INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights, and, if a required claim for the water right has not been filed, to file the needed claim.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures, or if you have questions about completing this form, please contact your nearest IDWR office or call 1-800-451-4129.

If you need additional space to describe or explain any of the items on the form, please attach additional sheets to the form as you may require.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at Item 1. If you or the seller believe there are water rights for the property but the numbers are unknown, you may wish to call IDWR or come into an office of IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at Item 3.
4. The name, mailing address, and telephone number of the new owner(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector "and", "or" or "and/or". If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign, however only one of the named parties is required to sign.
5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. If the property you have purchased is only a portion of the property owned by the former owner/seller, you may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at Item 6.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at Item 7. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

IDWR Western Region, 2735 Airport Way, Boise, ID 83705-5082 (208) 334-2190

JOINT WATER SYSTEM AGREEMENT

THIS AGREEMENT is made the 24 day of October 1997 by the undersigned Lowell G. Miller and Lavina H. Miller, who are the owners of the real property located in Bonneville County, Idaho, known as Lots 5, 6, 7, and 8, Block 2, Miller Country Estates, Division No. 1, Bonneville County, Idaho, per the recorded plat thereof.

RECITALS:

- A. There exists on Lot 6, a domestic water well, pump, and related equipment.
- B. Running from said well located on Lot 6, is a water line to each of the four lots described above.
- C. Thereby, one well, pump, and pressure system serves the homes located on all four lots above, or the homes to be constructed thereon. Each party thereby receives the same benefits from said well.
- D. The parties desire to set forth in writing their agreement as to the ownership, maintenance, and operation of said well.

NOW, THEREFORE, the parties mutually agree as follows:

- 1. Each of the subsequent owners of all Lots are hereby granted a perpetual easement over and across the other lots for their interest in the water system located upon Lot 6, together with reasonable rights of ingress and egress for the maintenance and operation of said water system, and the power lines connected thereto. Also, any utility company supplying power to said system shall have the right to come upon the land described herein to perform any maintenance required by it or read applicable utility meters.
- 2. Each of said parties shall own an undivided 25% interest in and to the well, pump, and jointly used water lines and pressure systems, with each of the parties owning individually the water lines leading from the pump, or pressure tank, as the case may be, to their individual homes.
- 3. Each of the lot owners shall have equal responsibility and will be charged with an equal amount for each lot of the cost of maintenance, repair, operation, and replacement of necessary parts, comprising said water system, including the costs of the electrical energy for operating the pump on said well. Provided, however, no charge will be made for electricity to any lot owner until such time as such lot actually begins to use water (and resulting electrical power usage) from the well. Until such time the cost of electrical power will be shared among lot owners actually using water. Said pump shall be separately metered to determine the amount of electrical energy used for operation of said pump. Each party shall be responsible for the

JOINT WATER SYSTEM AGREEMENT -1-

(Well #1)

MICROFILMED

JUN 01 2001

costs of their individual pipelines lines leading from the pressure tank or pump to their own individual homes.

4. Each of the parties shall have an equal right in the management of said mutual water system and shall freely communicate with each other as to suggestions, plans, performance of any of the functions of said water system. **Provided, however,** that any of the lot owners shall first seek the consent of the owner of any other lot before entering upon such lot for inspection, operation, and maintenance of said water system. Consent for such entry will not be unreasonably withheld.

5. The parties shall be mutually responsible for the processing of any claim to water rights which at any time must be made to preserve and protect the water rights associated with said system.

6. The benefits and burdens of this agreement shall be appurtenant to and run with respect to the lots described above.

7. Due to the limited capacity of the system, it will be necessary to work out a schedule for the use of water from the system for the sprinkling or other irrigation of the lots identified above. Said system is capable of providing water for all lots' domestic household use, but each of the parties agree to cooperate in working out a schedule for watering of lawns, shrubbery, and other ornamental plants.

8. In the event any parties shall be required to employ an attorney to enforce this agreement, with or without suit, the prevailing party in any such action shall be entitled to recover their reasonable attorneys fees and costs, including any such on appeal.

9. This agreement shall only be amended upon the written consent of all lot owners which consent shall then be recorded.

DATED the day and year stated above.

RE: License No. 25-7638 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED
OCT 02 2001

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Change of Ownership for Water Right 25-7638

Dear Water Right Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced water right to each of the above addressed persons. The department has modified its records to reflect the change in ownership and has enclosed a computer-generated report for your records.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

Jeff Peppersack, Manager
Water Right Permits Section

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 25-07638

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **EASTERN** Regional Office of the department in Idaho Falls at (208)525-7161.

Sincerely,

JULIE L. YARBROUGH

Senior Secretary, Water Allocation Bureau

PERMIT APPROVAL NOTICE

RE: PERMIT NOS. 25-07638/25-07639/25-07640

Dear Permit Holder:

Enclosed are copies of your approved Applications for Permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on each permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permits were issued, and you must proceed diligently until the projects are completed. The date shown under condition no. 1 is the date when the projects must be completed.

The Department will send you "Proof Due Notices" approximately 60 days prior to the above referenced dates requesting you to file either Proof of Beneficial Use forms or Request for Extension of Time forms.

If a well has not already been constructed you are required to obtain a "drilling permit" from the department. The right to drill a well is not a part of these permits to appropriate water.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

I, S. BOB BRIGHT or TED DELEZENE
Production Supervisor or Asst. Prod. Supervisor
....., first being duly sworn, depose and say: That I am the
..... of The Post Company, a corporation of Idaho Falls, Bonneville
County, Idaho, publishers of The Post-Register, a newspaper of general circulation, published daily, except
Saturday, at Idaho Falls, Idaho; said Post-Register being a consolidation of the Idaho Falls Times, established in
the year 1890, The Idaho Register, established in the year 1880 and the Idaho Falls Post, established in 1903,
such consolidation being made on the 1st day of November, 1931, and each of said newspapers have been
published continuously and uninterruptedly, prior to consolidation, for more than seventy-eight (78) weeks and
said Post-Register having been published continuously and uninterruptedly from the date of such consolidation,
up to and including the last publication of notice hereinafter referred to.

That the notice, of which a copy is hereto attached and made a part of this affidavit, was published in
said Post-Register for Two consecutive weeks, first publication having been made
on the 18th day of May 1995..., last publication
having been made on the 25th day of May 1995..., and that the
said notice was published in the regular and entire issue of said paper on the respective dates of publication, and
that such notice was published in the newspaper and not in a supplement.

Subscribed and sworn to before me, this .. 31st .. day of May 1995..

.....
Susan M. Chapman
Notary Public

RE: Applications for Permit No.'s 25-07638, 25-07639, & 25-07640

Dear Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Post Register on May 18 & 25, 1995. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State Office Personnel will conduct a complete review prior to final processing of the applications and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones
Harold W. Jones
Water Right Supervisor
