**NOTICE OF PROPOSED APPLICATION
OF WATER TO BENEFICIAL
USE**

Notice is hereby given that at 10:00 A. M. on the 27th day of October, 1951, at Blackfoot, County of Bingham, State of Idaho, before Robert M. Kerr, Jr. a Notary Public, proof will be submitted of the application of beneficial use of two cubic feet per second of the waters of subwater in accordance with the terms and conditions of Permit No. 19700 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are John E. Thompson, R. F. D. No. 3, Blackfoot, Idaho.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is two cubic feet per second.

The place where said water is used: East Half of Southeast Quarter of Section 33 and West Half of Southwest Quarter of Section 34, Township 2 South, Range 36 East, B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Not named.

The right to take water from such works is based upon Permit No. 19700.

The source of supply from which such water is diverted is subwater flowing into a pit in the NW 1/4 SW 1/4 Section 34, Twp. 2 South, Range 36 East, B. M.

The date of priority which said user is prepared to establish is October 9, 1945.

MARK R. KULP
State Reclamation Engineer.
Publish: Oct. 5-12-19-26.

License and Certificate of Water Right

Water License No. 19700

Amount 2.1 second feet

Water District No.

Priority October 9, 1945

THIS IS TO CERTIFY that JOHN E. THOMPSON
 of Blackfoot, Idaho, made application for a permit to appropriate the
 public waters of the State of Idaho, dated October 9, 1945; that Permit No. 19700
 was issued under said application; that Certificate of Completion of works, with a carrying capacity of
 four second feet, was issued thereunder on September 16, 1949, showing that said works
 were completed on the 12th day of September, 1949; and that on the 27th
 day of October, 1951,

JOHN E. THOMPSON

of Blackfoot, State of Idaho, made proof to the satisfaction of the
 State Reclamation Engineer of Idaho, of the right to use the waters of
 , ~~tributary~~ of subterranean flow, for the purpose of Irrigation
 , under Use Permit No. 19700 of the Department of Reclamation
 and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
 and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
 8 of Licenses at page 5129, on the 2 day of September, 1953;

The right hereby confirmed dates from October 9, 1945;

The Point of Diversion is located

in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 34, Tp. 2 S, R. 36 E, B. M. Bingham County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
 aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
 not exceed 2.1 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated

APPLICATION FOR PERMIT
To Appropriate the Public Waters of the State of Idaho

Application No. 27235
Permit No. 19700
District No.

1. Name of Applicant: JOHN E. THOMPSON

Postoffice address: Blackfoot, R. 3 County: Bingham State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
(b) Amount of capital stock:
(c) Amount paid in:
(d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (a) Cash on hand:
(b) Treasury stock:
(c) Bonds to be issued:
(d) Other resources:

2. Quantity of water claimed: 4 cubic feet per second.

3. Source of water supply Sub water from underground source which is a tributary of

4. Location of point of diversion: 1865 ft. N. & 600 ft. E/ feet distant from the Southwest
corner of Section 34, T. 2 S., R. 36 E., B. M., and is in the NW $\frac{1}{4}$ SW $\frac{1}{4}$
of Section 34, T. 2 S., R. 36 E., B. M., County of Bingham

5. Water is to be used for Irrigation purposes

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section
T., R., B. M., in the of Section, T., R., B. M.
(b) Amount of power generated: H. P., under feet head.
(c) Water is to be returned to at a point feet
distant from the corner of Section, T., R., B. M., in the
of Section, T., R., B. M.

7. Estimated cost of works: \$ 1,500.00

8. Kind of works: Pump pit, Ditches for distribution of water, headgates

9. Height of dam feet; length of dam at top feet; length of dam at bottom
feet; material used in dam:

10. Size of headgate: Width feet; height feet;

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;
dimensions of flume:
Diameter of pipe inches; length of conduit miles.
Average grade per mile feet.

12. The time required for the completion of such work is One (1) years.

13. The time required for the complete application of the water to the proposed use is No additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. (a) Is reservoir to be used? No If so, fill in (b) and (c) below.
(b) Name of Reservoir and number of Storage Permit:
(c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

JOHN E. THOMPSON Applicant.

By Agent.

Date of first receipt at Department of Reclamation: 4:00 P. M. October 9, 1945

Returned to applicant for correction:

Corrected application received:

Approval of State Reclamation Engineer

The number of this permit is 19700
Recorded in Book 71 Page 19700 Approved October 18, 1945
This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:
Bond in the sum of \$ to be filed on or before
Work to begin on or before December 18, 1945 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.
One-fifth of the work above specified to be completed on or before April 18, 1946
The whole of said work to be completed on or before October 18, 1946
Beneficial use of water appropriated in accordance herewith, to be made on or before October 18, 1946

Witness my hand this 18th day of October, 1945 MARK R. KULP
State Reclamation Engineer.

IN TESTIMONY WHEREOF, We, CHARLES C. GOSSETT, Governor of the State of Idaho, and IRA H. MASTERS, Secretary of State of the State of Idaho, have caused this instrument to be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 18th day of October, 19 45 STATE OF IDAHO
Countersigned:

(SEAL) By IRA H. MASTERS Secretary of State. By CHARLES C. GOSSETT Governor

Remarks: This water is to be pumped from three ponds linked together by a ditch, each pond measuring about 300 feet by 50 feet, fed by sub water. They are dug deeper to increase the flow. The water us lifted from 10 feet to 15 feet.

REPORT OF ENGINEER

Permit No. 19700

This proof is for Beneficial use In Water District No. _____

1. Name of applicant John E. Thompson, Route 3, Blackfoot, Idaho

2. Source of water supply: Subterranean flowing into a pit

3. Location of point of diversion: Is in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 34

T. 2 S. R. 36 E. County of Bingham

4. Describe works as they exist, giving dimensions and capacities of same: Pond 100'x 200' with irregular sides, depth 12'. 16" concrete pipe for casing set on a concrete box which opens into bottom of pond. 14'x 8" suction pipe. Peerless turbine pump #24612, 8" intake, 10" discharge lifts water to NW approx. 6' above pump. Pump set 4' above water level. Applicant uses gas engine of tractor for power. No electric power on place yet. A one phase power line is available. Ditches were complete but need cleaning of blow sand. No weather protection is provided. Power for pump is Alice Chalmers tractor Model B or Alice Chalmers motor Model 125 B, both of which develop 24 $\frac{1}{2}$ HP. at 1200 rpm.

5. Water is used for: Irrigation

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

E $\frac{1}{2}$ SE $\frac{1}{4}$ Section 33; W $\frac{1}{2}$ SW $\frac{1}{4}$ Section 34; SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 34;

Township 2 South, Range 36 East, B. M.

See Map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: Mr. Johnson states, pumping 100" of water shows no draw down in the pool but pumping 200" will drain pool.

Soil- very sandy, many sand dunes.

Crops- wheat, rye, alfalfa, and oats.

This examination was made on the 24th day of June, 1952

(Signed)

Alfred D. Larson
Examiner.

INSTRUCTIONS TO EXAMINERS.

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Mr. Blaine Ramey
Box 472
Blackfoot, Idaho 83221

Dear Mr. Ramey:

We have received a well drillers report indicating that a well was drilled for you in the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 34, T. 2S, R. 36E, B.M., Bingham County.

A review of our records indicates that you have not filed an application for a permit to appropriate the public water of the State of Idaho. Since March 24, 1963, an application has been required prior to construction of a well and a valid permit must be obtained before ground water may be diverted. The only exception to this requirement is a well drilled for stock-watering or single family household use and water used for all other purposes, including irrigation of one-half acre of land in connection with the household use where the total use does not exceed 13,000 gallons of water per day.

If you have already filed an application, which we over-looked in the review of our records, please advise us of the number of the application or the name under which the application was filed. However, if you have not yet filed the required application, you should do so as soon as possible. You may obtain the forms upon request from this office.

Very truly yours,

LOY H. JOHNSON
Water Resource Supervisor

RE: Permit No. 19700

Mr. John E. Thompson
Route 3
Blackfoot, Idaho

Dear Mr. Thompson:

The report of our field engineer on examination for beneficial use under your Permit No. 19700, shows that you have irrigated 105 acres in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ and W $\frac{1}{2}$ SW $\frac{1}{4}$ Section 34, and E $\frac{1}{2}$ SE $\frac{1}{4}$ Section 33, Township 2 South, Range 36 East, B.M.

Therefore, upon receipt of the statutory fee of \$10.00 which is at the rate of \$2.00 for each 40 acre subdivision in which the land is located, a license will be issued for 105 inches, or 2.1 second feet of subterranean water.

Very truly yours,

MARK R. KULP

Re: Permit No. 19700 - John E. Thompson

Gentlemen:

As you will observe from previous correspondence regarding the above permit, some of the land to be irrigated under the above named permit required considerable leveling. Mr. Thompson now advises me that he has put about 80 acres of this land under cultivation and desires to secure a loan thereon in order to further finance the development of the remaining land. The finance company with which he is negotiating desires that he complete his proof and secure license as to the 80 acres now under cultivation on which they would make their loan. I have not been able to find any definite authority for it, but it is my impression that Mr. Thompson can make proof of beneficial use as to the land now under cultivation and then at a later time within the time authorized under the extension granted, make further proof of the additional beneficial use as other land is placed under cultivation. I would appreciate it very much if you would advise me regarding your department policy in this regard and send me the necessary forms together with any suggestions for meeting the problem of Mr. Thompson.

Yours very truly

Robert M. Kerr, Jr.

Re: Permit No. 19700

Mr. Robert M. Kerr, Jr.
Packer-Kerr Prof. Bldg.
291 North Broadway
Blackfoot, Idaho

Dear Mr. Kerr:

We are in receipt of your letter of May 18, in regard to making partial Proof of Beneficial Use on Permit No. 19700 of John E. Thompson.

It is possible to make Proof of Beneficial Use on a portion of the land and obtain a License therefor, and later on make supplemental proof and obtain a supplemental License. If this later proof is made within the statutory limits, the priority date will be the same but it can be made later with a later priority date.

We enclose herewith form of notice which the law requires in connection with this proof. This should be made in duplicate, setting the time and place and naming the Notary Public before whom the proof is to be made. Both copies are to be returned to this Department together with Form 11 which is authorization for us to have the notice published at Permit Holder's expense in the designated county newspaper.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. 19700- John E. Thompson

Dear Sir:

Enclosed please find Form 11 and two copies of
Notice for Publication in regard to permit number 19700.

The date set for submission of proof was made with
the thought in mind that you would commence publication
on the 5th day of October, 1951. We hope this arrange-
ment is satisfactory.

We would also appreciate your sending to this of-
fice the necessary papers to be filled out in making the
completion of proof in regards to the above mentioned
permit.

Any further suggestions which you might have in
regards to the completion of this permit will be very
much appreciated.

Yours very truly,

Robert M. Kerr, Jr.

Dear Mr. Kerr:

We have sent to the Daily Bulletin, notice of beneficial use proof to be made on Permit No. 19700 in the name of John E. Thompson, on October 27, 1951, with instructions to publish it once a week for four consecutive weeks and to send Mr. Thompson the affidavit of publication together with statement of costs.

This should reach the newspaper in ample time to start publication on October 5, as suggested in your letter.

We enclose the necessary forms of deposition to be used in making this proof, and at the time set, Mr. Thompson should appear before you together with two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, for the purpose of executing the depositions.

Very truly yours,

NOTICE FOR PUBLICATION
**NOTICE OF PROOF APPLICATION OF WATER
 TO BENEFICIAL USE**

Notice is hereby given that at 10:00 A. M. on the 27th day of October, 19 51,
 at Blackfoot, County of Bingham, State of Idaho, before
Robert M. Kerr, Jr. a Notary Public, proof will be submitted of the
 application to beneficial use of two cubic feet per second of the waters of subwater
 in accordance with the terms and conditions of Permit No. 27235 ~~2635~~ 19700
 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are.....

John E. Thompson, R.F.D. #3, Blackfoot, Idaho

The use to which said water has been applied is irrigation

The amount applied to beneficial use is two cubic feet per second.

The place where said water is used (if for irrigation, give full and accurate description of the
 lands irrigated) East Half of Southeast Quarter of Section 33 and West Half
of Southwest Quarter of Section 34, Township 2 South, Range 36 E.B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of
 use is Not named.

The right to take water from such works is based upon Permit No. 27235 ~~2635~~ 19700

The source of supply from which such water is diverted is subwater flowing into a
pit in the NW 1/4 SW 1/4 Section 34, Twp. 2 South, Range 36 East, E. M.

The date of priority which said user is prepared to establish is October 18, 1945

MARK R. KULP
 State Reclamation Engineer.

Re: Permit No. 19700

Gentlemen:

I trust that I have correctly followed the statute in connection with the proof of application of water to beneficial use under the above mentioned permit and enclose herewith the following documents:

Affidavit of Publication showing publication of the notice in the Daily Bulletin for four consecutive weeks commencing on the 5th day of October, 1951; deposition of John E. Thompson, the holder of the permit, depositions of the witness J. M. Turner and the deposition of the witness N. W. Olsen.

I trust this now completes the matter satisfactorily. If anything further is required, please let me know.

Yours very truly

19700

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 19700

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. John E. Thompson, farmer, residence and P. O. address: Route
3, Blackfoot, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. not applicable

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Number 19700 4 p.m. October 9, 1945.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Sub water from underground source, point of diversion is
1865 feet N and 600 feet E distant from the SW corner of Section 34
Township 2S R 36 E, B.M., and is in the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of said Section 34

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Pumps from storage pit about 20 feet wide, 100 feet long, and 14
feet deep connected to about an acre which covers to a depth of 2 feet.
All ditches are private ditches on the land of the holder. Pump discharges
4 second feet of water and was measured by computing the speed of the
water and the width and depth, in the ditch, a spot was found where the
slope of the ditch was such that the water ran at a foot per second
and then the measurement of the number of inches of water past a given
point at that speed.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Use is irrigation, NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 33 Twp. 2S R. 36 E. B. M. 8 acres
of cultivated land; SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sect. 33 Twp. 2 S R36 E. B. M. 32 acres of
cultivated land; SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 34 Twp. 2s R 36 E.E.M. 26 acres of
cultivated land; NW $\frac{1}{4}$ SW $\frac{1}{4}$ Sect. 34 Twp. 2S R 36 E.B.M. 12 acres of cultivated
land; SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sect. 34 Twp. 2S R 36 E. B. M. 22 acres of cultivated land.
All of the cultivated land has been broken from sagebrush and leveled.

19700

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. not applicable

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. not applicable

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. not applicable

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. 4 second feet of water have been used during the 1951 irrigation season from May through October.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. none

(Sign)

John E Thompson

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that

said testimony was subscribed and sworn to before me, at my office in Bluffton,

County of Bluffton, State of Idaho, on this 27th day of October,

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 19700

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. J. M. Turner, 70 years of age, farmer, Residence and P. O.
Address: Route 3, Blackfoot, Idaho

Ques. 2. Are you acquainted with John E. Thompson, the
holder of Permit No. 19700? How long have you known him and where does
he reside?

Ans. I have known him for 13 years and he resides at Route 3
Blackfoot, Idaho.

Ques. 3. Have you read or heard read said Permit No. 19700, and are you
familiar with its provisions and conditions?

Ans. I have read said permit and am familiar with its provisions.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Natural sub-water. Pumped from storage pit, on the premises of
John Thompson and conveyed by private irrigation ditches on the
premises of John Thompson.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. Works will conduct 4 second feet of water and I have seen that
much conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. I have seen the pump deliver 4 second feet; I estimated the
size of the stream from comparison with measured streams of similar
size. I have been a ditch rider for years and am experienced in est-
imating the size of streams.

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Used for irrigation; NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sect. 33, Twp. 2 S, R. 36 EBM, 8 acres of cultivated land; SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sect. 33, Twp. 2 S, R. 36 EBM, 32 acres of cultivated land; SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sect. 34, Twp. 2 S, R. 36 EBM, 20 acres of cultivated land; NW $\frac{1}{4}$ SW $\frac{1}{4}$ Sect. 34, Twp. 2 S, R. 36 EBM, 12 acres of cultivated land; SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sect. 34, Twp. 2 S, R. 36 EBM, 22 acres of cultivated land. All of said land has been broken from sagebrush and leveled.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. not applicable

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Soil is sandy and 4 cubic feet of water per second could be profitable used on the land that is now broken out and cultivated.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. At various times during the 1951 irrigation season I have seen 4 cubic feet of water per second being used to irrigate the land above described and have seen all of the described land under irrigation by said water.

(Signed) J. M. Turner

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Blackfoot,

County of Bingham, State of Idaho, on this 27th day of October,

19700

October 31, 1951

RE: Permit No. 19700

Mr. Robert M. Kerr, Jr.
291 No. Broadway
Blackfoot, Idaho

Dear Mr. Kerr:

We acknowledge receipt of your letter of October 29, 1951, enclosing depositions of John E. Thompson and two witnesses, also affidavit of publication in the Blackfoot Daily Bulletin, all submitted in proof of beneficial use under Permit No. 19700.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot say just when this examination will be made as this department has but one field engineer who makes examinations all over the State.

However, he will try to contact Mr. Thompson at the time the examination is made so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

BOISE

August 1, 1949

Dear Sir:

Under the terms of your permit No. 19700 you are required to complete your diversion works and make proof of beneficial use on or before October 18, 1949.

We enclose herewith a blank affidavit to be filled out, sworn to by you before a Notary Public of Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the Completion of the Works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

We also enclose blank notice for proof of application of water to Beneficial Use under this permit, which should be filled out and returned to this office at least forty (40) days before the date upon which you wish to make proof. The proof must be submitted before a Notary Public or other officer authorized by law to administer oaths. The date for proof as set out in your permit, is October 18, 1949, and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.

Very truly yours,

MARK R. KULP

State Reclamation Engineer

August 30, 1949

Re: Permit No. 19700

Mr. Robert M. Kerr, Jr.
Attorney at Law
Blackfoot, Idaho

Dear Mr. Kerr:

Reference is made to your letter of August 29, in regard to Permit No. 19700 in the name of John E. Thompson.

All that is necessary in making Proof of Completion of Works is to prove that the works for diverting the water as described in the Permit have been completed and additional time can be allowed for leveling and bringing the land under irrigation.

It will not be possible to grant an extension of time for completion of works as the ~~five~~ years will expire October 18, 1949, but an extension can be allowed for making Proof of Beneficial Use.

Form 6 enclosed should be executed before a Notary Public and returned to this Department on or before October 18, 1949, together with the statutory fee of \$5.00 and the enclosed Form of Application for Extension of Time for Making Beneficial Use Proof should also be filed in this Department prior to that date for approval by the State Reclamation Engineer.

PROSECUTING ATTORNEY
COUNTY OF BINGHAM
BLACKFOOT, IDAHO

August 29, 1949

State of Idaho
Department of Reclamation
Boise, Idaho

Re: Permit No. 19700 - John E. Thompson

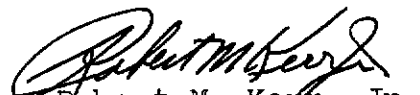

Gentlemen:

Mr. Thompson has recently received notice from your department that under the terms of the above permit, he should be prepared to submit proof of completion of works and beneficial use by October 18, 1949. The works will probably be substantially completed by that time, but circumstances have prevented Mr. Thompson from completing all of the land leveling which may be necessary to use water to the best advantage.

It has, therefore, occurred to me that the proper procedure for Mr. Thompson to follow, is to submit proof of his completion of works and then ask for extension of time in which to make proof of beneficial use. Some of this land is quite rough. Leveling has been expensive, and I believe that justice shall be done by granting a substantial extension of time, at least two or three years, to enable Mr. Thompson to get this leveling completed before requiring him to make proof of his beneficial use.

Your suggestions regarding this, and any necessary forms to be completed in making this application will be very much appreciated at an early date.

Yours very truly

Robert M. Kerr, Jr.

ATTORNEY AT LAW
BLACKFOOT, IDAHO

Box 708

September 12, 1949

State of Idaho
Department of Reclamation
Boise, Idaho

Gentlemen: Permit No. 19700 - John E. Thompson

I enclose herewith the Proof of Completion of Works which have been executed by Mr. Thompson showing that he has completed the pump pit and installation of pump, ditches and headgates for diversion of the water under the above permit.

However, as I explained previously, some of this land will require quite a bit of work in leveling before the water can be used to good advantage, so I also enclose an application for extension of Time for beneficial use proof to October 18, 1955, which I believe is the maximum statutory time. Mr. Thompson intends to work at this leveling as his finances permit and continue each year to put more of the land under cultivation. I also enclose Mr. Thompson's check for the fees mentioned in your letter of August 30, 1949, and trust that you will find everything in proper order.

Yours very truly

ss.

John E. Thompson, being first duly sworn, upon his oath deposes and says:

First: That he is the holder and owner of Permit to Appropriate the Public Waters of the State of Idaho, No. 19700, and that his postoffice address is RFD #3, Blackfoot State of Idaho

Second: That the name of the stream which said water is to be ~~directed~~ ^{FROM} is

Sub-water from ponds and underground sources

Third: That the point of diversion of said water is

1865 feet North and 600 feet East of SW corner, Sec. 34, T. 2S., R. 36E.B.

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by October 18, 1949.

Fifth: That the use for which said water is intended is irrigation

Sixth: That on the date above mentioned, the works constructed under said permit were (or were not) fully completed and consisted of the following:

I. Kind of works: ~~pump pit, pump, ditches and headgates for diversion~~
(Reservoir, dam, ditch, flume, pipe or otherwise)

II. Dimensions of work:

(a) Height of dam feet, length of dam at top feet, length of dam at bottom feet. Material used in construction

No. dam

(State whether wood, earth, stone or concrete)

(b) Capacity of reservoir None acre feet.

(c) Size of headgate: Width feet, height feet.

(d) Conduit ~~four~~ ^{ditch} width at bottom four feet, width at water line six
(State whether ditch, flume or pipe)

feet, depth of water one feet; diameter of pipe inches, average grade per mile is four feet. Length of conduit is 1.4 miles, including laterals

Seventh: That said works are capable of conducting to the place of intended use 200 second feet of water.

Eighth: That water appropriated under said permit is available for 200 acres acres of land described as follows: East Half of the Southeast Quarter of Section 33, West Half of the Southwest Quarter and Southwest Quarter of Northwest Quarter Section 34, Township 2 South, Range 36 E.B.M.

Ninth: Remarks: That

Re: Permit No. 19700

Mr. Robert M. Kerr, Jr.
Box 708
Blackfoot, Idaho

Dear Mr. Kerr:

We enclose Certificate of Completion of Works issued under Permit No. 19700 in the name of John E. Thompson, for the diversion of four (4) second feet of underground water with point of diversion in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 34, Township 2 South, Range 36 East, B.M. for the irrigation of land in the E $\frac{1}{2}$ SE $\frac{1}{4}$ Section 33; SW $\frac{1}{4}$ NW $\frac{1}{4}$ and W $\frac{1}{2}$ SW $\frac{1}{4}$ Section 34, Township 2 South, Range 36 East, B.M.

We also enclose Departmental Receipt No. 21806 for the \$5.00 fee paid in connection with Completion of Works Proof.

Approval of the State Reclamation Engineer of Extension of Time for Beneficial Use Proof under this Permit to October 18, 1955 is also enclosed. This should be attached to the original Permit of which it now forms a part.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

August 1, 1946

Dear Sir:

Under the terms of your permit No. 19700 you are required to complete your diversion works and make proof of beneficial use on or before October 18, 1946.

We enclose herewith a blank affidavit to be filled out, sworn to by you before a Notary Public of Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the Completion of the Works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

We also enclose blank notice for proof of application of water to Beneficial Use under this permit, which should be filled out and returned to this office at least forty (40) days before the date upon which you wish to make proof. The proof must be submitted before a Notary Public or other officer authorized by law to administer oaths. The date for proof as set out in your permit, is October 18, 1946, and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.

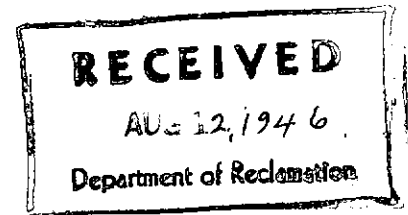

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. 19700-John E. Thompson.

Gentlemen:

Mr. Thompson recently received notice that he was required to complete his diversion works and make proof of beneficial use on or before October 18, 1946.

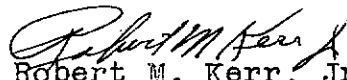

Through some misunderstanding the application for a permit, and the permit, provided for completion within one year, whereas, he has been under the impression that he was allowed two years, and he has not completed the works. As a matter of fact, he should really have applied for the longer time, inasmuch as most of the ground is raw sage brush, which will have to be brought under cultivation.

In view of these circumstances it would seem to me that he should be granted an extension of time under Section 41-212, rather than under the emergency statute passed by the legislature, 1945.

He has completed part of the ditches and has installed the pumping pit and pumping plant. He still has some ditches to construct and the rest of the land to bring under cultivation and must do some deepening of the ponds.

After you have considered the matter, will you please furnish me with your suggestions as to a preferred procedure and the necessary blanks.

Yours very truly,

Robert M. Kerr, Jr.

Re: Permit No. 19700

Mr. Robert M. Kerr, Jr.
Attorney at Law
Blackfoot, Idaho

Dear Mr. Kerr:

Reference is made to your letter of August 10th, in regard to extension of time for completion of works and beneficial use proof under Permit No. 19700 in the name of John E. Thompson.

Since the application and the permit asked for and allowed less than the maximum allowed by statute, additional time can be granted.

We enclose a form of application for such extension, which should be executed and returned to this Department for approval.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. 19700.

Gentlemen:

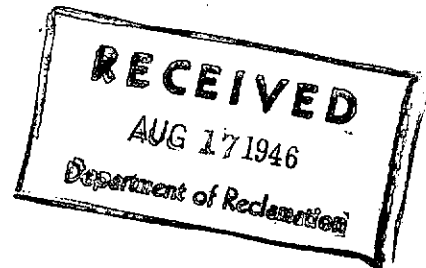

I enclose herewith an application for extension of time for completion of work under Permit No. 19700, issued to John E. Thompson, of Route #3, Blackfoot, Idaho.

In view of the limited time in the spring during which he can work on this project, I suggested to him that he ask for an extension to October 18, 1949, which is still less than the maximum time allowed by law.

I trust that you will find the application in proper form and that you can give it your approval.

Yours very truly,

Robert M. Kerr, Jr.

19700

Permit No. 19700

Application for Extension of Time FOR COMPLETION OF WORKS

John E. Thompson, of Blackfoot, Route #3

State of Idaho, being first duly sworn, upon his oath deposes and says:

He is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho
No. 19700

Under the terms and conditions of said permit, construction work thereunder was required to be
completed by 18th day of ~~xxx~~ October 1946.

That he has heretofore performed the following work described under said permit.

Two of the ponds have been connected by a ditch, pump pit has been
dug and cemented and the pump installed, one-half mile of ditches
completed, over twenty acres of the land prepared and diked, and
water has been through the ditches.

costing \$1000.00

That he is unable to complete the remainder of the work within the required time, for the fol-
lowing reasons, to-wit:

Misunderstood that only one year was allowed. There is only a period
of about one month in the spring when work in the ponds can be
accomplished without expensive equipment and great difficulty. This
land was almost wholly raw land and has required breaking up. Only
part of this can be done each year without interfering with regular
farming operations. The sub came up early this year and shortened
the working time at the ponds.

State Reclamation Engineer

WHEREFORE, He asks that the Commissioner of Reclamation extend the time for the comple-
tion of works under said permit to October 18, 1949.

Blackfoot Idaho
Sept 20 1945

Commissioner of Reclamation
Boise Ida.

Dear Sir: I've just completed an
irrigation system on a 200 acre farm
legal description $E \frac{1}{2}$ of $SE \frac{1}{4}$ of S33 T.2 S.
Range 36 E, B.M. and the $SW \frac{1}{4}$ of the $NW \frac{1}{4}$ and
the $W \frac{1}{2}$ of the $SW \frac{1}{4}$ of Sec. 34. T 2 S. Range 36
E. B.M.

The pumping plant is located in the $N \frac{1}{4}$
of $W \frac{1}{2}$ of $SW \frac{1}{4}$ of Sec 34 T 2 S Range 36 E B.M.

I'm desirous of filing on water to irrigate
this entire 200 acres. It is sub. water and
forms small lakes. I'm connecting a series
of these ponds together.

Please send me the necessary Blanks
and instructions to obtain this water right
also let me know the fee.

This place has never had water to my knowledge.

Yours Very Truly
John C Thompson, R. 3.

Blackfoot, Idaho

Dear Mr. Thompson:

In reply to your request of September 20th, we are inclosing herewith an application blank, to be used in filing an application for permit for water right. I believe you will find all the necessary instructions for filling out the application in the inclosed pamphlet. Special blank forms are also inclosed for drawing sketch map in duplicate. This sketch map should show exact point of diversion and place of use, showing legal land description, section, township, and range.

Very truly yours,
