STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 25-07545 Telephone No. 538-7242
2. Name(s) of Permit Holder(s): Jerry L. Parker
3. Mailing Address: P.O. Box 358 Ririe Id 83443
4. Source of Water: Well If **GROUNDWATER** (well), Date Drilled: mo. June / yr. 93
 - a. Well Driller: High Plains Drilling Drilling Permit Number: 25-E-93-091
 - b. **OPTIONAL:**
Pump Horsepower: 500 Pressure (psi): 140 Dynamic pumping level (ft): 430
5. Use(s) (as authorized by the water right permit):
Domestic (No. of households): _____ Stockwater (No. and type of stock): _____
Irrigation (No. of acres): 377 Other: _____
6. Total rate of diversion and/or volume for which proof is submitted: 7.54 cfs OR _____ acre feet
7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)
(This question is **not optional**. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)
Measuring Device: Is a measuring device required? Yes X or No _____
Has the measuring device been installed? Yes _____ or No X
Flow Measurement Port: Is a flow measurement port required? Yes X or No _____
Has the measurement port been installed? Yes _____ or No X
8. Fee Enclosed: \$ 275⁰⁰ (See Fee Schedule on back of the instructions for filing proof of beneficial use)
9. Person to contact to accompany the Department representative during field examination of the water system.
Name: Jerry Parker Telephone Number: 538-7242
Address: P.O. Box 358 Ririe Id 83443
10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder:

Jerry L. Parker

REQUEST FOR EXTENSION OF TIME
TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of water right under the provisions of Section 42-204, Idaho Code.

Permit No. 25-07545
Name(s) of Permit Holder: Jenny L Parker
Mailing Address: P.O. Box 358 Ririe Id 83443
Date Proof is Due July 1st 94 Telephone No. 538-7242

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

Complete irrigation system installed, power installed,
1010' of well drilled. Crops planted and trying to maintain
with current water supply
Costing \$ 395,000⁰⁰

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

The Well was drilled and Test pumped in 93 with adequate
water. In spring of 94 No water was found and The Well
was deepened to 1010' but currently only able to pump half the
amount needed.

Permit holder(s) request an extension to July 1, 19 95.

FEE: \$15.00

Jerry L Parker
(Signature)

*If other than permit holder, Power of Attorney must be supplied.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

IT IS HEREBY ORDERED that the above request for extension of time be **DENIED** since the department is not authorized to grant an additional extension request.

Signed this 13TH day July, 19 94

DEPARTMENT OF WATER RESOURCES

REQUEST FOR EXTENSION OF TIME

TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of water right under the provisions of Section 42-204, Idaho Code.

Permit No. 25-07545
Name(s) of Permit Holder: Jerry L Parker
Mailing Address: P.O. Box 358 Ririe Id 83443
Date Proof is Due July 1, 1993 Telephone No. 538-7242

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

Surrounding area accepted & Seeded To C.R.P., Land Purchase
Complete, Survey of irrigation system completed, electrical
insulation underway, work on well underway approx 100% done,
payment made on irrigation system. Costing \$ 33,800⁰⁰

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

C.R.P. Program, bad weather This winter prevented work
on well. Unreliable well Driller.

Permit holder(s) request an extension to July 1 19 94

FEE: \$15.00

(Signature)*

*If other than permit holder, Power of Attorney must be supplied.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

IT IS HEREBY ORDERED that the above request for extension of time be APPROVED
and the time within which to submit proof of beneficial use is
extended to July 1, 1994.

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before **July 1, 1993**.
2. Subject to all prior water rights.
3. The right to the use of water acquired under this permit shall not give rise to any right or claim against the holder of a senior right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
4. The Director retains jurisdiction of the permit and any license subsequently issued to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.
5. Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
6. Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
7. The issuance of this permit in no way grants any right-of-way or easement across the land of another.
8. The rate of diversion of water for irrigation under this permit and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of applicant Jerry L. Parker Phone (208) 538-7242
 Post office address P.O. Box 358 Ririe Idaho 83443
2. Source of water supply Groundwater which is a tributary of _____
3. Location of point of diversion is _____ 1/4 of SE 1/4 of SW 1/4, Govt. Lot _____
 Sec. 22 Township 3N Range 39E B.M. Bonneville County; additional
 points of diversion if any: _____
4. Water will be used for the following purposes:
 Amount 7.54 for Irrigation purposes from 4/1 to 4/1 (both dates inclusive)
(cfs or acre-feet per annum)
 Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
 Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
 Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) 7.54 and/or (b) _____
cubic feet per second acre feet per annum
6. Proposed diverting works:
 - a. Description of ditches, flumes, pumps, headgates, etc. Well pump mainline to three center pivots
 - b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total
 reservoir capacity _____ acre-feet; period of year when water will be diverted to storage:
 _____ to _____ inclusive.
 - c. Proposed well diameter is 20 inches; proposed depth of well is 400 feet.
 - d. Is ground water with a temperature of greater than 90°F being sought? No
7. Time required for the completion of the works and application of the water to the proposed beneficial use is
3 years (minimum 1 year).

MICROFILMED

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 25-07545

Dear Permit Holder:

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced water right permit.

Enclosed is an order reinstating your permit since the permit was lapsed in error. Please note that the priority date has been advanced to December 21, 1989.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls, at (208)525-7161.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

RE: Permit No. 25-07545

Dear Permit Holder:

Enclosed is a copy of the denied request for extension of time which you submitted to the department in connection with the above referenced permit. Section 42-204, Idaho Code, provides that the department can only grant one extension of time based on due diligence. Please note that the department has previously granted an extension of time in connection with this permit.

Your best option at this point would be to file proof of beneficial use for the portion of the water right that has been developed. I have enclosed the necessary form for your convenience. Be advised that since the extension was denied, the permit lapsed on July 6, 1994, and is of no further force nor effect unless it is reinstated by submitting proof of beneficial use.

If you have any questions or if the department can be of any further assistance, please feel free to contact us or any of the regional offices.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

LAPSE NOTICE

RE: PERMIT NO. 25-07545

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated April 30, 1994. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 25-07545

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1994.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

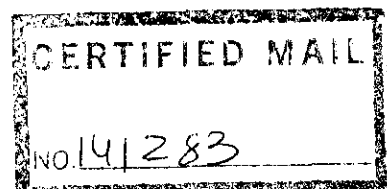

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

Re: Permit No. 25-07545

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to July 1, 1994. Please note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed since the department will not be able to grant additional extensions based on due diligence.

If you have any questions or if I can be of any further assistance, please feel free to contact this office.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

June 25, 1993

Department Of Water Resources

I am writing this letter as an explanation to the points mentioned in my Request For Extension Of Time for my permit no. 25-07545. In 1990 I received two permits and was able to provide beneficial use for one permit that same year. Due to the cost of an irrigation system this size and the time of year I received my second permit, June 1990, I decided to proceed with the second permit in 1991. The ground to be irrigated was owned by Leo Parker and leased by me with an option to purchase.

In February of 91 we decided to place all the ground that would not be irrigated by these two permits into the U. S. Soil Conservation Services, Conservation Reserve Program, (C.R.P.). In July of 91 I had Benton Engineering survey the location of the purposed circle irrigation systems and mark their locations in anticipation of putting the non irrigated ground into C.R.P. Because of the rules of the Soil Conservation Service the ground to be placed into the C.R.P. had to be owned by the same person for three years prior to entering the program thus not allowing me to exercise my purchase option of the ground until it was accepted into the program. In Sept. Of 91 we were notified that because of some errors made by the Soil Conservation Office our ground was rejected from the program but the errors would be corrected and we could try again in 92. In Sept.. of 92 our ground was accepted and we continued with our plans.

I was able to complete the land purchase on April 5 1993 at which time work on the well was schedule to begin. Unfortunately

RECEIVED

JUL 07 1993

the well driller I had contacted a year previous to this date was unable to come but I was assured he would be there in two weeks. After four weeks of waiting I had to find a different well driller who was able to start work in May . We are currently drilling at an approximate depth of 100 ft. and anticipate going to a depth of 450 ft.

On April 13 1993 I meet with Steve Cook of Utah Power and Light to arrange for electricity to be installed at the pump site. Steve is currently working on the cost of the installation which will vary according to pumping depth. I have also made a substantial down payment on an irrigation system designed for the acres and water indicated on my permit. This payment was made to Golden West Irrigation of Idaho Falls to their representative Leon Mecham on June 15 1993.

I feel I have made a sincere effort to have this project developed by the July 1 deadline but as you can tell from the events described in this letter the delays have been beyond my control. I have every intent of continuing the development of this project and feel that a one year extension would be ample time to complete the project. I have inclosed letters and documents to verify the information contained in this letter and would be glad to answer any questions or concerns. I hope the information I have provided will indicate to you the amount of time and money I have spent on this project and my sincere desire to complete it within the next year. Thank you.

Sincerely
Jerry L Parker

PROOF DUE NOTICE

RE: PERMIT NO. 25-07545

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

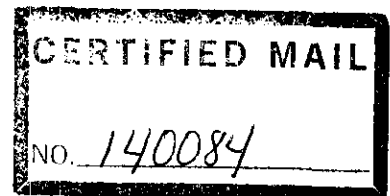

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

RE: PERMIT NO. P25-07545

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the

permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor

RE: Application for Permit No. 25-7545

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Post-Register on April 5 & 12, 1990. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

Permit #1 25-07545

Department of Water Resources
Eastern District Office

45312

From the location of this proposed well there is one well approximately 3/8 of a mile northeast. The well is on ground owned by Bruce Stanger and was developed by Von Walker for irrigation. This information can be found on exhibit B.

45313

The proposed development will consist of one deep well pump and one turbine booster which will allow me to run one, two or three center pivots at a time. The center pivot will be low pressure and we intend to use a damer dike to assist in conserving water.

45321

At its peak this system would use 2800 G.P.M. which would extend from June 1st until July 15th. Depending upon weather conditions I would estimate that peak use would take place on about 35 days of this 45 day time period. Approximately 1800 G.P.M. could be used during the time periods of May 1st-June 1st and July 15th-Oct. 15th again depending upon weather conditions and crop rotation.

45322

The properties of the aquifers at this location are unknown but I have included a copy of the well log from Walkers well.

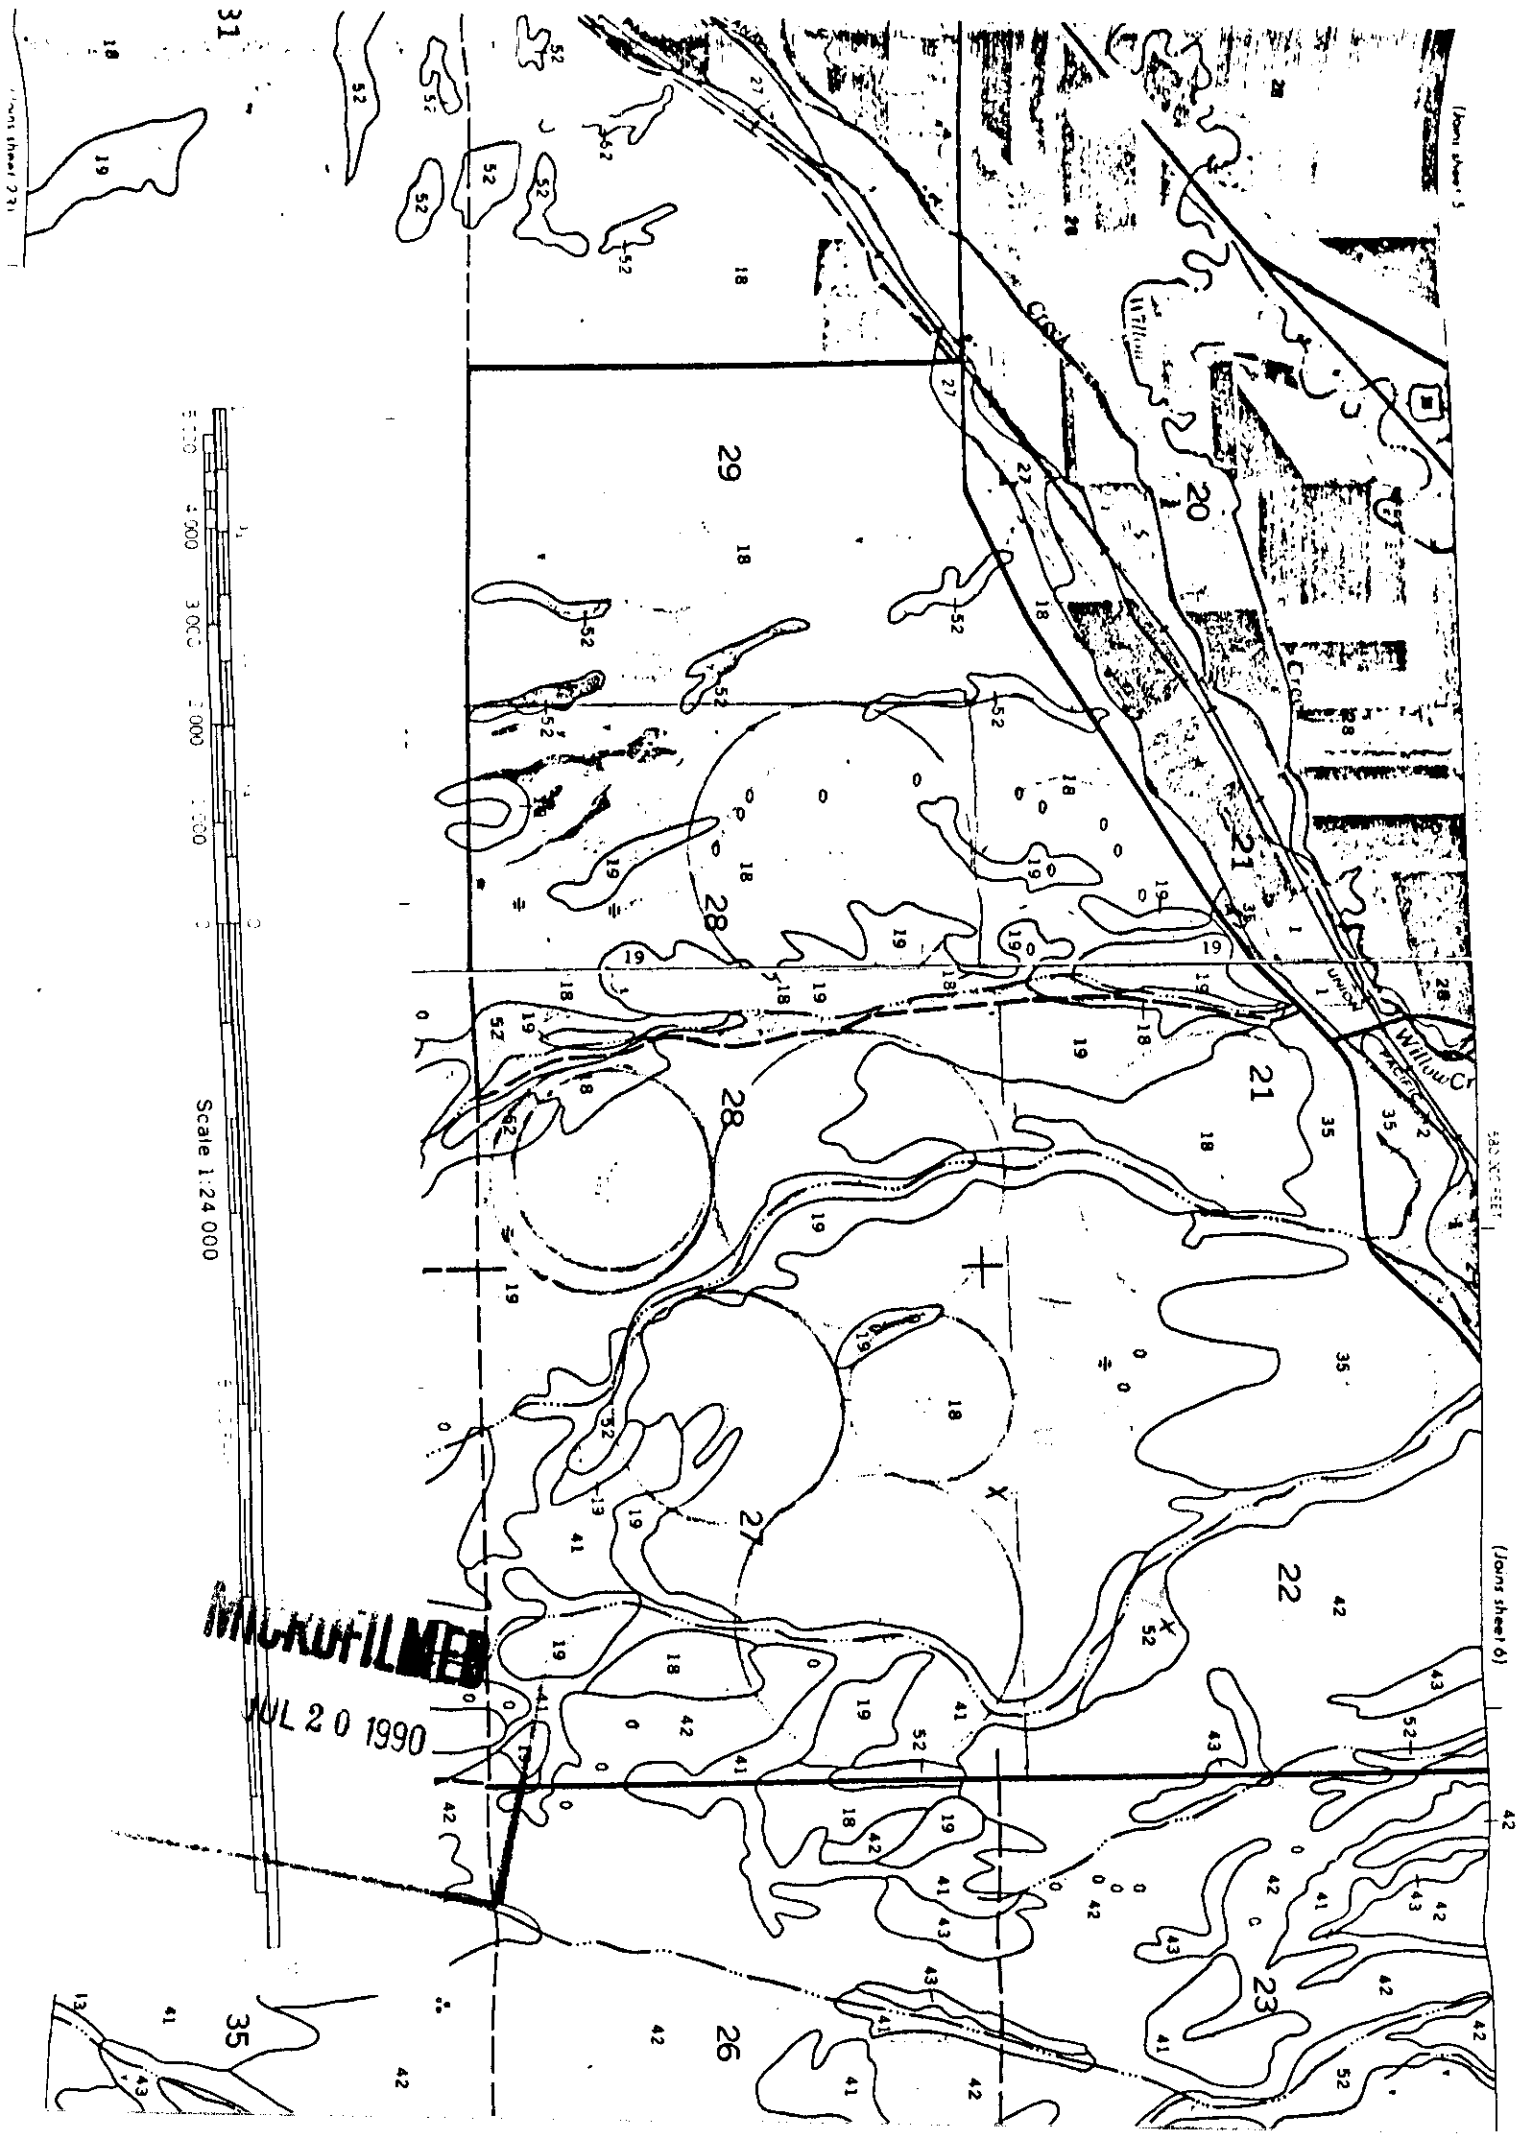

45362

The first year of irrigation approximately 400 acres of potatoes will be grown. The following years we will go to a two or three year rotation between wheat, barley and potatoes.
