## NOTICE FOR PUBLICATION

NOTICE OF PROOF OF APPLICATION OF WATER  
TO BENEFICIAL USE

Notice is hereby given that at 10 a. m. on the 1<sup>st</sup> day of September, 1920,  
at Soda Springs, County of Caribou, State of Idaho,  
before Herbert Hovely, N.P., proof will be submitted  
of the application to beneficial use of 1<sup>1</sup>/<sub>5</sub> 1.2 cubic feet per second of the  
waters of Trail Creek in accordance with the terms and conditions of  
Permit No. 11592 heretofore issued by the State Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are.....

Ernest H. Smith Soda Springs Idaho

The use to which said water has been applied is Irrigation

The amount applied to beneficial use is 1<sup>1</sup>/<sub>5</sub> C. U. Per Second 1.2 cu. ft. per second.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) 5<sup>1</sup>/<sub>2</sub> SW<sup>1</sup>/<sub>4</sub> Sec 16 T8. South Range 43 East 18W.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Smith Ditch

The right to take water from such works is based upon Permit No. 11592

The source of supply from which such water is diverted is Trail Creek

The date of the priority which said user is prepared to establish is August 27, 1917.

July 30, 1920.

Re: Permit 11592.

Mr. E. M. Smith,  
Soda Springs, Idaho.

Dear Sir:--

Our examining engineer, Mr. E. D. Amett, has filed his report on the beneficial use of water under your above permit and advised us that you desire to complete this proof. I accordingly enclose herewith blank notices to be filled out, in duplicate, and returned to this office in time for one copy to be mailed to the paper designated by you, for the required four weeks publication prior to the date set for proof.

In looking over the files, I find that you have submitted your affidavit, with fees, for proof of completion of works but that the certificate of completion of works has been withheld for the correction of the location of the point of diversion. On September 24, 1917, a letter was mailed to you from this office advising you that you should file an affidavit, upon form enclosed, correcting the description of the point of diversion. Your affidavit gave the point of diversion in the central part of the SE<sup>1</sup>/<sub>4</sub> Sec. 21, Twp. 6 S., R. 43 E., S. 11 N., while the permit describes two points - one in SE<sup>1</sup>/<sub>4</sub> Sec. 21, and the other in NE<sup>1</sup>/<sub>4</sub> Sec. 21, said township and range. As this affidavit has never been filed, I am enclosing herewith a fresh affidavit form, with plats upon which to file duplicate maps showing the correct location of the diversion point. When this affidavit has been received, one, the certificate of completion of works will be issued.

Very truly yours,

W. C. STANFORD,

Commissioner of Reclamation.

### Instructions to Examiners

1. Examiners will not be permitted to examine any of the receipts in the office pertaining to this permit. They are to furnish a report of the facts and conditions as they exist, from their own observations and inquiries.
2. Always carefully note the location of the point of diversion, and accurately plat same.
3. Find out how many parties own right in the ditch or canal and give their names and amount of right.
4. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
5. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
6. If any unusual conditions are discovered, make a plain statement of them under remarks.
7. Always see the holder, if possible, and go over the whole ground with him, and make your report only upon actual existing facts and conditions.

Re: Permit 11592.

Mr. E. H. Smith,  
Soda Springs, Idaho.

Dear Sir:

In checking your affidavit for proof of completion under the above permit, I note the point of diversion is given in the central part of the SW $\frac{1}{4}$  of NW $\frac{1}{4}$ , Section 21, Township 8 S., Range 43 E., while the permit gives this as two points, one in the SE $\frac{1}{4}$  of NW $\frac{1}{4}$ , and one in the NW $\frac{1}{4}$  of SW $\frac{1}{4}$ , Section 21. Please advise us as to which of these is correct.

If the description in the permit is wrong, it will be necessary for you to correct the records by filing an affidavit upon the enclosed form supported by maps in duplicate, forms for which are herewith enclosed.

If the description of affidavit for proof is incorrect, the same will be returned to you for correction upon request.

Your letter explaining the enlargement of ditch to carry additional water is sufficient explanation for your proof. The certificate will be issued for the 1.2 second feet appropriated under the above permit.

Re: Permit No. 11592.

Mr. Ernest H. Smith,  
Soda Springs, Idaho.

Dear Sir:

In checking your affidavit for proof of completion, I note that you state that you have asked for an additional 3.2 second feet of water for your homestead entry. In regard to this would say that the amount of water capped under the above permit could not be increased, 1.2 second feet being the maximum amount for which certificate and license could be issued. This to cover the 60 acres called for in your permit.

If an additional amount of water is required, it will be necessary for you to make another application for same. Blank for which is enclosed.

A certificate of completion of works will therefore be issued under the above permit for the amount applied for and will be mailed to you with receipt for fees, just as soon as we can get to it.

Boise, Idaho, July 19, 1917.

Dear Sir:—

Under the terms of your permit No. 11592, you are required to complete your diversion works on or before Sept. 11, 1917. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
