IN THE MATTER OF:)

Willow Creek Water)

AFFIDAVIT

Department of Water Resources

Ray S. Robinson

being first duly sworn,

deposes and says: The Abstract of Title of my property shows that

in 1916 my father, Lee S. Robinson, purchased the south half of the
and the south half of the NW¹₄
NE¹₄ of section 26 township 3 north of range 38 E.B.M. ; together with
200 inches of decreed water from Willow Creek from Robert Irwin.

Robert Irwin had obtained this property from his father James Irwin who
held the patent for the land issued in 1891 by the United States Government.

These early homesteaders located as near as possible to natural flow
streams in order to have water for their livestock and household use as
well as irrigation water. They filed claim on water for these purposes.
The channel of Willow Creek at that time and still does flow through
Section 26, and the decreed water from this creek has been available and
used on my farm for watering livestock both during the winter and summer
months ever since it was homesteaded.

I was secretary of the Willow Creek Water Co. for several years and
it was my understanding that Willow Creek water decreed to the land provided
for livestock water the year around. Headgates were constructed which
could disperse this water for livestock as needed as well as for irrigation.
