WATER RIGHT LICENSE

WATER RIGHT NO. 25-07424

Priority: April 1, 1988

Maximum Diversion Rate: 0.09 CFS
Maximum Diversion Volume: 12.0 AF

This is to certify, that CANNERS SEED CORP
221 E MAIN
PO BOX 18

LEWISVILLE ID 834310000 has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated April 1, 1988; and has submitted Proof of Beneficial Use on October 13, 1988. An examination indicates that the works have a diversion capacity of .330 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/01 to 10/31	0.09 CFS	12.0 AF

LOCATION OF POINT(S) OF DIVERSION: NWNE , Sec. 8, Township 04N, Range 38E
JEFFERSON County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
04N	38E	8	NWNE	3		3

Total number of acres irrigated: 3

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. The issuance of this right in no way grants any right-of-way or easement across the land of another.
6. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 4.0 afa per acre for the lands above.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 25-7424, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before July 1, 1989.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other: Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
The issuance of this permit in no way grants any right-of-way or easement across the land of another.

Witness my hand this 14th day of June, 1988.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 25-07424

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Drilling Permit No. ~~2587-E~~ 0023
Drilling Date: September of 1987
Proposed Location: 04N, 38E, Section 8, SE1/4,
NW1/4, NE 1/4.

In the department's final review of the licensing process in connection with the above referenced permit, the department was not able to locate a well log which should have been submitted 30 days after completion of the construction of this well.

While it is possible that you have submitted the log, we have been unable to locate it. Please supply me with another copy. Please address any correspondence directly to me. Your response should be received within 20 days of the date of this mailing.

This information is needed before the department can proceed further with the examination of the permit holders system and the eventual issuance of a license of water right.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

RE: Drilling Permit 25-87-E-023
Water Right 25-7424

Dear Mr. Mende:

We approved the above referenced drilling permit for you on September 8, 1987 for domestic use. However, our records show that you later filed an application for water right and proof of beneficial use for this well at 0.09 cfs. The fee for a well drilled to divert in excess of .04 cfs is \$100.00 versus the \$10.00 fee for a single family domestic well with an expected yield less than .04 cfs. Please refer to IDWR Rules and Regulations 7,4,4,1. (copy enclosed) which discusses this fee structure.

To maintain the validity of your permits, please remit to the IDWR the difference of \$90.00. Your cooperation is appreciated.

Sincerely,

Mark S. Slifka

ACTION OF IDWR

☒ Approved☐ Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. The permit holder or his representative shall notify the Department ten (10) days prior to the start of construction unless good cause for later notification can be shown.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

SPECIFIC CONDITIONS:

Dated this 8th day of September, 19 87.

Lewisville, ID 83431

Gentlemen:

Re: Permit No. 25-7424

Returned is the proof of beneficial use form submitted to this office on February 7, 1990. A form (Examination Fee Information Sheet) and fee were submitted on October 17, 1988 to our Eastern Region office. This form completes the proof submittal requirement. The \$50 fee will be refunded to you in a few weeks.

The department cannot locate, however, the well drilling permit. A drilling permit is required for all wells drilled, deepened or enlarged after July 1, 1987. Your well driller may have acquired this permit for you. If this is the case, please supply the department with the identification number. The drilling permit is a condition of the water right permit; this requirement must also be met before the permit can be processed for licensing.

Please contact me if you have any questions.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

RE: Permit No. 25-7424

Dear Permit Holder:

The department has reviewed the proof of beneficial use (proof) which you submitted in connection with the above referenced permit. A review of the file does not show that you applied for a drilling permit (which is a separate requirement from the water right permit).

A drilling permit is required for all wells drilled, deepened or enlarged after July 1, 1987 (Section 42-235, Idaho Code). As a condition of the water right permit, you need to submit a completed drilling permit form together with a drilling permit fee in the amount of \$100 made payable to the Idaho Department of Water Resources. Enclosed is a form for your use.

Also, the department does not have a copy of the well log. If you have a well driller's report, please send a copy to the department.

Please provide the appropriate information by December ¹⁵ 7, 1988. Upon receipt of the required information, the department will continue processing your proof by notifying the region that a licensing exam is needed.

If you have any questions, feel free to contact this office.

Sincerely,

RITA I. FLECK

RE: Permit No. 25-7424

Canners Seed Corp.
21 E. Main
P.O. Box 18
Lewisville, ID 83431

Dear Permit Holder(s):

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the Department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is the statement of beneficial use that must be submitted when your project is completed.

Sincerely,

GARY SPACKMAN, Supervisor
Water Allocation Section

RE: Application for Permit No. 25-7424

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification No. 25-7424. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the applications in the Jefferson Star. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Ernest Carlsen
Water Rights Supervisor

Re: Application For Permit No. 25-7424

Gentlemen:

It is our understanding that Canner's Seed Corporation has filed the above application for the purpose of watering an existing test plot of approximately 3 acres at its facility in Lewisville. The application is being treated by the Department as an irrigation use, and therefore subject to the Swan Falls hold.

Idaho Power Company, as a and signatory party to the Swan Falls Agreement and the 1180 Contract, has no objection to your processing application for permit no. 25-7424 and for your purposes, hereby withdraws any protest it might otherwise be deemed to have entered against the processing of that application.

By way of explanation, in the Company's view, such a use conforms more closely to a commercial use within the terms of the agreements negotiated between Idaho Power Company and the State of Idaho. We understand that you will be required to process it as an irrigation use, and have no objection to your doing so.

If you have any questions, feel free to give me a call.

Yours very truly,

Thomas G. Nelson
