Re: Application for transfer,

Dear Sirs:-

I have a letter from Mr. Rasmus Hoff, from Long Beach, Calif., in which he is urging us to make haste in the matter of his application for transfer of water right. He states that he has notice from the general land office that his entry will be cancelled in 30 days unless he gives more evidence of water right.

Knowing that you are representing Mr. Hoff, I write this to inform you that an examination of the premises has been made in advance, and if no protest is offered there will be no objection to his transfer. But it has to be advertised and a hearing held, which only takes time.

I do not exactly like to have persons attempt to have us rush matters through this department, especially in cases where the public is likely to be affected or vitally concerned.

This case will go on as fast as the machinery of the law will permit.

Dear Mr. Wilkie:--

We have just received an application from Rasmus Hoff, of Idaho Falls, for transfer of water right from one tract of land to another. We wrote Mr. Hoff that it would be impossible to attend to this matter before Spring and received the enclosed letter in reply to ours. If you ^{can} make this examination on your way home, it would be well to do so and, if you find things satisfactory, the publication of the notice will be made afterward. If you decide to make the examination, you should write to Reuben Hoff, at Idaho Falls, R.F.D.#3, and arrange for him to meet you, as mentioned in the letter. The applicant suggests that Mr. Cotton be authorized in case we cannot attend to the matter but I much prefer that those examinations be made from this office. Please advise us as soon as possible as to whether it will be possible for you to attend to this and we will then further advise Mr. Hoff in the matter.

I would say, however, that it will be too late by the time the notice of transfer is published the required four weeks to make the examination required before issuing the certificate. It will be necessary to wait until spring to do this.

Very truly yours,

Gentlemen:

In reply to your letter of the 25th, in regard to certificate of transfer desired by Rasmus Hoff, I have to advise that advertisement would be necessary in this case.

As to publication of notice in connection with application for transfer, the section of the statutes bearing on this matter does not specifically state that publication shall be required but it does require that before certificate is issued the State Engineer shall satisfy himself that no other rights are injured by the transfer. Statutes also provided that the Board of Irrigation should make all necessary rules and regulations to cover the distribution of water of public streams and the 1915 amendment of the statute last mentioned transferred this duty to the State Engineer. The Board of Irrigation at a meeting held at Boise, March 7th, 1904, adopted rules providing for notice by publication of the intention to ask for transfer and provided also for a hearing on a certain day set. The Minutes of this meeting appear on page 9 of the Minute Book # 1 of the Board of Irrigation on file in this office.

As per your request we inclose a number of blank applications for transfer.

Very truly yours,

State Engineer.
