E. NARRATIVE/REMARKS/COMMENTS

Spring is piped down to cabin by way of PVC line.
Nobody goes home at time of exam.
A sprinkler was running on the front lawn.

Overflow from PVC line comes down small creek in two lines.
Eventually flow is "Tee'd" into one line.

Mr. Richardson says there are no horses or ponies. He wasn't certain where that came from on the application.

Full spring flow would most likely exceed the permit amount. A fair amount of water was by-passing the 2 PVC pipes and running down the creek. The pipe going to the home is $1\frac{1}{2}$ pvc.

Hose was flowing 5 gpm. This, however, wouldn't represent the full spring flow.

I recommend licensing at standard domestic rate.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill.

Very truly yours,

RONALD D. CARLSON

Gentlemen:

Enclosed herewith is the application of Drs. Roger DeMordaunt and Newell K. Richardson for a water permit and license for water servicing their cabin in the Seller's Creek area. Please process the application, and if there are any problems or questions, please advise and we will promptly cooperate.

It should be noted that the diversion works are already completed and that this application form is being submitted basically because the claim form is not acceptable since the works were completed after 1965.

Very truly yours,

Dear Mr. Moss:

We recently received your client's claim to a water right. Upon reviewing the claim it was determined that the priority date they are trying to establish is not acceptable. A claim is not acceptable on a surface water source with a priority later than May 20, 1971

I strongly advise that they file an application for permit in order to establish a water right from this source.

If you have any questions concerning this matter, please feel free to contact this office.

Very truly yours,
