SUBJECT Point of Diversion

I checked the location again with Mr. Arave this morning and from Mr. Arave checking the map made by Dave Benton, he came up with 1278' from the Section line on the Lewisville Road.

I drove out and checked with my pickup speedometer and came up with less than .25 miles in 2 checks (in and out).

Mr. Dale Arave
Rt. 1 Box 1

Dear Mr. Arave:

It is my understanding that you are currently pumping water from the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 29, T. 3N, R. 38E, B.M. It is also my understanding that this well is being used for domestic purposes for 20 families. Our records do not indicate that a permit to appropriate the water has been issued by this Department for this well. Since the well has apparently been drilled after the date when the legislature changed the law by requiring a permit to appropriate ground water, and is other than a single family domestic use, you probably have no water right on the well in question, even though you have used it for some time. Every day that you delay in filing for a permit causes you to lose valuable water right priority.

I am therefore, enclosing an application for permit form which you may choose to use to file for a water right on the well.

Very truly yours,

NORMAN C. YOUNG
