ORDER OF REINSTATEMENT

WHEREAS, on January 30, 1976, Mountain View Development filed with the Department of Water Resources an application for permit to appropriate 0.36 cubic feet per second of water from a groundwater source to be diverted within the NE $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 11, Twp. 2N, Rge. 38E, B.M., Bonneville County, to be used for domestic purposes; and,

WHEREAS, on April 7, 1976, the Department approved said application and issued Permit No. 25-7086 with the condition that proof of construction of works and application of water to beneficial use be submitted to the Department on or before April 1, 1981; and,

WHEREAS, on September 16, 1976, the Department received an assignment whereby Mountain View Development assigned all their right, title and interest in and to Permit No. 25-7086 to Bonneville High Estates Water Users Association; and,

WHEREAS, on January 31, 1981, the Department notified the permit holders by certified mail that proof of beneficial use was due and instructed the permit holders as to the steps to be taken to make said proof; and,

WHEREAS, on April 30, 1981, Honeybee Acres submitted a proof of beneficial use postcard, however, no assignment was received assigning the permit to them from Bonneville High Estates Water Users Association and the proof of beneficial use postcard was unacceptable; and,

WHEREAS, on May 5, 1981, the Department notified the permit holders that Permit No. 25-7086 had lapsed for failure to submit proof of beneficial use of water; and,

WHEREAS, on June 12, 1981, the Department received an assignment whereby Bonneville High Estates Water Users Association assigned all their right, title, and interest in and to Permit No. 25-7086 to Honeybee Acres and the previously submitted proof of beneficial use postcard was accepted; and,

NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that Mountain View Development, Idaho Falls, Idaho has on 1-30-76 submitted Application No. 25-7056 for a permit to appropriate 0.36 cubic feet per second of water from ground-water sources by means of wells and pumps within the NW 1/4, Sec. 11, T. 2N, R. 35E, B.M., Bonneville County; to be used from Jan 1 to Dec. 31 for domestic purposes for 18 families within the E 1/2 NW 1/4, Sec. 11, T. 2N, R. 35E, B.M.

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Resources, 1315 Lincoln Road, Idaho Falls, Idaho 83401 on or before March 1, 1976.

NOTICE OF PENDING ORDER VOIDING PERMIT

Dear Permit Holder(s):

The development proposed in Permit to Appropriate Water No. 25-7086 was examined in 1982 by Department of Water Resources personnel. At the time of the examination, the Department personnel discovered that the actual point of diversion and place of use differed from the point of diversion and place of use proposed in the permit.

We have attempted on several occasions to persuade you to file an application for amendment of Permit No. 25-7086 with the Department of Water Resources. To date, the application for amendment of the permit has not been filed with the Department.

Enclosed is a completed application for amendment of your permit which reflects the correct point of diversion and place of use. You should sign the application for amendment, and return it to the State Office of the Department accompanied by a \$20 filing fee within thirty (30) days of the date of this letter.

Should you fail or refuse to submit the application for amendment within thirty (30) days, the Department will act to void your permit. The grounds for voiding the permit are set forth in Section 42-219, Idaho Code, where it states that if the Department finds "that the applicant has not fully complied with the law and the conditions of the permit . . . [it] may refuse issuance of a license

Dear Mr. Bottoms:

Re: Permit No. 25-7086

Pursuant to our telephone conversation of this date, enclosed please find an assignment form.

The department received the statement of beneficial use postcard on April 30, 1981, however, it is not acceptable at this time since the permit is recorded under the name of Bonneville High Estates Water Users Association and the postcard is submitted under the name of Honeybee Acres.

From our discussion, it appears that Bonneville High Estates Water Users Association and Honeybee Acres are the same association, just a change in name. I feel that best way to clear this matter up is to show the name change on our records. Enclosed is a partially completed form which assigns this permit to Honeybee Acres.

Please review it, sign it before a Notary Public and return it to this office before June 22, 1981 to keep the permit in good standing.

If you have any questions concerning this permit, please feel free to contact me.

I contacted Mr. Bottome to find out if this postcard is for another right since the names do not coincide. Mr. Bottome informed me that Honeybee Acres and Bonnevill High Estates Water Users Association are actually the same. He stated that their other legal affairs (banking) accounts are in the name of Honeybee Acres.

Also, Mr. Bottome recently superseded Gary L. McEntire as president of the association.

I explained to Mr. Bottome that since a permit was private property and only the permit holder can take action on it, we have a problem accepting the statement of beneficial use since the names are different.

Gentlemen:

One of the conditions of approval of your water permit No. 25-7086 was that evidence of the extent of development must be submitted to this office on or before April 1, 1981. (See last page of your approved permit). Enclosed is a postcard which may be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted. A request for extension of time form is enclosed for your convenience. Please note that a fee of \$15.00 must be submitted with this form.

Either the beneficial use postcard or a request for an extension of time must be received by this department on or before the above-mentioned date, otherwise, the permit will lapse and be of no further force or effect within sixty days.

Mrs. Gary L. McIntire

Dear Mrs. McIntire:

Your letter of September 17 raised several questions concerning Permit No. 25-7086 that was recently assigned to Bonneville High Estates Water Users Assn. from Mountain View Development.

When Mr. Peterson submitted that assignment he indicated that Roger Monson was the manager of the system. Our records have now been changed to show that Gary L. McIntire is the manager of the association.

Since 1963, a permit for the use of groundwater has been required. Therefore, Mr. Peterson filed an application for permit on January 30, 1976. We have enclosed a copy of that permit that was issued for your records. One of the conditions of the permit, as you can see from Page 4, is that a measuring device must be permanently installed and maintained as part of the diverting works or system. This measuring device must be installed prior to the date that proof of beneficial use is due which is April 1, 1981.

The responsibility of the installation of this measuring device depends upon the terms of the agreement of your association and Mr. Peterson on taking over the delivery of the system. Our concern is that a measuring device be installed. It is your responsibility as the permit holder to either install the measuring device or to see that it is installed.

I am sorry I forgot all about this questionnaire didn't do it on purpose - What brought it back to my mind was the receipt yesterday of a document which I do not understand.

First I ~~did~~ do not know how you got the name of Roger B. Monson as the manager of our wells, he's not now and hasn't been since Nov. of 1972

The manager is Gary L. Mc Intire - I am enclosing two photo copies of the letters I received -

Send copy

Second I did not realize a permit was required could you please send us some more information as this is the first I have ~~read~~ heard anything about a permit or a measuring device - which I don't think we have except an electrical meter.

Permit required
for G.W.

The permit which I am referring to is no. 25-7086 I guess any way I would like some more information about this permit business and the measuring device because if it is our responsibility we should be better informed. I see by the document there was notice published in the Post Register in March I missed this or didn't understand - the point of misunderstanding could have originated with Mr. Peterson - He never really told us about any permits

The MD. must
be installed prior
to the date of
of U is due which
is 4/1/81

now has he contacted me concerning
a measuring device - any information
you could supply to enlighten me
on the matter would be greatly
appreciated. On rereading the material
I received - perhaps it is the
responsibility of Mountain View Development
to install measuring devices any way
if we need to keep a permit current
please send me any available information

The responsibility
for installation depends
on the agreement between
you and Mr Peterson on
taking over the system

Dear Mr. Peterson:

We have received your letter of September 7, 1976, requesting the removal of the measuring device requirements on the conditions of approval for the above referenced permits.

However, we cannot grant this request since the amount has not decreased from the permitted amount and is greater than the minimum amount for which a measuring device is required.

We acknowledge receipt of the affidavits submitted as proof of beneficial use for the above referenced permits. In reviewing the affidavits, however, since the measuring devices have not been installed, we cannot accept the affidavits. Therefore, we are returning the proof affidavits.

We are enclosing a list of the types of measuring devices approved by this office. If you have any questions, please feel free to contact us.

Sincerely,

Dear Sir:

In regards to the requiremnt of a metering devise on Permits: 25-7086 and 35-7576 I feel the the small amount of water that will be pumped for Domestic use only that a metering devise on these two wells is not justified.

Post Register
P.O. Box 1800
Idaho Falls, Idaho 83401

Gentlemen:

We are resubmitting a notice of an application for permit to be published on March 4 and March 11, 1976. This notice was originally published in your newspaper on February 12 and 19, 1976, but unfortunately it was advertised incorrectly. Since we did not receive a galley proof we had no way of checking the correctness of this application advertisement before it went to print.

In reviewing the affidavit of publication we find that errors were made in the points of diversion. We, therefore, request that this be advertised again at your expense. Please submit a galley proof before the first date of publication for our review.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the certified publication bill.

Very truly yours,

RONALD D. CARLSON

RECORDED

NOTICE OF CORRECTION

Notice is hereby given that Application No. 25-7086 in the name of Mountain View Development was advertised incorrectly on February 12 and 19, 1976. The points of diversion were advertised as being within the NE $\frac{1}{4}$, NW $\frac{1}{4}$, SE $\frac{1}{4}$, NW $\frac{1}{4}$,.

WHEREAS, the actual points of diversion are within the NE $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 11, T. 2N, R. 38E, B.M., Bonneville County.

Any protests against the granting of this permit as a result of this correction must be filed with the Idaho Department of Water Resources, 1515 Lincoln Road, Idaho Falls, Idaho, 83401, on or before March 22, 1976.

RE: Application for Permit No. 25-7086, 29-7303

Dear Mr. Carlson:

We have no comments regarding Permit No. 25-7086.

We have several comments regarding Permit No. 29-7303. We are concerned because 1) we feel there might not be an adequate amount of water for the proposed subdivision; and 2) the area is adjacent to a dirt road and the potential for dust contamination and other intrusions is rather great.

We are considering moving the location of the spring catch basin and are currently discussing this with the engineers and will contact you on this later.

Sincerely,

Honeybee Lane Well #2
c/o Naegle Realty

Idaho Falls, Idaho 83401

Dear Mr. Naegle:

We have received a well drillers report indicating that a well was drilled for you in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 11, T. 2N, R. 38E, B.M., Bonneville County.

A review of our records indicates that you have not filed an application for a permit to appropriate the public water of the State of Idaho. Since March 25, 1963, an application has been required prior to construction of a well and a valid permit must be obtained before ground water may be diverted. The only exception to this requirement is a well drilled for stock-watering or single family household use and water used for all other purposes, including irrigation of one-half acre of land in connection with the household use where the total use does not exceed 13,000 gallons of water per day.

If you have already filed an application, which we over-looked in the review of our records, please advise us of the number of the application or the name under which the application was filed. However, if you have not yet filed the required application, you should do so as soon as possible. You may obtain the forms upon request from this office.
