LAST WILL AND TESTAMENT

OF

Thain Marriner Evans

I, Thain Marriner Evans, of Bingham County, Idaho, publish and declare this to be my Last Will and Testament.

ARTICLE 1: REVOCATION OF PRIOR WILLS

I hereby revoke all Wills and Codicils that I have previously made.

ARTICLE 2: DECLARATION OF FAMILY

I am married to Helen Briggs Evans and all references in this Will to "my spouse" are to her only. I have five children now living, whose names are: Thain Lynn Evans, Craig Briggs Evans, Byron Briggs Evans, Dean Marriner Evans, and Linda May Cornelison. I have no deceased children. All references to my children are to the above named children.

ARTICLE 3: PAYMENT OF DEBTS

I authorize the payment of all my just debts and expenses as required by law.

ARTICLE 4: NATURE OF PROPERTY DISPOSED OF BY WILL

I confirm my spouse's interest in our community property. By this Will I dispose of all my separate property, if any, and of my one-half (1/2) interest in our community property.

MICROFILMED

MAR 05 2001

ARTICLE 5: NATURE OF JOINTLY HELD PROPERTY

Any designation of joint ownership of assets is for my convenience only and at the time of my death all such assets shall be a part of my probate estate and subject to this Will.

ARTICLE 6: NOT JOINT WILLS

My spouse and I have each executed wills that have similar provisions, but the execution of similar wills is not to be construed as making the wills "joint and mutual".

ARTICLE 7: TANGIBLE PERSONAL PROPERTY

A. **Gift.** I give my jewelry, clothing, household furniture, appliances, furnishings, books, paintings, heirlooms and other tangible personal property of a similar nature, (other than money, evidences of indebtedness, documents of title, securities, motor vehicles, recreation vehicles, and property used in a trade or business), together with any insurance on such property, to my spouse, if my spouse survives me.

B. **Alternate Gift of Property.** If my spouse does not survive me, I give said tangible personal property, or my interest in any such property, not otherwise specifically disposed of by this will or in any other manner, together with any insurance on such property to those persons named in a written statement or list in my handwriting or signed by me, prepared either before or after the execution of this will, and which describes the items and devisees with reasonable certainty. To the extent not disposed of by such written statement or list, I give said tangible personal property, or my interest in any such property, not otherwise specifically disposed of by this will or in any other manner, together with any insurance on such property, to my issue by representation who survive me as they shall agree. If they fail to agree within six (6) months after the appointment of my personal representative, such assets will be divided among them in proportion to their representative share as my personal representative shall determine.

C. **Representation of Minors.** My personal representative shall represent any person under age eighteen (18) in any matter relating to any distribution under this Article, including the selection of the assets that shall constitute that person's share, and my personal representative may sell for the person's account any part of that person's share.

~~ARTICLE 8: GIFT OF RESIDUE TO SPOUSE~~

I give, devise, and bequeath all of the rest, residue and remainder of my estate to my spouse.

ARTICLE 9: GIFT TO CHILDREN

If my spouse does not survive me, I give, devise, and bequeath all of the rest, residue, and remainder of my estate, to my children in equal shares. If any of my children shall not survive me but shall leave issue who survive me, such issue shall take by representation the share which their parent would have taken had such parent survived me. I may have made loans or gifts to one or more of my children that is to be treated as an advancement on such child's inheritance. Any such loan or gift shall be identified on a separate writing that identifies the child and the amount of the loan or gift. In determining distributions pursuant to this Article, the personal representative shall add to the value of the distributable assets the amount of any such loan (which has not been repaid and whether such loan could be collected or not) or gift. Such amount shall be treated as an advancement of the inheritance of such child or of such child's issue.

ARTICLE 10: TRANSFERS TO MINORS

If any portion of my estate is distributable to any person who has not attained the age of twenty-one (21), my personal representative is directed to distribute such property to my personal representative as custodian for the benefit of such person pursuant to the terms of the Idaho Uniform Transfers to Minors Act.

ARTICLE 11: DEFINITION OF ISSUE

"Issue" means all legitimately born lineal descendants of all degrees of the described ancestor. An adopted child and such adopted child's issue shall be considered in this Will as legitimately born descendants of the adoptive parent or parents and of any one who is by blood or adoption an ancestor of the adopting parent, or of either of the adoptive parents. A person who is related to the decedent through two (2) lines of relationship is entitled to only a single share based on the relationship which would entitle him to the larger share.

ARTICLE 12: DISTRIBUTIONS BY REPRESENTATION

Whenever a distribution to the issue of a designated person is to be made by representation, the distributable assets shall be divided into as many shares as there are, at the time of my death, or at any other time such assets are distributable, living issue in the nearest degree of kinship and then deceased issue in the same degree who left issue who are then living, each then living issue in the nearest degree receiving one share and the share of each then deceased issue in the same degree being divided among his or her issue in the same manner.

ARTICLE 13: ADMINISTRATION OF ESTATE

My personal representative shall have full power to manage and settle my estate without intervention of any court or courts, including, but not limited to, the power to sell, lease, mortgage, invest, reinvest, exchange, manage, control or in any way use and deal with any and all property of my estate.

My estate shall not be subject to supervised administration. However, if my personal representative shall petition for supervised administration, it is my desire that such administration be ordered. If any other person interested in my estate shall petition for supervised administration, it is my desire that such administration, nevertheless, shall not be ordered, unless changed circumstances would require supervised administration to protect the interests of my estate and its beneficiaries.

ARTICLE 14: DESIGNATION OF PERSONAL REPRESENTATIVE

I nominate my spouse as personal representative of my estate. If said personal representative shall for any reason fail to qualify or, after qualifying, shall cease to act as personal representative, I nominate Dean Marriner Evans and Byron Briggs Evans as alternate co-personal representatives of my estate.

ARTICLE 15: BONDS WAIVED

I direct that each personal representative, including successors, shall be permitted to qualify and act without the necessity of giving a bond or other undertaking in this or any other jurisdiction for the faithful performance of the personal representative's duties, or if any bond shall be required by law or rule of court, without the necessity of sureties thereon.

ARTICLE 16: NO CONTEST

If any beneficiary under this Will in any manner, directly or indirectly, contests or attacks this Will or any of its provisions, or institutes other proceedings relating to the estate without probable cause for such proceedings, any share or interest in my estate given to that contesting beneficiary under this Will is revoked and shall be disposed of in the same manner provided herein as if that contesting beneficiary had predeceased me without issue.

ARTICLE 17: SEPARATE PROPERTY

All property or income distributed pursuant to this Will or any trust created hereunder shall be distributed as the sole and separate property of the person to whom it is given and the income, rents, issues and profits thereon shall remain the sole and separate property of said person.

ARTICLE 18: FAILURE OF REMAINDER

If at the time of my death, or at any later time before full distribution of the entire trust estate, my spouse and all of my issue are deceased, any unvested portion of my estate or of any trust estate shall be distributed one-half (1/2) to those persons who then would be my heirs and one-half (1/2) to those persons who then would be my spouse's heirs. Their identities and respective shares shall be determined as though our deaths had then occurred and shall be determined according to the laws of the State of Idaho then in effect relating to the succession of separate property.

ARTICLE 19: POWERS AND OBLIGATIONS OF SUCCESSOR FIDUCIARIES

Every successor or substitute fiduciary shall have all the title, rights, powers, privileges and duties herein conferred or imposed upon the original fiduciary without any act of transfer or conveyance. No successor fiduciary shall be obligated to examine the accounts, records and acts of any previous fiduciary or any allocation of the trust estate.

RE: Assignment of Permit 27-7434

Dear Water Right Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced water right permit. Water right permit number 27-7434 has been split into water right permit numbers 27-11909 and 27-11910. The department has modified its records to reflect the assignment of permit and has enclosed computer-generated reports for your records.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

Cynthia Bridge, Associate Engineer

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 27-07434

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I note that the permit issued to you by the department requires the installation of a flow measurement port to allow the department to determine the rate of diversion. The proof which you submitted does not show that you have installed this equipment.

The installation of the flow measurement port must be complete by the time the department representative conducts the examination of your system unless the department has rescinded the requirement prior to the field examination. In some cases, the equipment requirement can be rescinded because the equipment cannot be physically installed, is not appropriate or can be accommodated with other measuring methods.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Karen L. Gustafson

PROOF DUE NOTICE

RE: PERMIT NO. 27-07434

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

RE: LAPSED EMERGENCY TEMPORARY APPROVAL #27-7434

Dear Mr. Bartausky:

On 10 November, 1987, the Emergency Temporary Approval of Application for Permit No. 27-7434 lapsed. Consequently, it cannot be used as a basis for the diversion of groundwater subsequent to the above date.

This temporary approval was issued on 14 July, 1987. It granted the drilling of well and diversion of groundwater to supplement irrigation needs when surface water was no longer available in 1987.

With the lapsing of the temporary approval, the status of your filing will revert to pending application for permit. It will remain on file in this office; however, future administrative review of the application will be deferred until the Swan Falls Agreement has been ratified by the Federal Energy Regulatory Commission.

You should be aware that drilling permit no. 27-87-E-005 has also lapsed. This permit was issued in conjunction with the emergency temporary approval of application no. 27-7434 and authorized the drilling of an irrigation well. This permit was in effect until 14 August, 1987.

Feel free to call or contact this office should you have questions concerning the status of your application.

Respectfully submitted,

Dear Water Right Applicants:

Enclosed is a temporary approval for diversion of groundwater during the 1988 irrigation season.

The copy of the application for permit to appropriate water attached to the interim approval defines the various components of your temporary approval. The inclusion of the copy of the application is only for the purpose of definition, and any terms contained therein are limited by the conditions of the temporary approval. Note that the authority to use water from the well is limited to the 1988 irrigation season. Use of water from the well after that date is not authorized.

This office will continue to process the original application for permit, pursuant to Chapter 2, Title 42, Idaho Code, unless directed otherwise by you. This processing will include advertisement for two weeks in the county where the point of diversion is located.

Very truly yours,

RONALD D. CARLSON

TEMPORARY APPROVAL OF APPLICATION NO. 27-7434

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 27-7434 ; and a temporary approval to divert groundwater is granted for 97 days until Nov. 15, 1988 , subject to the following limitations and conditions:

- a. The water use approved herein is subject to all prior water rights.
- b. By accepting the temporary approval and diversion of water under the temporary approval, the water user assumes all risk relative to interference with other water rights and acknowledges and agrees that the Director is authorized to take reasonable steps to insure that water is not diverted under the approval at any time the Director determines there is not water available for diversion.
- c. The water user acknowledges that the temporary approval does not establish a right to divert water except as specifically provided in the temporary approval.
- d. The water user assumes all risk that he or she will be successful in obtaining a permanent water right permit when the application is processed under the provisions of Chapter 2, Title 42, Idaho Code and the Water Appropriation Rules and Regulations. Following expiration of the temporary approval, diversion of water shall cease and the well shall be capped unless a permit is issued under Chapter 2, Title 42, Idaho Code.
- e. Violation of temporary approval conditions, provisions of the Idaho Code, or the Water Appropriation Rules and Regulations is cause for cancellation of the temporary approval and denial of future requests.
- f. By accepting this temporary approval, the water user acknowledges and agrees that the Director of IDWR is authorized to disconnect the power supply from the pump motor used to divert water under the temporary approval or to take other reasonable steps to insure that water is not diverted during any period the temporary approval is suspended or revoked, or has expired.
- g. The Director retains jurisdiction of this temporary approval, and may cancel or modify the approval, or impose additional conditions not a part of the original temporary approval conditions.

- h. The temporary approval applies only to uses and lands which normally have an adequate supply of water from surface water sources but are temporarily water short because of drought conditions.

Dear Ron,

This letter of request for a reinstatement of
Emergency Temporary well permit # 27-7434
is written as per instructions from Mr. Norm.
Young from the State office in Boise.

Because of the deteriorating supply of water
in the Blackfoot Canal Company and the meager
supply that is apparent from storage as of today,
it has become very necessary to have a sup-
plemental supply of water without an interruption
to our potatoe crop, that we be able to start
construction of a well and to have our pump
immediately rebuilt.

Because our time is very short, I will
appreciate all the help you can give us to
expedite the reinstatement of this permit # 27-7434.
Thanks very much.

RE: Water Right No. 27-7434

Dear Water Right Applicant:

Enclosed is a temporary approval for diversion of groundwater during the 1987 irrigation season.

The copy of the application for permit to appropriate water attached to the interim approval defines the various components of your temporary approval. The inclusion of the copy of the application is only for the purpose of definition, and any terms contained therein are limited by the conditions of the temporary approval.

As described in condition of approval (k), this office will hold the original application for permit for future processing, pursuant to Chapter 2, Title 42, Idaho Code, unless directed otherwise by you. This processing will include advertisement for two weeks in the county where the point of diversion is located. It will be initiated subsequent to ratification of the Swan Falls Agreement.

Sincerely,

Ronald Carlson
Manager, Eastern Regional Office

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES
WITH RESPECT TO TEMPORARY APPROVAL OF
APPLICATION FOR PERMIT NO. 27-7434

This is to certify that I have examined Application for Permit to Appropriate the public waters of the State of Idaho No. 27-7434 and a temporary approval to divert groundwater is granted until November 10, 1987, subject to the following limitations and conditions:

- a. The water use approved herein is subject to all prior water rights.
- b. The water user acknowledges that the temporary approval does not convey a continuing right to divert water and does not convey any right to divert water except as specifically provided in the temporary approval.
- c. The water user assumes all risk that he or she will be successful in obtaining a permanent water right permit when the application is processed under the provisions of Chapter 2, Title 42, Idaho Code and the Water Appropriation Rules and Regulations.
- d. Violation of temporary approval conditions, provisions of the Idaho Code, or the Water Appropriation Rules and Regulations is cause for cancellation of the temporary approval and denial of future requests.
- e. By commencing diversion of water under this temporary approval, the water user acknowledges and agrees that the Director of IDWR is authorized to disconnect the power supply from the pump motor used to divert water under the temporary approval, or to take other reasonable steps to insure that water is not diverted during any period the temporary approval is suspended or revoked.
- f. The Director may impose additional conditions not a part of the original temporary approval conditions.
- g. The temporary approval applies only to uses and lands which normally have an adequate supply of water from surface water sources, but are temporarily water short because of drought conditions.
- h. The temporary approval granted under the expedited procedure shall not be effective for more than the 1987 irrigation season and will expire upon termination of the declared drought emergency, or upon expiration of the term of the approval set herein, whichever is earlier.

MAR 28 1991

- i. The Director will retain jurisdiction of any temporary approval given.
- j. By acceptance of the temporary approval and diversion of water under the temporary approval, the water user assumes all risk relative to interference with other water rights and acknowledges and agrees that the Director is authorized to take reasonable steps to insure that water is not diverted under the approval at any time the Director determines there is not water available for diversion.
- k. Temporary approval granted will be of no force nor effect from and after the 1987 irrigation season. The application for permit, however, will be held by the Department for future processing under the provisions of Chapter 2, Title 42, Idaho Code, and Water Appropriation Rules and Regulations, unless directed otherwise by the applicant.

Witness my hand this 14 day of July, 1987.

ADDITIONAL CONDITIONS OF APPROVAL

The emergency procedure for temporary approval will not be valid so long as the priority of the surface water used to irrigate the declared acreage is being served.

The applicant, by accepting this emergency temporary permit, acknowledges that the well/pump will be inoperative on or before April 1, 1988, unless the emergency status is reinstated or the application is granted permanent status.

The applicant acknowledges that the Director is authorized to enforce the above conditions in a court of competent jurisdiction.

ACTION OF IDWR

☒ Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. The permit holder or his representative shall notify the Department ten (10) days prior to the start of construction unless good cause for later notification can be shown.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

RE: EMERGENCY TEMPORARY APPROVAL

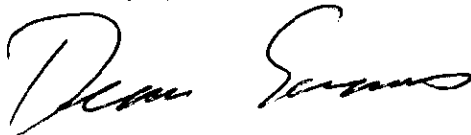

Mr. Ron Carlson:

I am requesting my application for permit #27-7434 be considered for emergency temporary approval.

I understand the nature of an emergency temporary approval and agree to abide by the conditions imposed by the Department of Water Resources.

To obtain a permanent water right permit after expiration of the emergency temporary approval, I ~~do not~~ want the Department to hold my application until it can be processed under the provisions of Chapter 2, Title 42, Idaho Code, and the Water Appropriation Rules and Regulations.

Respectfully yours,
