

13. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

Scale: 2 inches equal 1 mile.

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

And Stanger
DIRECTOR OF PUBLIC WORKS (Applicant)

Proof of Publication

The Post-Register

RECEIVED

APR 21 1989

Department of Water Resources
Eastern District Office

State of Idaho, }
County of Bonneville } ss

I, Ted Delezene, first being duly sworn, depose and say: That I am the Foreman of The Post Company, a corporation of Idaho Falls, Bonneville County, Idaho, publishers of The Post-Register, a newspaper of general circulation, published daily, except Saturday, at Idaho Falls, Idaho; said Post-Register being a consolidation of the Idaho Falls Times, established in the year 1890, The Idaho Register, established in the year 1880 and the Idaho Falls Post, established in 1903, such consolidation being made on the 1st day of November, 1931, and each of said newspapers have been published continuously and uninterruptedly, prior to consolidation, for more than seventy-eight (78) weeks and said Post-Register having been published continuously and uninterruptedly from the date of such consolidation, up to and including the last publication of notice hereinafter referred to.

That the notice, of which a copy is hereto attached and made a part of this affidavit, was published in said Post-Register for two consecutive weeks, first publication having been made on the 6th day of April, 1989, last publication having been made on the 13th day of April, 1989, and that the said notice was published in the regular and entire issue of said paper on the respective dates of publication, and that such notice was published in the newspaper and not in a supplement.

Subscribed and sworn to before me, this 17th day of April, 1989.

Ted Delezene
Deon K. Napier
Notary Public

My commission expires September 30, 1994.

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 25-07467 Telephone No. (208) 529-1471
2. Name(s) of Permit Holder(s): City of Idaho Falls
3. Mailing Address: P.O. Box 50220, Idaho Falls, ID. 83405-0220
4. Source of Water: Ground Water Well

If **GROUNDWATER**, Well Driller's Name: Andrew Well Drilling Date Drilled: 1991

OPTIONAL:

Pump horsepower: 300 Pressure (psi): 10 Dynamic pumping level (ft.): 190

5. Extent of Use (as authorized by the permit):

Domestic _____ (No. of households) Stockwater _____ (No. and type of stock)

Irrigation _____ (No. of acres) Other Municipal -18,600 Services

6. Total rate and/or volume for which proof is submitted 8.02 cfs OR _____ acre/feet

7. Refer to the approval conditions on your permit and respond accordingly:

Measuring device: Required? ____ Yes ✓ No Installed? X Yes ____ No

OR

Flow Measurement Port: Required? ✓ Yes ____ No Installed? ____ Yes X No

8. Fee Enclosed: \$ 300.00 (See License Fee Schedule on back of Instruction Sheet) P.O. # 51911

9. Person to contact to accompany the Department representative during field examination of the water system.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

REQUEST FOR EXTENSION OF TIME
TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of water right under the provisions of Section 42-204, Idaho Code.

Permit No. 25-07467

Name(s) of Permit Holder: City of Idaho Falls

Mailing Address: P.O. Box 50220 Idaho Falls, Idaho 83405

Date Proof is Due Aug. 1, 1993 Telephone No. (208) 529-1471

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

The well has been drilled, cased and tested. The City has contracted with
Black & Veatch for engineering and design of pump station, chlorine contact
tank and booster system (May 1993).

Costing \$ 57,800

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Budgetary constraints limited '92-'93 work to engineering and bid document preparation
only. It is expected the pump station construction cost will be included in the 1993-94
fiscal year budget. For proper construction phasing, a 2 year extension is requested.

Permit holder(s) request an extension to Aug. 1, 19 95.

FEE: \$15.00

Carroll Arnold
(Signature)*

*If other than permit holder, Power of Attorney must be supplied.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

IT IS HEREBY ORDERED that the above request for extension of time be APPROVED
and the time within which to submit proof of beneficial use is
extended to August 1, 1995.

Describe what work has been completed toward the development of this water right: The well has been drilled,
(This must be filled out! If no work has been completed, show "none".)

cased and tested for quantity and quality. Andrew Well Drilling, April 1991.

Costing \$ 99,815.00

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

The city's budget was unable to fund this project completion. The 1992 budget is proposed
to complete the pump, housing and chlorine chamber. Based on revenue and construction
timing, work may proceed in the fall of 1992.

Permit holder(s) request an extension to August 1, 1993.
(1 yr. minimum)

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 25-7467, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before August 1, 19 91.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other: The right to the use of water acquired under this permit shall not give rise to any right or claim against the holder of a senior right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.

The Director retains jurisdiction of the permit and any license subsequently issued to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.

Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

The issuance of this permit in no way grants any right-of-way or easement across the land of another.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 25-07467

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

Re: Permit No. 25-07467

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to August 1, 1995. Please note that the department has granted this extension based on governmental agency lack of funding. It is important that you work diligently toward the completion of this project during the construction period allowed since the department will not be able to grant additional extensions based on due diligence.

If you have any questions or if I can be of any further assistance, please feel free to contact this office.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 25-07467

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

RE: PERMIT NO. 25-07467

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Also enclosed is a copy of the approved drilling permit submitted in connection with this water right.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

MICROFILMED

AUG 16 1989

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section

ACTION OF IDWR

☒ Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. The permit holder or his representative shall notify the Department ten (10) days prior to the start of construction unless good cause for later notification can be shown.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

SPECIFIC CONDITIONS:

7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. The owner shall contact the Department to identify the driller before well drilling starts.

Mr. Gary Spackman
Department of Water Resources
1301 North Orchard
STATEHOUSE MAIL
Boise, Idaho 83720

Dear Mr. Spackman:

Pursuant to a request from Mr. Harold W. Jones, Water Rights Supervisor, I am submitting for your review, information in regard to applications 35-8682 and 25-7467.

This information is submitted in response to the following rules:

Rule 4,5,3,1,2.

Drawings attached - EXHIBIT A

Rule 4,5,3,1,3.

Both of these wells will be designed so that they will be cased to approximately 250 feet. The casing should prevent the shallower wells in the area from having a direct effect from our proposed wells. Past records show that the wells on the west side of the river have very little, if any, measurable draw-down.

Rule 4,5,3,2,1.

The proposed water requirements for both of the water rights are as follows:

Test pump rate	10.02 cfs
Rate during average peak use period	8.02 cfs
Rate during average use period	7.25 cfs.
Volume diverted per year	5,050 acre feet
Period of year water required	year-round
Consumptive use	390 acre

MICROFILMED

AUG 16 1989

Letter to Gary Spackman
June 14, 1989
Page 2

Rule 4,5,3,2,2

Water is planned to be diverted from the Snake River Plain
Aquifer.

I am hopeful this information will provide you with the data
necessary to evaluate these applications. If additional information is
required, please advise.

Respectfully,

Chad Stanger,
Director of Public Works

Application for Permit No.'s 35-8682 & 25-7467

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. The application has been assigned the above identification No. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in the Post-Register. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

Application for Permit #25-7423 City of Idaho Falls was found to have been given the wrong basin number. It should have been numbered in basin 35. I have entered it as #35-8682. It will need to be deleted from the data base under #25-7423.

I have updated all region records.

Thank you.

Mr. Chad Stanger
c/o City of Idaho Falls
P.O. Box 220
Idaho Falls, Idaho 83401

Dear Mr. Stanger:

The initial review of the City's water application is complete and all of the necessary items appear to be complete. We have also receipted the application for a drilling permit.

At this time due to the Swan Falls controversy, the Department is not allowed to approve new applications to appropriate more than 2 acre-feet per day. Since the City's application exceeds this amount we cannot continue further action on the application. When the controversy is settled we will notify you when we resume processing your application. Since we cannot act on the water right application at this time we also cannot issue the drilling permit.

Please be aware that the City is not authorized the either drill the new well or divert water under these applications until they are approved by the Department Director. If you have any further questions please feel free to contact our office.

Sincerely;

Eric S. Verner
Sr. Water Resource Agent

RE: Application for Permit #25-7467

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your application for water right permit. The application has been assigned identification No. 25-7467. Please refer to this number in all future correspondence.

The Department can not proceed with the processing of your application at this time. It seeks the appropriation of water within the area covered by the civil suit of Idaho Power Company vs. Idaho Department of Water Resources, et al., Ada County Civil No. 81375 (Swan Falls Suit). Until there has been a final resolution to this suit and rules and regulations promulgated for considering new appropriations, the processing of applications in this area has been suspended. During the interim, your application will be held in this office.

The staff in our office will be glad to answer any questions you have concerning the above matter.

Respectfully submitted,

Harold W. Jones
Water Rights Supervisor
