CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.

RE: Domestic use not included on this license

=====

I am recommending that we do not include the domestic use on this license because it is covered by Snake River Basin Adjudication claim A25-11771, which is to be recommended for decree with a priority senior to this right.

Application for Permit 25-07382 was filed by Gloria Dean Woodland Johnson in 1983 for irrigation and domestic purposes. The application indicated that the 8" well had first been used April 7, 1971. SRBA claim A25-11771, filed in 1988 by Gloria Dean Woodland Johnson, claimed domestic use for one home from an 8" well with a priority of April 7, 1971. Ken Dunn verified the SRBA claim and indicated that it should be recommended for decree as claimed.

Today I called the Jefferson County assessor's office to verify that the claim and the permit could not cover separate homes. I was told that the Johnson parcel, RP04N40E369156, has only one home. Moreover, it is the only parcel under that name in Jefferson County. There are no mobile homes under that name, either.

Based on this evidence, I have concluded that the claim and the permit cover the same single domestic use. Furthermore, because the SRBA claim is to be recommended with a priority senior to 25-07382, there is little advantage in including the domestic use on the license.

MEMORANDUM

TO: File 25-07382 / Gloria Dean Woodland Johnson
FROM: Brenda Chapman
DATE: November 8, 1994
RE: Recommendation Adjustment

=====

The final licensing recommendations for the above referenced water right are based on the information below:

H. RECOMMENDATIONS

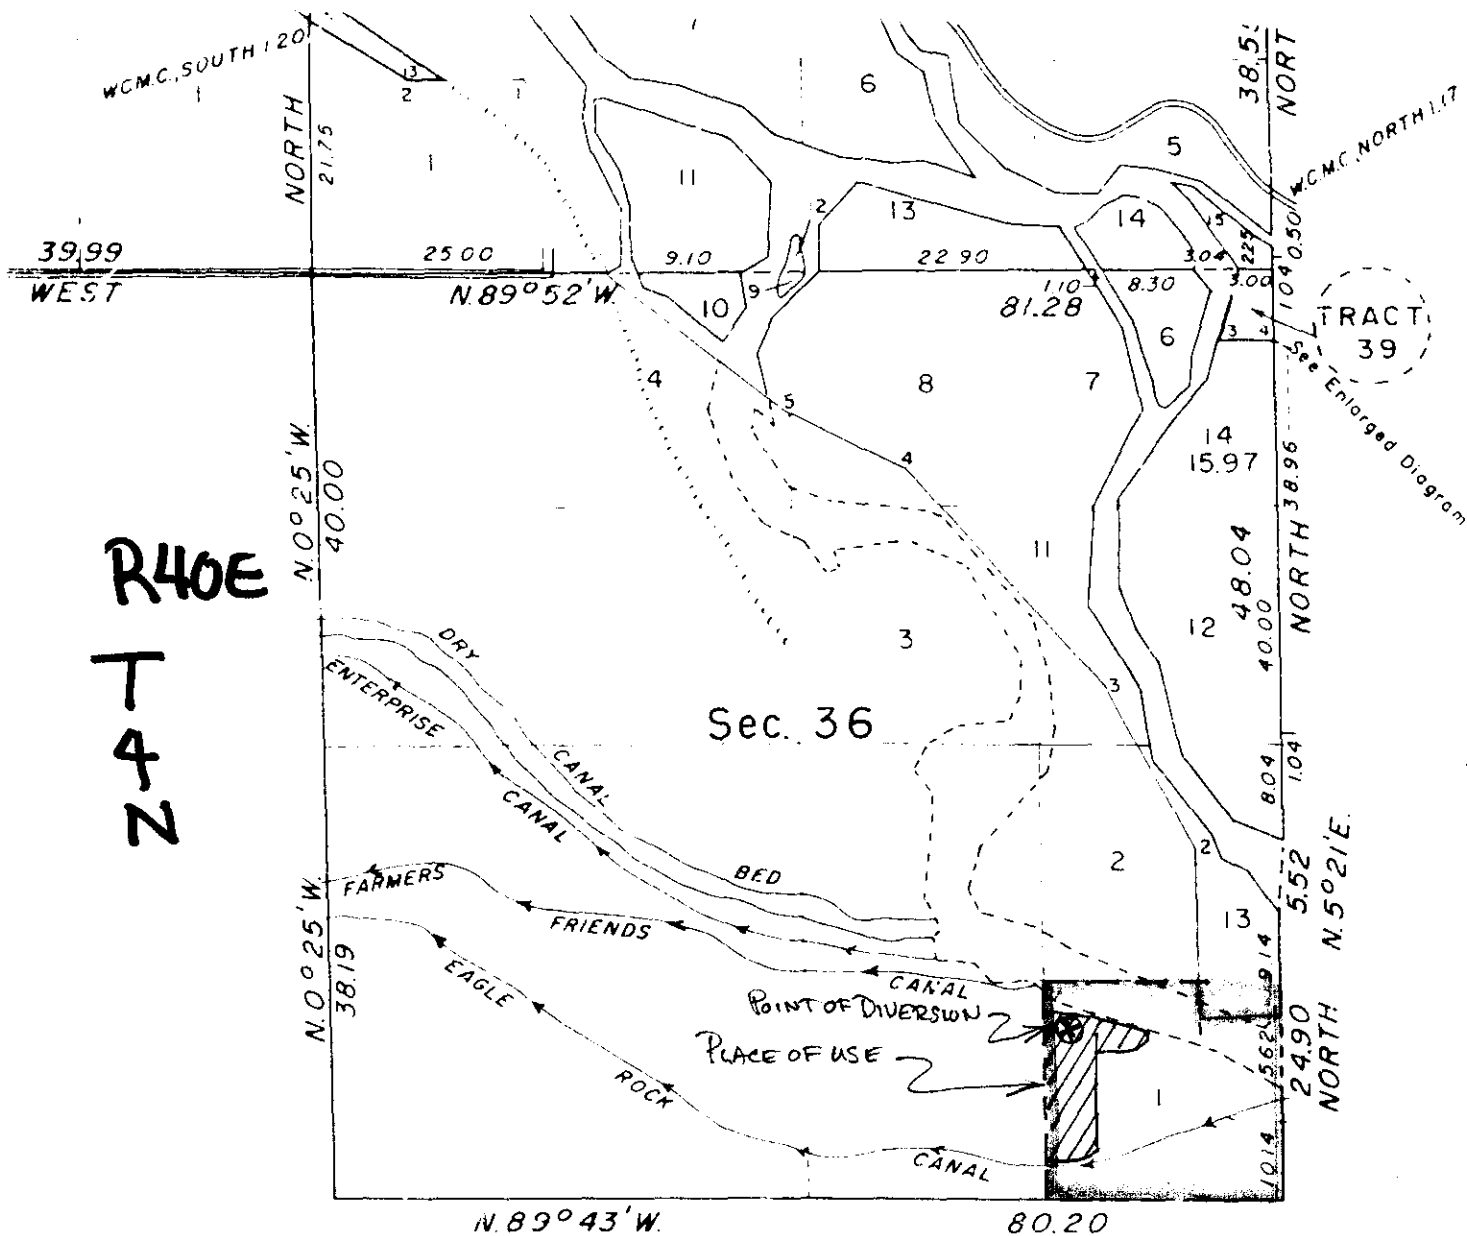

1. Recommended Amounts

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Irrigation	4-15 to 10-15	.10	20.0
Domestic	1-01 to 12-31	.02	.6

The domestic rate was reduced to coincide with the examiner's recommendation of an in-house only volume rate. This also concurs with the current preferred "in-house use only" for domestics when irrigation and domestic uses are both listed on a right (10/25/94).

The irrigation season dates were adjusted to the currently used Field Headgate Requirement and Season of Use chart.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 25-07382

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Rita Fleck

PROOF DUE NOTICE

RE: PERMIT NO. 25-07382

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. 25-07382

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also

Application for Permit No. 25-07382

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification No. 25-07382. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in the Jefferson Star. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES

RE: APPLICATION FOR PERMIT NO. 25-7382

Dear Applicant:

The department is now beginning the processing of applications which have been held as a result of the Swan Falls controversy. In connection with this processing, the department requests the information described below.

From the department's review of the above referenced water right application, it appears the application is only subject to the usual water right processing described in Section 42-203A, Idaho Code, and is not subject to the public interest criteria processing required of some applications in the Swan Falls settlement.

In order to process the application, the application needs to be re-advertised in compliance with Water Appropriation Rule 4,2,2,1. Please submit the readvertisement fee in the amount of \$20 within 30 days or the department will void the application pursuant to Water Appropriation Rule 4,2,2,4.

Please feel free to contact the department if you have any questions.

Dear Ms. Johnson:

In October of 1984, Idaho Power Company and the State of Idaho signed an agreement stating the Company's water rights would be subordinated to those persons who beneficially used water prior to October 1, 1984, and who filed an application or claim for said use by June 30, 1985.

To insure proper consideration of your application pursuant to the above agreement, follow the directions on the enclosed form and return it to this office when completed. For your benefit in identifying the point of diversion and place of use, included on the form is a description of the major items contained on the application.

Your cooperation in returning the completed form and supplemental documentation will expedite future administrative action on your application when processing of applications above Swan Falls resumes.
