit so that you could amend your permit to correspond with the findings of the Department's field examiner.

As of this date, we have not received this amendment. If we do not receive the amendment within fifteen (15) days, we will issue a Water Right License which reduces the amount that could have been allowable to you. Enclosed for your convenience is another amendment form in the event the first one was misplaced.

If you have any questions, please contact us.

Sincerely,

SHARLA CURTIS
Technical Records Specialist

RE: WATER RIGHT NO. 27-07292

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains information that will be included on the license when it is issued. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 30 days.

Please note that the date of priority of this right has been advanced due to late submittal of the examination fee &/or exam fee information sheet.

If you do not concur with these findings or if you have any questions, please contact us within the 30-day period.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

FROM: Eric Verner, Eastern

SUBJECT: CHANGE IN OWNERSHIP OF PROPERTY UNDER PERMIT

Mr. Ed Woolstenhume, representing Valley Bank came in today to research some water rights. I found that permit number 27-07292 covered the well and property that he was concerned with. The field exam on the permit has been completed but a licensing amendment is needed before the license can be issued. Ed stated that Valley Bank will be receiving ownership of the property within the next couple of weeks by default of a loan to the current owner. He is concerned about the ownership of the permit and requested that an assignment be done. I gave him the necessary form which he will return within the week.

Correspondence with Valley Bank regarding this permit can be sent to:

Valley Bank
C/O Ed Woolstenhume
501 Broadway, 2nd Floor

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. Existing

MAY 20 1986

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Dear Permit Holder:

We acknowledge receipt of your statement submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this department.

A condition of approval of your original permit required the installation of an access port which, according to the proof card submitted by you, has not been installed. An access port must be installed prior to the time a field examination is made.

A field examiner will contact you to arrange to examine your system.

If you have any questions regarding the field examination, please contact this office by phone at 525-7161 or in person in the third floor State Office Building, 150 Shoup, Idaho Falls, Idaho.

Sincerely,
s/HAROLD W. JONES
Sr. Resource Agent

PROOF OF BENEFICIAL USE

RECEIVED
JUN 24 1985

Department of Water Resources

The Idaho Department of Water Resources will consider this form as a statement that the permit holder(s) has completed development under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below:

Permit No. 27-7292

Name(s) of Permit Holder: Robert V. Bradley

Post Office Address: Rt. 3 Box 297, Blackfoot, Idaho 83221

Telephone No. 208-785-5580

Source of Water: Groundwater

Extent of Use:

Domestic _____ (number of households)

Stockwater _____ (number and type of stock)

Irrigation 341 (acres)

Other/Remarks _____

Indicate the date water was first diverted and beneficially used under this permit: May '82

Measuring Device: Required? ☐ Yes ☒ No
Installed? ☐ Yes ☐ No

Flow Measurement Port: Required? ☐ Yes ☐ No
Installed? ☒ Yes ☐ No

Person to contact to accompany the Department representative during the field examination:

Robert V. Bradley (Name)

Rt. 3 Box 297, Blackfoot, Idaho 83221 (Address) 208-785-5580 (Telephone Number)

MICROFILMED

The above information is a true statement of the extent to which the above numbered permit has been developed.

RE: Permit No. 27-7292

Robert V. Bradley
Route #3, Box 297
Blackfoot, ID 83221

Dear Mr. Bradley:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the fourth page.

Be sure to note the special condition requiring you to install a measuring device, or an access port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the access port.

Note also that specialized conditions of approval have been applied to the permit to insure that the water supply for the well is not water that would otherwise be tributary to the Blackfoot River, which is fully appropriated. Failure to comply with these conditions can result in cancellation of the permit.

We have enclosed a form entitled "Making Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Supervisor, Water Allocation Section

INTER-DEPARTMENT MEMO — 1

FROM Dave T

DATE 3/1/82

TO Jim Jiri

SUBJECT 27-7292

The Director found the initial conditions of approval to be too stringent. Plz have Kay make the corrections shown in red. The cover letter is still OK, but we will want to enclose the copy of ^{well} Const ^{Sids.}

Then route through Glen. Note to Glen: The modifications of conditions were made per the attached sample of an acceptable condition prepared by Bob Flemer (per Bob's suggestion).

Dave

MEMO

TO: Glen Saxton
THRU: Alan Robertson *R*
FROM: Marc A. Norton *MAN*

SUBJECT: Water Right Application 27-7292 (Robert V. Bradley)
T.3S.-R.36E.-Sec. 3 BAA

In the vicinity of the proposed well site, well depths are generally less than 90 feet and penetrate varying amounts of clay, silt, sand and gravel. Two wells south of the Blackfoot River exceed 90 feet in depth: in Section 2 - 185 feet; and in Section 14 - 268 feet. Both wells penetrate a 70 foot thick clay layer beneath the above mentioned sediments (well logs attached). The proposed well site is located approximately 1/4 mile northwest of the Blackfoot River. The proposed well is 20 inches in diameter with a depth of 120 feet.

An analysis was made to determine if ground water withdrawals from the proposed location would cause a depletion in flow of the Blackfoot River. The method of analysis was described by Jenkins, 1970, in Computation of Rate and Volume of Stream Depletion by Wells. It was determined that even if the location of the well was moved to the greatest distance from the river (one mile) on the applicant's land, over 90 percent of the ground water pumped would come from the river. This analysis was based on the well design criteria given on the application.

The application should be denied in its present form as pumping would interfere with surface water supplies. The application could be conditioned such that the well be cased through the upper sediments and the 70 foot thick clay layer with unperforated casing and grouted in place using cement, not puddling clay or well cuttings. The grout should be injected under pressure from the inside, forcing the grout around the bottom of the casing, up the annular space, all the way to the top. The diameter of the well should be great enough to allow 2-4 inches of grout on all sides of the casing, i.e., if the diameter of the finished well is 20 inches, the well should be drilled 24 to 28 inches in diameter. This will protect the surface water rights in the Blackfoot River.

RE: Notice of Correction No. 27-7292 BRADLEY

Blackfoot News
P.O.Box 70
Blackfoot, Idaho 83221

Gentlemen:

Would you please submit an affidavit of publication and certified bill in connection with the above referenced application(s). The legal notice was to have been published in your paper on November 19 and 26, 1981.

Your cooperation in this matter is greatly appreciated.

Very truly yours,

COLLEEN WRAY
Adm. Secretary

NOTICE OF CORRECTION

Notice is hereby given that Application No. 27-7292 in the name of Robert V. Bradley was advertised incorrectly on November 5 and 12, 1981. The place of use was advertised as being within SENW NESW SESW NWSE SWSE SESE, Sec. 34, T. 02S, R. 36E, Lot 01 (NENE) Lot 01 (NWNE) Lot 04 (SWNE) Lot 02 (NENW) Lot 3 (NWNW) Lot 4 SENW) Sec. 03 T. R. 36E.

WHEREAS, the actual place of use is within SENW NESW SESW NWSE SWSE SESE, Sec. 34, T. 02S, R. 36E, Lot 01 (NENE) Lot 01 (NWNE) Lot 04 (SWNE) Lot 02 (NENW) Lot 03 (NWNW) Lot 04 (SENW) Sec. 03, T. 3S, R. 36E.

Any protest to the granting of the permit as a result of this correction must be filed with the Idaho Department of Water Resources, 150 Shoup, Idaho Falls, Idaho, 83402, on or before December 7, 1981.
