The current owner of these licenses filed his adjudication claims with me on the first. In the process I found that these two licenses have been numbered in the wrong basin. They should be renumbered to basin 25. The property lies on the south and east side of the Snake River which puts it in basin 25.

Please let me know when the new numbers are assigned so I can update the adjudication data base.

Dear Mr. Qualman:

We have the report made by our field engineer on the inspection of proof of completion of works and application of water to beneficial use under Permit No. G-25360, which shows that your works are capable of conveying 100 miner's inches (2.0 c.f.s.) for the irrigation of 100 acres of which the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 3, Township 4 North, Range 37 East, B.M. does not appear on the original permit. Therefore, we enclose an amendment which you are to complete with signature and return.

Upon receipt of the amendment above mentioned and the statutory fee of \$13.00 we will issue the Certificate of Completion of Works (\$5.00) and the License and Certificate of Water Right (\$8.00--based at the rate of \$2.00 for each 40-acre subdivision) which will confirm the right with a priority of January 15, 1955, to your use of 2.0 second feet of the water from a sump in a gravel pit with the point of diversion in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 34, Township 5 North, Range 37 East, B.M., for irrigation of 100 acres in the E $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 34 and the E $\frac{1}{2}$ NE $\frac{1}{4}$ of Section 3, Township 4 North, Range 37 East, B.M.

Dear Mr. Qualman:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in The Rigby Star, all submitted in proof of completion of works and beneficial use on Permit No. G-25360.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Re: Permit No. G-25360

Mr. Arnold J. Qualman
Central
Idaho

Dear Mr. Qualman:

We are returning, with this letter, your Proof of Application of Water to Beneficial Use, Deposition of Holder, in connection with Permit No. G-25360, for additional information.

In answering question 4 of the deposition; please state by legal subdivision the location of the point of diversion.

Under question 6; please state the number of acres irrigated under each 40-acre subdivision--relative to the number of acres irrigated.

In the spring or early summer our Field Engineer will pay you a visit to examine your lands and your pump, etc., at which time he will make the examination as to how many number of acres have been irrigated by the water filed on under this permit, allowing you 1 inch per acre for the acres irrigated, up to the amount of water filed on.

In the depositions of your two witnesses, both stated that you have irrigated approximately one hundred acres but did not designate the number of acres irrigated within each 40-acre subdivision. However, if you will designate the number of acres under each subdivision which has been irrigated, on your deposition, we can accept the depositions of the witnesses.

We request you to answer question 7, 8, 9, 10 and 11 of the deposition and where questions do not apply; please so state.

Please return this deposition to this department as soon

Dear Mr. Qualman:

In reply to your letter of December 8, 1954, we enclose a form of application for permit to appropriate subterranean water from a well together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application.

In order to complete your water right, proofs of Completion of Works and application of the water to Beneficial Use are required. The time required for making these proofs should be indicated under question 10.

Very truly yours,
