## CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license shall be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

RE: WATER RIGHT NO. 25-07480

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

#### PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

#### EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

RECORDED  
OCT 29 1997

### ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

### CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

### FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

### APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

RECORDED

OCT 28 1987

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Sincerely,

Shelley W. Keen  
Water Rights Supervisor

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 25-07480

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Rita Fleck  
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 25-07480

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck  
Secretary/Records Manager

## WELL DRILLER'S REPORT

State law requires that this report be filed with the Director, Department of Water Resources within 30 days after the completion or abandonment of the well.

[illegible]

USE ADDITIONAL SHEETS IF NECESSARY — FORWARD THE WHITE COPY TO THE DEPARTMENT

December 19, 1989

Alice Mae Grover  
210 N. 4000 E.  
Rigby, ID 83442

Dear Ms. Grover:

RE: Permit No. 25-7480

The department acknowledges receipt of your October 25th letter. Your letter asks what is going to be done with this permit.

Filing the application is only the first step in a process to receive a license, which is evidence of a water right. Each application approved is issued with a construction period of one to five years within which to develop the uses. Sixty days prior to the end of that period, the department notifies the permit holder that proof of beneficial use is due. This holds true for existing uses as well as proposed uses.

Your next step is to submit the proof of beneficial use form. It is as a statement that the project is complete and that water is being diverted and put to a beneficial use. Upon receipt of the proof of beneficial use form, the permit is included in the inventory of pending field inspections. (The regional staff conduct field inspections usually during the late spring to early fall). A field inspection is to confirm and determine the extent of beneficial use. The field examiner will prepare a report detailing his findings and recommendations. Based upon this report, the department will issue a water right license.

The license exam fee is based on the diversion rate. For the diversion rate of 0.17 cfs (approx. 76 gpm) with multiple uses, the license exam fee is \$50. You could submit the proof form for 0.13 cfs (57 gpm) and a fee would not be required if you showed the uses as domestic and stock only. However, the license would be issued for a maximum diversion of only 0.13 cfs no matter what the well produces.

Returned is the proof of beneficial use form and your copy of the permit. Keep the copy of your permit for your records.

In another part of your letter, you discuss getting forms concerning a refund on another well. I researched for correspondence about this refund, but I was unable to find any information.

**MICROFILMED**

Dear Mr. and Mrs. Grover:

Re: Permit No. 25-7480

Enclosed is the proof of beneficial use form submitted to this office on June 13, 1989. Your signature and the licensing exam fee are needed to make this proof acceptable.

It is my understanding that the use of water was established in January 1987. I also understand that you once paid the application fee of \$30. However, to receive a license on this water use, several requirements must be met.

The next step is for you to complete and return the proof of beneficial use form along with the licensing exam fee. Upon receipt of this form, this office will notify the regional office to conduct a field inspection to determine the rate of diversion and extent of use. Based upon the findings and recommendation of the field inspector, a water right license will be issued. (You have until June 1, 1990 to complete and return the proof form.)

The licensing exam fee is based on the rate of diversion. The permit proposed the rate of diversion as 0.17 cfs. The licensing exam fee is \$50.

If you have any questions concerning this matter, please feel free to contact this office.

Sincerely,

RITA I. FLECK  
Secretary/Records Manager

The next step is for you to complete and return the proof of beneficial use form along with the licensing exam fee. Upon receipt of this form, this office will notify the regional office to conduct a field inspection to determine the rate of diversion and extent of use. Based upon the findings and recommendation of the field inspector, a water right license will be issued. (You have until June 1, 1990 to complete and return the proof form.)

The licensing exam fee is based on the rate of diversion. The permit proposed the rate of diversion as 0.17 cfs. The licensing exam fee is \$50.

If you have any questions concerning this matter, please feel free to contact this office.

Sincerely,

RITA I. FLECK  
Secretary/Records Manager

RE: PERMIT NO.     ~~R~~25-07480

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also

Application for Permit No. 25-07480

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification No. 25-07480. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in the Jefferson Star. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES  
Water Rights Supervisor

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billing to this office before FEBRUARY 20, 1989.

Yours truly,

Rita Bodell  
Secretary

Eastern District Office

RE: Stockwater or domestic claim.

Dear Mr. Grover:

Thank you for submitting the water claim for your wells. As we discussed over the phone, I have prepared an application for permit for your well that was developed in 1987 and is used to irrigate 3 acres besides the domestic uses. Please review the application, indicate your property on the map, and sign the application (no notary is necessary). The filing fee is \$30.00 for this application. I am returning your original claim and check no. 484 in the amount of \$25.00.

We will process the application by advertising the development as a public notice and then return the approved permit to you. We will later need to visit the home and verify the location, etc. You may hire a certified water right examiner or have the Department do this exam. We charge an additional \$50.00, for a project of this size, which is payable later on.

I have also enclosed a receipt for the other home which we accepted as a single domestic/stockwater claim.

Please contact our office if you have any further questions regarding this matter.

Sincerely,

*Eric Verner*  
Eric Verner  
Sr. Water Agent
