PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 25-7653

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to contact you to schedule a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions, please contact the **Eastern** Regional Office of the department in Idaho Falls (208) 525-7161.

Sincerely,

Deborah J. Gibson

RE: PERMIT NO. 25-7653

Dear Permit Holder:

Enclosed is a copy of the Proof of Beneficial Use (proof) statement you submitted to the department in connection with the above referenced water right permit. During my review of this proof, I found that the maximum diversion rate granted to you by the Permit to Appropriate Water (permit), dated October 27, 1997 (a copy of which is also enclosed), was in the amount of 0.62 cfs. Therefore, before the department can accept your proof, it must be accompanied by the appropriate license examination fee of \$100.00.

Additionally, the proof you filed states "Less than 0.04 cfs" as your maximum diversion rate, this figure should reflect the total "Maximum Diversion Rate" as reflected on the permit unless you were unable to develop and beneficially use the full amount. The 0.04 cfs is a satisfactory diversion rate for one home, but not for 49 homes as covered by this permit.

I recommend that you amend the diversion rate on the enclosed proof form to reflect the full amount of the diversion or 0.62 cfs, and return the amended copy of the proof form along with the \$100.00 license examination fee, to my attention. I must receive these items before the **November 1, 2002** proof deadline, in order to avoid the lapsing of this permit. If you wish to clarify your development of this permit, I would appreciate your response in writing.

If you have questions regarding this matter, please contact me at (208) 327-7953.

Sincerely,

Deborah Gibson

PROOF DUE NOTICE

RE: PERMIT NO. 25-7653

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 01, 2002. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

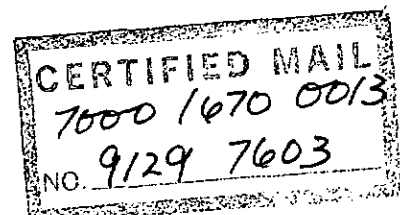

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 25-07653

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

If a well has not already been constructed you are required to obtain a "drilling permit" from the department. The right to drill a well is not a part of this permit to appropriate water.

Please note this water right limits irrigation occurring under the domestic use to one-half acre within each platted subdivision lot upon which a home has been constructed. This permit does not provide for irrigation of common areas or for irrigation of lots with no homes.

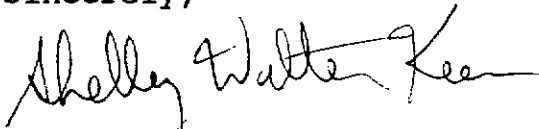

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired

MICROFILMED
OCT 22 1997

a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

Sincerely,

MEMORANDUM

TO: File No. 25-07653

FROM: Cindy Zimmerman *CS*

SUBJECT: Application Review

DATE: October 16, 1997

This application identifies domestic use from groundwater for 49 homes within Cottonwood Acres Division No 3. I noted that the subdivision plat included with the application identified only 12 homes. The location of the two wells was not identified either.

I called Dennis Davis, the applicant, who told me the wells will be located in the northeast corner of Lot 7, Blk. 1. Mr. Davis stated that the subdivision plat showing 12 lots is the only one final thus far. Mr. Davis will send me preliminary plats of the remaining 37 lots.

I will hold processing on this application for 14 days pending his submittal of the additional plats.

Cindy: As per your request
here is a copy of my 49 lot
project.

Thanks,

D. D. Davis

RE: Notice of Application for Permit No. 25-07653

Dear Applicant:

This office is currently in the process of advertising the application in the Idaho Falls Post Register on Sept. 18 & 25, 1997. The advertisement will be published once a week for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones
