Permit No. G-23828

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Warren S. Tew, Shelley, Idaho, farming.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-23828, March 7, 1953, with same priority date 2-18-53

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean; well in SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 36, Twp. 1 South,
Range 37 E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Water pumped from well in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of said Section 36, with two pipe lines leading away from the well and covering the lands being irrigated in Section 36, Twp. 1 South, and in Section 1, Twp. 2 South, Range 37 E.B.M.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation of N $\frac{1}{2}$ and the N $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 1, except about 50 acres south of highway in the N $\frac{1}{2}$ SW $\frac{1}{4}$ of said Sec. 1, in Twp. 2 South, Range 37 E.B.M. and 10 acres in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ and all of the SW $\frac{1}{4}$ in Section 36, Township 1 South, Range 37 E.B.M., for a total of 600 acres, more or less. All lands have been cultivated and irrigated since and including the year of 1953.

23828

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 300 inches.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Started irrigated on above described lands in spring of 1953, and have continued such irrigated each irrigation season thereafter, in amount of about 300 miner's inches, or 6 subic feet per second.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

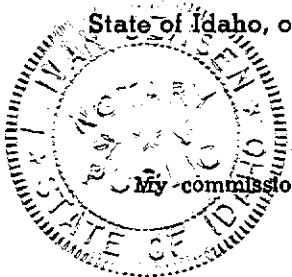

Ans. No other waters used.

Deposition of Witness**

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Arvel W. Fielding, over 21 years, residing at Shelley, Idaho,
RFD 1, engaged in farming.

Ques. 2. Are you acquainted with Warren S. Tew, the
holder of Permit No. ^{G-}23828? How long have you known him and where does
he reside?

Ans. Yes; I have known him more than ten years, and he resides at
Shelley, Idaho.

Ques. 3. Have you read or heard read said Permit No. ^{G-}23828, and are you
familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Subterranean well water pumped from well on the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of
Section 36, Twp. 1 South, Range 37 E. B. M., consisting of
complete well and pump and in complete order and delivering
water to lands being irrigated.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. About 6 second feet, or approximately 300 miner's inches, and
this is the amount that appears to me to have been used.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount? Approximately 6 cubic feet per second, or 300 miner's inches.

State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation. Used to irrigate N $\frac{1}{2}$ and N $\frac{1}{2}$ S $\frac{1}{2}$ of Sec. 1, except 50 acres south of highway in the N $\frac{1}{2}$ SW $\frac{1}{4}$ thereof, in Township 2 South, Range 37 E.B.M. Also 10 acres in SW $\frac{1}{4}$ SE $\frac{1}{4}$ and all of the SW $\frac{1}{4}$ in Section 36, Twp. 1 South, Range 37 E.B.M., for a total of 600 acres, more or less. All such lands being cultivated.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. For irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Loom or silt, very good quality, with approximately 600 acres having been reclaimed and farmed, and 300 inches pressure sprinkling will properly irrigate the said lands.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I own adjoining lands and have observed the irrigation of this land during the past four years, the lands having first been irrigated in 1953.

 APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 2 o'clock P.M., on the 1st
 day of November, 1956, at Shelley, County
 of Bingham, State of Idaho, before
L. Ivan Jensen, Notary Public, proof will be submitted of the completion
 of works for the diversion of six cubic feet per second of underground
 waters from a well, and of the application to beneficial use of said water, in
 accordance with the terms and conditions of Permit No. G-23828 hereto-
 fore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding
 said permit are Warren S. Tew, Shelley, Idaho

2. Said works of diversion will be fully completed on the date set for
 such completion, and the amount of water which said works are capable of
 conveying to the place of use is six cubic feet per second.

3. The use to which said water has been applied is irrigation
and domestic purposes, and the amount applied to beneficial use is
six cubic feet per second.

4. The point of diversion of said water is SW 1/4 of Section 36,
Township 1 South, Range 37 East of the Boise Meridian.

5. The place where said water is used is ALL of Section 36, Township 1
South, Range 37 East, Boise Meridian, and Section 1, Township 2
South, Range 37 East, Boise Meridian, in Bingham County, Idaho.

6. The date of priority which said user is prepared to establish is

Mr. L. Ivan Jensen
Attorney and Counselor at Law
Shelley, Idaho

Dear Mr. Jensen:

We acknowledge receipt of your letter of September 24, 1956, with your check in the amount of \$1.00 to cover the fee for the copy of the above captioned Permit which we sent you July 25, 1956; and we enclose our departmental receipt No. G-21148 for same. Also enclosed were the depositions of both the holder of said Permit and two witnesses which stated that the work was completed and water put to beneficial use on or before March 7, 1956 which was the date for taking of proof.

Now with the Permit in good standing you are prepared to make proofs of completion of works and beneficial use on your Permit No. G-23828.

Before these proofs are made, the statutes require publication of a notice once a week for four weeks in a county newspaper. This notice should be made in duplicate on Form 36 enclosed, setting the time and place and naming the notary public before whom the proofs are to be made.

The proofs may be made at any place convenient for you and your two witnesses but the date must be set far enough ahead to allow for four weeks publication.

Both copies of Form 36 to be returned to this department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing and shall send you the forms of deposition to be executed by yourself and two disinterested witnesses in making these proofs.

Re: Permit No. 23828

L. Ivan Jensen
Atty. & Counselor at Law
Shelley, Idaho.

Dear Mr. Jensen:-

We have your letter of July 23, 1956, regarding Permit No. G-23828 in the name of Warren S. Tew.

This Permit as you know from our notice sent, is subject to cancellation for not having made Completion of Works and Beneficial Use Proof as of March 7, 1956. However, if Mr. Tew, the applicant and two witnesses will fill out the enclosed Forms and each state that the works was completed and the water applied to Beneficial Use on or before March 7, 1956 a reinstatement of Permit may be arranged.

No amendment will be necessary for the point of diversion as the well you mention producing about 300 inches of water in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 36., Twp. 1 South, Rge. 37 E.B.M. is one of the points of diversions listed in the original Permit.

As to the land to be used - the entire Sec. 36, Twp. 1 South Rge. 37 E.B.M. was given in the original Permit and no amendment will be necessary for that portion of the lands. However in Sec. 1, Twp. 2 South, Rge. 37 E., only the N $\frac{1}{2}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$ was filed on and if the 400 acres you mention in Sec. 1, Twp. 2 South, Rge. 37 E.B.M. should be in any of those subdivisions no amendment is necessary, but if not then an amendment for that portion of the land to be used will be necessary, for which we are inclosing a Form.

We also enclose a copy of Permit No. G-23828. The fee of \$1.00 you may send at your convenience.

Shelley Idaho

Dear Mr. Kulp:

Regarding the above permit I wish to report for Mr. Tew that he was in Arizona last winter and spring and did not get the notice which was mailed to him on or about the 1st day of January, 1956, advising him to submit proof prior to March 7, 1956.

I wish to report that Mr. Tew drilled several wells which were dry, but he did have very good success with the one drilled on the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 36, Twp. 1 South, Range 37 E.B.M., which is producing about 300 inches of water. However, this well is being used to irrigate about 180 acres in Section 36, above Township and Range, and about 400 acres in Section 1, in Township 2 South, Range 37 E.B.M.

In order to get the priority on the well he is using, would it be possible to amend his application to cover the lands above mentioned.

There would be only one point of diversion instead of the 4 points, as mentioned in the application and permit, with the actual point of diversion being from the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of said Sec. 36, Twp. 1 South, Range 37 E.B.M. Mr. Tew cannot locate his copy of this permit and I will be glad to send you a check for making us a copy of the same, and sending it with your reply.

Very sincerely,

L. Ivan Jensen

Dear Mr. Thompson:

Mr. Tew has handed us your letter of October 14 and requested us to assist him in preparing the application for transfer of water right. The typed application has been properly signed and acknowledged and is enclosed herewith. We hope it is in proper form.

We note from your letter that the application will have to be sent to a County Newspaper where the land is situated for two weeks publication. We assume that very shortly thereafter we may expect completion of the transfer so that we can promptly proceed to close the loan we are processing for Mr. Tew.

If for any reason we have not completed the form properly, would you please advise us and we will make the necessary changes, if any.

NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec 1, Twp 2 S. R. 37 EBM

_____ and is the person (or representative of the corporation) to whom such right so issued, or has become the owner thereof in the following manner, i.e. _____

as per abstract of title of said water right hereto attached and made a part of this statement;

That said waters are now diverted from said stream in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 36, Township 1 South, Range 37 East, B. M., and conducted to the above described lands through steel main line and sprinkling laterals, as per map herewith and of this affidavit made a part.

CHANGE IN PLACE OF USE

That affiant and petitioner desires to abandon the use of 4.64 cubic feet per second of said water upon the above described land, and to convey and use same upon the following tract, situate, lying and being in the County of Bingham and State of Idaho, to-wit:

Fraction of S $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 36, Township 1 South, Range 37 E.B.M.;

That reasons for desiring to make such transfer are as follows: Another irrigation system has been installed on part of the land that was to be irrigated under permit # g-23828 described above. The water right is needed for another small piece of land not covered by the present permit. See plat.

T-916

27-2091

That he intends to divert and convey said 4.64 second feet of water to the tract of land last above described in the following manner and as per map accompanying this application:
By use of pump, steel main line, and sprinkling laterals.

Note—If this water right has heretofore been carried jointly in a ditch with other water, affiant should secure written consent of other owners or users to removal from its original carrier and file such consent with this affidavit.

CHANGE IN POINT OF DIVERSION

That affiant desires to change the point of diversion of said waters from the point above described to a point located in 1/4 of 1/4 of Section 36, Township 1, Range 37, and thereafter conduct same to the above described land through the no ditch, as per map appended.

That his reasons for desiring to make such change are as follows: There is no change in the point of diversion.

Petitioner asserts that no one will be injured by such transfer, or change in point of diversion, and that the change will be made at petitioner's own risk.

WHEREFORE, Affiant and Petitioner prays that the State Reclamation Engineer of the State of Idaho issue to him the proper certificate authorizing such change in point of diversion and/or place of use, in accordance with the provisions of Sections 42-108 and 42-222 of the Idaho Code.

Dear Mr. Thompson:

In checking our file, we note that the legal description contained in the letter dated October 7, 1958, and written over Mr. Warren S. Tew's signature has a slight typographical error.

Please note in the second line of the legal description that it should read, Section 1 in Township 2 South, rather than Section 1 in Township 1 South. We thought this ought to be brought to your attention in case this was the description to be used in the newspaper advertising rather than the description in the application for the Transfer of Water Right.

Thank you for your attention to this matter.

Very truly yours,

Mr. Warren S. Tew
P. O. Box 43

Dear Mr. Tew:

Your letter received stating that you have made some changes in your irrigation set up and would like to know the procedure to follow to transfer your water right to other lands.

After a license is issued and the water made appurtenant to certain lands the only way that you can change the appurtenancy is by transfer of water right - Reference (Section 42-222, Idaho Code).

In case you wish to transfer the water right from one piece of land to another, you simply transfer the water right from the land as stated in the license and transfer back to the lands which you now wish to irrigate with the water, sign before a notary public and return to this department.

If the application is in proper form, we will send it to a newspaper within the county where the land is situated and will request the publication of the intent to transfer for two weekly issues in their newspaper.

We are enclosing herewith, Application for Change of Water Right. While we are enclosing two copies of this form, this office does not require a duplicate copy, we simply furnish you an extra copy for your work sheet.

Very truly yours,

Re: Permit No. G-23828
Warren S. Tew

Dear Sir:

My license and certificate of water right captioned above entitles me to use water on 500 acres. I have changed my program somewhat since the above license was issued. I have discontinued using the water from my well on the Northeast Quarter and the North Half of the Southeast Quarter of Section 1, Township 2 South, Range 37 East. I would like to transfer some of the water right from the before mentioned lands to part of the North Half of the Southwest Quarter of Section 36, Township 1 South, Range 37 East of the Boise Meridian.

The legal description of the land I am presently irrigating from my well is as follows:

Lots 3 and 4, and the South Half of the Northwest 1/4 of Section 1 in Township 1 South, of Range 37 East of the Boise Meridian. Also, that part of the North Half of the Southwest Quarter of said Section 1, lying North of the county road.

Commencing at the Southeast corner of the Southwest 1/4 of Section 36, Township 1 South, Range 37 East of the Boise Meridian, and running thence North 2330 feet, thence North 84°14' West 455 feet; thence North 79°30' West 870 feet; thence North 39°15' West 350 feet; thence North 22°35' West 630 feet; thence North 49°25' West 1020 feet, more or less, to the West line of said Section 36; thence South to the Southwest corner of said Section 36 thence East to the point of beginning.

Beginning at a point which is 290 feet North of the South Quarter corner of Section 36, Township 1 South, Range 37 East of the Boise Meridian, thence East 550 feet, thence North 80 feet, thence in a Northwesterly direction 625 feet, more or less, to a point 640 feet, North of the South Quarter corner of said Section 36, thence South 350 feet to the point of beginning.

Would you kindly revise my license and certificate of water right, so it would cover the legal description above.

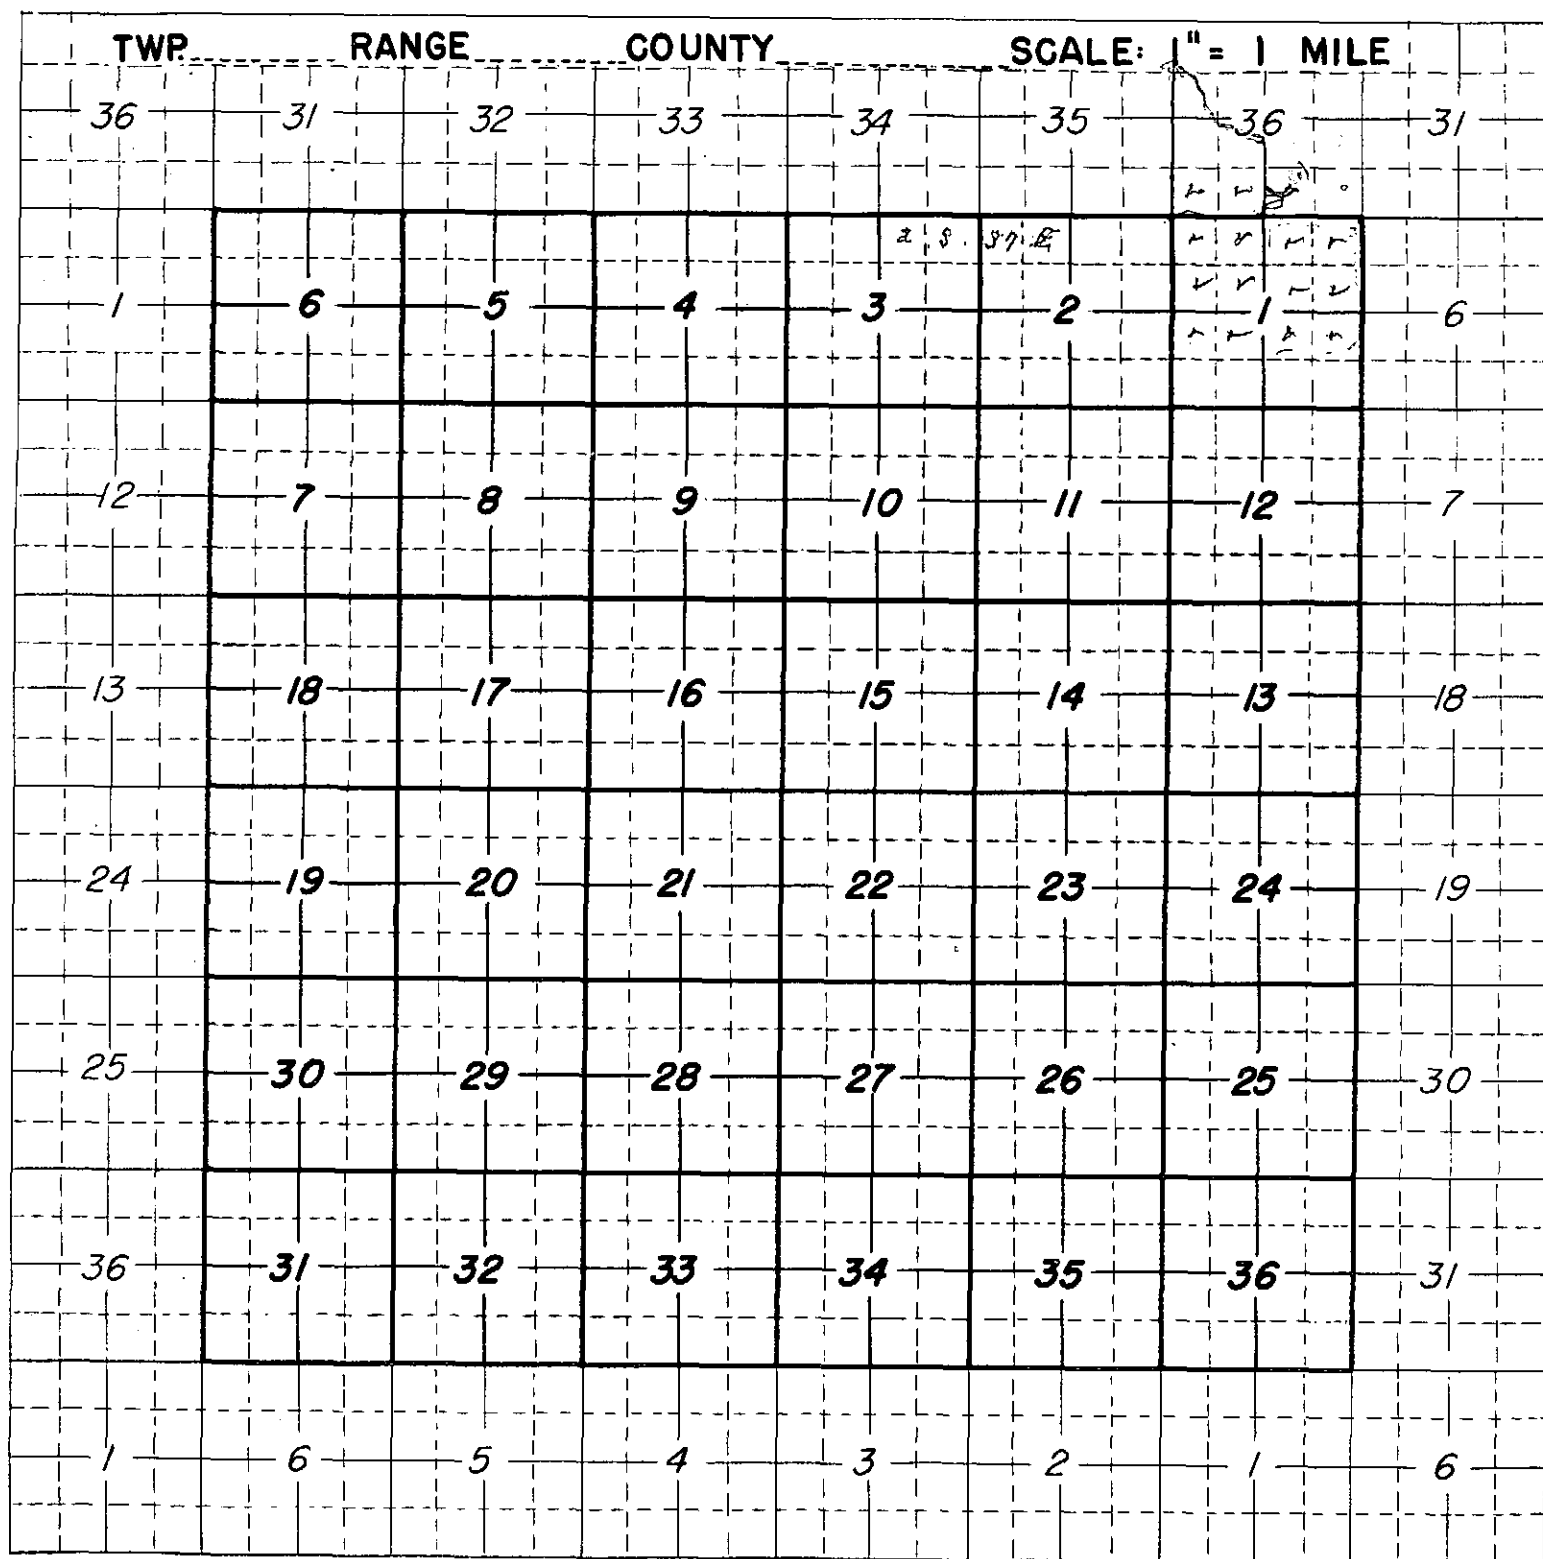

Thank you very much for your attention to this matter. I would appreciate hearing from you at your earliest convenience

Very truly yours,

Warren S. Tew
