REQUEST FOR EXTENSION OF TIME **RECEIVED**
SEP 27 2001

TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

Department of Water Resources

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right.

Permit No. 25-7654

Name(s) of Permit Holder: City of Idaho Falls

Address: PO 50 220 City Idaho Falls State ID Zip 83405

Telephone No. 208-529-1472 Date Proof is Due: Nov. 1, 2001

Describe what work has been completed toward the development of this water right:

(This must be filled out! If no work has been completed, show "none".)

Test well contract has been awarded
to Andrew Well Drilling. Work is scheduled
to begin Oct. 2001.

Costing \$ \$34,000

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

A test well was scheduled to verify
suitability prior to well development.
Actual well drilling is budgeted and
scheduled in 2002.

Permit holder(s) request an extension to Nov. 1, 2003

Carroll Arnold, Water Supt
(Signature)*

*If other than permit holder, Power of Attorney must be supplied.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

IT IS HEREBY ORDERED that the above request for extension of time be

APPROVED and the time within which to submit proof of beneficial use is
extended to November 1, 2003.

Signed this 27th day of September, 2001

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
INSTRUCTIONS FOR EXTENSION OF TIME REQUEST
TO SUBMIT PROOF OF BENEFICIAL USE

If the water right development authorized by your permit is not complete and you need more time to submit proof of beneficial use of water under your permit, please read the following:

Under the provisions of Section 42-204, Idaho Code, the department can extend the proof due date of your permit only once, and then only if you can demonstrate that you have been pursuing development of the permit with due diligence.

The Request for Extension of Time form requires that you indicate the extent of development that has occurred, the cost, and the reason(s) the work has not been completed. This information must be provided in enough detail to show due diligence. Examples of work performed are: well drilled, pump installed, 10 acres now irrigated, fish propagation ponds constructed, sprinkler system purchased, etc.

If no work has been accomplished, the statutes provide that the Request for Extension of Time must be denied. **Lack of financial resources, the state of the economy or personal illness usually cannot be considered adequate reasons to approve a Request for Extension of Time.**

EXCEPTIONS TO ONLY ONE EXTENSION

The proof due date for a permit that has not been developed for one of the following reasons may be granted one or more extensions of time even though no work has been accomplished:

- When there is a lack of a required consent or final approval from a federal government agency (**evidence of delay must be submitted with the request**), i.e. right-of-way easement or land classification such as Desert Land Entry or Carey Act.
- When litigation related to title of the water has prevented development of the permit (**evidence must be submitted with the request**).
- When the water project is of a large scale — storage of more than 10,000 acre-feet or diversion of more than 25,000 acre-feet in one irrigation season for an irrigation project of at least 5,000 acres.
- When the water right permit is held by the United States of America (**reason for request must be submitted**).

A non-refundable filing fee of \$50.00 must accompany the Request for Extension of Time form.

NOTE that in no case should a Proof of Beneficial Use form and a Request for Extension of Time form both be submitted. If your water development project is completed, then the proof of beneficial use form should be completed and returned. If the project is started but not completed, then the Request for Extension of Time form should be completed and returned in compliance with the guidelines above. If the project has not been initiated and does not fit into one of the exceptions listed above, then neither form should be returned and the permit will lapse and become of no further force nor effect.

REQUEST FOR EXTENSION OF TIME
TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of water right under the provisions of Section 42-204, Idaho Code.

Permit No. 25-07654

Name(s) of Permit Holder: City of Idaho Falls

Mailing Address: P.O. Box 50220, Idaho Falls, Idaho 83405-0220

Date Proof is Due November 1, 1999 Telephone No. 208-529-1471

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

A ground water geologic report was prepared by R.M.S. Enterprises, Inc.
to evaluate probable success of well production. A consultant review by
Black & Veatch Engineers confirmed hydraulic rationale.

Costing \$ 99.00

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Budgetary constraints have postponed this to 2000-2001

Permit holder(s) request an extension to November 1, 19 2001

FEE: \$15.00

RE: PERMIT NO. 25-07654

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time submitted in connection with the above referenced permit which extends the time within which to submit proof of beneficial use of water to **November 1, 2003**. Please note that the department granted the extension due to circumstances beyond your control, which kept you from completion of the development of the permit. It is important that you work diligently toward the completion of this project during the construction period allowed since the department will not be able to grant additional extension requests based on due diligence or circumstances beyond your control.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner.

If you have any questions regarding this matter, please feel free to contact the department.

RE: PERMIT NO. 25-7654

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 01, 2001. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

Deborah J. Gibson, Administrative Assistant

PERMIT APPROVAL NOTICE

RE: PERMIT 25-07654

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

If a well has not already been constructed you are required to obtain a "drilling permit" from the department. The right to drill a well is not a part of this permit to appropriate water.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

MEMORANDUM

DATE: October 31, 1997
TO: File No. 25-07654
FROM: Cindy Zimmerman S.
RE: Status of municipal use

Section 42-202(2) of the Idaho Code states that "an application proposing an appropriation of water by a municipal provider for reasonably anticipated future needs" must be accompanied by documentation related to the service area, planning horizon, etc.

The file includes a letter dated October 23, 1997, from Carroll Aamold, PE, Water Superintendent of Idaho Falls. The letter identifies that current demands exceed the current system capacity. Additional flow provided under this right is anticipated to be utilized within 2* years. Therefore, this permit should not be interpreted as authorizing an appropriation for reasonably anticipated future needs.

Re: Permit No. 25-07654 Application

Dear Cindy:

Transmitted herewith is the information requested on October 20, 1997.

1. City incorporation. - see attached
2. City service area - see attached map
3. This well is anticipated to meet current demands in the southeast part of the city, which includes existing hospital, commercial and residential uses. The area is about 50% developed and continues to fill each month.
4. This water right will meet current demand needs in that part of the city.

Please let me know if you need any further information.

Sincerely,

RE: Application for Permit No. 25-07654

Dear Sirs:

I received the above application for permit for municipal use for final review. However, prior to issuing a permit on this application, I need some additional information to demonstrate the city complies with the municipal definitions of 42-202B, Idaho Code (copy enclosed).

Please supply documentation or evidence of the following:

- the city's incorporation under section 50-102, Idaho Code,
- the city's service area,
- the city's reasonably anticipated future needs, and
- the city's "planning horizon" as it relates to this proposed appropriation of water.

I will hold further processing on your application for 14 days pending your response. Please submit this information as quickly as possible within the 14-day period to prevent any further undue delay in processing your application.

If you have any questions, you may contact me directly at (208) 327-7944.

Sincerely,

42-202B. Definitions. — Whenever used in this chapter, the term:

(1) "Consumptive use" means that portion of the annual volume of water diverted under a water right that is transpired by growing vegetation, evaporated from soils, converted to nonrecoverable water vapor, incorporated into products, or otherwise does not return to the waters of the state. Consumptive use does not include any water that falls as precipitation directly on the place of use unless the precipitation is captured, controlled and used under an appurtenant water right.

(2) "Municipality" means a city incorporated under section 50-102, Idaho Code, a county, or the state of Idaho acting through a department or institution.

(3) "Municipal provider" means: (a) a municipality that provides water for municipal purposes to its residents and other users within its service area; (b) any corporation or association holding a franchise to supply water for municipal purposes, or a political subdivision of the state of Idaho authorized to supply water for municipal purposes, and which does supply water, for municipal purposes to users within its service area; or (c) a corporation or association which supplies water for municipal purposes through a water system regulated by the state of Idaho as a "public water supply" as described in section 39-103(15), Idaho Code.

(4) "Municipal purposes" refers to water for residential, commercial, industrial, irrigation of parks and open space, and related purposes, excluding use of water from geothermal sources for heating, which a municipal provider is entitled or obligated to supply to all those users within a service area, including those located outside the boundaries of a municipality served by a municipal provider.

(5) "Planning horizon" refers to the length of time that the department determines is reasonable for a municipal provider to hold water rights to meet reasonably anticipated future needs. The length of the planning horizon may vary according to the needs of the particular municipal provider.

(6) "Reasonably anticipated future needs" refers to future uses of water by a municipal provider for municipal purposes within a service area which, on the basis of population and other planning data, are reasonably expected to be required within the planning horizon of each municipality within the service area not inconsistent with comprehensive land use plans approved by each municipality. Reasonably anticipated future needs shall not include uses of water within areas overlapped by conflicting comprehensive land use plans.

(7) "Service area" means that area within which a municipal provider is or becomes entitled or obligated to provide water for municipal purposes. For a municipality, the service area shall correspond to its corporate limits, or other recognized boundaries, including changes therein after the permit or license is issued. The service area for a municipality may also include areas outside its corporate limits, or other recognized boundaries, that are within the municipality's established planning area if the constructed delivery system for the area shares a common water distribution system with lands located within the corporate limits. For a municipal provider that is not a municipality, the service area shall correspond to the area that it is authorized or obligated to serve, including changes therein after the permit or license is issued. [I.C., § 42-202B, as added by 1996, ch. 297, § 2, p. 967; am. 1997, ch. 373, § 1, p. 1188.]

W-9 Payer's Record for Taxpayer
Identification Number and Certification

Important Tax Information

Under Federal income tax law you are required to provide us with the correct taxpayer identification number for all of your accounts. The taxpayer identification number is the social security number for most individuals. You may have provided us with your number at an earlier date. However, the law requires that you now certify under penalties of perjury, that the number on your account(s) is correct. If you never provided a taxpayer identification number you are required to do so at this time. You may be subject to a \$50.00 penalty by the Internal Revenue Service if you do not provide the correct number.

We must withhold 20 percent of taxable interest, dividends, and certain other payments if you fail to furnish your correct number. This 20 percent is referred to as backup withholding. It is not an additional tax. Rather, the tax liability of persons subject to backup withholding will be reduced by the amount of tax withheld. If withholding results in an overpayment of taxes, a refund may be obtained.

Please complete Account Information, Part I and Part II (if applicable) below and return it to this institution as soon as possible. To be valid you must sign and date the form. Federal regulations require us to send you a certification form each year until you complete and return one.

Account Information (List below the Account Number(s) of all accounts with this institution)

PART I: Taxpayer Identification Number For All Accounts

Social Security Number

Enter your taxpayer identification number in the appropriate box. For most individuals this is your Social Security Number.

NOTE: If the account is in more than one name, the first individual on the account is used.

Employer Identification Number

82-6000-952-DP

PART II: For Payees Exempt From Backup Withholding (See Certification Instructions Below)

Check One: ☐ Individual ☐ Partnership ☐ Corporation
☐ Proprietorship ☐ Public Entity ☐ Other

Certification - Under penalties of Perjury, I certify that:

- (1) The number shown on this form is my correct taxpayer number (or I am waiting for a number to be issued to me) and
- (2) I am not subject to backup withholding either because I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or the IRS has notified me that I am no longer subject to backup withholding.

CERTIFICATION INSTRUCTION: You must cross out item (2) above if you have been notified by the IRS that you are subject to backup withholding because of underreporting interest or dividends on your tax return. However, if after being notified by IRS that you were subject to backup withholding you received another notification from the IRS that you are no longer subject to backup withholding, do not cross out item (2).

Dear Vendor:

Our records indicate that we are to make a payment to you for services or materials. To comply with the Internal Revenue Service reporting requirements, we must have your tax identification number on file prior to making any payment.

The City does not have your tax identification number on file. Please complete the attached form W-9, "Request for Taxpayer Identification Number and Certification." Payment to you will be withheld until we receive this form.

If you file your income taxes as an individual, your social security number is your taxpayer identification number. If you file taxes on behalf of a business, a non-profit organization, or a government agency, you should have been assigned a federal tax identification number.
