Re: Permit No. 32790 (new no. 27-2149)

Mr. Joseph C. Hedin
Route #3
Preston, Idaho

Dear Mr. Hedin:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

Dear Mr Hedin:

I am enclosing an application for a water right to the spring which you requested. I have filled in most of the information needed. There are some questions which I have checked in red which you should fill in on the signed application.

You will then return all of the papers to this office along with your check for \$5.00 made payable to the State Department of Reclamation. We will then get them signed, processed and recorded by the Reclamation Engineer and send you the permit. After that is done we can proceed to issue you an easement for your pipeline.

Sincerely,

Kenneth Conover
