License of Water Right No. 25-7379 Priority June 29, 1983 Amount 0.04 cfs

THIS IS TO CERTIFY, that Kent E. or Nickolena V. Everett
of Idaho Falls, Idaho, has complied with the terms and conditions of Permit
No. 25-7379 issued pursuant to Application for Permit dated June 29, 1983,
and has submitted proof to the Department of Water Resources on July 3, 1985,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.04 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Stockwater	from <u>January 1</u> to <u>December 31</u>	at <u>0.02</u> cfs and	<u>0.1</u> acre feet
Domestic (1 Unit)	from <u>January 1</u> to <u>December 31</u>	at <u>0.04</u> cfs and	<u>1.2</u> acre feet
	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 0.04 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
1.3 acre feet per year, said waters to be diverted within the SW 1/4 Section 22,
Twp 3N, Rge 38E in the County of Bonneville

CONDITIONS OF APPROVAL

- a. Modifications to or variance from this license must be made within the limits of Section 42-222, **Idaho Code**, or the applicable Idaho Law. This right may be forfeited by five years of non-use.
- b. The right to the use of the water hereby confirmed is restricted and appurtenant to lands or place of use herein described, and is subject to all prior water rights, as provided by the laws of Idaho.
- c. Any water right confirmed in this license for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this license and shall not give rise to any right or claim against any future rights to the use of water other than hydropower, within the State of Idaho initiated later in time than the priority of this license.

Re: Permit # 25-7379

Dear Sirs:

The well which I drilled under permit #25-7379 only supplies domestic water to my home for domestic use and waters two mules which I periodically graze in my pasture. The well is not used for irrigation other than to irrigate lawn surrounding my home which is less than one-half acre.

I wish to relinquish that portion of my permit which related to irrigation of 1.3 acres, and reduce the amount of flow to be licensed to 0.06 cfs, 0.04 cfs for domestic, and 0.02 cfs for stockwater. With the relinquishment, I would also request that I be exempt from any field examination fees.

For your information, the following is data that pertains to my well:

$H_p = 1.5$
Depth of well = 217 feet
Static Water Level = 65 feet
Pumping pressure = 40 psi

The well driller, Duane Denning, indicated that the pump would only produce approximately 13-15 gpm at 40 psi.

Sincerely
Ken E. Everett

I advised Mr. Everett today that by relinquishing the irrigation portion of his permit, he would not be required to pay the examination fee for domestic and stockwater use.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. *Attesting*

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Kent E. or Nickolena V. Everett
Rt. 2, Box 215
Idaho Falls, ID 83401

Dear Permit Holder:

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

Dear Mr. Nelson

In regards to our telephone conversation 3 or 4 months ago I am writing for release of our water rights to a well used solely for Domestic Use on our property of 1.3 acres located SWSW, S22 T-3N, R38E. Water right #25-7379. As you indicated in our conversation this well should not have been included in the lawsuit as it is used for Domestic Use solely.

We would appreciate your cooperation in releasing the water right & clear the suit ~~as~~ as soon as possible.

Respectfully yours,

Dear Cindy:

According to the provisions of the agreement signed October 25, 1984, applications limited to certain beneficial uses are eligible for dismissal from Ada County Civil Case 81375.

Based on our understanding of the definition "consumptive domestic" and "non-consumptive commercial, municipal, and industrial", we have identified applications that appear to comply with the criteria essential for dismissal. A profile of each application is enclosed for your consideration.

We are proceeding with the publication of notices advising these applications have been filed, but will continue to withhold other administrative action pending notification from your office that an application has been released.

Respectfully submitted,

ERNEST CARLSEN
