WATER LICENSE

Water License No. G-31587/25-2143 Priority November 22, 1963 Amount 17.1 c.f.s.THIS IS TO CERTIFY, that City of Idaho Falls

of Idaho Falls, Idaho, made application for a permit to appropriate the public waters of the State of Idaho, dated November 22, 1963; that Permit G-31587/25-2143 was issued pursuant to said application; that the proposed works were completed on or about September 3, 1968 with a storage/or carrying capacity of 17.1 c.f.s., said works consisting of 2 wells, pumps, and motors; and that on September 3, 1968

proof was made to the satisfaction of the State Reclamation Engineer, of the beneficial use of 20,200 when combined with Water Licenses 25-2095, 35-7001 & 25-2142 acre feet per season/with a maximum rate of diversion of 17.1 cubic feet per second of the waters of ground-water, tributary of _____,

for the purpose of Municipal from January 1 to December 31;

and for _____ from _____ to _____; and for _____ from _____ to _____; and that the use

of said waters has been made in accordance with the laws of Idaho, and is hereby confirmed by the State Reclamation Engineer and entered in the records of the Idaho Department of Reclamation: the points of diversion ~~are~~ **are located** within two points in the ~~SE 1/4 SW 1/4~~ **SE 1/4 SW 1/4**, Sec. 20, T. 2 N, R. 38 E, B.M., and other additional points _____, in the County of

Bonneville

and that the amount of water to which such right is entitled and which is hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes and shall not exceed 20,200 acre feet per year. when combined with Water Licenses 25-2095, 35-7001 & 25-2142

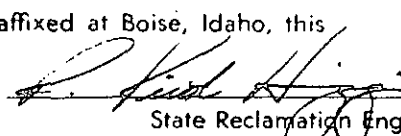

Description and location of place of use: City of Idaho Falls

APPLICATION FOR PERMIT 25-2143

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 39695
Permit No. G- 31587
District No.

1. Name of Applicant: City of Idaho Falls, Idaho
Postoffice address: Box 220 County: Bonneville State: Idaho
2. Quantity of water claimed: 17.82 cfs
 (a) Rate of withdrawal in cubic feet per second or Idaho
 Miners' inches or gallons per minute
 (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean
4. Location of ²/_s point of diversion or well ^s is in the SE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 20
 Twp. 2 N , Rge. 38 E , B.M., County of Bonneville
5. Water is to be used for: Municipal Domestic, Culinary, and Industrial
6. If for municipal, industrial or recreational purposes, give:
 City of Idaho Falls and Vicinity
 (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
 Rge. , B.M.
 (b) Waste water or sewage effluent is to be returned to Snake River
 at a point in the SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 35 , Twp. 2N , Rge. 37 E. , B.M.
7. Kind of works: Municipal Waterworks
8. Estimated cost of works: \$ 237,000.00
9. (a) Is reservoir to be used? Existing municipal system operates with
 (b) Capacity of reservoir: one 500,000 gallon elevated tank
10. The time required for the completion of such work and complete application of the water to the proposed use is 5 years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation: (Municipality)
 (b) Amount of capital stock: \$ (c) Amount paid in: \$
 (d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
 (b) Treasury stock: (c) Bonds to be issued:
 (d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: See Remarks
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

Existing permits and licenses:
License #16689 .2 cfs
Permit #31141 51. cfs
License #3304

12/29/05 (Snake River-Power)
4/20/1900 (Snake River-Power)
10/22/1904 (Snake River-Power)

Remarks: Note: This application actually covers 2 wells designated as Wells No. 9 & 10. They are at the same locati and can be operated one at a time or both together through the same detention tank and piping system, so, for all practical purposes, act as one well. The two wells produce a total of 17.62 cfs. Filing Fee \$9.25
BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

City of Idaho Falls, Idaho Applicant.

By s/ W. J. O'Bryant Agent.
Mayor

Date of first receipt at Department of Reclamation: 9:00 A.M. 11/22/63

Returned to applicant for correction:

Corrected application received:

Approval of State Reclamation Engineer

The number of this permit is G— 31587

Recorded in Book 110 Page 31587 Approved December 13, 1963

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ to be filed on or before

Work to begin on or before and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which the permit holder has no control.

One-fifth of the work above specified to be completed on or before June 13, 1966

The whole of said work to be completed and beneficial use of water appropriated in accordance herewith, to be made and proofs offered on or before December 13, 1968

Witness my hand this 13 day of December, 1963 s/ CARL E. TAPPAN
STATE RECLAMATION ENGINEER.

IN TESTIMONY WHEREOF, We, ROBERT E. SMYLLIE, Governor of the State of Idaho, and ARNOLD WILLIAMS, Secretary of State of the State of Idaho, have caused this instrument to be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 13 day of December, 1963.

Re: Permit Nos. 25-2142/G-31141
25-2143/G-31587
License Nos. 25-2095/16689
35-7001

Dear Don:

Regarding the above-referenced permits and licenses, I have reviewed our files and the data transmitted by Mr. Evans' letter of May 8, 1970, and Water System Plan, Idaho Falls, Idaho, prepared by Cornell, Howland, Hayes and Merryfield (CH₂M). We now have in our files three letters stating the amount of water pumped by the City in 1968; however, each letter lists a different amount, each of which is different from the quantity indicated in the CH₂M report. For the purposes of licensing, I am assuming that the figure in Mr. Evans' May 8 letter to be correct.

The CH₂M report indicates the city system is essentially at capacity during peak periods and will require additional capacity to meet future demand. Considering this and the possibility of obtaining a higher use by encouraging off peak use by large users, I have determined that the following quantity can be licensed under the referenced permits:

Water pumped 1969	6,380,000,000 gallons	19,600 acre feet
Addition system capacity	192,000,000 gallons	600 acre feet
Total License	6,572,000,000 gallons	20,200 acre feet

The Department is ready to license Permit No. 25-2142 for 50.2 c.f.s. and Permit No. 25-2143 for 17.1 c.f.s., subject to a total annual volume withdrawal of 20,200 acre feet under these two permits and license numbers 25-2095 and 35-7001.

25-2143
25-2142
25-2095
35-7001
See File

Mr. Donald P. Lloyd, P. E.

Page 2

May 13, 1970

The licensing fees are \$17.00 for Permit No. 25-2142 and \$7.20 for Permit No. 25-2143. These fees must be received within 30 days from the date of this letter for the Department to issue a license on the permits.

Sincerely,

A. KENNETH DUNN, Assistant
State Reclamation Engineer

Re: Permit Nos. 25-2142/G-31141
25-2143/G-31141 31587
License Nos. 25-2095/16689
35-7001

Dear Mr. Lloyd:

Mr. Evans' letters of February 11 and March 6, 1970 questioned the volume of water to be licensed under the above permits, and fees required.

The flow values are actual quantities as shown on our Examiner's Report of October 9, 1969, which was made in the company of Mr. Leroy Weston, representing the City and from licensed values for 25-2095 and 35-7001. They are as follows:

Permit No. 25-2142	50.2 c.f.s.
Permit No. 25-2143	17.1 c.f.s.
License No. 25-2095	5.2 c.f.s.
License No. 35-7001	8.9 c.f.s.
TOTAL	81.4 c.f.s.

Because the City of Idaho Falls relies upon the groundwater basin as a partial source of storage, the peak hour demand pumping rate is high. Considering this, the following values have been used to obtain a coefficient for volume determination.

Peak hour demand = discharge capacity of pumps
Peak hour demand = 1.75 times peak day rate
Peak day demand = 2.3 times average annual daily demand

therefore,

Discharge capacity of pumps = 4.0 times average annual daily demand

31587
25-2143

Mr. Donald F. Lloyd, P. E.

Page 2

April 24, 1970

$$\text{Total annual volume} = \frac{81.4 \text{ c.f.s.}}{4} \times \frac{1.98 \text{ a.f.}}{\text{c.f.s.-day}} \times \frac{365 \text{ day}}{\text{year}} = 14,710 \text{ a.f.}$$

The department is ready to license Permit No. 25-2142 for 50.2 c.f.s. and Permit No. 25-2143 for 17.1 c.f.s., subject to a total volume withdrawal of 14,710 a.f. under these two permits and license numbers 25-2095 and 35-7001.

The fees as shown in our January 27, 1970 letter of \$17.00 for Permit No. 25-2142 and \$7.20 for Permit No. 25-2143 are based on the fee as defined in the code at the time of filing your applications and they are correct. We have omitted an additional fee required because we combined two inspections into one. These fees must be received within 30 days from the date of this letter, in order that we can issue you a water license on the above two permits.

Sincerely,

A. KENNETH DUNN, Assistant
State Reclamation Engineer

Dear Mr. Clay:

Re: Permit # G-31587/25-2142 and 25-2143 (G-31141)

We have received your form letters of January 27, 1970 indicating that the examination of our permits #25-2142 and 25-2143 have been completed and you have requested a fee of \$17 and \$7.20. Please advise if this is an additional fee to be paid now for the water license. On April 8, 1963 we paid a filing fee of \$17.50 on the 25-2142 and on November 22, 1963 we paid \$9.25 on the 25-2143 permit. If your request is an additional fee please verify and explain how you arrived at the figure. We cannot seem to make it correspond to the latest schedule of fees we received from your office.

Very truly yours,

CITY OF IDAHO FALLS

Department of Reclamation

Dear Sir:

Re: Permit No. G-31141/25-2142
G-31587/25-2143

Please refer to my letter of February 11, 1970 and to your form letters dated January 27, 1970 covering the above captioned permits.

We are somewhat concerned about two factors. On your form letter you require the submission of the fee within 30 days from the date of the letter. As this date is now past and we have not had an answer to our inquiry regarding the fees, we wouldn't want anything to happen to the due process of the permit.

In re-checking this form, we have also become aware of the limitation of the maximum quantity diverted of 4,781.7 acre feet per year in one case and 8,615 acre feet on the other permit. How do you arrive at these figures? We are concerned about this limitation, in fact, did not know that there was any limitation other than the cfs rate of flow. It is obvious that if the 17.1 cfs rate of flow was maintained on a 24 hour basis throughout the year, which is not at all inconceivable, the quantity limitation of 4,781.7 acre feet would be entirely too stringent. As a matter of record during 1968 we pumped 3,116,000,000 gallons which would be over 9,560 acre feet. It also appears that the other permit for 49.7 cfs is even farther out of proportion with the capabilities of the various pumps involved.

Please advise if the above information is correct or if we might be haywire in our mental processes.

Very truly yours,

DONALD F. LLOYD, P.E.

City of Idaho Falls
P.O. Box 220
Idaho Falls, Idaho 83401

Dear Sirs:

A representative of this department has made an examination of the works covered by your Permit 25-2143 and has found the following:

Quantity of water diverted: 17.1 c.f.s.

Amount of water that can be recognized as beneficially used under Idaho law: 17.1 c.f.s.

The maximum quantity diverted shall not exceed 4781.7 acre feet per season., or a total of 1,558,000,000 gallons per year.

Beneficial Use: Municipal use for the City of Idaho Falls, Idaho

The priority date established is: November 22, 1963

A fee totaling \$ 7.20 must be received within 30 days from the date of this letter in order that we can issue you the Water License as described above.

Very truly yours,

Dorian Clay
Field Examiner

Re: Permit No. 25-2142/G-31141
25-2143/G-31141 31587
License No. 25-2095/16689
35-7001

Dear Mr. Dunn:

Reference is made to your letter of April 24, 1970 and our subsequent telephone conversation of May 8, 1970 regarding the above captioned Permits and Licenses.

As we indicated to you on the phone, the 14,710 acre feet that you proposed to license as the water right of the City of Idaho Falls is inadequate in light of our experience with reference to total gallonage that we have pumped in past years. We are submitting a few random samples of the monthly reports which we maintain showing the total gallons pumped by each of the wells. These reports are summarized each year indicating that the following total gallons were pumped for the past 5 years:

1965	4,687,000,000 gallons
1966	5,507,000,000 gallons
1967	6,071,000,000 gallons
1968	6,215,000,000 gallons
1969	6,380,000,000 gallons

The 14,710 acre feet equals 4,792,944,590 gallons, and it is obvious that we have been pumping more than that for many years.

You have probably received a copy of the report from CH₂M by this time which should give you some better idea of the capabilities and demands of our system.

Please review your findings on these permits and advise us if you need any further information.

Very truly yours,

Donald F. Lloyd, P. E.

Re: Permit Nos. 25-2142/G-31141
25-2143/G-31587
License Nos. 25-2095/16689
35-7001

Dear Don:

Regarding the above-referenced permits and licenses, I have reviewed our files and the data transmitted by Mr. Evans' letter of May 8, 1970, and Water System Plan, Idaho Falls, Idaho, prepared by Cornell, Howland, Hayes and Merryfield (CH₂M). We now have in our files three letters stating the amount of water pumped by the City in 1968; however, each letter lists a different amount, each of which is different from the quantity indicated in the CH₂M report. For the purposes of licensing, I am assuming that the figure in Mr. Evans' May 8 letter to be correct.

The CH₂M report indicates the city system is essentially at capacity during peak periods and will require additional capacity to meet future demand. Considering this and the possibility of obtaining a higher use by encouraging off peak use by large users, I have determined that the following quantity can be licensed under the referenced permits:

Water pumped 1969	6,380,000,000 gallons	19,600 acre feet
Addition system capacity	192,000,000 gallons	600 acre feet
Total License	6,572,000,000 gallons	20,200 acre feet

The Department is ready to license Permit No. 25-2142 for 50.2 c.f.s. and Permit No. 25-2143 for 17.1 c.f.s., subject to a total annual volume withdrawal of 20,200 acre feet under these two permits and license numbers 25-2095 and 35-7001.

25-2143
31587

Mr. Donald F. Lloyd, P. E.
Page 2
May 13, 1970

The licensing fees are \$17.00 for Permit No. 25-2142 and \$7.20 for Permit No. 25-2143. These fees must be received within 30 days from the date of this letter for the Department to issue a license on the permits.

Sincerely,

A. KENNETH DUNN, Assistant
State Reclamation Engineer

Re: Permit No. G-31587

City of Idaho Falls,
Box 221
Idaho Falls, Idaho 83401

Gentlemen:

We acknowledge receipt of the depositions and affidavit of publication in the Post-Register, Idaho Falls, Idaho, submitted as proof of completion of works and beneficial use on Permit G-31587.

Before a water license can be issued, a field examination must be made by a representative of this department. We cannot tell just when this examination ~~will~~ be made, but our field examiner will try to contact you at the time he makes the examination so that you may show him the system.

Very truly yours,

C. Stephen Allred
Assistant State Reclamation
Engineer

CSA:tg

Re: Permit No. G-31587
City of Idaho Falls

A. H. Evans, Adm. Assistant
City of Idaho Falls
P. O. Box 220
Idaho Falls, Idaho 83401

Dear Mr. Evans:

We have received the depositions and affidavit of publication submitted in connection with proof under the above referenced permit; however, before they are acceptable, the affidavit of publication must have a notary seal affixed to it.

We are returning the affidavit and hope it will be returned promptly so that the Department can proceed with the licensing of the permit.

Very truly yours,

Donald W. McElDowney
Appropriation Examiner

DEPOSITION OF HOLDER

Ques. 1. State your name, residence occupation and postoffice address: _____

City of Idaho Falls, P. O. Box 220, Idaho Falls, Idaho 83401

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf:

City of Idaho Falls, P. O. Box 220, Idaho Falls, Idaho 83401

Ques. 3. State number, approval date of permit, and date of priority: _____

G-31587 Approved: Dec. 13, 1963 Nov. 22, 1963

Ques. 4. State source of water supply: Subterranean waters

Give location of point of diversion, showing subdivision, section, township and range

Wells No. 9 & 10 in SE ^{SW 1/4} Sec. 20, Twp. 2N, Rge. 38, E.B.M.

Ques. 5. Describe your works of diversion: Municipal Waterworks -- Deep wells and

cast iron water mains; state amount of water they are capable of con-

veying from point of diversion to place of use: 17.82 cfs; Give name of canal or ditch

or other works by which water is conducted to such place of use: See Fig. 7, attached

_____; if a well, state depth of well See attached log; depth and size of

casing _____; depth to water _____; if pump is used,

state discharge of pump: _____; tell how it was measured or determined _____

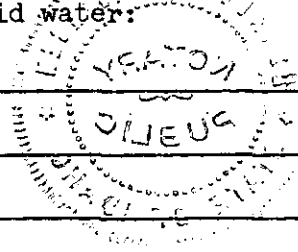

_____; if sprinkler irrigation, give number and size

of nozzles and operating pressure: _____

Ques. 6. State for what purpose water is used: Municipal domestic, culinary and industrial.

(If for irrigation, name each subdivision in which used and number of acres in each subdivision that have actually been irrigated with said water:

Not applicable

21587

State nature of all improvements which have been made as a direct result of said use:

Expansion of City Water System

Ques. 6-a: If this is a ground water permit, give name and address of person that drilled the well: Cope Drilling Co., Idaho Falls, Idaho

Ques. 7. If for other than irrigation purposes, show full legal description of place of use and state purpose for which water is used:

Municipal waterworks within the City of Idaho Falls

Ques. 8: If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder:

Not applicable

Quest. 9: State when and in what amount the water diverted under above mentioned permit has been first used: _____ - Time used since first use:

Water has been used continuously since this time.

Ques. 10. Describe all other water rights appurtenant to same place of use: _____

DEPOSITION OF WITNESS

The deposition of two witnesses on this form, taken separately, required in each case.

Ques. 1 State your name, age, residence, occupation and postoffice address:

Donald M. Ellsworth, age 38, 984 Syringa Drive, Idaho Falls, Idaho 83401

Civil Engineer, Private engineering consulting service.

Ques. 2 Are you acquainted with The City of Idaho Falls, the holder of Permit No. G-31587? How long have you known him and where does he reside?

Yes City of Idaho Falls, Idaho

Ques. 3. Have you read or heard said Permit No. G--31587 read, and are you familiar with its provisions and conditions: Yes xx No.

Ques. 4. State source of water supply: Subterranean Waters

Give location of place of diversion, showing subdivision, section, township and range

Wells No. 9 & 10 in SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 20, Twp. 2N, Rge. 38 E.B.M. (All within the City of Idaho Falls).

Describe works for conveying water to place of use: Municipal Waterworks -- Deep wells and cast iron water mains.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use: 17.82 cfs How much water have you seen being so conveyed? 17.82 cfs

Ques. 6 If for irrigation, show number of acres irrigated in each subdivision, giving full legal description:

Not applicable

31587

Ques. 7. If for other than irrigation purposes, show full legal description of place of use, and state purpose for which water is used.

Municipal waterworks within the City of Idaho Falls, Idaho

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Not applicable

Ques. 9. Have you any ownership interest in the works, water or lands above mentioned? If so, in what way and to what extent? No.

Ques. 10. When did you first see this water used? February, 1964

Other times you have seen such use: Continuous

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that on September 3, 1968, at Idaho Falls, County of Bonneville, State of Idaho, before notary public (name and address) Donald C. Jorgensen, Box 220, Idaho Falls, Idaho, proof will be submitted of the completion of works for the diversion of 17.82 c.f.s. of the waters of a subterranean source and the application to beneficial use of said water. In accordance with the terms and conditions of permit G-31587 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and address of permit holder is City of Idaho Falls, Idaho Falls, Idaho.

2. Said works of diversion will be fully completed on the date for such completion, and the amount of water which said works are capable of conveying to the place of use is 17.82 cubic feet per second.

3. The use to which said water has been applied is municipal domestic culinary and industrial purposes, and the amount applied to beneficial use is 17.82 c.f.s.

4. The point of diversion of said water is 2 points in SE 1/4 SW 1/4 Sec. 20, T. 2 N. R. 38 E. B.M. County of Bonneville.

5. The place where said water is used is City of Idaho Falls and vicinity.

6. The date of priority which said user is prepared to establish is November 22, 1963.

R. KEITH HIGGINSON

State Reclamation Engineer

Protests of the above proof may also be submitted to the Department of Reclamation, Statehouse Annex 2, Boise, Idaho 83701.

Re: Permit No. G-31587
City Of Idaho Falls

July 29, 1968

The Honorable S. Eddie Pedersen
Mayor of Idaho Falls
Idaho

Sir:

This acknowledges receipt of the notice of intent to make proof of completion of works and application of water to beneficial use for permit No. G-31587.

We have mailed the notice to the Post Register to be published once a week for four consecutive weeks prior to September 3, 1968, **** which is the hearing date when the permit holder City of Idaho Falls and two disinterested witnesses must appear before Derald C. Jorgensen, notary public, to complete the enclosed depositions. The witnesses must be familiar with the works and permit.

After the hearing, the depositions and an affidavit of publication must be submitted to this office. The affidavit may be obtained from the newspaper when the advertising bill is paid by S. Eddie Pedersen, Mayor. Be sure all the forms have the notary's seal and are signed. Please feel free to contact us if we may be of any assistance.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Notice is hereby given that on ~~XXXXXX~~ 1968, at ~~XXXXXXXXXX~~

County of Bonneville, State of Idaho, before notary public (name & address)

Derald C. Jorgensen, ~~XXXXXX~~ Box 220, Idaho Falls, Idaho proof will be

submitted of the completion of works for the diversion of 17.82 c.f.s. of the waters

of a subterranean source, and the application to beneficial use of said water,

in accordance with the terms and conditions of permit G-31587, heretofore issued by

the Department of Reclamation of the State of Idaho.

1. The name and address of permit holder is City of Idaho Falls, Idaho Falls,
Idaho

2. Said works of diversion will be fully completed on the date for such completion,
and the amount of water which said works are capable of conveying to the place of use is
17.82 cubic feet per second.

3. The use to which said water has been applied is municipal domestic, culinary,
and industrial purposes, and the amount applied to beneficial
use is 17.82 c.f.s.

4. The point of diversion of said water is 2 points in
SE 1/4 SW 1/4, Sec. 20, T. 2 N, R. 38 E,
B.M., County of Bonneville.

5. The place where said water is used is City of Idaho Falls and Vicinity.

6. The date of priority which said user is prepared to establish is

November 22, 1963

R. KEITH HIGGINSON

State Reclamation Engineer

Protests of the above proof may also be submitted to the Department of
Reclamation, Statehouse Annex 2, Boise, Idaho 83701.

Dear Mr. McEldowney:

Your letter of July 22, 1968 regarding Mr. Jorgensen's address was referred to this office for answer.

Although Mr. Jorgensen lives in Ucon his place of business is in Idaho Falls and the depositions will be taken at Idaho Falls. His address is P. O. Box 220 - Idaho Falls, Idaho 83401.

He may also be reached by telephone No. 522-3191 extension 251.

Very truly yours,

A. H. Evans

Re: Permit No. G-31587
City of Idaho Falls

O
The Honorable S. Eddie Pedersen
Mayor of Idaho Falls
Idaho

Sir:

P
We have received the notice of proof of completion of works and application of water to beneficial use for the above referenced permit.

It is noted that you have completed the notice to state that the depositions will be taken before Mr. Jorgensen at Idaho Falls but that his office is in Ucon, Idaho. Before we can advertise this notice, we will need an address in Idaho Falls where Mr. Jorgensen may be reached by mail and in person.

Y
If the depositions are to be taken in Ucon at his office, we would appreciate your informing us of the fact and we will change the notice to read "Ucon" instead of "Idaho Falls."

Please let us know about this as soon as possible so that the date of hearing will not need to be changed.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Re: Permit No. G-31587

June 19, 1968

City of Idaho Falls
Idaho Falls, Idaho 83401

Gentlemen:

Proof of completion of works and application of water to beneficial use for the above referenced permit is due not later than December 13, 1968.

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces on both forms, sign the form authorizing us to publish the notice at your expense, and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

State Reclamation Engineer

CONDITIONS OF PURCHASE UNLESS OTHERWISE SPECIFIED

Goods subject to our inspection and approval on arrival, notwithstanding prior payment to obtain cash discount.

Goods rejected on account of inferior quality or workmanship will be returned to you with charge for transportation both ways, plus labor reloading, trucking, etc., and may not be replaced except upon receipt of written instructions from us.

Seller guarantees and agrees that the goods, wares, and merchandise to be furnished hereunder, will not infringe any patents or trade-marks, and that Seller will at Seller's own expense, defend any and all actions or suits alleging such infringement and will save us, our associates and affiliates, and those for whom we may act as agents in the purchase of said goods, wares and merchandise, harmless in cases of such infringement.

Your acceptance of this order constitutes an agreement on your part, guaranteeing that all materials furnished pursuant to this order will strictly comply in every respect with all Federal laws and all State laws and regulations of all Cities and Counties and that you will defend this City against all actions and proceedings and will indemnify it against all costs, fines, judgments, damages, and legal expenses incurred by reason of the violation of such laws and ordinances or against any action brought by any person for injury, illness or death, caused by or resulting from the equipment or materials being defective in any respect.

All specifications, drawings, technical information or data furnished by the Buyer to the Seller hereunder shall be used only in the manufacture of material furnished to the Buyer.

It is mutually agreed that time shall be of the essence of this order.

The Buyer shall not be bound by any provisions at variance with this Purchase Order inserted by the Seller on the attached Acknowledgment Copy or appearing on any other acknowledgment form, unless agreed to in writing by the Buyer.

Prices for the items hereunder shall include State, Local Sales and Use Taxes, where applicable.

By accepting this order the Seller warrants that the material to be furnished hereunder will be in full conformity with the specifications, drawings or samples, and agrees that this warranty shall survive acceptance of and payment for the material. The Buyer in addition to other rights may accept a part of any shipment which fulfills the specifications and reject the balance. Rejected material shall be returnable to the Seller for full credit at the price charged, plus transportation charges. The Buyer may have rejected material replaced by the Seller or not at the Buyer's option and at the purchase price stipulated in the order. If this order covers materials that are required by law to be packaged, labeled or registered in a prescribed manner (e.g., foods, combustibles, drugs, fabrics and others), the Seller hereby warrants that shipments to the Buyer will be in compliance with the Federal law irrespective of whether the Seller's shipment to the Buyer is interstate or intrastate and the applicable state law.

The Seller shall not without the Buyer's consent assign this order in whole or in part with respect to work to be done. No assignment of accounts receivable under this order shall preclude the Seller from negotiating directly with the Buyer amendments to or settlements of this order or impose on the Buyer any obligation toward the assignee other than for the payment of money due.

The Buyer may terminate work under this order in whole or in part at any time by written or telegraphic notice and thereupon the Seller shall as and to the extent directed by the Buyer stop work under this order. As compensation to the Seller for such termination, the Buyer shall pay to the Seller the contract price for all articles or services completed in accordance with this order plus (1) the actual costs incurred by the Seller and properly allocable to the terminated portion of this order less the disposal value of work in process and unused materials, if any, included in such costs, and (2) a percentage of such costs (before crediting said disposal value), such percentage to be equal to the profit factor (percentage) included in the contract price.

Seller certifies and warrants that the product furnished under this purchase order contains no food additive, as defined by the food additive amendment to the Federal Food Drug and Cosmetic Act or, if it contains such food additive, that such additive has been approved by the F.D.A. for use in foods. The date of such F.D.A. approval was _____

RE: Application for Permit
City of Idaho Falls

A. H. Evans, Office Manager
City of Idaho Falls
Box 220
Idaho Falls, Idaho

Dear Mr. Evans:

Returned herewith are two copies of the application and two copies of purchase order No. 15358.

The filing fee shown on the purchase order, \$9.25, is correct for the amount of water claimed.

The answer under 4 has been changed to 2 points of diversion as there are two wells.

The answer to No. 13, under Remarks, is partially in error. The Rexburg Decree decreed to City of Idaho Falls 7000" or 140 c.f.s., priority April 20, 1900 and 2400" or 48 c.f.s., priority October 22, 1904 for power and municipal uses. No. 31141 is a permit. No. 3940 is water from Brown Creek in Owyhee County.

Kindly return one (1) copy of application with the filing fee.

Very truly yours,

RALPH W. THOMAS
Deputy State Reclamation Engineer
