Gentlemen:

We acknowledge receipt of your affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

We note that in reviewing this proof affidavit you indicate that you have not installed a measuring device as required by the conditions of approval of your permit. This measuring device must be installed by the time our examiner makes the exam or your water rights cannot be confirmed by the issuance of a license. We are enclosing a list of the types of measuring devices approved by this office.

If you have any questions regarding the field exam, please contact our District Office in Idaho Falls.

Gentlemen:

One of the conditions of approval of your water Permit No. 25-7009 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before December 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Sirs:

Enclosed is a copy of your approved Application for Permit No. 25-7009. We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. We are enclosing a letter describing different types of measuring devices accepted by this office.

You should also be aware of the fact that a water permit is to be obtained before a well is drilled not after. The drilling of a well prior to obtaining a permit is against the law.

Dear Mr. Lloyd:

O Pursuant to your letter of November 18, 1970, we have reduced the rate of diversion from one cubic foot per second to 0.50 cubic feet per second. This is slightly a higher rate than the 200 gallon per minute capacity of your pumps. However, with a five year period for development, this rate may be of value to you.

P The application fee submitted with an application for permit is a non-refundable fee. We are not able to comply with your request for a refund.

The department is taking final action on the application and you should receive an approved permit shortly.

Dear Mr. McEldowney:

We are writing in reference to your letter of November 9th, and the previous letter from your office written by Dorian Clay on October 22, 1970.

Please be advised that we are revising our application from 1cfs downward to .50 cfs. This well will operate pretty steadily through the growing season to supply irrigation to the turf at the rodeo grounds and the inside of the oval race track. For the balance of the year it will be used only on special occasions such as cutter races, snow machine races, etc. The pump has a discharge capacity of 200 gallons per minute.

Please make the required revision on your copies of the application and refund the difference in filing fee to this office.

ATTENTION: Mr. Donald F. Lloyd

Dear Mr. Lloyd:

In the final evaluation of your application for permit, we find that we will need additional information as to the quantity of water that you are intending to appropriate for municipal use. This quantity seems to be somewhat excessive, as you have indicated in your Augst 6, 1970, letter that the well is completely independent from your main municipal system, and will not serve any areas outside the Sandy Downs Park. We are, therefore, requesting justification for this lcfs of water.

If we may be of any further assistance in this matter, please feel free to contact us.

Dear Mr. McEldowney:

Enclosed you will find a completed Application for Permit and Well Drillers Report for the Sandy Downs Well. The permit fee of \$20.00 was mailed to your office under separate cover August 5, 1970.

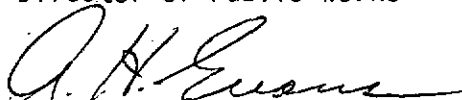

This well is located on City owned Sandy Downs Park about three miles outside of the city. The purpose of the well is to serve the rodeo and race track area. Some minor sprinkling may also be done in the immediate area.

As indicated in my letter to Mr. Keith Higginson on June 30, 1970, this project just sort of erupted when the L.D.S. Church and several service clubs in the area decided to hurry and complete the rodeo arena in time for the July 4th rodeo and celebration. Therefore, we were unable to apply for the permit in advance as should be done. The well is completely independent from our main municipal system and will not serve any area outside the Sandy Downs Park.

Thank you for your cooperation in this matter.

Dear Mr. Higginson:

The City of Idaho Falls is developing a new park complex about 5 miles southeast of the City and part of the development requires the installation of a well for culinary purposes.

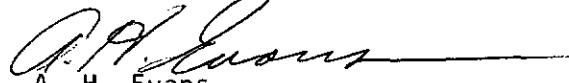

The L. D. S. Church and several of the service clubs in the area got together and decided to finish up the arrangements in a hurry in order to hold a rodeo by the 4th of July. They did just that. By soliciting voluntary labor and supplies throughout this area, they have nearly completed the improvements and will by July 4th.

Andrew Well Drilling Company was contacted to drill a well and he is starting on the drilling about today. He asked that we make contact with you to make the Application for Permit to use Subterranean waters. Please send us the proper number of copies of this form for our submission to your office.
