Dear Mr. Johnson:

We are in receipt of your letter of October 10, 1977, in which you request a change in priority for the above referenced permit.

However, the priority date is the date that you filed an application for permit on your well and not the date it was first put to beneficial use. The only time an earlier priority date can be claimed is if the well was being used prior to March 25, 1963. In order for this priority date to have been the winter of 1971, an application for permit should have been filed at that time.

Therefore, we must issue this license with the priority date of January 28, 1976. If we do not hear from you regarding this matter, a license will be issued as set forth in our letter of October 3, 1977.

Sincerely,

JAN GROVER

Gentlemen:

A representative of this Department made an examination of the works covered by your Permit No. 25-7081 on February 23, 1977, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 0.19 cfs Source: groundwater

The maximum quantity diverted shall not exceed 6.00 acre feet per
year.

Point of diversion: NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 22, Twp. 2N, Rge. 38E, B.M.

Beneficial use: Domestic use for five families within the E $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 22,
Twp. 2N, Rge. 38E, B.M.

Priority date established: January 28, 1976

If you do not concur with these findings please contact us within 10 days, otherwise a
water license will be issued as set forth above.

Sincerely,

BOBBY D. FLEENOR
Chief, Operations Bureau

Oct 10, 1977
Gentlemen: The above findings appear to be accurate except for the established priority date. A new well was drilled on or about January 28, 1976 to replace an older well drilled in early winter 1971 by the housing developer. This well was never satisfactory and this is the reason for the new well. We believe the priority date on the water license should reflect the earlier date.
*Respectfully,
Jack C. Johnson, 400 Amy Lane, Idaho Falls, ID 83401*

Gentlemen:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If you have any questions regarding the field examination, please contact our District Office in Idaho Falls.

Sincerely,

D. Darlene Reich

Dear Mr. Carlson:

Our main concern is that the developer provide a "safe and adequate" water supply. This information is really not available until after the wells have been drilled. Therefore, I have no comments at this time except that I am curious as to why he has a rather large number of wells in a small area, serving 3-6 houses per well.

Mr. Peterson should be aware that actual plans and specifications will have to be approved by this office or the District Health Department in Idaho Falls (depending on circumstances) prior to construction.

If you have any questions regarding this matter, please don't hesitate to contact this office (233-6170, Ext. 291).
