Dear Mr. Furchner:

This is to acknowledge receipt of the proof depositions and affidavit of publication submitted in connection with the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of the Department. We cannot tell just when this examination will be made, but our examiner will try to contact the Horrocks' prior to the exam so that someone may show the system.

Thank you for your help in this matter, we are sorry for the many years' delay.

Dear Mr. Fleenor:

A further search of our ancient File No. 13 has produced the original depositions and affidavit of publication of notice of proof of completion of works for the above permit which were apparently last returned to our office by your letter of September 23, 1966.

We have stricken from the proofs the 5 acres which we at one time intended to add by amendment, since Mr. Horrocks no longer owns the land and it is not irrigated from the well described in the permit anyway.

I believe you will now find everything in order for issuance of the final license and closing of your file in this case.

When the license is issued, will you please return it to our office for Mr. Horrocks.

Very truly yours,

Dear Mr. Furchner:

The proof of beneficial use depositions submitted by Mr. Verl B. Horrocks on Permit No. 27-2128, seems to have traveled back and forth several times as it was returned to your office on September 23, 1966, which is the last correspondence we have.

If you cannot locate the original proof depositions, please send us the copies you have.

Also, we need the affidavit from the Blackfoot News paper that the notice was published in back in 1966.

We hope that these documents can be located so that no priority will be lost on Mr. Horrock's permit. If they cannot be located, please let us know so that the permit can be modified to allow a new proof to be made and a readvertising to be done.

Dear Mr. Furchner:

The proof of beneficial use depositions submitted by Mr. Verl B. Horrocks on Permit No. 27-2128, seems to have traveled back and forth several times as it was returned to your office on September 23, 1966, which is the last correspondence we have.

If you cannot locate the original proof depositions, please send us the copies you have.

Also, we need the affidavit from the Blackfoot News paper that the notice was published in back in 1966.

We hope that these documents can be located so that no priority will be lost on Mr. Horrock's permit. If they cannot be located, please let us know so that the permit can be modified to allow a new proof to be made and a readvertising to be done.

Sincerely,

Re: Permit No. 30098/27-2128
Verl B. & Charles R. Horrocks

Dear Mr. Fleenor:

Mr. Verl B. Horrocks has returned to Blackfoot and I have reviewed with him our file concerning the above permit.

Mr. Horrocks desires to reduce the permit to a final and permanent license. However, he no longer owns the property which was sought to be added to the list of lands to be irrigated by the amendment which we filed September 9, 1966, so that amendment of the original permit is not necessary.

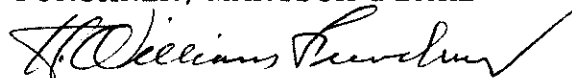

With regard to the original depositions which were filed as final proof on the permit, I note from my letter to your office of September 14, 1966, that the depositions were returned to your office with the application of amendment and therefore they should be in your files.

We would appreciate a further search in your office for these original proofs and further correspondence from you about them. We do have photocopies of the depositions of the holder and witnesses showing their signatures which could be filed, if acceptable, in lieu of the originals. One of the witnesses is now deceased so that his original signature could not now be obtained.

May we please have your early reply.

Very truly yours,

Dear Mr. Furchner:

P In answer to your letter of January 8th, we are enclosing a copy of our letter dated September 2, 1975. Since we had not received a reply to this letter, the pre-cancellation notice of December 9, 1975, was sent by certified mail.

P As explained in our earlier correspondence, the Department can accept the proof made in 1966 if the original depositions and affidavit of publication are returned to this office. In the event these documents have been lost, it will be necessary for the Horrocks' to re-make proof which will result in the loss of priority under the permit.

Y Pursuant to your request, we will withhold further action regarding this permit until June 1, 1976. Should you have further questions regarding this matter, please do not hesitate to contact us.

Re: Permit No. 30098
New Number: 27-2128

Dear Mr. Higginson:

This letter is in response to your notice of the proposed cancellation of the above permit dated December 9, 1975. My delay in answering is due to the fact that the present owner of the land and permit, Mr. Verl B. Horrocks, has been in New Zealand and is not expected to return until April of this year. For that reason I had been unable to contact him and just received a call today from his brother, Charles R. Horrocks, explaining the reason that I had not heard from his brother.

I am somewhat at a loss to understand why the permit is being held for cancellation since proof of application of water to beneficial use was filed in August of 1966 and an amendment to the list of lands to be irrigated in September of 1966.

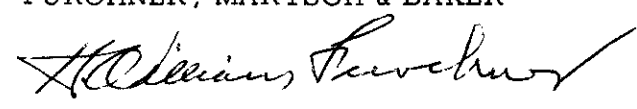

We would very much appreciate it if your intent to cancel can be delayed until June 1 of this year before which Mr. Verl B. Horrocks will return to Idaho and will be able to handle this matter.

In addition, could you please advise me as to what further action is necessary to make final proof so as to secure a permanent license for the water rights.

May we thank you in advance for your consideration of this request.

Very truly yours,

Gentlemen:

It appearing to the Department of Water Resources (formerly the Department of Water Administration) that the terms and conditions of Permit 30098/27-2128 to appropriate

the public waters of the State of Idaho have not been complied with as to failure to submit proof of completion of works and beneficial use depositions which were to have been taken on August 29, 1966, you are hereby notified

that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the Director of the Department of Water Resources on or before January 9, 1976, why said permit should not be cancelled.

Permit 30098/27-2128 claims the use of 3.0 cubic feet per second of water from a ground water source (well),

the point of diversion was to be located within the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 4, Twp. 3 S,

Rge. 35 E, B. M. and the permit was approved August 24, 1961.

Dear Mr. Furchner:

The Department is presently in the process of up-dating its older files and we find that the above referenced permit was never perfected and a water license issued.

Our records indicate that in September, 1966, you submitted depositions in connection with the final proof of permit No. 30098, however, the depositions and affidavit of publication were returned to you due to a discrepancy in the land list.

Now, we are wondering if it is still the desire of the Horrocks to make proof under this permit and receive a license. If so, the proof depositions taken in 1966 must be submitted to this office along with the affidavit of publication from the Blackfoot News.

In the event the Horrocks no longer have an interest in this permit, then we would appreciate having the enclosed relinquishment form executed by them and returned to us in order that we might clear the Department's records.

We would appreciate hearing from you on disposition of this permit at your earliest convenience.

Returned herewith are your depositions, affidavit of publication and the amendment for the above numbered permit.

It is possible to amend the permit to include the five acres of ground, however, if you do you will advance the priority on the permit to the date we received the amendment as new proofs would have to be taken, the permit re-advertise at the holders expense.

We feel that you would rather eliminate the permit than to go to all the expense of correcting the permit.

If you want to correct the permit and lose the priority please return the amendment. Otherwise correct the depositions to agree with the permit and the legal notice and return.

Dear Mr. Furchner:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. **G-30098** in the name of ~~Verl B. & Charles B. Harrocks~~. Final Proof is to be made before you, as Notary on the 29th day of August, 1966, at Blackfoot, Idaho.

As of this date, we have mailed the Notice to the Blackfoot News, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Gentlemen:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 30098 are due not later than **Aug. 8, 1966**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Dear Mr. Carter:

We are enclosing the application of Verl B. Horrocks and Charles R. Horrocks for a water permit, together with our check in the amount of \$5.50.

Upon issuance of the permit will you please return the same to me for the applicants.

We have just read in today's paper of the illness of Mr. Carter and hope that he may soon recover.

Very truly yours,

FURCHNER AND STUFFLEBEAM
