THIS IS TO CERTIFY, that Shelley Idaho Stake Recreation Area
of Shelley, Idaho, has complied with the terms and conditions of Permit
No. 27-7119 issued pursuant to Application for Permit dated November 14, 1977,
and has submitted proof to the Department of Water Resources on December 9, 1982,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.03 cfs of water from a spring,
tributary to Marie Creek, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

ACTION OF DEPARTMENT OF WATER RESOURCES

This Permit is APPROVED

Date 6-21-90

If approved, this permit authorizes the construction of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

Re: Application #27-7119
(Bingham County)

Gentlemen:

We have been apprised of your intent to appropriate public waters of the State of Idaho in order to provide culinary water for a recreational camp facility.

Title 39-118 of the Idaho Code requires that plans and specifications for public water facilities must be reviewed and approved by this Department prior to construction. Further, you should be aware that, as a purveyor of public water, the water quality as well as the operation of the facility must conform with minimum requirements. Information relative to these requirements are contained in the Idaho Regulations for Public Drinking Water Systems, copy of which is enclosed.

If you have any questions concerning our requirements or the interpretation of the regulations, please do not hesitate to contact us.

Yours very truly,

Henry L. Moran, P.E.
Rgnl. Environmental Supervisor

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill.

Very truly yours,

RONALD D. CARLSON
