Mountain View Development

Dear Mr. Carlson:

Our main concern is that the developer provide a "safe and adequate" water supply. This information is really not available until after the wells have been drilled. Therefore, I have no comments at this time except that I am curious as to why he has a rather large number of wells in a small area, serving 3-6 houses per well.

Mr. Peterson should be aware that actual plans and specifications will have to be approved by this office or the District Health Department in Idaho Falls (depending on circumstances) prior to construction.

If you have any questions regarding this matter, please don't hesitate to contact this office (233-6170, Ext. 291).

Sincerely,

Monty G. Marchus

Gentlemen:

The information on the enclosed applications for permit indicates the location of wells that have been requested in conjunction with the proposed housing project.

Since we have no information on the present status of these projects, it may very well be that they have already been completed. You may need to check with the county if further information is required.

Very truly yours,
