This claim is filed for the purpose of recording the claimant's right to water from Willow Creek for stockwatering purposes during the winter period. Such use of water is consistent with the Decree in the case of The Eagle Rock and Willow Creek Water Company, et. al., v. Henry W. Keifer, et. al., dated July 20, 1901, which states, ". . . they have used the same for beneficial purposes, to-wit: agricultural, domestic and stock raising purposes . . ."

While a specific quantity of water is given in paragraph 3, based upon an assumed rate of use per animal, this claim is for sufficient flow in the stream at all times during the winter period to provide water for the livestock.

The water is physically diverted from Willow Creek from the point where the stream enters the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec 11 to the point where the stream leaves the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec 14, both in T3N R39E.
