Re: Permit No. 277286, Evan M. and Lois Kackley

Dear Mr. Jones:

This is relative to the above noted permit and the conversation we held by telephone on June 9, 1986.

Per the same, I am enclosing a copy of the information sheet received from Mrs. Fleck of your Boise office.

I am also enclosing a check for \$50.00 for the inspection by your department.

As noted in our conversation, this well was also used to furnish domestic water for a single family home on the same property in addition to water for a maximum of 400 head of cattle. The use for watering cattle, of course, is intermittent during the 4-month grazing season at this high altitude. However, it is necessary to pump the water from the well up a hill for about 50 feet, and an eighth of a mile from the well. The depth of the well is approximately 50 feet, and as I recall, has a 1 horsepower submersible pump. The single residence is only occupied from the last of May until the last of October.

As mentioned over the telephone, and evidently in my correspondence, we are there in the summertime and will be over there by the time you receive this letter. We do not have a telephone, but if you would drop me a line at the following address I would call you immediately and we could get together on a date for your inspection whenever it is possible for you to get into the Wayan area during the short summer season:

Evan M. Kackley, M.D.(Ret)
Wayan, Idaho 83285

May I suggest your consideration of inspection of this well at the same time as the inspection for proof of beneficial use on Permit No. 277287, held jointly between Evan and Lois Kackley, and Mrs. Bernie Crawford, Box 565, Soda Springs, Idaho 83276. Mrs. Crawford's telephone number is: (208) 547-2257. The two wells are approximately 1¼ miles apart.

As per our telephone conversation, with the Idaho Power litigation against us, we were left in a motionless state as to what to do relative to the water developed. It is good to have it resolved.

I thank you, and remain

Sincerely,

Evan M. Kackley
