MEMORANDUM

TO: File
FROM: Ron Carlson
RE: Application for Permit No. 27-7039
DATE: May 6, 1974

Permit No. 27-7016 ^{*is licensed!*} ~~has lapsed~~. The fact that the point of diversion listed on the above referenced application is an existing well and Mr. Olsen wants to irrigate additional ground with it indicates to me that he is probably using it on the land listed in 27-7016. Since the 0.38 c.f.s. may be considered borderline as far as the measuring device is concerned, this requirement probably could be waived if 27-7016 was not involved.

Re: Permit No. 27-7016

Mr. John W. Olsen
Route #3, Box 230
Blackfoot, ID 83221

Dear Mr. Olsen:

This is in answer to your inquiry on the license and field examination of the above referenced permit. I have reviewed the above permit and find it was originally issued to irrigate 80 acres in the E $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 17 and the W $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 16, T. 3S, R. 35E, B.M.

Since the 18.2 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 16, T. 3S, R. 35E, was not included in the original permit, you may wish to consider filing a new application for permit to cover this additional ground.

For your convenience, I am enclosing a partially completed application for permit and instructions. If this alternative is satisfactory to you, complete the items on the application I have checked, and return it to this office together with the statutory filing fee as indicated in the instructions. Also, please notify me if this clarifies the problem with permit No. 27-7016, so that we may finalize issuance of the license.

If you have further questions, please do not hesitate to come by or contact the above office.

Very truly yours,

JOHN R. FEREBAUER
Water Resource Technician
